About CUPA-HR

CUPA-HR is higher ed HR. We serve higher education by providing the knowledge, resources, advocacy and connections to achieve organizational and workforce excellence. Headquartered in Knoxville, Tennessee, and serving more than 30,000 HR professionals and other campus leaders at more than 2,000 institutions, the association offers learning and professional development programs, higher education workforce data, extensive online resources and just-in-time regulatory and legislative information.

CUPA-HR Data Use Agreement

- All survey results are copyrighted by the College and University Professional Association for Human Resources (CUPA-HR). No data contained in a survey report or obtained through DataOnDemand (DOD) may be reproduced in any form for any purpose without the written consent of CUPA-HR. Report findings and conclusions may be appropriately cited/referenced in other reporting if there is proper acknowledgment of the source and the referenced material does not involve reproduction of data tables or graphics.
- DOD can be purchased only by higher education institutions. Due to the sensitive and confidential nature of the data we collect, we reserve the right to confirm an individual's authorization to purchase DOD with his or her HR department, and to confirm with HR that each user listed on the order is authorized to view employee data. Individuals outside of the HR department seeking access will need written approval from the head of HR these include faculty, unions, other administrators, etc. CUPA-HR accepts no responsibility for any employee who misrepresents his or her authorization.
- Annual survey reports contain comprehensive tables of aggregated data and may be purchased by anyone. However, all points of this agreement apply to the use of this tabular data.
- Survey results may not be changed or modified. Results may not be misrepresented as to their source or intent.
- Survey results may not be used to solicit or conduct business. The sole exception is the use of consultants who are currently engaged in a project with a higher ed institution that has granted access to that institution's purchase of DOD. Consultants may use the obtained data in their business dealings with the purchasing institution only. Consultants cannot order DOD directly. They should ask the appropriate representative of the institution for which they are working to contact us via research@cupahr.org to request consultant access to DOD. The institution representative should furnish: (a) the consultant's name, company, address, email, and phone number; (b) a statement that indicates the consultant has been hired to perform work requiring the use of CUPA-HR data; (c) authorization for the consultant to see the institution's data; and (d) the names of the surveys to which the consultant should be granted access.
- Survey results may not be uploaded to a separate system or placed on the web without the explicit permission of CUPA-HR.
- Access to survey reports and DOD is limited to the users purchasing the report or subscription. Sharing report information, log-in credentials, output from DOD analyses, or DOD access with other institutions or organizations will result in immediate cancellation of access and will preclude future access. The system tracks and monitors purchases, use, and users.
- An institution is defined as an entity which has as its sole purpose the provision of postsecondary education and reports to the Integrated Postsecondary Education Data System (IPEDS) hosted by the National Center for Education Statistics (NCES). Results must be purchased for each institution in which CUPA-HR data is used and may only be used for the institution for which the subscription was purchased. Results may not be shared with or used for institutions within a multi-institution system for which a DOD subscription or annual report has not been purchased. System offices, defined as any entity that oversees two or more institutions, may share or use data only with institutions in their system for which the data has been purchased.

Highlights

The following are highlighted results from the CUPA-HR 2020 Administrators in Higher Education Annual Report:

- Administrators as a whole received a 2.73% increase in pay in the past year, a figure that is higher than the inflation rate and exceeds the increases of faculty, professionals, and other staff.
- Salaries for administrators are highly variable depending on institutional classification.
 Administrators at doctoral institutions are generally paid much higher salaries than those at other types of institutions.
- Women are better represented in lower-level, lower-paying administrative positions than in top executive positions. Women are paid less than men in nearly all administrative positions. Similarly, racial/ethnic minorities are better represented in lower-level administrative positions.
- The salary gap between men and women is generally higher at older ages than at younger ages. In addition, the salary gap is present at all levels of experience, from those who are relatively new hires to those who have been in their position for more than 10 years.
- Fewer than one in 10 presidents were hired from outside higher ed, and most held a previous position of president (at another institution), provost, or dean.

