## Introduction

### Purpose of Report

This report updates the 2011–12 Integrated Postsecondary Education Data System (IPEDS) survey components report—*The History and Origins of Survey Items for the Integrated Postsecondary Education Data System*—in order to reflect the 2016–17 data collection. As the first report did, this report provides an inventory of the IPEDS data items and survey components and aligns them with their legislative origins and requirements. It is the purpose of this report to provide background information on IPEDS that can be used by the National Center for Education Statistics (NCES), IPEDS Technical Review Panels (TRPs), and IPEDS data users when evaluating potential changes to the IPEDS data collection.

As an update, this report builds on the inventory and documentation of survey items in the earlier report, which was performed under the guidance of the National Postsecondary Education Cooperative (NPEC).<sup>1</sup> This report was prepared under the auspices of NCES.

### Organization of Report

Following this introduction, the report is organized into four sections:

- I. The background section provides general information about the history of postsecondary institutional data collections conducted by the U.S. Department of Education and the origins of the IPEDS survey components. Statutory and other requirements that apply to all or multiple IPEDS components are described.
- II. A section for each survey component includes
  - a general history of the component;
  - a summary of statutory provisions specific to that component;
  - requirements for how the data are reported;
  - summary of data from the component that appear in the *Digest of Education Statistics 2015*; and
  - a table that, for each item, includes
    - the specific survey form(s) on which the item appears;
    - whether the item is reported or calculated; whether the item was included in the last Higher Education General Information Survey (HEGIS) forms (1984–85, 1985–86, or 1986–87), was recommended by the IPEDS TRP, is required by statute, or is included for another reason;
    - notes, including applicable statutory requirements (if any), and other information (for instance, it is noted if the item is not included in the [IPEDS Data Center](#)<sup>2</sup>);

---

<sup>1</sup> NPEC was established by NCES and is a voluntary organization that includes representatives from federal agencies, postsecondary institutions, associations, and other organizations that have a major interest in postsecondary education data collection. Its mission is to promote the quality, comparability, and utility of postsecondary data and information that support policy development at the federal, state, and institutional levels.

<sup>2</sup> The IPEDS Data Center is designed as a centralized, web-based tool for the retrieval and analysis of IPEDS data, the system allows users to access and evaluate institutional data using a wide-range of analytical features that includes the ability to construct customized data sets, download full data files, and create statistical and trend analyses reports.

- date added to the IPEDS data collection, if not included on the last HEGIS survey forms; and
- whether the data for the item appear in the *Digest of Education Statistics*.

*Some IPEDS data are collected for the current year and other data are collected for prior years. Unless otherwise indicated, references to dates in the report are to IPEDS data collection years, not the data years.*

- III. Appendix A includes a list of the *Digest of Education Statistics 2015* figures and tables that contain data from the IPEDS components (except Human Resources and Outcome Measures).
- IV. Appendix B contains a detailed list of the relevant HEGIS and IPEDS survey forms available from NCES (paper copies and forms archived on the NCES website).

(8) IPEDS Survey Components:

- [12-month Enrollment \(E12\)](#), 2007–08 to 2016–17 (enrollment for 2006–07 to 2015–16)
- [Admissions \(ADM\)](#), 2014–15 to 2016–17
- [Academic Libraries \(AL\)](#), 1988–89 to 1998–99, 2014–15 to 2016–17 (data reported for 1987–88 to 1997–98, 2013–14 to 2015–16)
- [Completions \(C\)](#), 1987–88 to 2016–17 (awards conferred from 1986–87 to 2015–16)
- [Consolidated \(CN\) Survey, for non-degree-granting institutions](#), 1990–91 to 1999–2000
- [Fall Enrollment \(EF\)](#), 1986–87 to 2016–17
- [Finance \(F\)](#), 1987–88 to 2016–17 (FY 1987 to FY 2016)
- [Graduation Rates \(GR\)](#), [Graduation Rates Supplement](#), and [200% Graduation Rates \(GR200\)](#), 1997–98 to 2016–17
- [Human Resources \(HR\)](#), 2005–06 to 2016–17
- [Institutional Characteristics \(IC\)](#), 1985–86 to 2016–17
- [IC Header](#), 2010–11 to 2016–17
- [Outcome Measures \(OM\)](#), 2015–16 to 2016–17
- [Residence of First-Time Students](#), 1986–87 to 1988–89 (moved to EF in 1990–91)
- [Student Financial Aid \(SFA\)](#), 2000–01 to 2016–17 (aid conferred from 1999–2000 to 2015–16) (These data were collected as the Institutional Prices and Student Financial Aid (IPSFA) component in 1999–2000)
- [Total Institutional Activity \(EA\)](#), 1987–88 to 1989–90 (activity for 1986–87 to 1988–89) (These data were moved to IC in 1990–91 and then to EF in 2000–01)

(9) “Mail-Out” letters from July 1984, November 1985, August 1986, August 1987, August 1988, and July 1990. These letters informed institutions of the upcoming mailing of the HEGIS or IPEDS paper forms for each year.

(10) [NCES annual notices about changes to IPEDS](#) (available 2003–04 to 2016–17)

- (11) [NCES Handbook of Survey Methods](#) (2003)
- (12) Statutory Provisions
  - a. Code of Federal Regulations
  - b. Public Laws
  - c. U.S. Code

*This page left intentionally blank.*

## Background

The origins of the IPEDS data collection date back to the very beginnings of the U.S. Department of Education. Key events in the evolution of IPEDS and the different survey components are detailed below.

The U.S. Department of Education established. The Department of Education<sup>3</sup> was established in 1867 for the purpose of “collecting such statistics and facts as shall show the condition and progress of education in the several States and territories, and of diffusing such information respecting the organization and management of schools and school systems, and methods of teaching, as shall aid the people of the United States in the establishment and maintenance of efficient school systems, and otherwise promote the cause of education throughout the United States” (cited in P. L. 103-382, Title IV, § 402(a)).

Early data collections. According to the source information in the *Digest of Education Statistics 2015*, a federal education agency has collected higher education data for enrollment, earned degrees conferred, and faculty since 1869–70. The [\*1874 Report of the Commissioner of Education\*](#) also included higher education information for libraries and financial data for 1870–74.

National Center for Education Statistics (NCES) established. The responsibility for collecting and disseminating statistics and other data related to education in the United States was officially assigned to NCES when it was established in 1974<sup>4</sup> (P.L. 93-380) as part of the Education Division of the U.S. Department of Health, Education, and Welfare (HEW). NCES became part of the Office of Educational Research and Improvement when the current Department of Education was established in 1979 (P.L. 96-88). The Education Sciences Reform Act of 2002 (P.L. 107-279) established NCES within the Institute of Education Sciences (20 U.S.C. 9541).

Higher Education General Information Survey (HEGIS). The HEGIS surveys were administered between 1966–67 and 1986–87. The 1970 edition of the *Digest of Education Statistics* includes information on institutional characteristics, fall enrollment, earned degrees conferred, finances, faculty salaries, faculty and other professional staff, student charges (tuition and fees, and room and board rates), residence and migration, student financial aid, land-grant institutions, enrollment for advanced degrees, and engineering enrollments and degrees.

The 1986–87 *Directory of Postsecondary Institutions* listed the HEGIS surveys at that time: annual or biennial surveys of institutional characteristics, fall enrollment and compliance reports, earned degrees conferred, finance, and faculty salaries; and periodic surveys of residence and migration, libraries, and physical facilities. The HEGIS universe in 1986–87 included 3,340 institutions accredited at the college level (2,029 four-year and 1,311 two-year).

---

<sup>3</sup> Various called a bureau, office, or division in subsequent reorganizations that placed the agency in the Department of the Interior in 1869, the Federal Security Agency in 1939, and the Department of Health, Education, and Welfare, when it was created in 1953.

<sup>4</sup> The earliest reference to NCES was found in the 1965 edition of the *Digest of Education Statistics*. Publication information in the 1962–64 editions of the *Digest* referred to the “Division of Educational Statistics” in the Bureau of Educational Research and Development (in HEW).

Integrated Postsecondary Education Data System (IPEDS). IPEDS was phased in between 1985–86 and 1988–89, beginning with the 1985–86 Institutional Characteristics (IC) survey. The universe of institutions included all institutions whose primary purpose was to provide postsecondary education programs and that were open to the general public. The 1987–88 *Directory of Postsecondary Institutions* reported 12,052 institutions (2,652 four-year, 2,925 two-year, and 6,475 less-than-two-year).

The IPEDS surveys implemented in 1986–87 included the Fall Enrollment (EF) and Compliance surveys and the Residence of First-Time Students Survey (the residence and migration survey items were moved to EF in 1990–91). Several other surveys were implemented in 1987–88: Total Institutional Activity (EA), Completions (C), Finance (F), Staff,<sup>5</sup> Salaries of Full-Time Instructional Faculty, and Enrollment in Occupationally Specific Programs (EP).<sup>6</sup> The Academic Libraries Survey (ALS) was administered as a component of IPEDS between 1988 and 1998; between 2000 and 2012, it was administered independently of IPEDS. The Consolidated Survey (for non-degree-granting institutions) was administered between 1990–91 and 1999–2000.

Eight survey components have since been added:

- The Graduation Rates (GR) component was added in 1997–98, following enactment of the Student Right-to-Know and Campus Security Act of 1990 (P.L. 101-542). The Graduation Rates Supplement form was added in 1999-2000 to allow institutions to report completions within 150 percent of normal time for students in long programs (3 years or longer for 2-year institutions, 5 years or longer for 4-year institutions). The Higher Education Opportunity Act of 2008 (HEOA) (P.L. 110-315) required the collection of additional items in the GR component and the collection of 200% Graduation Rates (GR200) in the Spring Supplemental component in 2008–09 and in the GR200 component starting in 2009–10.
- The Student Financial Aid (SFA) component was developed in 1999 to satisfy requirements in the 1998 amendments to the Higher Education Act (HEA) (P.L. 105-244). The SFA data originally were included with price information in the 1999 Institutional Prices and Student Financial Aid (IPSFA) component. In 2000–01, the price information was moved to the IC component.
- The Employees by Assigned Position (EAP) component was introduced in 2001–02. The EAP was merged with the Salaries and Staff survey components to form a single Human Resources component in 2005–06.
- The 12-month unduplicated enrollment count and instructional activity portions of the EF component were moved in 2007–08 to a separate 12-month Enrollment (E12) component. These data were originally collected separately in the EA survey, beginning in 1986–87, then added to the IC component in 1990–91 and moved to the EF component in 2000–01.

