

MEMORANDUM

September 20, 2013

TO: Board Members

FROM: Terry B. Grier, Ed.D.
Superintendent of Schools

SUBJECT: **TITLE I, PART A STUDENT ACHIEVEMENT REPORT 2012–2013**

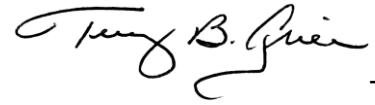

CONTACT: Carla Stevens, 713-556-6700

Attached is a copy of the Title I, Part A Student Achievement Report for 2012–2013. This report reflects student performance on the State of Texas Assessments of Academic Readiness (STAAR), Texas Assessment of Knowledge and Skills (TAKS), Stanford 10, and Aprenda 3 and is required under Title I regulations. Differences, by the total number of students tested, performance by grade, and by subject area are presented at the campus, school office, and district levels. Student demographic data are also noted.

Some of the highlights are as follows:

- Overall, for Title I campuses in the district on the STAAR, 68 percent of students in grades 3–8 met the satisfactory standard in reading, 65 percent in math, 64 percent in writing, 64 percent in science, and 52 percent in social studies. From 2011–2012 to 2012–2013, the percent of students meeting the satisfactory standard fell 1 point in reading, math, and science. In writing, the satisfactory rate fell by 2 percentage points. In social studies, the rate increased by 4 points but still lags behind the other subject areas.
- A total of 111,116 STAAR End of Course exams were given in to students from Title I campuses in the district, and 65 percent of them met the satisfactory standard. The percentage of students meeting the satisfactory standard decreased or stayed the same in subject areas that were tested from 2012 to 2013. The exams with the lowest percentages of students meeting the satisfactory standard were English I Writing at 41 percent and English II Writing at 43 percent.
- During the 2012–2013 school year, TAKS was only administered to students in grade 11. At Title I schools, ninety-two percent of students passed English language arts (ELA), 87 percent passed math, 94 percent passed science, and 98 percent passed social studies. The passing rate increased by 1 percentage point from 2011–2012 to 2012–2013 in reading and science while the passing rate decreased by 2 points in math and stayed the same in social studies.
- On the Stanford 10, total performance remained flat or dropped by one or two NCEs from 2011–2012 to 2012–2013 in each subject area. Overall for Title I campuses in the district, reading was at 44 NCEs, math was at 52 NCEs, language was at 47 NCEs, science was at 52 NCEs, and social science was at 47 NCEs. Scoring below 50 NCEs indicates that students are performing below grade level.
- On the Aprenda 3, total performance increased by three to five NCEs from 2011–2012 to 2012–2013 in each subject area. Overall for Title I campuses in the district, reading was at 76 NCEs, math was at 75 NCEs, language was at 77 NCEs, science was at 76 NCEs, and social science was at 78 NCEs.

Should you have any further questions, please contact my office or Carla Stevens in the Research and Accountability Department at (713) 556-6700.

TITLE I, PART A STUDENT ACHIEVEMENT 2012–2013

Executive Summary

Program Description

The Title I, Part A program is designed to ensure that all children have a fair, equal, and significant opportunity to obtain a high-quality education and achieve, at a minimum, proficiency on challenging state academic achievement standards and assessments. The program's goal is accomplished by providing supplemental funding for educational programs to Title I, Part A schools.

Title I, Part A school programs are implemented on either a schoolwide or targeted assistance basis. According to the Guidance for the Implementation of Title I, Part A (Texas Education Agency, 2010), a schoolwide program permits a school with 40 percent or greater of its students at the poverty level to use funds from Title I, Part A and other federal education program funds and resources to improve the educational program of the entire school in order to raise academic achievement for all students. This contrasts with the targeted assistance program, through which Title I, Part A funds are used only to provide supplementary educational services for eligible students who are economically disadvantaged. In 2012–2013, all Houston ISD Title I schools were designated as schoolwide campuses.

Schoolwide programs can use their Title I, Part A funds in the manner they choose as long as they engage in reform strategies that increase the amount and quality of learning and help provide a high-quality curriculum for all children. These strategies must be included in a comprehensive plan to help children meet the state's student performance standards.

Purpose of the Evaluation Report

The purpose of this report is to evaluate the student achievement performance on the state's standardized tests and Houston ISD's norm-referenced tests for students in Title I, Part A schools. This report discusses student performance on the State of Texas Assessments of Academic Readiness (STAAR), Texas Assessment of Knowledge and Skills (TAKS), Stanford 10, and Aprenda 3. Results are aggregated by school, school office, and district.

Highlights

- Overall, for Title I campuses in the district on the STAAR, 68 percent of students in grades 3–8 met the satisfactory standard in reading, 65 percent in math, 64 percent in writing, 64 percent in science, and 52 percent in social studies. From 2011–2012 to 2012–2013, the percent of students meeting the satisfactory standard fell 1 point in reading, math, and science. In writing, the satisfactory rate fell by 2 percentage points. In social studies, the rate increased by 4 points but still lags behind the other subject areas.
- On the STAAR among Title I schools, Young Women's College Preparatory Academy performed the highest on reading overall with 96 percent of its students meeting the satisfactory standard. Project Chrysalis Middle School performed the highest on math (95 percent satisfactory) and writing (97 percent satisfactory). Oak Forest Elementary School also had 97 percent of its students meeting the satisfactory standard on writing. Travis Elementary School performed the highest on science (94 percent satisfactory), and Wharton Dual Language Academy performed the highest on social studies (100 percent satisfactory). Las Americas Middle School scored consistently low with only 4–6 percent of its students meeting the satisfactory standard on each subject subtest. Inspired for Excellence

Academy West also performed poorly (18 percent satisfactory on reading, 7 percent on math, 5 percent on writing, 6 percent on science, and 0 percent on social studies).