Introduction

The *CUPA-HR Administrators in Higher Education Survey* is the longest-running and most comprehensive survey of higher ed administrators, and this marks the 53rd year of data collection for this survey. Since 2016-17, the following data has been collected for each incumbent reported in the survey: salary, sex, race/ethnicity, age, years in position, and faculty status (for associate/assistant deans).

This year, new data were collected on the pipeline for three key positions: institution president/CEO, provost/chief academic officer, and chief human resources officer. For these positions, questions were asked about both the previous position held prior to their current appointment, as well as the place of employment prior to their current appointment. This data is featured in the "Profiles" section of this report.

POSITIONS SURVEYED

A total of 50,690 administrators were reported for this year's survey. The 202 positions surveyed are grouped into six administrative categories: 2

- Top Executive Officers
 - □ Includes Chief Executive Officer (Campus or System), Executive Vice President/Vice Chancellor, and Chief Academic Affairs Officer/Provost.
- Senior Institutional and Chief Functional Officers
 - Persons in these positions direct a major functional area with institution-wide scope/impact as well as the work of other professional employees. They typically report to a top executive officer or other senior institutional officer. Examples include Chief Financial Officer, Chief Development/ Advancement Officer, Chief Human Resources Officer, and Chief Information/IT Officer.
- Institutional Administrators
 - Persons in these positions direct a functional area with institution-wide scope as well as the work of other professional employees. They serve as the senior content expert in a recognized professional realm. Examples include Chief Purchasing Officer, Chief Diversity Officer, Chief Hospital Administrator, and Chief Student Registration/Records Officer.
- Heads of Divisions, Departments, and Centers
 - Persons in these positions manage an institutionally recognized division, department, or center and the work of other professional employees. Examples include Bursar, Chief Campus Bookstore Administrator, Chief Campus Benefits Administrator, and Chief Campus Student Housing Administrator.
- Academic Deans
 - Persons with faculty status who serve as the principal administrator/head of an academic program, which may be a school, college, or department.
- Academic Associate/Assistant Deans
 - Persons with or without faculty status who report to and support the dean in the administration of an institutional program, which may be a school, college, or department.
- 1 See the Methodology section of this report for more specific information on the sample and the data collected.
- 2 See the Administrators Survey Participation and Information Template (SPIT) for descriptions of all positions surveyed.

PARTICIPATING INSTITUTION CHARACTERISTICS

The information in Figure 1 summarizes the institutional characteristics of respondents to this year's *Administrators in Higher Education Survey*. A total of 1,160 institutions provided incumbent-level data for 50,690 administrators.³ Institutions are well represented in this year's data by classification, affiliation, and region.

2020 ADMINISTRATORS IN HIGHER EDUCATION

Administrators Survey Participants

Figure 1

³ See Appendix B for a list of all participating institutions. System offices provided data for positions at the system level and for positions with system-level responsibilities; system offices were excluded from the analysis for this report. For-profit institutions and higher ed affiliates were also excluded from the analysis. See the Methodology section for more detail on these exclusions.

Methodology

SURVEY

The data collection period for CUPA-HR's *Administrators in Higher Education Survey* ran from November 1, 2019, through January 17, 2020. The survey was conducted through Surveys Online. ⁴

Administrator Positions

This year's survey includes data for 50,690 administrators.⁵ For each administrator reported, the following data were collected:

- Annualized base salary (effective date November 1, 2019)
- Sex (optional)
- Race/ethnicity (optional)
- Year entered current position (optional)
- Birth year (optional)
- Whether the administrator has faculty status (for associate/assistant dean positions only)

Participants could either enter this data manually online for each incumbent or upload a file containing this data.

Executive Pipeline and Benefits

The following data were collected for four positions: president/CEO of a system, president/CEO of a single institution, chief academic affairs officer/provost, and chief human resources officer.

- Place of employment prior to current appointment
- Position prior to current appointment

In addition, data on the following benefits/perquisites was collected for seven positions: president/ CEO of a system, president/CEO of a single institution, executive vice president/vice chancellor, chief academic affairs officer/provost, chief business officer, chief athletic administrator, and chief development/ advancement officer.