---

<sup>5</sup> The IPEDS Staff survey was originally administered to institutions that were not required to submit data to the Equal Employment Opportunity Commission (EEOC). The IPEDS Staff survey replaced the EEOC survey for all institutions in 1993–94.

<sup>6</sup> Data for the IPEDS EP component were last collected in 1997–98.

- In 2010–11, a few items were moved from the IC component to a new component, IC Header. These items determine the applicability and version for the remaining IPEDS survey components.
- The Admissions (ADM) portions of the IC component were moved to a separate Admissions component in 2014–15. These data had been added to the IC component in 2000–01.
- In 2014–15, the Academic Libraries (AL) component was reintroduced to IPEDS, replacing the independent Academic Libraries Survey. The AL component became a mandatory, annual survey for all degree-granting Title IV institutions.
- The Outcome Measures (OM) component was first administered in the 2015–16 collection to provide alternative measures of student success to reflect more accurate graduation rates for the 2-year sector for purposes of the Student Right to Know and Campus Security Act of 1990.

IPEDS mandatory. The HEA Amendments of 1992 (P.L. 102-325) added a provision regarding IPEDS to the Title IV HEA Student Financial Aid Program Participation Agreement (PPA). HEA Sec. 487(a)(17) states: “The institution will complete surveys conducted as a part of the Integrated Postsecondary Education Data System (IPEDS) or any other Federal postsecondary institution data collection effort, as designated by the Secretary, in a timely manner and to the satisfaction of the Secretary (20 U.S.C. 1094(a)(17)).”

IPEDS redesign. The 1998 amendments to the HEA (P.L. 105-244) required that the relevant parts of IPEDS be redesigned “to improve the usefulness and timeliness of the data collected . . .”

The final report of the NCES Taskforce for IPEDS Redesign, the *Integrated Postsecondary Education Data System (IPEDS): An Improved System*, was submitted to the NCES Commissioner on August 31, 1999. Goals for the revised IPEDS included improving the timeliness and quality of IPEDS data, ensuring the relevance of the data, increasing the efficiency of the collection and utility of the data, and enhancing communication and collaboration with data providers and stakeholders.

The most significant change implemented in IPEDS based on the taskforce’s recommendations was to move to a web-based system to provide more timely data (that would be easier to access and use) and to make the reporting process less burdensome. The web-based system was implemented with three waves of collection (fall, winter, and spring) geared to the institutional availability of data and with built-in edits and other quality checks to process data at the time of data entry to shorten data processing times and improve data quality. The taskforce also recommended technical assistance for data providers in the use of the web-based-system through training workshops and Help Desk support.

To enhance data dissemination, the taskforce recommended a peer analysis system and other online programs for access to information, including a web page for each institution with basic information of interest to the general public, particularly parents and students who are searching for institutions (originally named College Opportunities On-Line, currently part of the College Navigator website).

Other changes to IPEDS, based on the taskforce’s recommendations, included

- changes in coverage: a full set of data from all institutions participating in Title IV HEA student financial aid programs and a minimal set of data from all non-Title IV HEA institutions open to the general public;
- changes in reporting data on employees (in the EAP survey);
- changes in data content in the IC, C, and EF surveys;
- deletion of the EP survey; and
- multiple approaches to maintain effective communication with data providers, data users, and other stakeholders; coordination and collaboration with other major data developers to reduce overall response burden; and a process of continuous improvement for IPEDS.

Higher Education Act. The 1998 amendments to the HEA (P.L. 105-244) required NCES to collect information on institutional price and student financial aid and make it available in a form that would allow parents and students to make informed decisions about institutions (see the section on the Student Financial Aid component for complete information).

The amendments to the HEA in the HEOA (P.L. 110-315) significantly increased the amount of “consumer information” that NCES is required to provide (through the College Navigator website) (HEA Sec. 132(i)(A) to (Z)). Some of the information was already collected in IPEDS, but changes and additions were made to the IC, GR, EF, and SFA components to collect the additional information.<sup>7</sup>

Requirements for Reporting by Race/Ethnicity and Gender. The 1976 amendments (P.L. 94-273) to the 1974 statute (P.L. 93-380) establishing NCES added a provision (later removed) requiring the coordination of the collection of information and data acquisition activities of HEW’s Education Division and the Education Department’s Office for Civil Rights (OCR). According to the *NCES Handbook of Survey Methods* (2003), NCES and OCR have collaborated since that time, in HEGIS and in IPEDS, on the collection of the racial/ethnic data needed for compliance with Title VI of the Civil Rights Act of 1964 (34 CFR 100.6(b)) and on regulations implementing Title IX of the Education Amendments of 1972 that require data on gender (34 CFR Part 106).

The National Education Statistics Act of 1994 in the Improving America’s Schools Act of 1994 (P.L. 103-382). The 1994 NCES reauthorization statute (P.L. 103-382) added the requirement that NCES collect, analyze, cross-tabulate, and report, “to the extent feasible,” data by gender and race. The 2002 NCES reauthorization statute (P.L. 107-279) mandated that NCES collect and disseminate data by additional population characteristics, including ethnicity (20 U.S.C. 9543(a)(3)).

The Education Sciences Reform Act (ESRA) of 2002 (P.L. 107-279). The ESRA of 2002 establishes the Institute of Education Sciences as consisting of four centers, including the National Center for Education Statistics (NCES). This act directs NCES to collect, report, analyze, and

---

<sup>7</sup> Prior to the HEOA, most new or revised IPEDS reporting requirements were introduced with at least 1 year of optional reporting. The short timeframe NCES was allowed for posting the information (1 year from the date of enactment of the HEOA) required NCES to implement new or revised items that were required in the first year (2008–09 or 2009–10), including a supplemental form in 2008–09 that collected information on students with disabilities and additional graduation rates information.

disseminate statistical data related to the condition and progress of postsecondary education, including access to and opportunity for postsecondary education (including data on financial aid to postsecondary students), the financing and management of education (including data on revenues), student participation in and completion of postsecondary vocational and technical education programs by specific program area, and the existence and use of school libraries. The act also directs NCES to conduct and publish reports on the meaning and significance of the statistics as well as analyze, cross-tabulate, and report, to the extent feasible, information by gender, race, ethnicity, socioeconomic status, and other population characteristics, when such disaggregated information will facilitate educational and policy decisionmaking.

Standards for IPEDS Race/Ethnicity Reporting. The current categories for reporting race/ethnicity are required under the Department of Education's "Final Guidance on Maintaining, Collecting, and Reporting Racial and Ethnic Data to the U.S. Department of Education" (*Federal Register*, October 19, 2007), which implements OMB's 1997 race/ethnicity standards. The new categories were first implemented in IPEDS in 2008–09 and became mandatory for all IPEDS components beginning with the 2011–12 collection year.

Revised Categories for Postbaccalaureate Programs. New postbaccalaureate award categories and definitions were implemented for the EF, IC, C, and E12 components in 2008-09. The post-master's and first-professional certificate categories were combined into one category, and doctor's degrees were divided into three categories: research/scholarship, professional practice, and other. The new categories became mandatory for the EF component in 2009–10 and for the C, IC and E12 components in 2010–11.

Classification of Instructional Programs (CIP). The CIP is a taxonomic scheme that identifies fields of study in the IPEDS IC, EF, and C components. It was originally developed by NCES in 1980, with revisions in 1985, 1990, 2000, and 2010. The use of the 2010 version of the CIP has been required since the 2010–11 data collection year.

## **IPEDS Survey Components**

The following sections present the general history of each survey component; a summary of statutory provisions specific to that component; requirements for how the data are reported; a summary of data from the component that appear in the *Digest of Education Statistics 2015*; and a table with the specific survey form(s) on which each item appears. The survey component sections are presented in alphabetical order.

*This page left intentionally blank.*

## **IPEDS 12-month Enrollment (E12) Component**

### **History**

Beginning in 1987–88, 12-month unduplicated enrollment count and instructional activity items were collected in the IPEDS Total Institutional Activity (EA) component. The items were moved to the Institutional Characteristics (IC) component in 1990-91 and to the Fall Enrollment (EF) component in 2000–01. In 2007–08, a new 12-month enrollment (E12) component was created to collect these enrollment items.

As of the 2011–12 data collection year, all institutions report E12 data using the same reporting period: July 1 of the previous calendar year to June 30 of the current calendar year. From the 2000–01 through the 2010–11 data collections, institutions were able to choose either September 1 of the previous calendar year to August 30 of the current calendar year or July 1 of the previous calendar year to June 30 of the current calendar year. Prior to the 2000–01 data collection, institutions had the option of entering an alternative start date for the 12-month period, if they did not use the July 1–June 30 reporting period.

### **Summary of Statutory Requirements**

National Center for Education Statistics. The 1976 amendments (P.L. 94-273) to the 1974 statute (P.L. 93-380) establishing NCES added a provision (later removed) requiring the coordination of the collection of information and data acquisition activities of HEW's Education Division and the Department of Education's Office for Civil Rights (OCR). The OCR and NCES collaborate on the collection of the racial/ethnic data needed for compliance with Title VI of the Civil Rights Act of 1964 (34 CFR 100.6(b)) and on regulations implementing Title IX of the Education Amendments of 1972 that require data by gender (34 CFR Part 106).