- A total of 111,116 STAAR End of Course exams were given to students from Title I campuses in the district, and 65 percent of them met the satisfactory standard. The percentage of students meeting the satisfactory standard decreased or stayed the same in subject areas that were tested from 2012 to 2013. The exams with the lowest percentages of students meeting the satisfactory standard were English I Writing at 41 percent and English II Writing at 43 percent.
- During the 2012–2013 school year, TAKS was only administered to students in grade 11. At Title I schools, ninety-two percent of students passed English language arts (ELA), 87 percent passed math, 94 percent passed science, and 98 percent passed social studies. The passing rate increased by 1 percentage point from 2011–2012 to 2012–2013 in reading and science while the passing rate decreased by 2 points in math and stayed the same in social studies.
- Three Title I schools had a passing rate of 100 percent for all TAKS subjects in 2012–2013: Empowerment College Preparatory High School, East Early College High School, and Energized for STEM Academy Inc. Southwest High School. The lowest overall TAKS passing rates belonged to Hope Academy Charter School (73 percent passing in ELA, 38 percent in math, 77 percent in science, and 86 percent in social studies), Jesse Jones High School (78 percent in ELA, 73 percent in math, 81 percent in science, and 86 percent in social studies), and Kashmere High School (74 percent in ELA, 64 percent in math, 79 percent in science, and 96 percent in social studies).
- On the Stanford 10, total performance remained flat or dropped by one or two NCEs from 2011–2012 to 2012–2013 in each subject area. Overall for Title I campuses in the district, reading was at 44 NCEs, math was at 52 NCEs, language was at 47 NCEs, science was at 52 NCEs, and social science was at 47 NCEs. Scoring below 50 NCEs indicates that students are performing below grade level.
- On the Stanford 10 among Title I schools, Oak Forest Elementary School, Wharton Dual Language Academy, Harvard Elementary School, and Herod Elementary School scored consistently near the top across all subject areas. Las Americas Middle School and Inspired for Excellence Academy West scored consistently near the bottom with less than 30 NCEs across all subject areas.
- On the Aprenda 3, total performance increased by three to five NCEs from 2011–2012 to 2012–2013 in each subject area. Overall for Title I campuses in the district, reading was at 76 NCEs, math was at 75 NCEs, language was at 77 NCEs, science was at 76 NCEs, and social science was at 78 NCEs.
- On the Aprenda 3 among Title I Schools, Roosevelt Elementary School, Milne Elementary School, and Port Houston Elementary School performed consistently well with NCEs in all subject areas greater than 81. All schools scored above 50 NCEs on each subject area overall.

Recommendations

1. Schools should consider allocating more Title I funds to uphold teacher quality by training them in research-based practices and interventions.
2. The district should review the practices of the highest performing Title I schools and encourage other Title I schools to adopt similar practices.
3. Benchmark test results should be used to identify students who need additional academic intervention.

4. Additional interventions such as tutoring should be used more heavily at consistently low-performing schools.
5. Additional resources can also be directed toward the subject areas and grade levels that had lower performance results.

Administrative Response

The Houston Independent School District has several initiatives currently in place and several planned for the 2013–2014 school year, to address our students' deficiencies and ensure that all students are well prepared for all exams.

Academic Services will continue to focus on the following:

- Strengthening Spanish Language Arts instruction in the lower grades to increase literacy development
- Aligning the bilingual program so that a gradual release from Spanish to English occurs, preventing a sharp transition for students entering 5th grade
- Training high school content-area teachers to address the academic and linguistic needs of ELL students
- Providing individual academic reports for ELL students determined to be at-risk and then creating individual intervention plans
- Providing an online reading program for high school ELL students to increase language and literacy development
- Providing embedded formative assessments in every district planning guide to equip teachers to measure student mastery of standards and re-teach when necessary
- Having schools share best practices strategies with lower performing campuses
- Having successful teachers as identified by comparative growth share strategies with other teachers through professional development
- Having teachers with high minority populations with demonstrated success share strategies that can be utilized by other teachers
- Collaborating with Professional Support and Development (PSD) and SpringBoard (College Board) to train 6–12 teachers on reading-writing connections
- Training over 200 teachers in the 2013 Summer Writing Institute on the reading-writing connection, to be followed up throughout the 2013–2014 school year with a cohort of 50 teachers

Elementary School Offices will continue to focus on the following:

A. Intervention

- Daily objective-driven and differentiated small group instruction with an expectation that small group lesson plans will be created
- Require lessons plans for all afterschool and Saturday tutorials as well as daily push-ins and pullouts
- Implement systems to track student acceleration and remediation based on unit assessments

- Develop and implement systems to ensure that highly effective teachers/personnel are providing interventions
- Assess the student's potential challenges to determine the extenuating circumstances that prevent the student from achieving success and develop possible alternatives including, but not limited to, academic, social services, etc.

B. Resources and/or programs

- Schedule and support Professional Learning Communities (PLCs) at all campuses
- Monitor student assessments, and grades to ensure that failing students receive early, intensive interventions including in-school, after-school, and weekend tutorials
- Teacher Development Specialists (TDS) will focus on curricular implementation to improve core instruction and planning that will align with the TEKS
- Evaluate all programs that are being used to supplement or support the curriculum
- Provide a list of effective resources for any programs deemed ineffective
- Post-assessment data debriefs will occur at the campus leadership level
- Conduct research analysis on correlation between Istation, Think through Math and STAAR

C. Instructional Practices

- Emphasize K-12 math instruction to ensure that foundational math skills support the development of students
- Implement a consistent school-wide writing and science instruction beginning at kindergarten to support students development of foundational skills
- Assist teachers in identifying and addressing student concerns through ongoing weekly PLC's attended by campus administrators

D. Professional Development

- Visit three districts: Spring Branch, Chapel Hill, North Carolina and Clark County, Nevada to review their Dual Language Programs
- Offering training to district personnel on Neuhaus reading strategies embedded in district curriculum, as well as training on use of Istation and Think Through Math to monitor student progress
- Monthly Instructional Rounds led by NCUST and/or School Support Officers (SSOs)
- Cohorts of no more than 5 principals will be created by problem of practice to target needs, check progress, and provide professional learning
- Coordinate targeted workshops for leadership and teachers in reading, math, and instructional practice with the curriculum and professional development
- At a minimum CSOs will visit
 - Level 3 and 4 schools monthly
 - Level 1 and 2 schools every other month
 - Minimum of Bi-monthly SSO/Principal 1:1 meeting

Middle School Office will continue to focus on the following:

A. Intervention

- Students will continue to be progress monitored using a variety of monitoring systems including Istation, Portals, LANGUAGE, READ 180, and System 44 to determine the effectiveness of instruction and interventions. Student schedules will be altered to adapt to the need for interventions.
- CSO will meet every nine weeks with teacher leaders and principals of selected campuses to ensure proper support in the areas of professional development, curriculum, and assessment.
- CSO, SSOs and principals will review benchmark data to ensure that interventions are incorporated and teachers provided the appropriate levels of support from professional development and curriculum and instruction department.
- CSO will coordinate with Springboard to complete walkthroughs to ensure that effective practices and fidelity to curriculum is being addressed.
- CSO and SSO's will continue to monitor the development and implementation of school budgets to ensure that budget allocations, expenditures, and resources are aligned with the district's positioning statement, and their own schools' position statements, in regards to the implementation of math, reading, and safety.

