ABORIGINAL REPORT - HOW ARE WE DOING?

You will notice that there are changes to historical and trend data. Once a student has self-identified as being of Aboriginal ancestry (First Nations: Status and Non-Status, Métis and Inuit), the student is included in all reported outcomes for Aboriginal students. This approach ensures a consistent methodology for identifying Aboriginal students across years, as students may self-identify as Aboriginal on some enrolments and not on others.

Since its inception in 1999, this report has included data from all students, regardless of residency status. As such, the statistics contained within this report may differ from the statistics posted on the Student Success website: (<https://studentsuccess.gov.bc.ca/>), which includes data for B.C. residents only.

The decision to remain consistent with previous reporting was made by consensus among Tripartite parties including the First Nations Education Steering Committee (FNESC) and Indigenous Services Canada (ISC).

The Tripartite partners have collectively agreed to retain "Aboriginal" wording for the purposes of this year's "How Are We Doing?" report. Updating terminology from Aboriginal to Indigenous requires changes to Ministry data collection processes that will ensure standardized wording from collection onwards. This work is underway.

GUIDELINES AND TIPS - REVIEWING STUDENT ACHIEVEMENT DATA

- **Use multiple sources of information whenever possible**

To supplement the student results being reviewed, it is advisable to refer to multiple sources of performance information including information drawn at the classroom, school, district and provincial levels. This is particularly important when reviewing the performance of small numbers of students.

- **Ensure comparability of information from different sources**

When analysing student results collected from different sources, care should be taken to ensure comparability. For example, consider the similarity of test questions, student groups participating, the number of students represented, as well as the consistency in test administration.

- **Consider participation rates**

Low participation rates, or small numbers of students, may not adequately reflect the whole population. When comparing different sources of data, or trends over time, it is important to note if a change in the number of participating students would have an impact on the results.

- **Be cautious of data representing small numbers of students**

Note the number of students participating or the number of students in the population being assessed. The fewer the students, the more carefully the results need to be interpreted. If data represent fewer than 10 students, be extremely cautious. The overall results for smaller groups of students can be greatly influenced by the scores of just a few (one or two) individuals. Protection of privacy must be ensured when reporting data.

- **Review data trends**

Multiple years of results are more meaningful than results for a single year. Five or more results may suggest a trend. The more results that follow the trend the greater the ability to make a prediction.

POINTS OF INQUIRY

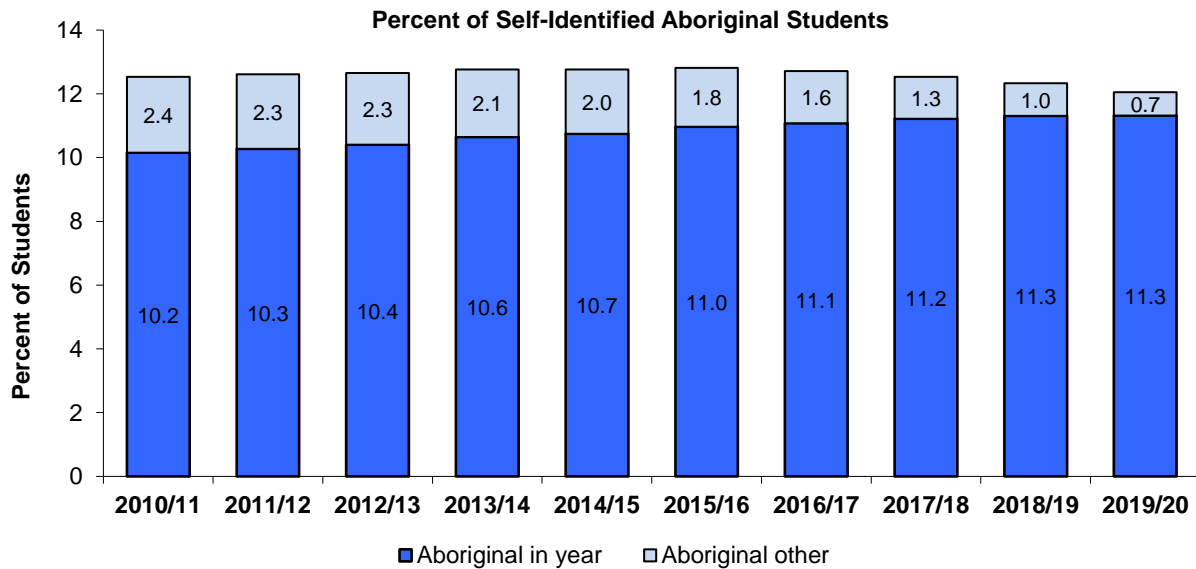

- Are the data relevant or appropriate for what is being assessed?
- Is the population of students reflected by these data representative of achievement of all students?
- What story do these data suggest about student achievement?
- Do the data tell enough of the story? In order to provide a more complete picture, what other information should be considered?
- Are there any identifiable groups of students that should be considered?
- What alternate conclusions could be drawn from these data?