The National Education Statistics Act of 1994 in the Improving America's Schools Act of 1994 (P.L. 103-382). The 1994 NCES reauthorization statute (P.L. 103-382) added the requirement that NCES collect, analyze, cross-tabulate, and report, "to the extent feasible," data by gender and race. The 2002 NCES reauthorization statute (P.L. 107-279) mandated that NCES collect and disseminate data by additional population characteristics, including ethnicity (20 U.S.C. 9543(a)(3)). The 1994 NCES reauthorization statute also required NCES to collect and disseminate data on access to, and the opportunity for, postsecondary education (20 U.S.C. 9543(a)(1)(E)).

The Education Sciences Reform Act of 2002 (P.L. 107-279). The ESRA of 2002 establishes the Institute of Education Sciences as consisting of four centers, including the National Center of Education Statistics (NCES). This act directs NCES to collect, report, analyze, and disseminate statistical data related to the condition and progress of postsecondary education, including access to and opportunity for postsecondary education (including data on financial aid to postsecondary students), the financing and management of education (including data on revenues), student participation in and completion of postsecondary vocational and technical education programs by specific program area, and the existence and use of school libraries. The act also directs NCES to

conduct and publish reports on the meaning and significance of the statistics as well as analyze, cross-tabulate, and report, to the extent feasible, information by gender, race, ethnicity, socioeconomic status, and other population characteristics, when such disaggregated information will facilitate educational and policy decisionmaking.

### **Data Reporting Requirements**

Race/Ethnicity. The new OMB categories for reporting race/ethnicity were first implemented in IPEDS in 2008–09 and were mandatory for the E12 component beginning with the 2011–12 collection year. The changes followed [\*TRP #17 - Implementing New Race/Ethnicity Standards\*](#), which suggested that reporting using the new race/ethnicity categories be mandatory for all IPEDS components beginning with the 2010–11 collection year.

Revised Categories for Postbaccalaureate Programs. The new postbaccalaureate award categories and definitions were implemented for the E12 component in 2008–09 and became mandatory in 2010–11. The revisions were initiated as a result of [\*TRP #7 – Suggested Changes in First-Professional Degree Classification. Update to TRP #7 – Additional Comments on Suggested Changes in First-Professional Degree Classification\*](#) provided more comments for degree classifications, and [\*Update to TRP #15 – Additional Comments Sought on First-Professional Degree Classification\*](#) proposed an implementation schedule for the revisions.

## **IPEDS Academic Libraries (AL) Component**

### **History**

From 1966 through 1988, the Academic Libraries Survey (ALS) was a part of the Higher Education General Information Survey (HEGIS) and it was conducted on a 3-year cycle. From 1988 through 1998, academic library data were collected through the IPEDS Academic Libraries (AL) component, with the data collection conducted on a 2-year cycle. From 2000 through 2012, academic libraries data were collected independently of IPEDS, through the NCES Library Statistics Program. However, the data collection remained on a 2-year cycle, and IPEDS and ALS data were still linked by the identification codes of the postsecondary education institutions.

In 2014–15 (2013–14 preview year), the collection of academic libraries data was reintegrated into IPEDS, and the AL component became a mandatory, annual survey for all degree-granting Title IV institutions. At this time, many questions from the 2012 ALS collections and services sections were removed or revised and survey questions related to library staff were moved to the IPEDS Human Resources component.

The AL survey component collects counts of library books, serials, media, and databases, both in physical and electronic formats. Additionally, academic libraries report on interlibrary loan services. If an institution's library expenses are equal or greater than \$100,000, it is also asked to report additional details about its expenses to IPEDS: salaries, wages, and fringe benefits, if paid from the library budget; materials and services expenditures; operations and maintenance expenditures; and total expenditures. In aggregate, these data provide an overview of the status of academic libraries nationally and by state.

### **Summary of Statutory Requirements**

The Education Sciences Reform Act (ESRA) of 2002 (P.L. 107-279). The ESRA of 2002 establishes the Institute of Education Sciences as consisting of four centers, including the National Center for Education Statistics (NCES). This act directs NCES to collect, report, analyze, and disseminate statistical data related to the condition and progress of postsecondary education including access to and opportunity for postsecondary education (including data on financial aid to postsecondary students), the financing and management of education (including data on revenues), student participation in and completion of postsecondary vocational and technical education programs by specific program area, and the existence and use of school libraries. The act also directs NCES to conduct and publish reports on the meaning and significance of the statistics as well as analyze, cross-tabulate, and report, to the extent feasible, information by gender, race, ethnicity, socioeconomic status, and other population characteristics, when such disaggregated information will facilitate educational and policy decisionmaking.

## Data Reporting Requirements

Academic Libraries Data. [TRP #35 – Report and Suggestions on Reintegrating the Academic Libraries Survey into IPEDS](#) integrated a number of data elements from the Academic Libraries Survey into the IPEDS AL component. These elements were integrated into IPEDS in order to reduce the reporting burden for institutions (estimated reduction from 8 to 4 hours), improve response rates, and retain the federal data necessary for policymaking and analysis. The AL component has been added to the spring data collection.

## **IPEDS Admissions (ADM) Component**

### **History**

Beginning in 2000-01, admissions data were collected for IPEDS through the Institutional Characteristics (IC) component. In 2014–15, the collection of these data was moved to a separate Admissions (ADM) component.

### **Summary of Statutory Requirements**

Higher Education Act Amendments of 1998. The 1998 amendments to the HEA (P.L. 105-244) required that the relevant parts of IPEDS be redesigned “to improve the usefulness and timeliness of the data collected...” The NCES Taskforce for IPEDS Redesign recommended several changes, including the addition of items on admissions and student services to the IC component.

Higher Education Opportunity Act of 2008 (P.L. 110-315). The HEOA requires NCES to post several types of information for each institution on the College Navigator website (HEA Sec. 132(i)), including the following items related to the ADM component:

- total number of undergraduate students who applied to, were admitted by, and enrolled in the institution;
- SAT or ACT scores at the 25<sup>th</sup> and 75<sup>th</sup> percentiles and TOEFL scores (for institutions that require the submission of SAT, ACT, or TOEFL scores);
- secondary school GPA, rank, and record; and
- completion of college-preparatory program.

The Education Sciences Reform Act (ESRA) of 2002 (P.L. 107-279). The ESRA of 2002 establishes the Institute of Education Sciences as consisting of four centers, including the National Center for Education Statistics (NCES). This act directs NCES to collect, report, analyze, and disseminate statistical data related to the condition and progress of postsecondary education, including access to and opportunity for postsecondary education (including data on financial aid to postsecondary students), the financing and management of education (including data on revenues), student participation in and completion of postsecondary vocational and technical education programs by specific program area, and the existence and use of school libraries. The act also directs NCES to conduct and publish reports on the meaning and significance of the statistics as well as analyze, cross-tabulate, and report, to the extent feasible, information by gender, race, ethnicity, socioeconomic status, and other population characteristics, when such disaggregated information will facilitate educational and policy decisionmaking.

### **Data Reporting Requirements**

Admissions Data. [TRP #20 – Changes to the IPEDS Data Collection Calendar](#) created a separate, small Admissions component in the winter collection from items formerly included in the IC component. This change allows institutions to report admissions data for the most recent fall period, which is now the only reporting period represented in each file. Moving

the admissions data allows the data to be used in the [Trend Generator](#)<sup>8</sup> and ensures that all of the admissions data displayed in the College Navigator represent the same fall period.

**Summary of Admissions Component**

## IPEDS Completions (C) Component

### History

One of the last HEGIS surveys to be administered, in 1986–87, was Degrees and Other Formal Awards Conferred for 1985–86. The IPEDS Completions (C) Survey was administered for the first time in 1987–88, with data collected data for 1986–87. In 2012–13, following the recommendations in [\*TRP #29- Improvements to the Completions Survey\*](#), several items were added to the Completions Survey in order to collect the unduplicated count of students and the total number of students who earned degrees or certificates by field of study, level of award, race/ethnicity, and gender.

### Summary of Statutory Requirements

National Center for Education Statistics and Office for Civil Rights. The 1976 amendments (P.L. 94-273) to the 1974 statute (P.L. 93-380) establishing NCES added a provision (later removed) requiring the coordination of the collection of information and data acquisition activities of HEW’s Education Division and the Department of Education’s Office for Civil Rights (OCR). OCR and NCES collaborate on the collection of the racial/ethnic data needed for compliance with Title VI of the Civil Rights Act of 1964 (34 CFR 100) and on regulations implementing Title IX of the Education Amendments of 1972 that require data by gender (34 CFR 106).

The National Education Statistics Act of 1994 in the Improving America’s Schools Act of 1994 (P.L. 103-382). The 1994 NCES reauthorization statute (P.L. 103-382) added the requirement that NCES collect, analyze, cross-tabulate, and report, “to the extent feasible,” data by gender and race. The 2002 NCES reauthorization statute (P.L. 107-279) mandated that NCES collect and disseminate data by additional population characteristics, including ethnicity (20 U.S.C. 9543(a)(3)). The 1994 NCES reauthorization statute also included the requirement that NCES collect and disseminate data on student achievement at all levels of education.

Higher Education Act. The HEA Amendments of 1998 (P.L. 105-244) required that the relevant parts of IPEDS be redesigned “to improve the usefulness and timeliness of the data collected...” The NCES Taskforce for IPEDS Redesign recommended several changes, including the reporting of double majors in the Completions Survey. From 1995–96 to 1999–2000, a clarifying question asked about the number of double majors by gender and award level. The reporting of double majors by CIP, award level, gender, and race/ethnicity began in 2001–02.

The amendments to the HEA in the HEOA (P.L. 110-315) require NCES to post several types of information for each institution on the College Navigator website (HEA Sec. 132(i)), including the following items related to the Completions Survey:

- number of certificates, associate’s degrees, baccalaureate degrees, master’s degrees, professional degrees, and doctoral degrees awarded by the institution; and
- undergraduate major areas of study at the institution with the highest number of degrees awarded.

