

50-State Comparison

Statewide Longitudinal Data Systems

Does the state have an SLDS? What is the name of the SLDS?
August 2019

For purposes of this 50-State Comparison, an SLDS is defined as one with formal connections across two or more of the four core agencies (early learning, K-12, postsecondary and workforce). If a state data system only contains one type of data (e.g., only K-12 data), the state is not designated as having established an SLDS. States including at least two of these core agencies in their data systems are designated as having established an SLDS. As such, the data systems that meet this definition might not always be those systems associated with the federal SLDS Grant Program. If a state’s SLDS is still in development, the state is not designated as having established an SLDS. However, Education Commission of the States made its best efforts to identify such states and designate them as being in the process of establishing an SLDS.

Please contact Zeke Perez Jr. at zperez@ecs.org with questions on this issue.

STATE ▲	DOES THE STATE HAVE A STATEWIDE LONGITUDINAL DATA SYSTEM?	WHAT IS THE NAME OF THE SLDS?
Alabama	No	
Alaska	Yes	Alaska Outcomes Data System

STATE ▲	DOES THE STATE HAVE A STATEWIDE LONGITUDINAL DATA SYSTEM?	WHAT IS THE NAME OF THE SLDS?
Arizona	Yes	Arizona Education Learning and Accountability System
Arkansas	Yes	Arkansas Research Center
California	No	
Colorado	No	
Connecticut	Yes	Preschool through Twenty and Workforce Information Network
Delaware	Yes	Education Insight Dashboard
District of Columbia	Yes	Statewide Longitudinal Education Data
Florida	Yes	PK-20 Education Data Warehouse
Georgia	Yes	Georgia's Academic and Workforce Analysis and Research Data System
Hawaii	Yes	Hawaii Data eXchange Partnership
Idaho	Yes	Educational Analytics System of Idaho
Illinois	Yes	Illinois Longitudinal Data System
Indiana	Yes	Indiana Management Performance Hub
Iowa	Yes	EdInsight
Kansas	Yes	Kansas Student Statewide Longitudinal Data System

STATE ▲	DOES THE STATE HAVE A STATEWIDE LONGITUDINAL DATA SYSTEM?	WHAT IS THE NAME OF THE SLDS?
Kentucky	Yes	The Kentucky Center for Statistics (KYSTATS)
Louisiana	Yes	Louisiana Believes
Maine	Yes	Maine Educational Data Warehouse
Maryland	Yes	Maryland Longitudinal Data System
Massachusetts	Yes	Edwin Analytics
Michigan	Yes	Michigan Statewide Longitudinal Data System
Minnesota	Yes	Minnesota Statewide Longitudinal Education Data System
Mississippi	Yes	Mississippi LifeTracks
Missouri	Yes	Missouri Comprehensive Data System
Montana	Yes	Growth and Enhancement of Montana Students (GEMS)
Nebraska	Yes	Nebraska Statewide Longitudinal Data System
Nevada	Yes	Nevada P-20W Research Data System
New Hampshire	No	
New Jersey	Yes	NJ SMART
New Mexico	No	
New York	Yes	Student Information Repository System

STATE ▲	DOES THE STATE HAVE A STATEWIDE LONGITUDINAL DATA SYSTEM?	WHAT IS THE NAME OF THE SLDS?
North Carolina	Yes	Common Education Data Analysis and Reporting System (EL/K12) Common Follow-Up System (PS/WF)
North Dakota	Yes	North Dakota State Longitudinal Data System
Ohio	Yes	Ohio Longitudinal Data Archive
Oklahoma	No	
Oregon	Yes	Oregon Statewide Longitudinal Data System
Pennsylvania	Yes	Pennsylvania Information Management System (PIMS)
Puerto Rico	No	
Rhode Island	Yes	Rhode Island DataHUB
South Carolina	No	
South Dakota	No	
Tennessee	Yes	Measure Tennessee Longitudinal Data System
Texas	Yes	Texas Public Education Information Resource
Utah	Yes	Utah Data Research Center
Vermont	Yes	Vermont Statewide Longitudinal Data System
Virginia	Yes	Virginia Longitudinal Data System

STATE ▲	DOES THE STATE HAVE A STATEWIDE LONGITUDINAL DATA SYSTEM?	WHAT IS THE NAME OF THE SLDS?
Washington	Yes	Education Research & Data Center
West Virginia	Yes	West Virginia Education Information System (EL/K12) Data Streams (PS/WF)
Wisconsin	Yes	Wisconsin Information System for Education
Wyoming	No