PLEASE NOTE

The Ministry makes small and continuous improvements to the quality of its data. Sometimes these changes result in differences from previously published reports. The data in this report are the most accurate data available at time of publication.

Note:

"SIA in Year" - the student self-identified as Aboriginal in this year

"SIA Only in Other Year(s)" - the student did not self-identify as Aboriginal in this year, but did so in at least 1 other year

"Never SIA" - the student did not self-identify as Aboriginal in this year or any other

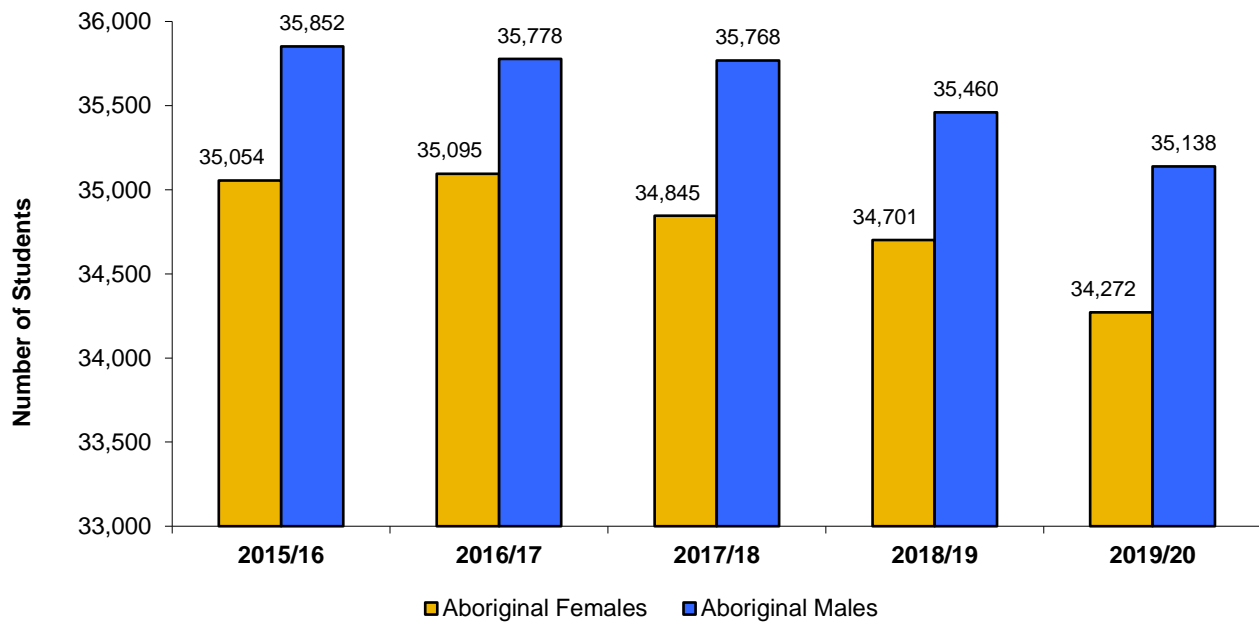

Students are classified as Aboriginal when they identify themselves as such – in other words, they “self-identify as Aboriginal” (SIA). In any given year, a student may or may not self-identify as Aboriginal. In 2003/04, the Ministry of Education (EDUC) and the First Nations Education Steering Committee (FNESC) agreed to report on the educational achievement of all students who “ever” identified themselves as Aboriginal. In EDUC’s standard reports, students are categorized as Aboriginal if they self-identified as Aboriginal at any point during their time in K-12.

This table shows the number of students who (1) self-identified as Aboriginal in a given school year and those who (2) did not self-identify as Aboriginal in that particular year, yet did so in other years. Column (3) shows students who have never identified themselves as Aboriginal.

STUDENTS WITH DISABILITIES OR DIVERSE ABILITIES (12 CATEGORIES)

The Ministry of Education is aligning language with the United Nations Convention on the Rights of Persons with Disabilities, and Human Rights legislation, where “persons with disabilities” is the terminology used. Within the K-12 context, “Students with Disabilities or Diverse Abilities” will replace the terms “Special Needs”.