The Education Sciences Reform Act (ESRA) of 2002 (P.L. 107-279). The ESRA of 2002 establishes the Institute of Education Sciences as consisting of four centers, including the National Center for Education Statistics (NCES). This act directs NCES to collect, report, analyze, and disseminate

statistical data related to the condition and progress of postsecondary education, including access to and opportunity for postsecondary education (including data on financial aid to postsecondary students), the financing and management of education (including data on revenues), student participation in and completion of postsecondary vocational and technical education programs by specific program area, and the existence and use of school libraries. The act also directs NCES to conduct and publish reports on the meaning and significance of the statistics as well as analyze, cross-tabulate, and report, to the extent feasible, information by gender, race, ethnicity, socioeconomic status, and other population characteristics, when such disaggregated information will facilitate educational and policy decisionmaking.

### Data Reporting Requirements

Race/Ethnicity. The new OMB categories for reporting race/ethnicity were first implemented in IPEDS in 2008–09 and became mandatory for the Completions Survey beginning in the 2011–12 collection year. The changes followed [TRP #17 – Implementing New Race/Ethnicity Standards](#), which suggested that the use of the new race/ethnicity categories be mandatory for all IPEDS components start in the 2010–11 collection year.

Classification of Instructional Programs. The use of the 2010 version of the Classification of Instructional Programs (CIP) has been required since the 2010–11 data collection year. The process to update the CIP included thorough background research and analysis, feedback from IPEDS keyholders, and input from [TRP #29 – Improvements to the Completions Survey](#).

The CIP provides a taxonomic scheme that supports the accurate tracking and reporting of fields of study and program completions activity. CIP was originally developed by the U.S. Department of Education’s National Center for Education Statistics (NCES) in 1980, with revisions occurring in 1985, 1990, and 2000.

**CIP Version  
Completions Data Year and Collection Year**

CIP Version	Data Year	Collection Year
CIP2010	2009–10 – 2015–16	2010–11 – 2016–17
CIP2000	2002–03 – 2008–09	2003–04 – 2009–10
CIP1990	1991–92 – 2001–02	1992–93 – 2002–03
CIP1985	1986–87 – 1990–91	1987–88 – 1991–92
CIP1980 <sup>9</sup>	1982–83 – 1985–86	1983–84 – 1986–87

Revised Categories for Postbaccalaureate Programs. The new postbaccalaureate award categories and definitions were implemented for the Completions component in 2008–09 and became mandatory in 2010–11. The revisions were initiated as a result of [TRP #7 – Suggested Changes in First-Professional Degree Classification](#). [Update to TRP #7 – Additional Comments on Suggested Changes in First-Professional Degree Classification](#) provided more

<sup>9</sup> Higher Education General Information Survey (HEGIS) collected data from 1966 to 1986.

comments for degree classifications, and [Update to TRP #15 – Additional Comments Sought on First-Professional Degree Classification](#) proposed an implementation schedule for the revisions.

Number of Students Who Earned Degrees. Items to collect the number of students who earned degrees or certificates, separately, by (1) gender; (2) race/ethnicity, and (3) age,<sup>10</sup> for each of the seven award categories,<sup>11</sup> were added in the 2012–13 collection to capture completers (graduates) versus completions (certificates and degrees awarded). In addition, an item to collect the total number of students who earned degrees or certificates, by race/ethnicity and gender, was added in 2012–13. These changes were proposed in [TRP #29 – Improvements to the Completions Survey](#).

Distance Education. An item that allows institutions to indicate, by CIP code and award level, whether a program is available to be completed online was added to the 2012–13 collection to capture the increased availability of “distance education” courses and programs and allow institutions to assess their distance education activities. The change was based on [TRP #23 – Collecting Data on Distance Education](#).

**Summary of Completions Component  
Data Included in the *Digest of Education Statistics 2015***

Type of Data	Earliest Data	Latest Data
Degrees Conferred, by Field of Study	1949–50	2013–14
Degrees Conferred, by Level of Degree	1869–70	2013–14
Degrees Conferred, by Race/Ethnicity	1976–77	2013–14
Degrees Conferred, by Gender	1869–70	2013–14

<sup>10</sup> Age categories are under 18, 18–24, 25–39, 40 and above, and age unknown.

<sup>11</sup> The award categories are less-than-1-year certificates, at-least-1-but-less-than-4-year certificates, associate’s degrees, bachelor’s degrees, master’s degrees, doctor’s degrees, and postbaccalaureate and post-master’s certificates.

## **IPEDS Fall Enrollment (EF) Component**

### **History**

The Fall Enrollment (EF) survey was originally conducted through HEGIS; the EF component was introduced to IPEDS in 1986–87. The Residence of First-Time Students Survey was originally conducted as a separate survey in both HEGIS and IPEDS, but was integrated into Part C of the IPEDS EF component in 1990–91.

### **Summary of Statutory Requirements**

National Center for Education Statistics. The 1976 amendments (P.L. 94-273) to the 1974 statute (P.L. 93-380) establishing NCES added a provision (later removed) requiring the coordination of the collection of information and data acquisition activities of HEW’s Education Division and the Department of Education’s Office for Civil Rights (OCR). OCR and NCES collaborate on the collection of the racial/ethnic data needed for compliance with Title VI of the Civil Rights Act of 1964 (34 CFR 100.6(b)) and on regulations implementing Title IX of the Education Amendments of 1972 that require data by gender (34 CFR Part 106).

The National Education Statistics Act of 1994 in the Improving America’s Schools Act of 1994 (P.L. 103-382). The 1994 NCES reauthorization statute (P.L. 103-382) added the requirement that NCES collect, analyze, cross-tabulate, and report, “to the extent feasible,” data by gender and race. The 2002 NCES reauthorization statute (P.L. 107-279) mandated that NCES collect and disseminate data by additional population characteristics, including ethnicity (20 U.S.C. 9543(a)(3)). The 1994 NCES reauthorization statute also required NCES to collect and disseminate data on access to, and the opportunity for, postsecondary education (20 U.S.C. 9543(a)(1)(E)).

Student Right-to-Know and Campus Security Act of 1990. The Student Right-to-Know and Campus Security Act of 1990 (P.L. 101-542) added graduation rates and campus security reports to the information that institutions that participate in Title IV HEA student financial aid programs are required to make available to current and prospective students and others (34 CFR 668.41, 34 CFR 668.45, and 34 CFR 668.48). The cohort data for the graduation rate information reported in the Graduation Rates (GR) component are collected in the EF component.

Higher Education Act. The HEA (P.L. 105-244) required that the relevant parts of IPEDS be redesigned “to improve the usefulness and timeliness of the data collected...” The IPEDS Redesign Taskforce recommended several changes, including adding the percentage of the total undergraduate entering class represented by the GR cohort.

Higher Education Opportunity Act of 2008. The amendments to the HEA in the HEOA (P.L. 110-315) require NCES to post several types of information for each institution on the College Navigator website, including the following items related to the EF component (HEA Sec. 132(i)):

- Number of students enrolled: first-time, full-time, and part-time at undergraduate and graduate levels;
- Number of degree/certificate-seeking undergraduate students who have transferred from another institution;
- Percentages of male and female undergraduates;
- Percentage of first-time degree/certificate-seeking undergraduates from the state in which the institution is located, the percentage from other states, and the percentage who are international students;
- Percentages of full-time, first-time degree/certificate-seeking undergraduate students disaggregated by race/ethnicity;
- Graduation rates (fall enrollment data are used to determine cohorts); and
- Student-to-faculty ratio.

The HEOA also requires institutions to disclose to current and prospective students the retention rates for full-time, first-time degree/certificate-seeking undergraduates (HEA Sec. 485(a)(1)(a)).

The Education Sciences Reform Act (ESRA) of 2002 (P.L. 107-279). The ESRA of 2002 establishes the Institute of Education Sciences as consisting of four centers, including the National Center for Education Statistics (NCES). The act directs NCES to collect, report, analyze, and disseminate statistical data related to the condition and progress of postsecondary education, including access to and opportunity for postsecondary education (including data on financial aid to postsecondary students), the financing and management of education (including data on revenues), student participation in and completion of postsecondary vocational and technical education programs by specific program area, and the existence and use of school libraries. The act directs NCES to conduct and publish reports on the meaning and significance of the statistics as well as analyze, cross-tabulate, and report, to the extent feasible, information by gender, race, ethnicity, socioeconomic status, and other population characteristics, when such disaggregated information will facilitate educational and policy decisionmaking.

## **Data Reporting Requirements**

Race/Ethnicity. The new OMB categories for reporting race/ethnicity were first implemented in IPEDS in 2008–09 and became mandatory for the EF component beginning in the 2010–11 collection year. The changes followed [\*TRP #17 – Implementing New Race/Ethnicity Standards\*](#), which suggested that reporting using the new race/ethnicity categories be mandatory for the EF component beginning in the 2009–10 collection year.

Classification of Instructional Programs. The use of the 2010 version of the CIP has been required since the 2010–11 data collection year. The process to update CIP included thorough background research and analysis, feedback from IPEDS keyholders, and input from [\*TRP #29 – Improvements to the Completions Survey\*](#).

The CIP provides a taxonomic scheme that supports the accurate tracking and reporting of fields of study and program completions activity. CIP was originally developed by the U.S. Department of Education’s National Center for Education Statistics (NCES) in 1980, with revisions occurring in 1985, 1990, and 2000.

