## Report Summary

The North Dakota University System *2018-2019 Annual Enrollment Report* is an effort to report system wide, duplicated and unduplicated student headcount by combining degree credit and non-degree credit enrollments across the eleven NDUS institutions for an entire academic year. Additionally, non-credit enrollments provided through TrainND, a legislatively established organization powered by the five state community colleges whose purpose is to provide customized employee training to North Dakota business and industry, are provided in Appendix 1. The academic year reported in this document is Summer 2018, Fall 2018 and Spring 2019 semesters.

The three credit types reported in this report are defined as follows:

- **Degree Credit** - all coursework and instructional activities that carry credit that can be applied toward college degree, or credit based remedial courses taken by a degree seeking student as reported to the Integrated Postsecondary Education Data System (IPEDS).
- **Non-Degree Credit** – all coursework that carries college credit but does not count toward a college degree; this includes continuing education coursework.
- **Non-Credit** – coursework that does not carry academic credit; noncredit courses do not count toward college degree.

In addition to credit types, this report also presents course enrollments by delivery method. Those methods include both on campus and distance education delivery as shown in the hierarchy below. Not shown in this diagram are Combination (combo) classes, which are distance education courses that utilize a mix of delivery methods, with less than 50% coming from any one delivery type.

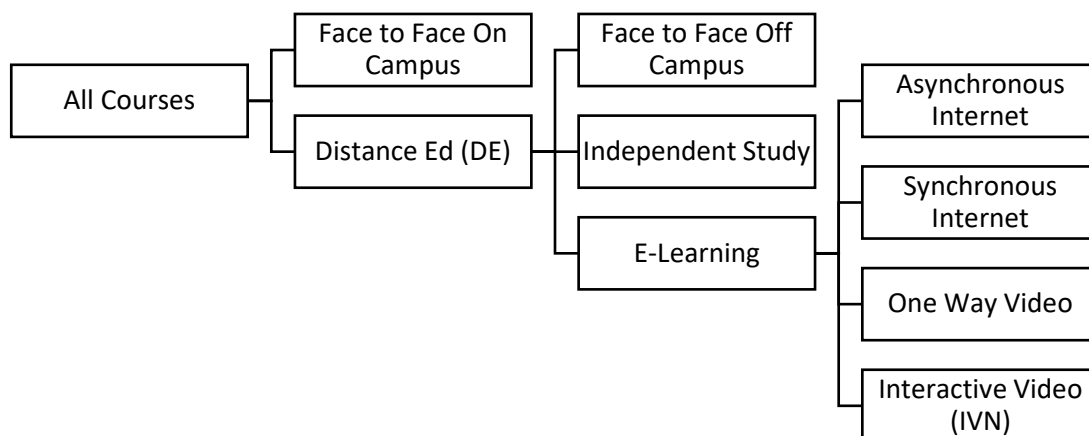

Table 1 (pg. 2) provides the summative data for annual enrollment. Campus Solutions reporting has allowed identification of 55,791 unduplicated student enrollments across the eleven system institutions. Included in this number are 7,446 first time freshmen 4,758 new transfer students, and 1,997 new post-baccalaureate (graduate) students, which are summarized in Tables 7, 8, and 9.

Non-credit coursework reported by TrainND for 2018-2019 (Appendix 1) accounts for 730 participating businesses with an unduplicated headcount of 9,540 employees trained.

Note: Per SBHE Policy 440, when reporting summer enrollment as an individual term, institutions are permitted to define the number of credit hours for full time and FTE. For system level reporting, full time undergraduate is defined as students enrolled in 9 or more credits; full time graduate is defined as students enrolled in 6 or more credits. For system level reporting, full time summer FTE is calculated using the undergraduate total credit hours divided by 9; graduate total credit hours divided by 6. Summer full time and FTE on Table 6 may not match what is published by the individual institution.

## Data Definitions

#	Term	Definition
1	Asynchronous Internet (A-SYNCH)	Internet based class where instructor and students are not online at the same time.
2	Beginning Freshmen	Full-time/Part-time student attending any institution for the first time as a freshman. Since part-time students are included, this result is not the same as the IPEDS first-time full-time count.
3	Combo	A course that uses a combination of both traditional face-to-face and e-learning.
4	Degree Credit	All institutional activities that can be applied toward college degree or credit based developmental or remedial courses taken by a degree-seeking student as reported to IPEDS.
5	Distance Education	Courses where a student is not located in a traditional face-to-face classroom on his/her home institution. Includes face-to-face off campus, correspondence, interactive video network, synchronous and asynchronous internet.
6	Duplicated	An enrollment count in which an individual student may be counted more than once because they are enrolled in more than one medium or more than one campus.
7	E-Learn/E-Learning	Instruction in an electronic format via the internet. Includes synchronous and asynchronous internet, and interactive video network (IVN).
8	Enrollments	A student counted as one enrollment in degree credit courses at each campus attending.
9	Face-to-face Off Campus	A classroom environment where the instructor and students are physically located in the same place in an off campus location.
10	Full Time (FT)	Undergraduate students enrolled in 12 or more credit hours or graduate and professional students enrolled in 9 or more credit hours (as of the 20th scheduled day of class).
11	Full Time Equivalent (FTE)	Student credit hours accumulated at the undergraduate level divided by 15 plus student credit hours accumulated at the graduate level divided by 12. Every professional student is counted as one FTE.
12	Headcount Enrollment (HC)	A student counted as one enrollment in degree credit courses as of the 20th scheduled day of class.
13	Independent Study	A correspondence course in which all communications between instructor and student is accomplished through the mail, email or fax.
14	Interactive Video (IVN)	Two way video system in which the participants can synchronously interact.

15	Non Degree Credit	Credits earned for coursework that does not count toward a degree or formal award (i.e., remedial course credit and credits earned by continuing ed students).
16	One Way Video	Video connection where only the instructor can be seen and heard.
17	Part Time	Undergraduate students enrolled in less than 12 credit hours or graduate and professional students enrolled in less than 9 credit hours (as of the 20th scheduled day of class).
18	Synchronous Internet (SYNCH)	Internet based class where instructor and students are online at the same time in order to interact.
19	TrainND	Statewide network of training courses for the workforce, with office locations at BSC, LRSC, NDSCS, and WSC.
20	Transfer	A student entering an institution for the first time but known to have previously attended a postsecondary institution at the same level. This student may transfer with or without credit.
21	Unduplicated Enrollment	Removes duplicate enrollments of students across institutions or categories so they are only counted once. For instance, a student who is enrolled in two institutions at the same time would count as one student.
