

# 50-State Comparison

## Statewide Longitudinal Data Systems

Which of the four core agencies (EL, K12, PS, WF) are included?  
August 2019

Education Commission of the States designated four state agencies as core agencies within any SLDS: early learning, K-12, postsecondary and workforce. As states continue to build full P20W systems, some states currently make connections between two or three of these types of data.