**CIP Version  
Fall Enrollment Data Year and Collection Year**

<b>CIP Version</b>	<b>Data Year</b>	<b>Collection Year</b>
CIP2010	2009–10 – 2015–16	2009–10 – 2015–16
CIP2000	2002–03 – 2008–09	2002–03 – 2008–09
CIP1990	1991–92 – 2001–02	1991–92 – 2001–02
CIP1985	1986–87 – 1990–91	1986–87 – 1990–91
CIP1980 <sup>12</sup>	1982–83 – 1985–86	1982–83 – 1985–86

Revised Categories for Postbaccalaureate Programs. The new postbaccalaureate award categories and definitions were implemented for the EF component in 2008–09 and became mandatory in 2010–11. The revisions were initiated as a result of [TRP #7 – Suggested Changes in First-Professional Degree Classification](#). [Update to TRP #7 – Additional Comments on Suggested Changes in First-Professional Degree Classification](#) provided more comments on degree classifications, and [Update to TRP #15 – Additional Comments Sought on First-Professional Degree Classification](#) proposed an implementation schedule for the revisions.

Transfer-In Students. As a result of [TRP #11 – Report and Suggestions for the Expansion of Report Templates in the IPEDS Peer Analysis System](#), new templates for enrollment status and new transfer students, with breakdowns for race/ethnicity and gender, were added.

## IPEDS Finance (F) Component

### History

In 1986–87, Financial Statistics of Institutions of Higher Education for Fiscal Year 1986 became one of the last two HEGIS surveys to be conducted. The first IPEDS Finance (F) survey was conducted in 1987–88 (FY 1987).

All institutions reported the same finance information using the “Common Form” until 1996–97. A separate Finance form for private institutions was created in 1997–98, following changes issued by the Financial Accounting Standards Board (FASB) to accounting and financial reporting standards for private not-for-profit institutions. Private for-profit institutions used the same reporting form as private not-for-profit institutions, but with modified special instructions, until the Finance form for private-for-profit institutions was implemented in 1999–2000. Public institutions continued to report financial data based on Common Form reporting guidelines through 2001–02. The Finance form for public institutions was revised in 2002–03, following new standards implemented by the Governmental Accounting Standards Board (GASB), and a new form was phased in between 2002–03 and 2004–05.

[\*TRP #18 – Expanding and Improving IPEDS Finance Data\*](#) recommended changes to align the Finance form for institutions using GASB standards with the form for institutions using FASB standards to improve comparability and increase the utility of the data collected. These changes resulted in the “Aligned” Finance form for public institutions, which was phased in between 2008–09 and 2009–10. The Finance form for for-profit Institutions was reviewed by [\*TRP #39 – Report and Suggestions on Improving Finance Survey Forms for For-Profit Institutions\*](#) in an effort to increase data comparability across all Finance forms. As a result, IPEDS increased the amount of financial detail collected on the FASB form for for-profit institutions in 2014–15. [\*TRP #46 – Report and Suggestions on Improvements to the Finance Survey\*](#) recommended changes to the collection of expenses across all institutions in an effort to decrease the reporting burden and increase data utility. In 2016–17, NCES eliminated the detailed reporting expenses by natural expense classifications across all Finance forms.

Over the years, changes to accounting standards have resulted in revisions to the IPEDS Finance forms. For example, institutions adopted GASB Statements 63 and 65 in FY 2013, which required them to report deferred outflows and inflows of resources on their general-purpose financial statements. As a result, deferred outflows were collected with total assets and deferred inflows were collected with total liabilities on the Finance form for public institutions from 2013–14 to 2015–16. In 2016–17, deferred outflows and deferred inflows were added as separate fields to the Finance form for public institutions. Similarly, in 2016–17, following implementation of GASB Statements 68 and 71, NCES added a section to collect pension data from public institutions that required them to display unfunded pension liabilities and expenses in their financial statements.

### Summary of Statutory Requirements

[The National Education Statistics Act of 1994 in the Improving America’s Schools Act of 1994 \(P.L. 103-382\)](#). The 1994 NCES reauthorization statute (P.L. 103-382) included the requirement

that NCES collect and disseminate data at all levels of education on the financing and management of education, including data on revenues and expenditures (20 U.S.C. 9543(a)(1)(I)).

The Education Sciences Reform Act (ESRA) of 2002 (P.L. 107-279). The ESRA of 2002 establishes the Institute of Education Sciences as consisting of four centers, including the National Center for Education Statistics (NCES). This act directs NCES to collect, report, analyze, and disseminate statistical data related to the condition and progress of postsecondary education, including access to and opportunity for postsecondary education (including data on financial aid to postsecondary students), the financing and management of education (including data on revenues), student participation in and completion of postsecondary vocational and technical education programs by specific program area, and the existence and use of school libraries. The act also directs NCES to conduct and publish reports on the meaning and significance of the statistics as well as analyze, cross-tabulate, and report, to the extent feasible, information by gender, race, ethnicity, socioeconomic status, and other population characteristics, when such disaggregated information will facilitate educational and policy decisionmaking.

### Data Reporting Requirements

Degree-Granting Institutions vs. Non-Degree-Granting Institutions. [\*TRP #21 – Suggested Changes to IPEDS Survey Forms for Non-Degree-Granting Institutions\*](#) recommended to eliminate a number of data elements from survey forms for non-degree-granting institutions (non-DGIs) to improve accuracy and comparability of data, as well as to decrease institutional burden. For example, non-DGIs do not report Net Assets and Liabilities, Net Position, and Endowment Assets.

### Summary of Finance Component Data Included in the *Digest of Education Statistics 2015* Public Institutions

Type of Data	Earliest Data	Latest Data
Revenue by Source	2003–04	2013–14
State and Local Appropriations	1990–91	2013–14
Expenditures by Purpose	2003–04	2013–14
Endowment Funds (All DGIs) <sup>13</sup>	1889–90	2013–14

### Private Not-for-Profit Institutions

Type of Data	Earliest Data	Latest Data
Revenue by Source	1997–98	2013–14
Expenditures by Purpose	1996–97	2013–14
Endowment Funds (all DGIs)	1889–90	2013–14

### Private For-Profit Institutions

Type of Data	Earliest Data	Latest Data
Revenue by Source	1999–2000	2013–14
Expenditures by Purpose	1998–99	2013–14

## **Graduation Rates (GR): IPEDS Graduation Rates, 200% Graduation Rates, and Supplemental Graduation Rates**

### **History**

The Graduation Rates (GR) component was added to IPEDS in 1997–98, following enactment of the Student Right-to-Know and Campus Security Act of 1990 (P.L. 101-542). The Graduation Rates Supplement (GR-Supp) was added in 1999–2000 to allow institutions to report completions within 150 percent of normal time for students in long programs (3 years or longer for 2-year institutions, 5 years or longer for 4-year institutions). As mandated by the Higher Education Opportunity Act of 2008 (HEOA), NCES introduced the 200% Graduation Rates (GR200) component in 2009–10 and first administered it in spring 2010 as the Spring Supplemental Survey. The GR-Supp was last administered in the 2010–11 collection year.

### **Summary of Statutory Requirements**

National Center for Education Statistics. The 1976 amendments (P.L. 94-273) to the 1974 statute establishing NCES (P.L. 93-380) added a provision, later removed, requiring the coordination of the collection of information and data acquisition activities of HEW’s Education Division and the Department of Education’s Office for Civil Rights (OCR). OCR and NCES collaborate on the collection of the racial/ethnic data needed for compliance with Title VI of the Civil Rights Act of 1964 (34 CFR 100.6(b)) and on regulations implementing Title IX of the Education Amendments of 1972 that require data by gender (34 CFR Part106).

The National Education Statistics Act of 1994 in the Improving America’s Schools Act of 1994 (P.L. 103-382). The 1994 NCES reauthorization statute (P.L. 103-382) added the requirement that NCES collect, analyze, cross-tabulate, and report, “to the extent feasible,” data by gender and race. The 2002 NCES reauthorization statute (P.L. 107-279) mandated that NCES collect and disseminate data by additional population characteristics, including ethnicity (20 U.S.C. 9543(a)(3)). The 1994 NCES reauthorization statute also required NCES to collect and disseminate data on access to, and the opportunity for, postsecondary education (20 U.S.C. 9543(a)(1)(E)).

Student Right-to-Know and Campus Security Act of 1990. The Student Right-to-Know (SRK) and Campus Security Act of 1990 (P.L. 101-542) added graduation rates and campus security reports to the information that institutions that participate in Title IV HEA student financial aid programs are required to make available to current and prospective students. Final regulations implementing the SRK provisions were published in the *Federal Register* on November 1, 1999 (34 CFR 668.41, 34 CFR 668.45, and 34 CFR 668.48). The 1999 SRK regulations required institutions to disclose the completion or graduation rate for full-time, first-time degree/certificate-seeking undergraduate students who complete or graduate within 150 percent of the normal time for completion or graduation from their programs. An institution that determines that its mission includes providing substantial preparation for students to enroll in another Title IV HEA-eligible institution is also required to disclose the transfer-out rate for its full-time, first-time degree/certificate-seeking undergraduate students who did not complete or graduate from its programs, but subsequently enrolled in another eligible program within 150 percent of the normal time for completion or graduation.

Institutions participating in Title IV HEA programs that provide athletically related financial aid were also required to report enrollment and graduation rate information to the Department of Education and disclose the information to prospective student athletes, their parents, and their high school coach and guidance counselor at the time an offer of aid is made. This information must include enrollment data by race and gender; the number of students receiving athletically related aid, by gender and race within sport; the completion or graduation rate, and, if applicable, the transfer-out rate, for all full-time, first-time certificate- or degree-seeking undergraduates; and the completion or graduation rate, and, if applicable, the transfer-out rate for the subset of undergraduates who received athletically related aid, categorized by race and gender within sport.

The collection and reporting of enrollment data on students with athletically-related student aid was mandatory for all institutions participating in any Title IV HEA program and is authorized by Section 485 of the Higher Education Act of 1965 (20 U.S.C. 1092), as amended, since the 1998–99 to 2006–07 data collections.

Higher Education Act. The amendments to the HEA in the HEOA (P.L. 110-315) require NCES to post several types of information for each institution on the College Navigator website (HEA Sec. 132(i)), including the percentage of full-time, first-time degree/certificate-seeking undergraduate students enrolled at the institution who obtain a degree or certificate within

- normal time (100 percent) for completion of, or graduation from, their program;
- 150 percent of normal time for completion of, or graduation from, their program; and
- 200 percent of normal time for completion of, or graduation from, their program.