B. Resources and/or programs

- Principals may use Istation's reading intervention program according to student data, or as a supplemental intervention strategy, based on student data.
- TDS will continue to provide support during PLCs in all core areas.
- Principals will continue to incorporate strategic marketing to assess their community and support structures and to reallocate budgeted funds to target reading, math, and safety for their students.

C. Instructional Practices

- Think Through Math will be implemented to support teachers in addressing math instructional needs.
- Principals will continue to participate in Neuhaus reading trainings, professional development, and walkthroughs that address the components of foundational literacy – decoding, fluency, vocabulary, comprehension and writing.
- Principals will ensure that 8th grade ReadStep assessment is scheduled at the beginning of the 8th grade to measure reading, writing, and math skills, and is used to identify students who may need more support as well as students who may be ready for more rigorous instruction.

D. Teacher Training

- National Center for Urban School Transformation (NCUST) will continue to support CSO, SSOs, and principals during site visits and walkthroughs in our Tier III and IV schools to implement best practices for urban schools in order to improve rigor, instructional practice, school culture and climate.

- Additional middle schools will be added to the Teach Like a Champion cohort to address effective teaching strategies and classroom management best practices, routines, and techniques from the seven middle schools piloting the program.

High School Office (HSO) is also looking into several curricular programs to improve student performance:

- AgileMind software, from the Dana Center, will be used by 18 lowest performing schools to support Algebra I.
- A science curriculum from Rice University for Biology and possible Chemistry and Physics is being considered.
- Achieve3000, a Lexiled reading and writing support program, will hopefully be piloted at our schools with the greatest need.
- In collaboration with Curriculum, the possibility of changing course sequences will be examined.

The HSO conducts monthly (or more frequent) formal visits at each tier III/IV campus and works in collaboration with NCUST (The National Center for Urban School Transformation) in conducting structured walkthroughs and debriefs. The HSO has also worked with tier III/IV schools to arrive at a set of expectations around their response to the challenge of low student performance as follows:

- Schools will double-block for students requiring extended instructional time in math and reading.
- Assistant Principals and Deans will receive training to improve calibration around Assessment & Development.
- Professional Learning Communities (PLCs) will be strengthened and will be the central vehicle to drive instructional planning.
- Schools will meet regularly to debrief with Teacher Development Specialist (TDS) on observed trends.
- Writing with meaningful feedback will occur across all classes.
- Schools will be paired with a partner who is more successful in the area of greatest need.

The High School Office (HSO) will further analyze the results to better understand areas of strengths and weaknesses that need to be built upon or addressed. Additionally, the HSO will work with targeted schools to improve teacher retention and training, especially for less experienced teachers.

Introduction

The Title I, Part A program developed out of the Elementary and Secondary Education Act (ESEA) from 1965 and the No Child Left Behind Act (NCLB) from 2001. The Title I, Part A program is designed to ensure that all children have a fair, equal, and significant opportunity to obtain a high-quality education and achieve, at a minimum, proficiency on challenging state academic achievement standards and assessments. The program's goal is accomplished by providing supplemental funding for educational programs to Title I, Part A schools, which have a high percentage of students living in poverty.

Supporting Research

Research dating back to Coleman's study *Equality of educational opportunity* (1966) has consistently shown that there is a strong correlation between students' socioeconomic status and academic performance. For this reason, Title I funds are given to schools in high-poverty environments with hopes that the additional funds can enrich their educational programs and raise academic performance. There are many indicators of academic growth and improvement, but student test results are the most commonly accepted. After NCLB was implemented in 2001, early research done by the U.S. Department of Education (2007) showed that student achievement on state assessments increased in most states between 2002 and 2005 but not at a rate fast enough to reach 100% proficiency by 2013–2014. Data in this report corroborate this prediction. While many students are making performance gains, the gap between low-income and high-income students is not necessarily shrinking (Center on Education Policy, 2010). Although this report focuses on the Title I program, these trends are not solely dependent on Title I funds as there are numerous factors that affect student performance.

Methods

Data Collection

Student data were obtained using a variety of sources. The Public Education Information Management System (PEIMS) database is the statewide data collection and reporting system operated by the Texas Education Agency (TEA) and includes extensive information on students. Student demographics by ethnicity and Title I status were taken from the October 2011–2012 and 2012–2013 PEIMS snapshot files.

Student performance of students at Title I schools on STAAR, STAAR EOC, TAKS, Stanford 10, and Aprenda 3 were extracted from these respective tests' databases. The data for STAAR includes students who were tested in English or Spanish on the regular or linguistically-accommodated (STAAR-L) test versions. The TAKS data for this report includes students who took the regular, accommodated, or linguistically-accommodated test versions. Although students are allowed to re-take the STAAR and TAKS as needed, this report only considered the first administration. STAAR EOC results in 2011–2012 include first-time testers only while the 2012–2013 data include first-time testers and re-testers.

In the 2012–2013 school year, there were 253 Title I, Part A campuses as compared to 258 Title I, Part A campuses in the 2011–2012 school year. Schools with a change in Title I status from 2011–2012 to 2012–2013 are shown in **Table 1** (page 8). The 253 campuses from 2012–2013 consisted of 11 early childhood centers, 148 elementary schools, 41 middle schools, 40 high schools, and 13 combined grade schools. All were designated as schoolwide campuses.

