

Illinois Community College Board

**FISCAL YEAR 2015 SPRING ENROLLMENT REPORT
Headcount and Full-time Equivalent (FTE) Both Down from Last Year.**

Community colleges report opening Spring term enrollment figures to the Illinois Community College Board using a brief web based survey. These figures reflect student enrollments as of the end of registration for the Spring 2015 semester – usually the 10th day of the term.

Overall, compared to the same term one year ago, statewide Spring 2015 headcount enrollments and full-time equivalent (FTE) enrollments both decreased. The Spring 2015 semester headcount was 330,223 compared to 341,933 last year (a headcount decrease of 11,710 or -3.4 percent). The latest FTE count was 184,235 compared with 192,383 a year ago (an FTE decrease of 8,148 or -4.2 percent). FTE figures reflect the total number of credit hours being taken by students divided by 15 – the number of semester hours traditionally considered a full-time class load.

During the Great Recession the Illinois Community College System experienced record-level Spring term enrollments with peak headcount enrollment in Spring 2010. With enrollments returning to pre-recession levels the Illinois community colleges continue to increase the number of graduates annually. With 69,812 earned collegiate-level degrees and certificates, fiscal year 2014 again set an all time high in the number of graduates from the Illinois Community College System.

Table 1 contains comparative statewide Spring tenth-day enrollments for the last five years. Figure 1 on the next page illustrates a comparison of headcount and FTE trends from 2011 - 2015.

Table 2 provides a comparison of fiscal year 2011 through fiscal year 2015 Spring headcount enrollments for each community college. Among the 48 community colleges, since last year headcount increases were reported at only 9 colleges (1.0 percent or higher). Thirty-one colleges saw decreases (1.0 percent or more) compared to last year. Eight colleges reported little or no change (less than 1.0 percent) versus last year. Longer term, statewide headcount enrollments were down 13.5 percent compared to Spring 2011.

Table 3 contains a comparison of full-time equivalent (FTE) enrollments for the same five-year period. Compared to last year, Spring 2015 FTE increases were reported by only 6 colleges and decreases by 41 colleges, and one college indicated little or no change. Longer term, statewide FTE enrollments were down 16.2 percent compared to Spring 2011.

Table 4 provides fiscal year 2011 through fiscal year 2015 Spring opening enrollments in internet-based courses at each community college. Enrollments in online courses continued to grow through Spring 2013, decreasing slightly in Spring 2014, but are again increasing in Spring 2015. At the beginning of the Spring 2015 semester, there were 103,534 students (duplicated) enrolled in internet courses compared to 101,232 in Spring 2014 (an increase of 2.3 percent) and 98,735 in Spring 2011 (an increase of 4.9 percent).