Prior to enactment of the HEOA, the GR survey component for 4-year institutions collected data for completions within 4 years (100 percent of normal time), 5 years, and 6 years (150 percent of normal time) for students in the bachelor's degree-seeking subcohort and completions within 150 percent of normal time for the subcohort of students seeking a degree or certificate other than a bachelor's degree. Rates for 150 percent of normal time were collected for less-than-4-year institutions.

Following enactment of the HEOA, data on 100 percent and 200 percent time graduation rates were collected in the Spring Supplemental Survey in the spring of 2009. The GR forms for 2-year and less-than-2-year institutions were modified in 2009–10 to collect data for completion within 100 percent of normal time. The Spring Supplemental Survey was transformed into the GR200 component and introduced in 2009–10 to collect data on completions within 200 percent of normal time from 4-year and less-than-4-year institutions. The HEOA also amended the SRK disclosure requirements. The graduation rate information that institutions must disclose to current and prospective students must be disaggregated by gender, race/ethnicity, and financial aid status for the following groups:

- recipients of a federal Pell Grant;
- recipients of a subsidized Stafford Loan who did not receive a Pell Grant; and
- students who did not receive either a Pell Grant or a subsidized Stafford Loan.

The Education Sciences Reform Act (ESRA) of 2002 (P.L. 107-279). The ESRA of 2002 establishes the Institute of Education Sciences as consisting of four centers, including the National Center for Education Statistics (NCES). The act directs NCES to collect, report, analyze, and disseminate statistical data related to the condition and progress of postsecondary education, including access to

and opportunity for postsecondary education (including data on financial aid to postsecondary students), the financing and management of education (including data on revenues), student participation in and completion of postsecondary vocational and technical education programs by specific program area, and the existence and use of school libraries. The act also directs NCES to conduct and publish reports on the meaning and significance of the statistics as well as analyze, cross-tabulate, and report, to the extent feasible, information by gender, race, ethnicity, socioeconomic status, and other population characteristics, when such disaggregated information will facilitate educational and policy decisionmaking.

**Data Reporting Requirements**

Race/Ethnicity. The new OMB categories for reporting race/ethnicity were first implemented in IPEDS in 2008–09 and became mandatory for the GR survey component beginning in the 2011–12 collection year. The changes followed [TRP #17 - Implementing New Race/Ethnicity Standards](#), which suggested that the new race/ethnicity categories be mandatory for all IPEDS components beginning in the 2010–11 collection year.

Study Abroad. The GR instructions were updated to include full-time, first-time degree/certificate-seeking undergraduate students who studied abroad in the 2016–17 collection year. This change was suggested by [TRP #47 – Report and Suggestions on Clarifying Study Abroad Enrollment](#) to address reporting inconsistencies and improve the overall quality of the reported data.

150% Graduation Rates. An additional section (Section IV) was added to the GR survey component to collect data to calculate 150 percent graduation rates for two subcohorts that are required disclosures per the Higher Education Opportunity Act of 2008, as amended: (1) Pell Grant recipients; and (2) recipients of a subsidized Stafford Loan who did not receive a Pell Grant. This addition to the GR component was based on public feedback during the 60-day public comment period of [TRP #47 – Report and Suggestions on Clarifying Study Abroad Enrollment](#) and was implemented in the 2016–17 collection.

## IPEDS Human Resources (HR) Component

### History

Until 1976–77, staff data were collected in the Higher Education General Information Survey (HEGIS). Beginning in 1987–88, these data were collected biennially, through the IPEDS Fall Staff component, for institutions with fewer than 15 full-time employees and for a sample of less than 2-year institutions. From 1975 to 1991, the Equal Employment Opportunity Commission (EEOC) collected fall staff data biennially, using the Higher Education Staff Information (EEO-6) form, from institutions with 15 or more full-time employees. In 1993, NCES took over the collection of fall staff data within IPEDS for the educational component of the institutions surveyed by the EEOC. (The 1993–94 IPEDS Fall Staff survey form for degree-granting institutions was similar to and replaced the EEO-6 form.) Since 2007–08, degree-granting institutions with fewer than 15 full-time employees have also been required to report staff data by race/ethnicity and gender in alternate years (optional in 2006–07).

The Salaries, Tenure and Fringe Benefits of Full-Time Instructional Faculty Survey was also originally part of HEGIS. The IPEDS Salaries survey was first conducted in 1987–88 and then again in 1989–90; it has been conducted annually since 1990–91. Degree-granting institutions are required to complete the Salaries survey (unless all instructional staff are employed on a part-time basis, all instructional staff are military personnel, all instructional staff contribute their services, and/or all instructional staff teach preclinical or clinical medicine). The primary purpose of the Salaries portion of the HR survey component is to collect data on the salaries, tenure, and fringe benefits of full-time instructional staff (referred to as instructional faculty prior to the 2005–06 survey year) by contract length, gender, and academic rank. Institutions are excluded from completing the Salaries section if all of their instructional staff (1) are employed on a part-time basis, (2) are military personnel, (3) contribute their services (e.g., members of a religious order), or (4) teach preclinical or clinical medicine.

Beginning with the winter 2001–02 collection, the Employees by Assigned Position (EAP) survey component, an annual collection proposed by the National Postsecondary Education Cooperative focus group on faculty and staff, was instituted, to unify the Fall Staff and Faculty Salaries data collections. The EAP survey component was optional in the first year but became mandatory in 2002–03.

The Salaries, Fall Staff, and EAP surveys were merged to form a single HR component in 2005–06, based on a recommendation by an IPEDS [\*TRP #9 – Report and Suggestions on Human Resources Issues in IPEDS Winter Components\*](#). The HR survey items were drastically overhauled beginning with the 2011–12 collection year, following TRP discussions and an NCES proposal to eliminate a substantial number of data items. Additional changes to the occupational categories were implemented in the 2012–13 collection to align the IPEDS HR survey with the 2010 Standard Occupational Classification (SOC) system used by all federal statistical agencies. Currently, there is a long version of the HR survey that is applicable only to degree-granting institutions with 15 or more full-time employees, while a shorter version is completed by degree-granting institutions with fewer than 15 full-time employees.

## Summary of Statutory Requirements

Civil Rights. Institutions that have 15 or more full-time employees are required, under Title VII of the Civil Rights Act of 1964, as amended by the Equal Employment Opportunity Act of 1972 (29 CFR 1602, subparts O and P), to complete the EEO-6 staff data collection (now the IPEDS HR component) biennially.

National Center for Education Statistics and Office for Civil Rights. The 1976 amendments (P.L. 94-273) to the 1974 statute (P.L. 93-380) establishing NCES added a provision (later removed) requiring the coordination of the collection of information and data acquisition activities of HEW's Education Division and the Department of Education's Office for Civil Rights (OCR). OCR and NCES collaborate on the collection of the racial/ethnic data needed for compliance with Title VI of the Civil Rights Act of 1964 (34 CFR 100) and on regulations implementing Title IX of the Education Amendments of 1972 that require data by gender (34 CFR 106).

The National Education Statistics Act of 1994 in the Improving America's Schools Act of 1994 (P.L. 103-382). The 1994 NCES reauthorization statute (P.L. 103-382) added the requirement that NCES collect, analyze, cross-tabulate, and report, "to the extent feasible," data by gender and race. The 2002 NCES reauthorization statute (P.L. 107-279) mandated that NCES collect and disseminate data by additional population characteristics, including ethnicity (20 U.S.C. 9543(a)(3)). The 1994 NCES reauthorization statute also included the requirement that NCES collect and disseminate data on student achievement at all levels of education.

Higher Education Act. The HEA Amendments of 1998 (P.L. 105-244) required that the relevant parts of IPEDS be redesigned "to improve the usefulness and timeliness of the data collected..." The NCES Taskforce for IPEDS Redesign recommended several changes, including the addition of the former EAP survey; a count of the number of employees who provide instruction, regardless of their functional classification; and the separation of medical employees from nonmedical employees in institutions with a medical school.

Higher Education Opportunity Act of 2008. The amendments to the HEA in the HEOA (P.L. 110-315) require NCES to post several types of information for each institution on the College Navigator website (HEA Sec. 132(i)), including the number of full- and part-time faculty and the number of graduate assistants who have primarily instructional responsibilities.

Office of Budget and Management Standards for Maintaining, Collecting, and Presenting Federal Data on Race and Ethnicity. As stated in the October 30, 1997, *Federal Register*:

"...the categories are social-political constructs and should not be interpreted as being scientific or anthropological in nature. They are not to be used as determinants of eligibility for participation in any Federal program. The standards have been developed to provide a common language for uniformity and comparability in the collection and use of data on race and ethnicity by Federal agencies."

In accordance with the 1997 guidelines, there are five standard categories for data on race: (1) American Indian or Alaska Native, (2) Asian, (3) Black or African American, (4) Native Hawaiian or Other Pacific Islander, and (5) White. There are also two categories for data on ethnicity: (1) Hispanic or Latino and (2) not Hispanic or Latino.

In addition, in 2007, the Department of Education published its final guidance on reporting by race/ethnicity, which allows individuals to self-identify their ethnicity and race and no longer limits them to selecting one race category. The new Department of Education reporting categories are as follows:

- Hispanic/Latino of any race
- For individuals who are not Hispanic or Latino:
  - American Indian or Alaska Native,
  - Asian,
  - Black or African American,
  - Native Hawaiian or Other Pacific Islander,
  - White, and
  - Two or more races.

### **Data Reporting Requirements**

Merge of Employees by Assigned Position (EAP), Salaries (SA), and Fall Staff (S) Components. The new Human Resources (HR) component was created as a result of merging the EAP, SA, and S components to simplify reporting and ensure data consistency and accuracy. The HR component was implemented in the 2005–06 data collection. A number of survey items were reorganized based on suggestions in [TRP #9 – Report and Suggestions on Human Resources Issues in IPEDS Winter Components](#).