Table 1: 2012–2013 Title I Status Changes		
Status		Schools
2011–2012	2012–2013	
Non Title I	Title I	Mandarin Chinese Language Immersion Magnet School (New)
		Pat Neff Early Learning Center (New)
		Project Chrysalis Charter Middle School
		Billy Reagan K-8 Educational Center (New)
		William Stevenson Middle School

		Jennie Kolter Elementary School
		Sidney Lanier Charter Middle School
		Pin Oak Middle School
Title I	Closed	DeVry Advantage and Contemporary Learning Center High School
		Dominion Academy
		Gregory-Lincoln Elementary School
		Maud Gordon Elementary School
		Kaleidoscope Middle School
		New Aspirations

The 2012–2013 Title I schools had a total enrollment of 187,275 students, an increase of 708 students from these campuses during the 2011–2012 school year. Hispanic students made up the largest demographic group at 65.8 percent (**Figure 1**, pages 8–9).

Figure 1: Student Demographics for Title I Schools, 2011–2012 and 2012–2013

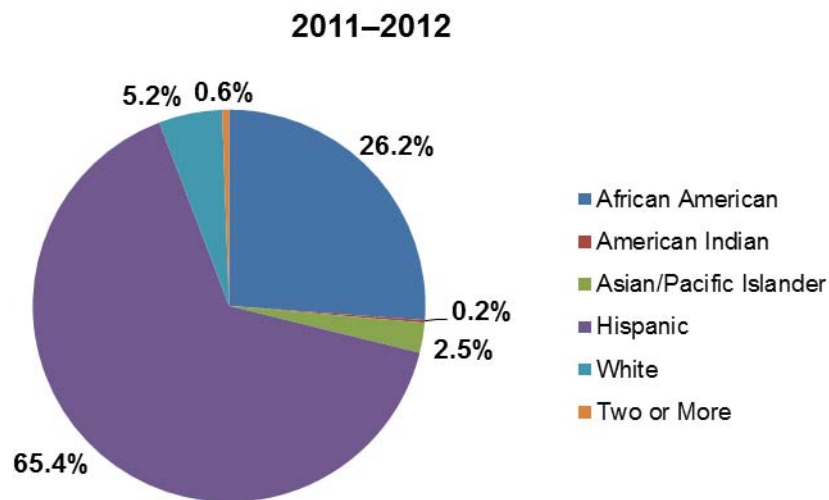

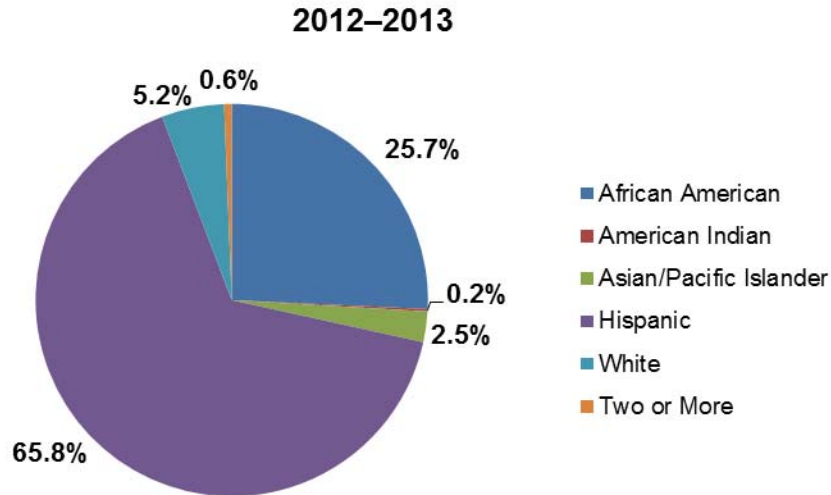

Figure 1 (continued)

Data Limitations

By relying on PEIMS for student enrollment information, it is possible that students served by Title I, Part A who enrolled after the first submission are not counted in the analysis. Where information was not available, notes were inserted as appropriate.

Results

- Overall, for Title I campuses in the district on the STAAR, 68 percent of students in grades 3–8 met the satisfactory standard in reading, 65 percent in math, 64 percent in writing, 64 percent in science, and 52 percent in social studies. From 2011–2012 to 2012–2013, the percent of students meeting the satisfactory standard fell 1 point in reading, math, and science. In writing, the satisfactory rate fell by 2 percentage points. In social studies, the rate increased by 4 points but still lags behind the other subject areas (**Figure 2**, pages 9–10).

Figure 2: Grades 3–8 STAAR English or Spanish Percent Satisfactory for Title I Schools, 2011–2012 and 2012–2013