Students with Disabilities or Diverse Abilities may require additional support and accommodations to enable them to access and participate in educational programs. The Ministry has the vision to provide inclusive and responsive learning environments that recognize the value of diversity and provide equity of access, opportunity and outcome for all students including students with disabilities or diverse abilities.

FOUNDATION SKILLS ASSESSMENT (FSA) RESULTS: READING COMPREHENSION, GRADE 4

To provide a more accurate reflection of students' overall foundation skills levels, the percentages reported are relative to "writers only" (only those who wrote the assessment). This is a change from the years before 2014/15, when the reported percentages were relative to all students who were expected to write the assessment.

The FSA uses three levels to describe student performance. In 2017/18, the FSA categorization language evolved to reflect proficiency levels, and to be descriptive and strengths-based. The new levels are Emerging → On Track → Extending. For more information, please visit the FSA Description and Specifications page:

FOUNDATION SKILLS ASSESSMENT (FSA) RESULTS: READING COMPREHENSION, GRADE 7

To provide a more accurate reflection of students' overall foundation skills levels, the percentages reported are relative to "writers only" (only those who wrote the assessment). This is a change from the years before 2014/15, when the reported percentages were relative to all students who were expected to write the assessment.

The FSA uses three levels to describe student performance. In 2017/18, the FSA categorization language evolved to reflect proficiency levels, and to be descriptive and strengths-based. The new levels are Emerging → On Track → Extending. For more information, please visit the FSA Description and Specifications page:

GRADE 10 NUMERACY ASSESSMENT

B.C.'s assessment system is designed to align with the curriculum. Provincial assessments support a flexible, personalized approach to learning, and measure deeper, complex thinking. In Grade 10, students are required to write cross-curricular assessments in Numeracy and Literacy.

The Grade 10 Numeracy Assessment is a provincial measure that assesses student proficiency in numeracy. The assessment focuses on the application of mathematical concepts learned across multiple subjects from Kindergarten to Grade 10. It requires students to solve problems by using five numeracy processes: interpret, apply, solve, analyze and communicate. For further information, please visit:

Note:

These figures includes Grade 10 first-time writers only. Due to the Covid 19 pandemic, the April 2020 administration was cancelled, resulting in a significant percentage of students not participating in that year's assessment. Consequently, these students will be writing in the following school year(s), thereby impacting participation rates going forward.

The Ministry masking policy <https://www2.gov.bc.ca/gov/content/education-training/k-12/administration/legislation-policy/public-schools/protection-of-personal-information-when-reporting-on-small-populations> requires suppression of values below 10

in order to protect individual privacy. However, in order to avoid the masked number being easily calculated, the second-lowest number must also be masked. As such, a masked Graduation Assessment category means that either fewer than 10 learners are in that category, or that the category has the next-smallest number, and has been masked to protect the smallest cell size.

GRADE 10 LITERACY ASSESSMENT

B.C.'s assessment system is designed to align with the curriculum. Provincial assessments support a flexible, personalized approach to learning, and measure deeper, complex thinking. In Grade 10, students are required to write cross-curricular assessments in Numeracy and Literacy.

The Grade 10 Literacy Assessment is a new provincial measure that assesses student proficiency in Literacy. This assessment was introduced in 2019/20 school year. It assesses a student's ability to use critical thinking and analysis to make meaning from a diverse array of texts. It also assesses the ability of students to communicate their ideas. COURSE MARK RESULTS 2019/20: OVERVIEW

British Columbia's redesigned curriculum brings together two features that most educators agree are essential for 21st-century learning: a concept-based approach to learning and a focus on the development of competencies, to foster deeper, more transferable learning. These approaches complement each other because of their common focus on active engagement of students. The redesign of curriculum maintains a focus on sound foundations of literacy and numeracy while supporting the development of citizens who are capable thinkers and communicators, and who are personally and socially competent in all areas of their lives.

When drafting curricula, the First Peoples Principles of Learning provided a crucial lens for teacher teams, and all curriculum teams included Aboriginal representation. The teams put great effort into embedding Aboriginal knowledge and worldviews in curriculum in authentic and meaningful ways. Curriculum material was reviewed by Ministry staff as well as by Aboriginal teachers and other experts such as the First Nations Education Steering Committee (FNESC).