- Institution-provided housing (full, partial, or no subsidy)
- Institution-provided vehicle or vehicle allowance (full, partial, or no subsidy)
- Institution-provided club membership (full, partial, or no subsidy)
- Institution-provided deferred compensation program (yes or no)
- Performance-based incentive pay opportunity (yes or no)

Pipeline and benefits data were collected online, and all questions were optional.

- 4 Surveys Online is a product of Peerfocus.
- 5 This report analyzes data from 49,367 administrators, as data from for-profit institutions, system offices, and higher ed affiliates were excluded.

Institutional Characteristics

In addition, data on institutional characteristics were collected from all participants:⁶

- Total expenses reported to IPEDS in 2018-19
- Student enrollment (effective date approximately October 15, 2019)
- Faculty size (effective date November 1, 2019) and number of separations in the past year
- Staff size (effective date November 1, 2019) and number of separations in the past year
- Human resources staff size and number of separations in the past year
- CHRO reporting relationship
- Whether collective bargaining exists for the following groups:
 - □ Full-time faculty
 - □ Part-time or adjunct faculty
 - □ Full-time staff
 - Graduate students

Basic information on total expenses as well as student, faculty, and staff size were required questions. All other questions were optional.

RESPONDENTS

Respondents were largely human resources professionals and institutional research professionals from higher education institutions in the U.S.⁷ There were 1,160 institutions that completed the survey (Table 1). All participating institutions are listed in Appendix B.

Table 1. Number of Responding Institutions by Classification and Affiliation

	_	Affiliation			Total
		Private Independent	Private Religious	Public	
Classification	Doctoral	67	55	181	303
_	Master's	79	111	141	331

_	Associate's	1	1	174	176
_	Special Focus/ Other	75	12	19	106
	System Office	3	0	34	37
	Total Participants	310	264	586	1160
Tota	al N for This Report	296	264	552	1112

⁶ See the Administrators Survey Participation and Information Template (SPIT) for more specific information about the data collected on this year's survey, as well as the instructions provided to participants.

For-profit institutions (n = 8), system offices (n = 37) and higher ed affiliates (n = 3) were excluded from the analysis in this report. Although their data were not analyzed for this report, their data are available for benchmarking in DataOnDemand, and their names appear in the participant list in Appendix B.

Acknowledgments

CUPA-HR's *Administrators in Higher Education Annual Report* provides data on salaries and demographic information for administrators employed in a cross-section of the nation's colleges and universities.

We are indebted to the human resources professionals and institutional research professionals of the colleges and universities who completed the survey.

In the CUPA-HR national office, our research department staff coordinated and reviewed all aspects of survey analysis and report production. To ensure the accuracy of data, the research staff conducted numerous outlier and validation checks with those responsible for completing the survey. Peerfocus, Inc., our partner and collaborator in Surveys Online, provided web-based data collection, automated validation checks, and table generation. This report was designed, reviewed, edited, and marketed by members of our research, communications and marketing, and executive teams, acknowledged below.

Appendix A. Comprehensive Tables

The salaries provided in these tables are annualized base salaries. The tables in this appendix report unweighted median salaries.⁸ The median divides salaries in half: 50% of all reported salaries fall above or below this salary. The median is a more reliable measure than the mean (average) in distributions that are skewed (containing a few extremely low or — in the case of most salary data — high numbers).

Data are reported only for positions having at least five responding institutions.9

To compute the quartiles, the total expense/enrollment numbers reported by each institution were ranked from low to high, and one quarter of the institutions were assigned to each quartile. Quartile ranges are listed in the column headings of each applicable table.

⁸ The tables in Appendix A provide a large-scope picture of administrator salaries. To benchmark salaries using custom comparison groups, or to view salaries by sex, race/ethnicity, age, or years in position, higher ed institutions should subscribe to DataOnDemand.

⁹ Both annual reports and DataOnDemand follow Department of Justice safe harbor guidelines for antitrust regulations. An explanation of these guidelines can be found here: http://compforce.typepad.com/compensation_force/2007/02/antitrust_regul.html.