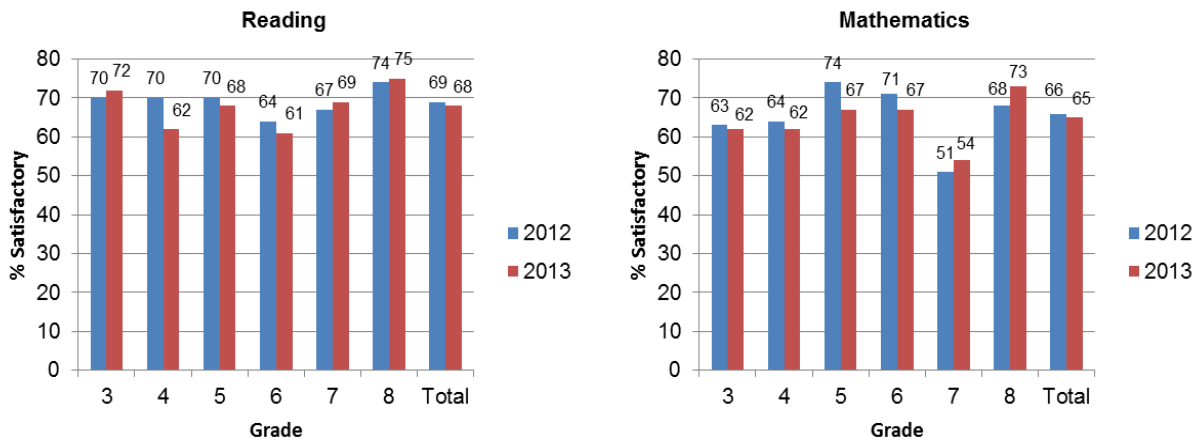

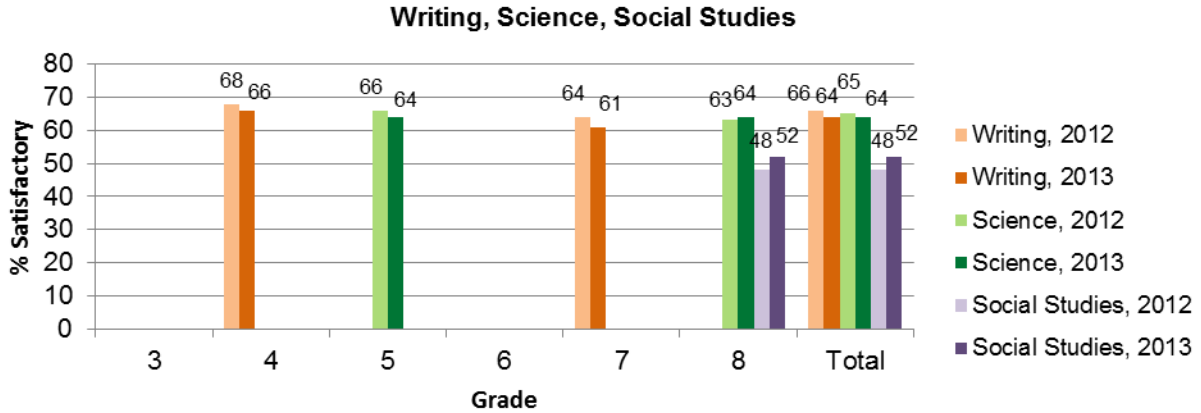

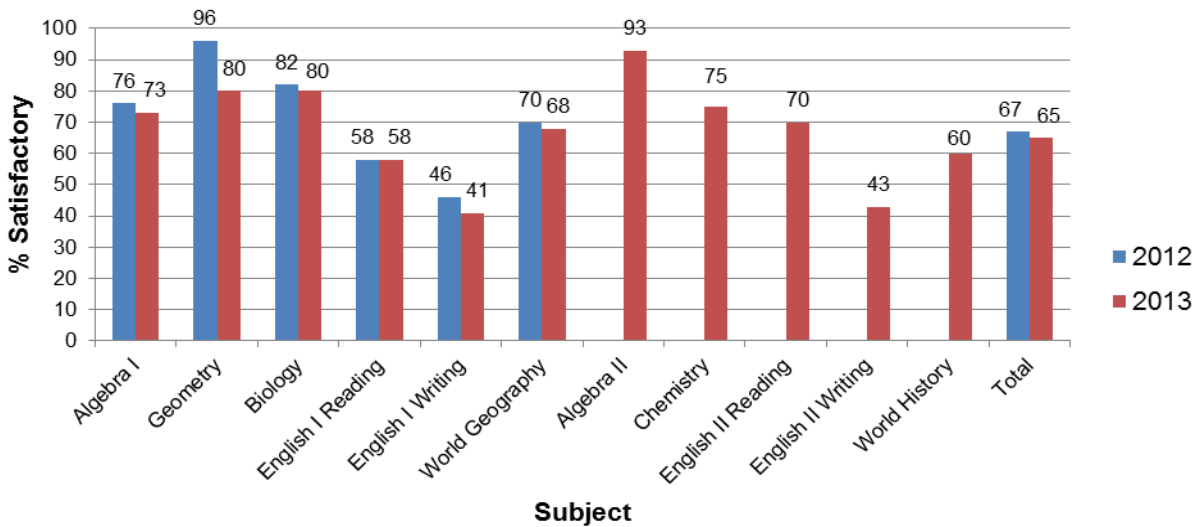

Figure 2 (continued)

Note: STAAR data include students who took the regular or linguistically-accommodated (STAAR-L) test versions.

- On the STAAR among Title I schools, Young Women’s College Preparatory Academy performed the highest on reading overall with 96 percent of its students meeting the satisfactory standard. Project Chrysalis Middle School performed the highest on math (95 percent satisfactory) and writing (97 percent satisfactory). Oak Forest Elementary School also had 97 percent of its students meeting the satisfactory standard on writing. Travis Elementary School performed the highest on science (94 percent satisfactory), and Wharton Dual Language Academy performed the highest on social studies (100 percent satisfactory). Las Americas Middle School scored consistently low with only 4–6 percent of its students meeting the satisfactory standard on each subject subtest. Inspired for Excellence Academy West also performed poorly (18 percent satisfactory on reading, 7 percent on math, 5 percent on writing, 6 percent on science, and 0 percent on social studies).
- A total of 111,116 STAAR End of Course exams were given to students from Title I campuses in the district, and 65 percent of them met the satisfactory standard. The percentage of students meeting the satisfactory standard decreased or stayed the same in subject areas that were tested from 2012 to 2013. The exams with the lowest percentages of students meeting the satisfactory standard were English I Writing at 41 percent and English II Writing at 43 percent (**Figure 3**, page 11).

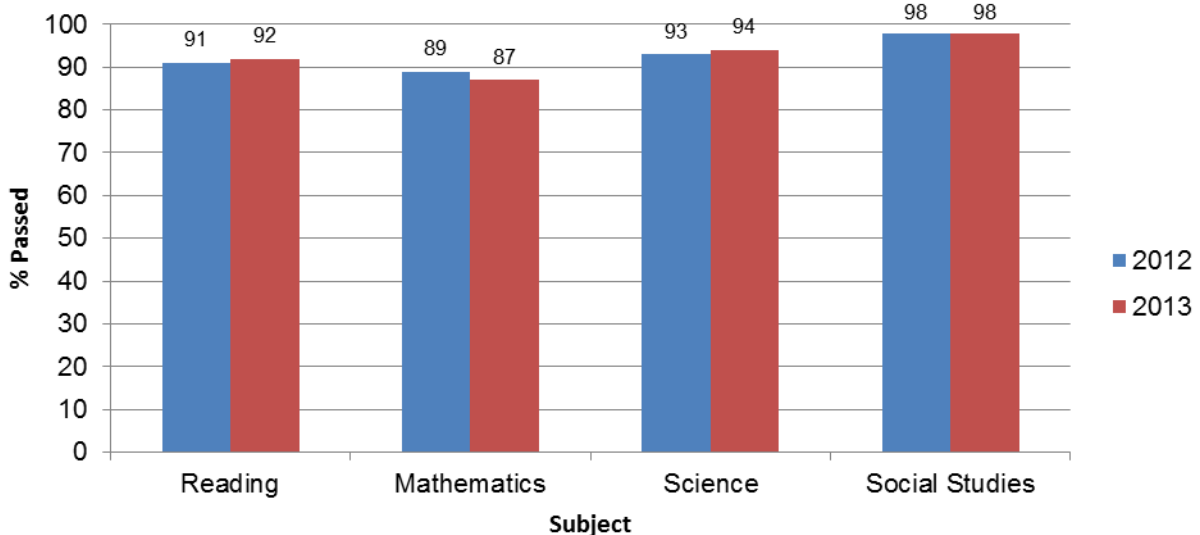

Figure 3: STAAR End of Course Percent Satisfactory for 2012–2013 Title I Schools, 2011–2012 and 2012–2013