FIRST NATIONS LANGUAGES COURSES (GRADE 10 - 12) 2019/20: OVERVIEW

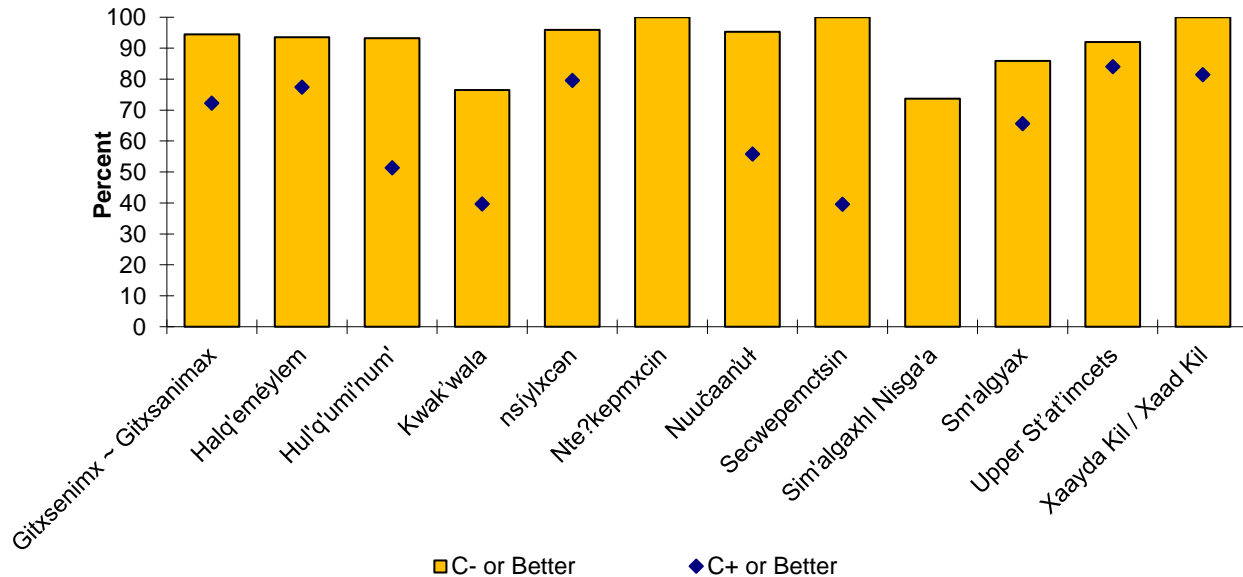

There are many First Nations languages in British Columbia for which curricula have been developed and Ministry approved through the Provincial Languages Template development process.

<https://www2.gov.bc.ca/gov/content/education-training/k-12/teach/resources-for-teachers/curriculum/languages-template/indigenous-languages>

There are currently 18 approved First Nations languages courses in B.C. Courses where no students were enrolled during the 2019/20 school year are omitted from the following language listing. Some school districts may offer other Aboriginal language courses, which are not covered in this report.

First Nations Languages Courses for Aboriginal Students, 2019/20

Note:

' - ' represents No data

The First Nations languages in this report are listed as they are represented in Integrated Resource Packages submitted to the Ministry of Education for curriculum approval. The Ministry acknowledges that the spelling for these languages may not reflect how a First Nation currently represents their language.

PROGRESS OF STUDENTS ENTERING GRADE 8

The data represent a cohort of students as they progress from Grade 8 through to Grade 12 completion. Each year out-migration estimates are factored in. If a student leaves for another district, that student's information will be reported in the new district's cohort information. (Grade transition includes transitions to a higher grade in any B.C. Public or Independent school.)

FIVE-YEAR COMPLETION RATE, 2015/16 - 2019/20

The five-year completion rate is the percent of Grade 8 students who graduate with a Certificate of Graduation within 5 years, adjusted for outmigration. It is not the inverse of a "dropout rate" as students may graduate after the five-year period.

SIX-, SEVEN- AND EIGHT-YEAR SCHOOL COMPLETION RATES

The student cohort start year is the year a student enters Grade 8 for the first time. The 2013/14 and 2014/15 cohorts will be incomplete as they have not yet attained their seventh and/or eighth years. See glossary for completion rate definitions.

BC SCHOOL COMPLETION CERTIFICATE AND BC CERTIFICATE OF GRADUATION

The School Completion Certificate ("Evergreen" Certificate) was developed in the 2006/07 school year. It was a Ministry response to parents and educators who wanted to better celebrate students, primarily those with special learning needs and individual education plans, who had succeeded in meeting the goals of their educational program other than graduation.