Salary Class Interval Data and Fringe Benefit Data. The Salary Interval data and Fringe Benefit data were eliminated from the survey to streamline the Fall Staff section and significantly reduce the reporting burden. These changes were based on suggestions in [TRP #31 – Improvements to the Human Resources Component](#) and on comments from the general public.

Faculty Status Categories and Salary Outlays. Faculty Status categories were revised to include contract faculty. This change was suggested by [TRP #31 – Improvements to the Human Resources Component](#) to more accurately reflect the changing dynamic of the higher education workforce. The implementation took place in the 2012–13 data collection. In addition, [TRP #31](#) suggested adding a column to collect salary outlays for full-time staff in the following categories: (1) executive/administrative/managerial; (2) other professionals; (3) technical and paraprofessionals; (4) clerical and secretarial; (5) skilled crafts; and (6) service/maintenance. However, the suggestion was implemented for the new occupational categories based on the 2010 Standard Occupational Classification (SOC).<sup>14</sup>

Graduate Assistants. A screening question that asks if an institution has graduate assistants and a separate section for reporting graduate assistant data were added to the 2012–13 collection to ensure that the data are reported correctly and separately from the data for part-time employees. [TRP #31 – Improvements to the Human Resources Component](#) provided the suggestions that influenced these changes. In the 2016–17 data collection, new, condensed categories (specifically for graduate assistants) were implemented based on suggestions in [TRP #44 – Improvements to the Human Resources Survey for Degree-Granting Institutions](#).

---

<sup>14</sup> Information on the 2010 Standard Occupational Classification (SOC) system is available at [https://www.bls.gov/soc/major\\_groups.htm](https://www.bls.gov/soc/major_groups.htm).

New Hires. The reporting period for new hires was revised to include any newly hired full-time permanent staff on the payroll of the institution between November 1 and October 31. This change was implemented in the 2016–17 data collection and based on suggestions in [TRP #44 – Improvements to the Human Resources Survey for Degree-Granting Institutions](#).

2010 Standard Occupational Classification. In the 2012–13 data collection cycle, the administration of the Human Resources component was moved to the spring and many changes were implemented. For example, the component adopted new occupational categories to align with the 2010 Standard Occupational Classification (SOC).

**Summary of Human Resources Component  
Data Included in the *Digest of Education Statistics 2015***

<b>Type of Data</b>	<b>Earliest Data</b>	<b>Latest Data</b>
Average Salaries for Full-Time Instructional Faculty on 9-Month Contracts by Academic Rank and Gender	1970–71	2014–15
Average Benefit Expenditures for Full-Time Instructional Faculty on 9-Month Contracts by Type of Benefit	1977–78	2010–11
Number of Instructional Staff	1970–71	2013–14
Number of Instructional Staff by Employment Status (Full-Time/Part-Time)	1970–71	2013–14
Number of Faculty by Gender	1969–70	2013–14
Number of Instructional Faculty by Race/Ethnicity	2003–04	2013–14
Percentage of Full-Time Instructional Staff With Tenure, by Academic Rank and	1993–94	2013–14
Number of Full-Time Faculty by Academic Rank	2003–04	2013–14
Number of Staff by Employment Status	1987–88	2013–14
FTE Professional and Nonprofessional Staff	1976–77	2013–14
Number of Staff by Primary Occupation	1976–77	2013–14
Number of Staff by Race/Ethnicity	2007–08	2013–14
Number of Staff by Gender	1987–88	2013–14

## **IPEDS Institutional Characteristics (IC) Component**

### **History**

The IPEDS Institutional Characteristics (IC) component, which is used primarily to collect directory information, was originally part of the Higher Education General Information Survey (HEGIS). The items in this component determine the applicability and version of the remaining IPEDS survey components. The IC component was the first IPEDS component to be administered (in 1985–86), and it has been changed in several ways since this administration. For instance, several items were moved to the IC Header component in 2010–11. In addition, all questions on admissions in part B of the IC component were moved to the new Admissions (ADM) component in the winter collection in 2014–15 to eliminate confusion for data users and allow the data to be used in the Trend Generator. Some of these changes are the result of the 1998 amendments to the Higher Education Act (HEA).

### **Summary of Statutory Requirements**

Higher Education Act. The 1998 amendments to the HEA (P.L. 105-244) required that the relevant parts of IPEDS be redesigned “to improve the usefulness and timeliness of the data collected...” The NCES Taskforce for IPEDS Redesign recommended several changes, adding items on admissions and student services to the IC component.

The 1998 HEA amendments also required NCES to collect and disseminate information on tuition and fees for a full-time undergraduate student, the cost of attendance for a full-time, first-time degree/certificate-seeking undergraduate student, the average amount of financial assistance received by an undergraduate student, and the number of students receiving each type of assistance. The price and student financial aid data were originally collected in the 1999–2000 Institutional Prices and Student Financial Aid (IPSFA) component. In 2000–01, the price information was moved to the IC component.

Higher Education Opportunity Act of 2008 (P.L. 110-315). The HEOA requires NCES to post several types of information for each institution on the College Navigator website (HEA Sec. 132(i)), including the following items related to the IC component:

- College affordability and transparency lists—Based on tuition and fees for the most recent year for a full-time, first-time degree/certificate-seeking undergraduate student (and changes in tuition and fees over the most recent 3-year period) and net price for the most recent year (and changes in net price over the most recent 3-year period). Net price is to be calculated as the cost of attendance minus the average grant aid provided (for public institutions, net price is to be calculated for in-state students).<sup>15</sup>
- Statement of institution’s mission.
- The percentage of undergraduate students who are formally registered with the institution’s Office of Disability Services.
- The cost of attendance for those full-time, first-time degree/certificate-seeking

---

<sup>15</sup> Before 2009–10, price data were reported for the current year and the 2 previous years and student financial aid data (the SFA component) were reported for the previous year. The HEOA provisions mandating that NCES post 3 years of net price information required an additional (fourth) year of institutional price data beginning in 2009–10 to align the price and student financial aid data for the first year of the net price calculations.

undergraduate students who live on campus and those who live off-campus. For public institutions, the cost of attendance is to be provided separately for those students who are residents and those who are not residents of the state in which the institution is located.

- A link to the institution’s website providing information on student activities, services offered for individuals with disabilities, career and placement services, and policies related to the transfer of credit from other institutions.
- The availability of alternative tuition plans.
  - Link to institution pricing summary page with information on average full-time undergraduate tuition and fees for each of the 3 most recent years;
  - average annual percentage change and dollar change in tuition and fees for each of the 3 most recent years;
  - average net price over the 3 most recent years;
  - average annual percentage change and dollar change in net price for each of the 3 most recent years; and
  - average net price for students receiving Title IV HEA aid disaggregated by income categories (for the most recent year beginning in 2010 and for the 3 most recent years beginning in 2013).
- A multiyear tuition calculator that provides estimates of tuition and fees for each year of the normal duration of the program of study at an institution, based on the annual percentage change in the institution’s tuition and fees for the 3 most recent years. The estimates may be calculated based on the provisions of a multiyear tuition guarantee program (if offered by the institution). The multiyear calculator requires separate reporting of tuition and fees in the price-of-attendance data.

**Data Reporting Requirements**

Classification of Instructional Programs. The use of the 2010 version of the CIP has been required since the 2010–11 data collection year. In the IC component, the CIP is only used by program reporting institutions to identify their six largest programs.

The CIP provides a taxonomic scheme that supports the accurate tracking and reporting of fields of study and program completions activity. CIP was originally developed by the U.S. Department of Education’s National Center for Education Statistics (NCES) in 1980, with revisions occurring in 1985, 1990, and 2000.

**CIP Version  
Institutional Characteristics Data Year and Collection Year**

CIP Version	Data Year	Collection Year
CIP2010	2009–10 – 2015–16	2009-10 – 2015–16
CIP2000	2002–03 – 2008–09	2002-03 – 2008–09

Revised Categories for Postbaccalaureate Programs. The new postbaccalaureate award categories and definitions were implemented for the IC component in 2008–09 (they became mandatory in 2010–11).

Academic Libraries. An additional yes/no screening question regarding library collections was added to the IC component to establish the eligibility of institutions to complete the Academic Libraries component in the 2016–17 IPEDS collection. Furthermore, institutions were asked to select all of the applicable library resources or services available to their clientele in the 2016–17 collection. These changes are based on the feedback/suggestions of the data providers (i.e., higher education institutions).

Distance Education. A question on whether institutions offer distance education courses was added to the 2016–17 collection to improve the consistency and focus on distance education. The institutions’ feedback and the QC review are the sources of the change.

Institutional Dun and Bradstreet (DUNS) Numbers. Institutions are asked to provide their DUNS number, if they have one, to improve data sharing inside and outside the Department of Education. This change originated from discussions between NCES and the Office of Postsecondary Education and the Office of the Undersecretary.

Veterans and Military Service Members. Questions on services available to veterans, military service members, and their families were added to the 2014–15 data collection. The change was proposed by [TRP #36 – Report and Suggestions on Collecting Data on Veterans](#) and veterans to capture data for a variety of stakeholders, ranging from veterans and military service members considering postsecondary education to policymakers assessing the effectiveness of the benefits of postsecondary education. Both the Comprehensive Veterans Education Information Policy Act (P.L. 112-249) and Executive Order (EO) 13607, Establishing Principles of Excellence for Educational Institutions Serving Service Members, Veterans, Spouses, and Other Family Members, provide language directing the Department of Education to work with the Department of Defense (DOD) and the Veterans Administration (VA) to improve the educational information provided to service members, veterans, and their families. The Department of Education added these data elements after working with the DOD and VA to determine how best to collect and present this information and to comply with P.L. 112-249 and EO 13607.