Note: 2011–2012 STAAR EOC data include first-time testers only while 2012–2013 data include first-time testers and re-testers.

- During the 2012–2013 school year, TAKS was only administered to students in grade 11. At Title I schools, ninety-two percent of students passed English language arts (ELA), 87 percent passed math, 94 percent passed science, and 98 percent passed social studies. The passing rate increased by 1 percentage point from 2011–2012 to 2012–2013 in reading and science while the passing decreased by 2 points in math and stayed the same in social studies (**Figure 4**).

Figure 4: Grade 11 TAKS Percent Passing for Title I Schools, 2011–2012 and 2012–2013

Note: TAKS data include students who took the regular, accommodated, or linguistically-accommodated test versions.

- Three Title I schools had a passing rate of 100 percent for all TAKS subjects in 2012–2013: Empowerment College Preparatory High School, East Early College High School, and Energized for STEM Academy Inc. Southwest High School. The lowest overall TAKS passing rates belonged to

Hope Academy Charter School (73 percent passing in ELA, 38 percent in math, 77 percent in science, and 86 percent in social studies), Jesse Jones High School (78 percent in ELA, 73 percent in math, 81 percent in science, and 86 percent in social studies), and Kashmere High School (74 percent in ELA, 64 percent in math, 79 percent in science, and 96 percent in social studies).

- On the Stanford 10, total performance remained flat or dropped by one or two NCEs from 2011–2012 to 2012–2013 in each subject area. Overall for Title I campuses in the district, reading was at 44 NCEs, math was at 52 NCEs, language was at 47 NCEs, science was at 52 NCEs, and social science was at 47 NCEs (**Figure 5**, pages 12–13). Scoring below 50 NCEs indicates that students are performing below grade level.

Figure 5: Grades 1–8 Stanford 10 Non-Special Education NCEs for Title I Schools, 2011–2012 and 2012–2013