STUDENT LEARNING SURVEY RESULTS, 2015/16 - 2019/20

The Student Learning Survey is an annual province-wide census. This means that instead of sampling a small percentage, all students in the targeted grades are encouraged to participate. Because it is a census, the survey is representative even at the school level.

Some students do not complete surveys. Overall the response rates are around 75% for elementary grades and around 50% for secondary grades.

Some demographic information is taken from survey questions (e.g. grade level). The Aboriginal ancestry question is skipped by fewer than 1% of respondents, and so results by Aboriginal ancestry are considered to be representative of respondents and of the school population.

The following is a subset of questions from the Student Learning Survey. These questions were selected because they help to provide students' perspectives regarding their sense of belonging. For more information on the provincial Student Learning Survey, please visit: <https://www2.gov.bc.ca/gov/content/education-training/k-12/support/student-learning-survey>

CAVEAT

With the focus on modernizing learning, there is a pressing need for information about the contexts that determines outcomes. Consequently, the Ministry (working with School Districts and Students), re-designed the survey to focus on learning processes as well as satisfaction. Reflecting this change, the survey has been called the "Student Learning Survey" since 2016/17.

More questions have been added since 2016/17, including new questions related to themes and categories of interest to clients, new open-ended questions, and the survey has been "PENed".

Report users should carefully compare any results after 2016/17 against trends established in earlier years, and consider the change of 2016/17 results if they differ greatly from established trends.

The suspension of in-class instruction from mid-March to the end of May 2020 under the direction of the Provincial Health Officer in response to the COVID-19 pandemic resulted in a reduced number of respondents for the 2019/20 Student Learning Survey administration.

GLOSSARY

GLOSSARY ITEM	DEFINITION
Aboriginal Student	A student who has self-identified as being of Aboriginal ancestry (First Nations: Status and Non-Status, Métis and Inuit). Aboriginal ancestry and Status Indian living on reserve is indicated on the Student Data Collection Form 1701. For data collection purposes a student identified as Aboriginal will be considered Aboriginal from the 2003/04 school year forward. Status Indians are Aboriginal people who meet the requirements of the Indian Act and who are registered under the Act.
Alternate Programs	Programs that meet the special requirements of students who may be unable to adjust to the requirements of regular schools (for example timetables, schedules, or traditional classroom environment). Does not include distributed learning programs or schools.
Completion Rate	See Six-Year Completion Rate.
Eligible Grade 12 Graduation Rate	The proportion of eligible-to-graduate Grade 12 students who graduated in that school year. Students are eligible to graduate if they have enrolled in sufficient courses to meet the requirements to graduate during that school year.
Enrolment	A record of a student reported to the Ministry as receiving an educational program. A student may be recorded and counted as an enrolment in more than one school. Enrolment counts include the records of all adults and school-age persons who are working towards graduation. Registered homeschooled children are not included.
Course Mark	The result achieved by student, as assigned by the teacher at the school level, in a particular course.
Graduation	A Certificate of Graduation is awarded by the Ministry of Education upon successful completion of the British Columbia Provincial Graduation Requirements.
Headcount	A count of unique individuals.
Hyphen	A hyphen (-) is used in two situations: 1. The data are not available (for example, the Foundation Skills Assessment report provides information on a range of years that may include years “in the future”), so a hyphen is used. 2. The data describe an outcome (such as a percent or rate) where the underlying number of students or enrolments is zero (0). For example, consider a Grade 12 class that has no students enrolled in an ELL program. When reporting the percent of Grade 12 ELL students who achieved a C+ or better in math, it is not appropriate to report any math outcomes for ELL students, so a hyphen is used.
Msk	Abbreviation for Mask, which indicates that the information has been suppressed to protect personal information. The Ministry Masking Policy is intended to prevent the possibility of associating statistical data with an identifiable individual. To protect the privacy of individuals, very small population numbers must be suppressed (masked) when the Ministry of Education reports or otherwise publicly releases aggregated data. For more information please refer to: https://www2.gov.bc.ca/gov/content/education-training/k-12/administration/legislation-policy/public-schools/protection-of-personal-information-when-reporting-on-small-populations
Off-Reserve Aboriginal Student	Includes only Aboriginal students who live off a reserve and attend a B.C. public school.
On-Reserve Aboriginal Student	Includes only Aboriginal students who live on a reserve and attend a B.C. public school.
Participant (Foundation Skills Assessment)	A student who responded meaningfully to at least one question in the assessment.