**Summary of Institutional Characteristics Component  
Data Included in the *Digest of Education Statistics 2015***

Type of Data	Earliest Data	Latest Data
Control or Affiliation	1869–70	2014–15
Degree-Granting/Non-Degree-Granting (Higher Education Classification Through 1995–96)	1996–97	2014–15
Level of Program	1949–50	2014–15
Remedial Services	1989–90	2014–15
Undergraduate Tuition and Fees and Room and Board	1964–65	2014–15
Graduate Tuition and Fees	1987–88	2014–15
First-Professional Program Tuition and Fees	1987–88	2014–15

NOTE: IC data included in the *Digest* may be used for grouping other tabular data.

## IPEDS Outcome Measures (OM) Component

### History

The Outcome Measures (OM) component, which is the newest of the IPEDS components, was first administered in the 2015–16 data collection.

Initially, the OM component collected data for four cohorts of students—full-time, first-time students; part-time, first-time students; full-time, non-first-time students; and part-time, non-first-time students—at two points in time:

- 6 years from entering the cohort (award status only)
- 8 years from entering the cohort (award and enrollment status).

Only degree-granting institutions are required to complete this component.

The OM component was developed based on the recommendations of the Department of Education’s Advisory Committee on Measures of Student Success and a number of TRPs: [TRP #37 – Selected Outcomes of the Advisory Committee on Measures of Student Success](#), [TRP #40 – Additional Selected Outcomes of the Advisory Committee on Measures of Student Success](#), and [TRP #45 – Report and Suggestions on Outcome Measures](#). The Advisory Committee on Measures of Student Success was authorized by the Higher Education Opportunity Act of 2008 (HOEA) to advise the Secretary of Education to recommend more accurate graduation rate disclosure requirements for the 2-year degree granting sector. In December 2011, after more than a year of deliberation, the Committee submitted its final report to the Secretary.

In response to the Advisory Committee’s recommendations, [TRP #37](#) and [TRP #40](#) provided suggestions to clarify the current definition of a degree/certificate-seeking student and expand the GR200 data collection. In turn, [TRP #45](#), provided the additional suggestions and comments to collect more comprehensive measures of student success for a broader group of students. Taken together, TRPs #37, 40, and 45 led to the implementation of new OM component, which was administered in the 2015–16 winter collection.

### Summary of Statutory Requirements

The Student Right to Know and Campus Security Act of 1990. The OM component is designed to provide consumers, policymakers, and researchers with more comprehensive measures of student success for the purposes of the Student Right to Know and Campus Security Act of 1990 (SRK). Under the provisions of the SRK, institutions must disclose to current and prospective students the rate at which full-time, first-time degree/certificate-seeking undergraduate students complete their academic programs.

The OM component also addresses the often-cited limitations related to capturing data exclusively on full-time, first-time degree/certificate-seeking undergraduate students. In addition to the full-time, first-time entering cohort, OM collects on part-time and non-first time (aka, transfer-in) undergraduate students. Thereby resulting in a collection of information to four degree/certificate-seeking undergraduate student cohorts: full-time, first-time students; part-time, first-time students; full-time, non-first-time students; and part-time, non-first-time students.

For each of the four cohorts, the OM component collects a status update using the following categories: received award; did not receive award, still enrolled at reporting institution; did not receive award, subsequently enrolled at another institution; and did not receive award, subsequent enrollment status unknown.

The Higher Education Opportunity Act of 2008. The Department of Education’s Advisory Committee on Measures of Student Success was authorized by the HEOA to advise the Secretary of Education in assisting 2-year degree-granting institutions to recommend new federal requirements to disclose graduation and completion rates and to explore alternative measures for capturing student success at 2-year institutions.

### **Data Reporting Requirements**

The OM component was implemented in the winter 2015–16 collection to collect more comprehensive measures of student success for a broader group of students based on the suggestions in [TRP #37 – Selected Outcomes of the Advisory Committee on Measures of Student Success](#), [TRP #40 – Additional Selected Outcomes of the Advisory Committee on Measures of Student Success](#), and [TRP #45 – Report and Suggestions on Outcome Measures](#) and on public comments.

Pell Grant Recipients. In 2016, [TRP #50 - Report and Suggestions on Outcome Measures 2017-18: New Data Collection Considerations](#) proposed that institutions collect data on Pell Grant recipients in order to understand how the outcomes of Pell Grant recipients differ at all institutions and to assess the effectiveness of the Pell Grant program. In the spring of 2017, the additional collection of Pell Grant recipients was approved by the Office of Management and Budget starting with the 2017–18 collection. Each of the four OM cohorts will require the reporting on two subcohorts—Pell Grant and Non-Pell Grant recipients—resulting in a total of eight subcohorts on OM.

## IPEDS Student Financial Aid (SFA) Component

### History

The IPEDS Student Financial Aid (SFA) component was developed in 1999 to satisfy requirements in the 1998 amendments to the Higher Education Act (HEA) (P.L. 105-244). The SFA data were originally included with price information in the 1999 Institutional Prices and Student Financial Aid (IPSFA) component; however, the price information was moved to the Institutional Characteristics (IC) component in 2000–01. The SFA component was significantly revised in 2008–09 and 2009–10 to meet requirements in the Higher Education Opportunity Act (HEOA). In 2011–12, the SFA component was moved from the spring to the winter data collection in time for posting on the College Navigator website. Additionally, in 2014–15, following the implementation of Executive Order 13607 and the *Improving Transparency of Education Opportunities for Veterans Act* (P.L. 112-249), questions were added to collect data on beneficiaries and benefits payments under the Post-9/11 Veterans Educational Assistance Program (Post-9/11 GI Bill) and the Department of Defense Military Tuition Assistance Program.

### Summary of Statutory Requirements

Higher Education Act Amendments of 1998 (P.L. 105-244). The 1998 amendments to the HEA require NCES to collect and disseminate information on the tuition and fees for a full-time, first-time degree/certificate-seeking undergraduate student, cost of attendance for a full-time undergraduate student, number of undergraduate students receiving financial assistance, and average amount of each type of financial assistance received.

Higher Education Opportunity Act of 2008 (P.L. 110-315). The amendments to the HEA in the HEOA of 2008 (HEA Sec. 132(i)) require NCES to post several types of information for each institution on the College Navigator website, including the following items collected in the SFA component (price information is collected in the IC component but is editable in the SFA):

- College affordability and transparency lists: Based on tuition and fees for a full-time, first-time degree/certificate-seeking undergraduate student for the most recent academic year; changes in tuition and fees over the most recent 3-year period; net price for the most recent year; and changes in net price over the most recent 3-year period. Net price is to be calculated as the price of attendance minus average grant aid provided (for public institutions, net price is to be calculated for in-district/in-state students).
- Link to institution pricing summary page with information on
  - average full-time undergraduate tuition and fees for each of the 3 most recent years;
  - average annual percentage change and dollar change in tuition and fees for each of the 3 most recent years;
  - average net price for 3 years;
  - average annual percentage change and dollar change in net price for each of the 3 most recent years; and
  - average net price for students receiving Title IV HEA financial aid disaggregated by income categories (for the most recent year beginning in 2010 and for the 3 most recent years beginning in 2013). Average annual grant amount (including federal,

state, and institutional aid) awarded to a full-time, first-time degree/certificate-seeking undergraduate student.

- Average annual amount of federal student loans provided through the institution to undergraduate students.
- Total annual grant aid awarded to undergraduate students from the federal government, a state, the institution, and other sources known by the institution.
- Percentage of full-time, first-time degree/certificate-seeking undergraduate students receiving federal, state, and institutional grants, student loans, and any other type of student financial assistance known by the institution.
- Number of students receiving federal Pell Grants.

Net price data for public institutions apply only to students who pay the in-state or in-district tuition rate. In 2011–12, program reporters began reporting net price data for their largest program.

The HEOA-mandated changes to the SFA component include new items and items that are reported differently: previously reported average grant amounts are now calculated from reported total grant amounts and the number of students receiving the grants; and previously combined information on loans and federal grants are now reported separately. Financial aid data must be provided for four groups of students (instead of one).

Prior to enactment of the HEOA, the SFA component collected information for the most recent previous year. The HEOA provisions mandating that NCES disseminate information on 3 years of net price information require collecting certain SFA information for 2 additional previous years.

In 2009–10, NCES clarified that for reporting grant or scholarship aid in the SFA component, “aid received” should refer to amounts that were awarded to, and accepted by, students. In 2011–12, NCES further clarified that for reporting grant or scholarship aid in the SFA component, institutions should report “aid awarded” rather than “aid received” or “aid awarded and accepted.” Amounts awarded may be different from the amounts that were actually disbursed to students.

Improving Transparency of Education Opportunities for Veterans (P.L. 112-249). Requires providing the most “effective and efficient methods to provide veterans and members of the Armed Forces with information regarding postsecondary education...including the total enrollment, graduation rate and retention rate.”

Executive Order 13607 of 2012. Established the Principles of Excellences and requires the Secretary of Education, Secretary of Defense, and Secretary of Veterans Affairs to collect information on the amount of funding received as a result of the Post-9/11 GI Bill and the Department of Defense Military Tuition Assistance Program and post the information on the College Navigator website.

## **Data Reporting Requirements**

Veterans. [\*TRP #36 – Report and Suggestions on Collecting Data on Veterans\*](#) added questions to the SFA component to collect data on the number of veteran students (both graduate and

undergraduate) who receive benefits or assistance through veteran tuition programs and the total dollar amount awarded to veterans through institutions.

**Summary of Student Financial Aid Component**  
**Data Included in the *Digest of Education Statistics 2015***

<b>Type of Data</b>	<b>Earliest Data</b>	<b>Latest Data</b>
Number of Students Receiving Aid	2000–01	2013–14
Percent Receiving Aid by Type and Source of Aid	2000–01	2011–12
Average Award by Type and Source of Aid	2000–01	2011–12