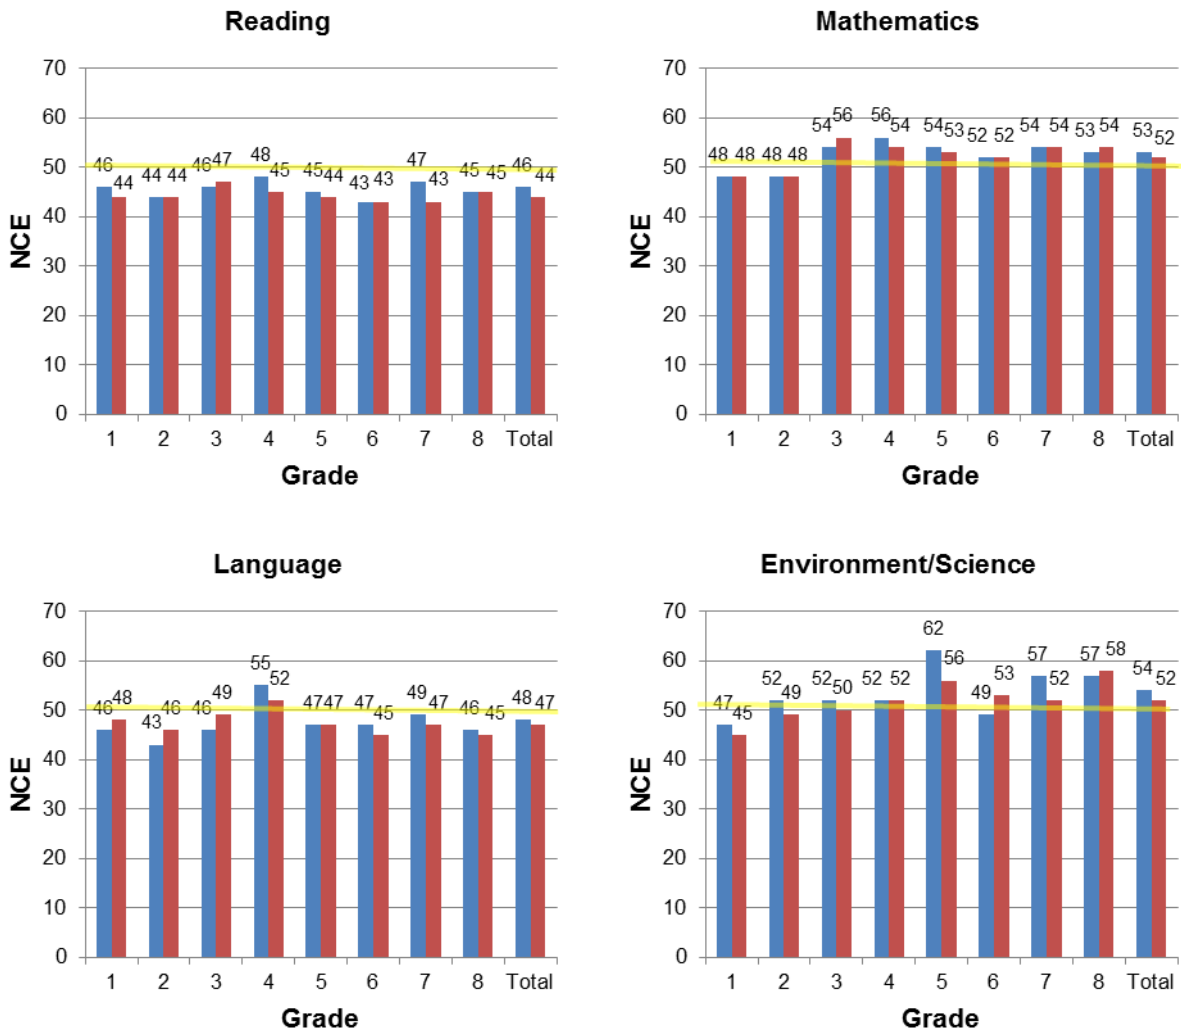

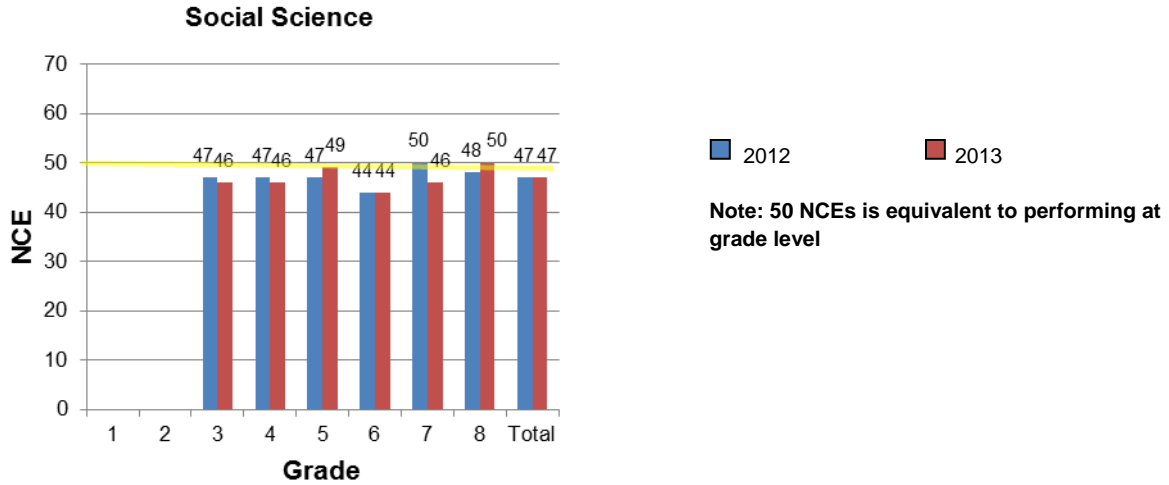

Figure 5 (continued)

- On the Stanford 10 among Title I schools, Oak Forest Elementary School, Wharton Dual Language Academy, Harvard Elementary School, and Herod Elementary School scored consistently near the top across all subject areas. Las Americas Middle School and Inspired for Excellence Academy West scored consistently near the bottom with less than 30 NCEs across all subject areas.
- On the Aprenda 3, total performance increased by three to five NCEs from 2011–2012 to 2012–2013 in each subject area. Overall for Title I campuses in the district, reading was at 76 NCEs, math was at 75 NCEs, language was at 77 NCEs, science was at 76 NCEs, and social science was at 78 NCEs (Figure 6, pages 13–14).

Figure 6: Grades 1–8 Aprenda 3 Non-Special Education NCEs for Title I Schools, 2011–2012 and 2012–2013