Participation Rate (Foundation Skills Assessment)	The number of students who responded to at least one question in the assessment, divided by the total number of students in that grade.
Participation Rate (Graduation Assessment)	The number of first-time writers who responded successfully in the assessment, divided by the total number of students in that grade.
Performance (Foundation Skills Assessment)	<p>Until 2017/18, the student performance levels were:</p> <ul style="list-style-type: none"> • Not Yet Meeting - did not demonstrate sufficient skills to meet the minimum expectations for student's grade • Meeting - met the accepted expectations for student's grade • Exceeding - exceeded the expectations for student's grade <p>In 2017/18, the FSA categorization language evolved to reflect proficiency levels, and to be descriptive and strengths-based. The new levels are:</p> <ul style="list-style-type: none"> • Emerging - students demonstrate an initial understanding of the concepts and competencies relevant to the expected learning • On Track - students demonstrate a partial understanding of the concepts and competencies relevant to the expected learning • Extending - students demonstrate a sophisticated understanding of the concepts and competencies relevant to the expected learning
Performance (Graduation Assessment)	<p>Provincial graduation assessments use a four-level proficiency levels for reporting student achievement results:</p> <ul style="list-style-type: none"> • Emerging - students demonstrate an initial understanding of the concepts and competencies relevant to the expected learning • Developing - students demonstrate a partial understanding of the concepts and competencies relevant to the expected learning • Proficient - students demonstrate a complete understanding of the concepts and competencies relevant to the expected learning • Extending - students demonstrate a sophisticated understanding of the concepts and competencies relevant to the expected learning
Public School	A body of students, teachers, other staff, and facilities organized as a unit for educational purposes under the supervision of an administrative officer and administered by a district school board. Types of public schools include: Standard schools; short-term and long-term Provincial Resource Programs; Youth Custody/Residential Attendance Centers; District Continuing Education Centres; Alternate Program Schools, Distributed Learning Schools. Individual schools can only be associated with one District. A School does not include Federal Band schools, offshore schools offering B.C. educational programs, or Yukon schools. Public school facility types are defined in the Form 1601 instructions. Public school facility types are determined by program (and, in some cases, physical location).
School District	A geographic area in British Columbia constituted as a district under the School Act. There are currently 59 school districts and one Francophone Education Authority.
School Year	The school year includes a portion of two regular calendar years. It is the 12-month period commencing on July 1 and ending the following June 30.
Six-Year Completion Rate	<p>The proportion of students who graduate, with a British Columbia Certificate of Graduation or British Columbia Adult Graduation Diploma, within six years from the first time they enrol in Grade 8, adjusted for migration in and out of British Columbia.</p> <p>The Six-Year Completion Rate is calculated by using the percentage of students who graduate within six years from the time they enrol in Grade 8, adjusted for migration in and out of B.C. A six-year rate provides students with an extra year beyond the five years required to move through Grades 8-12.</p> <p>In this report, when the six-year rate is reported, numbers for prior school years are not updated (Page 36). When the six-year rate is reported with the seven- and eight-year rates, numbers for prior school years are updated (Page 37).</p>

Students with Disabilities or Diverse Abilities (in performance-oriented reports)	<p>When the Ministry of Education reports on the performance of Students with Disabilities or Diverse Abilities, only these three groupings are included:</p> <ul style="list-style-type: none"> • Sensory Disabilities (Categories E and F) • Learning Disabilities (Category Q) • Behaviour Disabilities (Categories H and R) <p>These groupings reflect those students who are working towards a Certificate of Graduation and for whom the Ministry's student achievement measures are most meaningful.</p>
Students with Disabilities or Diverse Abilities (12 Categories)	<p>Category A – Physically Dependent Category B – Deafblind Category C – Moderate to Profound Intellectual Disability Category D – Physical Disability / Chronic Health Impairment Category E – Visual Impairment Category F – Deaf or Hard of Hearing Category G – Autism Spectrum Disorder Category H – Intensive Behaviour Interventions / Serious Mental Illness Category K – Mild Intellectual Disability Category P – Gifted Category Q – Learning Disability (formerly Category J) Category R – Moderate Behaviour Support / Mental Illness (formerly Categories M and N)</p>
Student	<p>A school-aged or adult individual enrolled in a B.C. school. Student populations are calculated by headcount. Registered homeschooled children are not included as students.</p>
Student Cohort	<p>A group of students who share particular characteristics and who are tracked over a period of time.</p>
