

## 2011 Cohort Graduation and Dropout Rate Report

### Contents

- Background and Highlights From the 2011 Cohort
- State Cohort Graduation and Dropout Rates
- Graduation, Other Completer, Continuing Students and Dropouts by LEA and High School

### Background

To align with new federal NCLB regulations for graduation rate calculations, the USOE is reporting a new graduation rate beginning with the 2011 graduating class (also known as the 2011 cohort). The four-year cohort rate (includes all students who started 9<sup>th</sup> grade in 2007-2008 plus transfers) enables a comparison among all 50 states, while the three-year cohort rate (includes all students who started 10<sup>th</sup> grade in 2008-2009 plus transfers) enables a comparison among all Utah Local Education Agencies (LEAs), since Utah has many 10-12<sup>th</sup> grade high schools. The new four-year cohort rate will be reported on the 2011-12 State Report Card and the 2011-12 AYP Report Cards; the state-, LEA-, and four year school-level rates will be published in this report (2011 Cohort Graduation and Dropout Rate Report). The new three-year cohort rate will be reported at the school and LEA level in this report. The 2011 cohort report publishes the following categories for the state, all LEAs, and all high schools:

- a. Percentage of graduates
- b. Percentage of other completers
- c. Percentage of continuing students
- d. Percentage of dropouts

The “graduate” category only includes students who have earned a basic high school diploma or an adult education secondary diploma (Carnegie Units) achieved by September 30, 2011.

Students considered “other completers” include those students who participate in the General Education Development test (GED) or a Certificate of Completion, and students with disabilities who participated in the Utah Alternate Assessment (UAA). Students considered to be “continuing students” are students with disabilities (continued enrollment allowed until age 22), or those who transfer to higher education or the Utah College of Applied Technology (UCAT) without receiving a high school diploma.

The “dropout” category includes students such as those who have withdrawn, dropped out, or been expelled.

In previous years, graduates included students with a regular high school diploma, students who participated in the Utah Alternate Assessment (UAA), students with a GED, Adult Education students who completed a Carnegie Units diploma, or students with disabilities who graduated in more than four years. Due to the new NCLB changes, graduation rates from previous years’ reports should not be compared to 2011. For comparison purposes, 2008–2010 graduation rates were recalculated using the new rules.

Dropouts		29%	23%	43%	42%	19%	45%	31%	83%	43%	38%

## Longitudinal Comparisons

Utah's graduation rate has increased by 7 percentage points over the last four years.

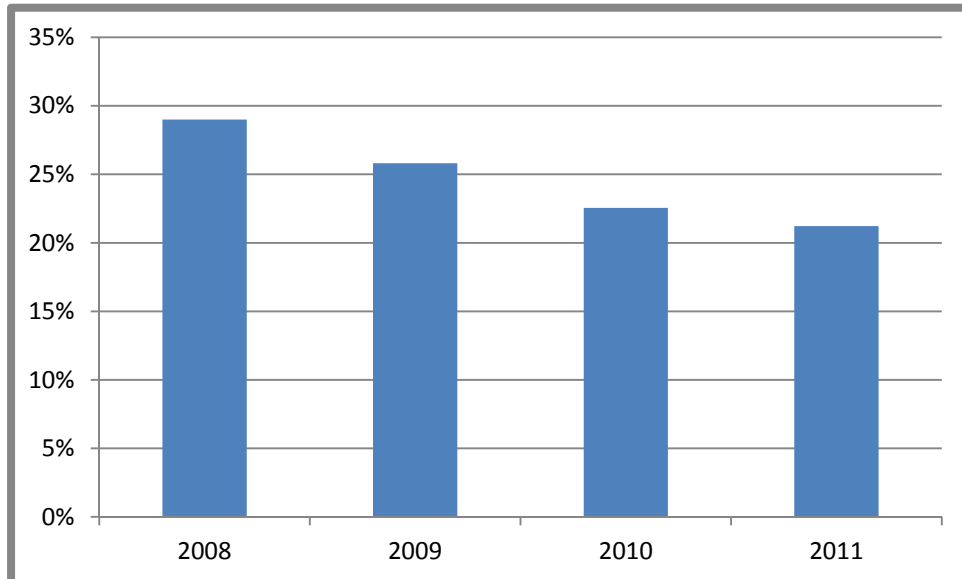

**Graduation Rate From 2008 -2011**

Previous cohort graduation rates and dropout rates always totaled 100%. For example, if the graduation rate was 88%, the dropout rate was 12%. Now graduates + other completers + continuing students + dropouts total 100%. Therefore, the dropout rate can no longer be directly calculated from the graduation rate. The dropout rate has declined 8% since 2008.