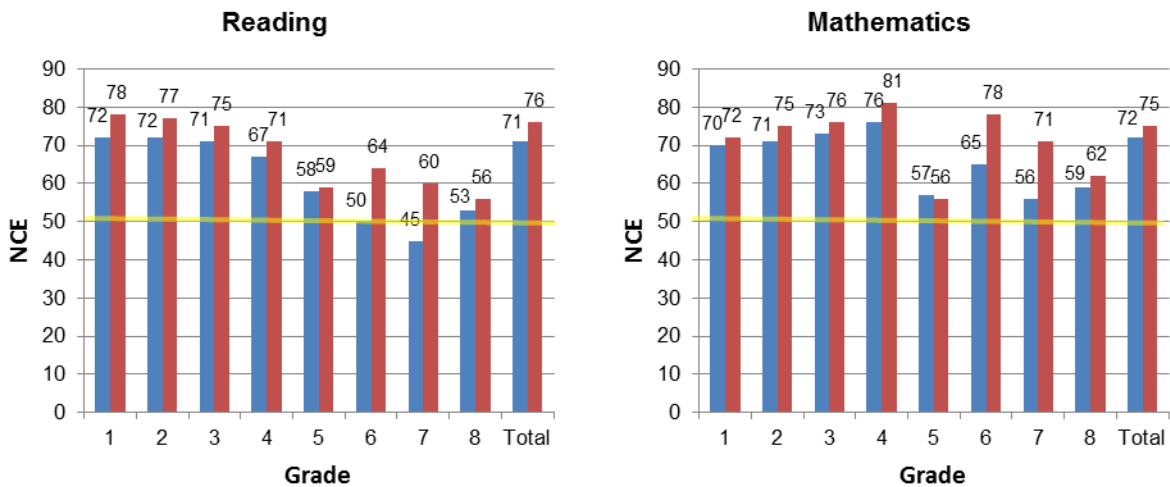

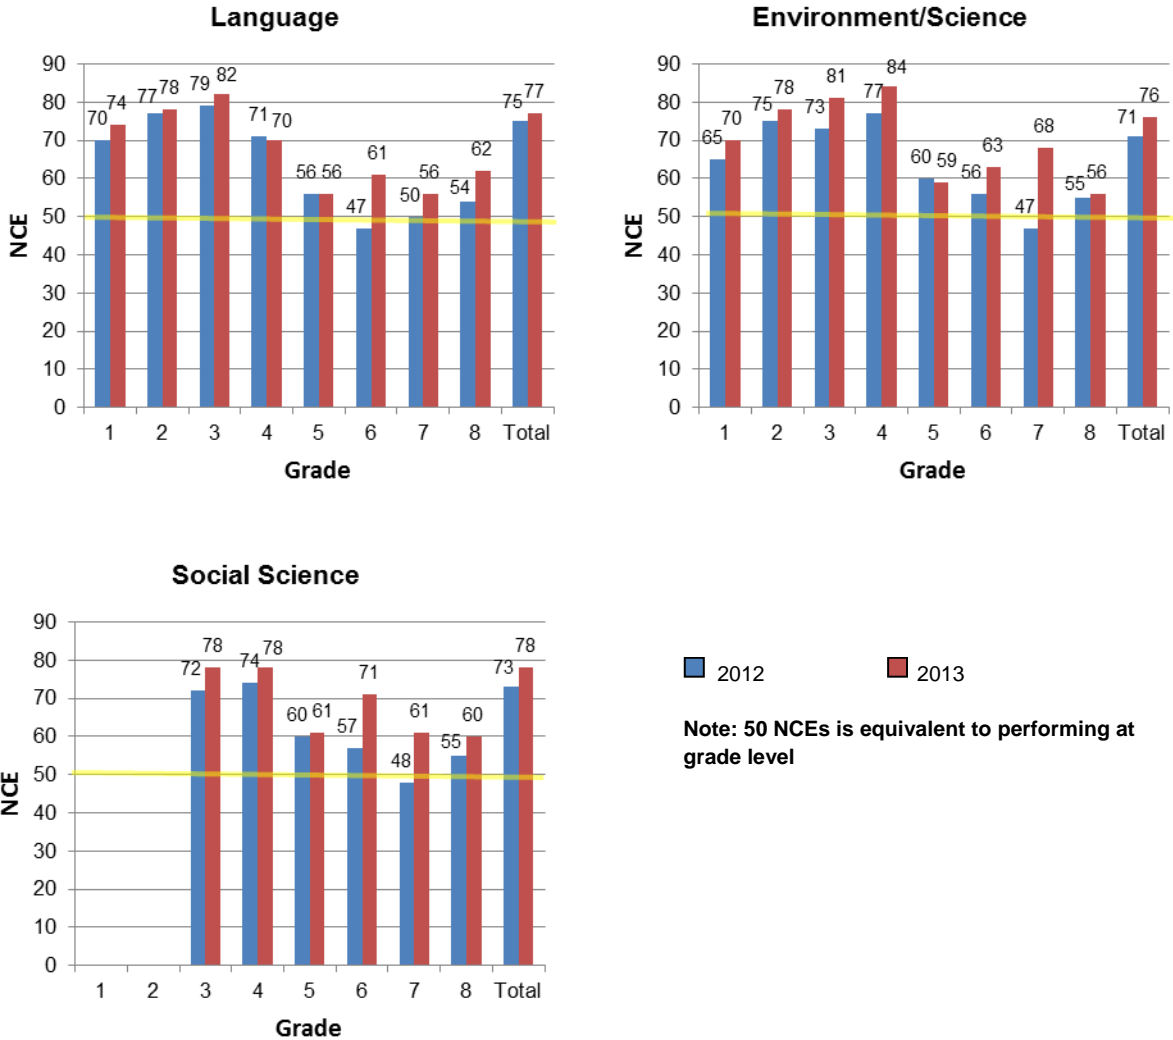

Figure 6 (continued)

- On the Appendix 3 among Title I schools, Roosevelt Elementary School, Milne Elementary School, and Port Houston Elementary School performed consistently well with NCEs in all subject areas greater than 81. All schools scored above 50 NCEs on each subject area overall.

Discussion

Title I funds, on their own, cannot improve student achievement. The funds need to be applied toward academic interventions and initiatives that are proven to be effective based on empirical data. Therefore, the accountability requirements for schools to report their data and meet set standards are necessary and helpful in ensuring progress for Title I schools. Since the goal of the Title I program is to provide equal academic opportunities for schools serving a high percentage of students living in poverty, this report must be used in conjunction with other reports that detail the interventions being used.

Based on the data in this report, Title I schools should consider applying more resources toward preparing students for the social studies STAAR given in grade 8. Traditionally, social studies had the highest passing rate across the TAKS subtests, but the STAAR social studies had the lowest percentage

(52 percent) of students meeting the satisfactory standard compared to the other subject areas (greater than 60 percent).

More resources should also be directed toward preparing students for the STAAR End of Course exams in writing. Compared to other subject areas, these exams had a lower percentage of students meeting the satisfactory standard (below 50 percent).

On the Stanford 10, all grade levels scored below 50 NCEs on the reading subtest, which means that students are performing below grade level in reading. Students also scored below 50 NCEs on language and social science. On the math and environment subtests, students in grades 1–2 scored lower (below 50 NCEs) than students in grades 3–8. Title I schools can consider giving more effective interventions to these subject areas and grade levels.

Performance increases were seen on the Aprenda 3 across almost all grade levels and subject areas. This indicates that students are benefitting from effective curricula and academic interventions that have been implemented.

Two or More	1,059	1,159	100
Total Enrollment	186,567	187,275	708

Notes:

The number tested is based on the number of students taking the Reading portion of each test. For grades and subjects with multiple test administrations, the first administration results are used.

An "***" represents categories where the student counts were less than 5. If there are no data reported, then no students were tested.

Two or More	0	1	1
Total Enrollment	590	627	37

Notes:

The number tested is based on the number of students taking the Reading portion of each test. For grades and subjects with multiple test administrations, the first administration results are used.

An "*" represents categories where the student counts were less than 5. If there are no data reported, then no students were tested.

Notes:

The number tested is based on the number of students taking the Reading portion of each test. For grades and subjects with multiple test administrations, the first administration results are used.

An "*" represents categories where the student counts were less than 5. If there are no data reported, then no students were tested.

Notes:

The number tested is based on the number of students taking the Reading portion of each test. For grades and subjects with multiple test administrations, the first administration results are used.

An "***" represents categories where the student counts were less than 5. If there are no data reported, then no students were tested.

Notes:

The number tested is based on the number of students taking the Reading portion of each test. For grades and subjects with multiple test administrations, the first administration results are used.

An "***" represents categories where the student counts were less than 5. If there are no data reported, then no students were tested.

Ethnicity	2012	2013	(+/-)
African American	587	514	-73
American Indian	5	4	-1
Asian/Pacific Islander	2	1	-1
Hispanic	420	378	-42
White	4	4	0
Total Enrollment	1,018	901	-117

Notes:

The number tested is based on the number of students taking the Reading portion of each test. For grades and subjects with multiple test administrations, the first administration results are used.

An "***" represents categories where the student counts were less than 5. If there are no data reported, then no students were tested.
