FISCAL YEAR 2009 SPRING ENROLLMENT REPORT

Community colleges report opening Spring term opening enrollment figures to the Illinois Community College Board using a brief web based survey. These figures reflect only those students enrolled in credit courses that were operational on the census date which is the last day of course registration for regular classes. Enrollment for classes beginning after the census date will be captured in the annual enrollment counts. The following report summarizes the survey results.

This report contains information on student enrollments as of the end of registration – usually the 10th day of the term – for the Spring 2009 semester. Overall, statewide results of the fiscal year 2009 Spring enrollment survey show both short term and longer term increases. Statewide Spring 2009 **headcount enrollments increased** and full-time equivalent (**FTE enrollments increased**) compared to the same term one year ago. The Spring 2009 semester headcount was 362,537 compared to 351,777 last year (a headcount increase of 10,760 or 3.1 percent). The latest FTE count was 202,804 compared with 194,594 a year ago (an FTE increase of 8,210 or 4.2 percent). **Therefore, compared to last spring there are more individuals enrolling at community colleges across the state and overall those students are taking heavier class loads.**

Table 1 contains comparative statewide Spring 2009 tenth-day enrollments for the last five years. Current systemwide headcount enrollments are well above the average of the last four years. Current systemwide FTE enrollments are also well above the average of the last four years. Figure 1 on the next page illustrates a comparison of headcount and FTE trends from 2005 - 2009.

Looking back further, Spring 2009 headcount is at its second highest level in recent memory (362,537) just below the level achieved in Spring 2004 (367,547). **Remarkably, FTE in Spring 2009 is at the highest level in the thirty-five years that a separate Spring opening enrollment survey has been collected.**

Table 2 provides a comparison of fiscal year 2005 through fiscal year 2009 Spring headcount enrollments for each community college. Among the 48 community colleges, since last year **headcount increases were reported at 29 colleges (1.0 percent or higher)** including seven institutions with **double digit** headcount increases. Sixteen colleges saw decreases (1.0 percent or more) compared to last year. Three colleges reported little or no change (less than 1.0 percent) versus last year.

Table 3 contains a comparison of full-time equivalent (FTE) enrollments for the same five-year period. **Compared to last year, colleges with Spring 2009 FTE advances led those reporting declines 3.5 to 1.** For Spring 2009 FTE increases were reported by 35 colleges, decreases by 10, and 3 colleges indicated little or no change. These figures include five colleges that reported **double digit** FTE increases.

Table 4 provides fiscal year 2008 and fiscal year 2009 Spring opening enrollments in internet based courses at each community college. At the beginning of the Spring 2009 semester, there were 76,220 students (duplicated) enrolled in internet courses.