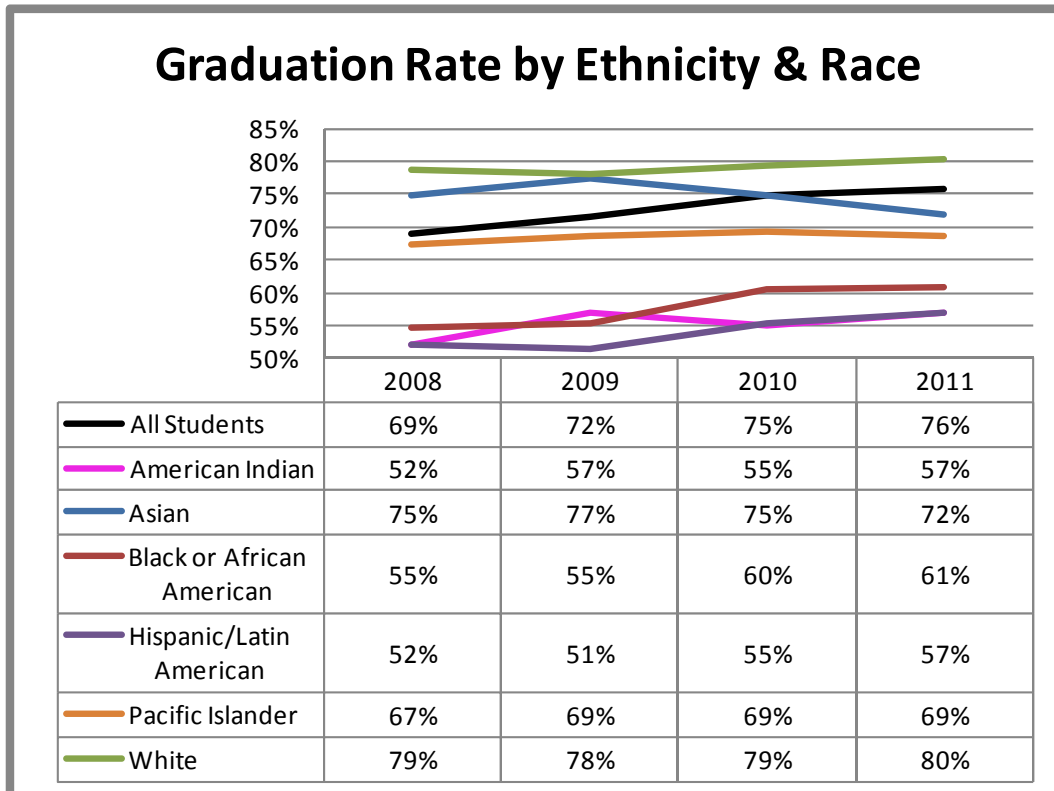

## Dropout Rates From 2008 -2011

Continuing students and other completers have remained constant from 2008 – 2011 and have contained about 2-3% of the cohort.

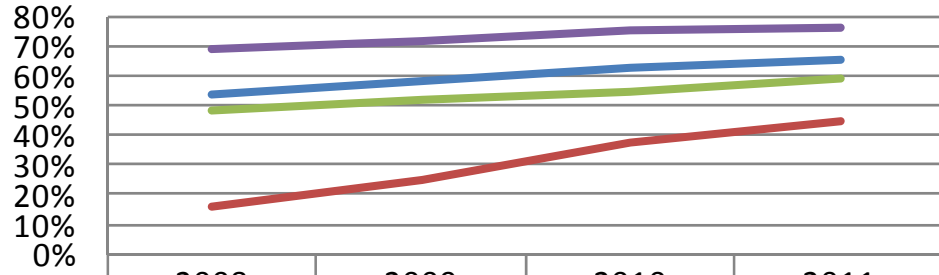

## State Cohort Graduation Rates by Subgroup

Utah's average graduation rate has increased by 7%. Almost all races and ethnicities have made gains during the past four years.

## Graduation Rate by Subgroup

Economically disadvantaged, English language learners, and students with disabilities all made gains in their graduation rates.

### Federal Three Year Graduation, Other Completer, Continuing Students and Dropouts by LEA and High School

Note: The Federal three and four year rates for subgroups by high schools and LEAs can be found at the USOE's Gateway: <http://schools.utah.gov/main/>.
