Notes:

In FY 2016, the Maryland Community College Research Group adopted a standard reporting method for all institutions.

Data since FY 2016 are based on dividing what a full-time student taking 30 credits in an academic year would pay on a "per credit" basis.

Tuition and fee charges at some institutions may vary based upon a student's enrollment, so the actual "per-credit" tuition and fees for an individual student may vary slightly from these institutional data.

Prior to FY 2016, institutions utilized different methods of incorporating fees into reporting of their tuition and fee data.
