**Appendix B:**  
**Evaluation Design and Methodology**  
(Appendices for Section 3)

### Appendix 3.1: Survey Response Rates<sup>1</sup>

Survey	Total Surveyed	Total Completed Surveys	Response Rate
<b>Year 1 Follow Up</b>			
Treatment	1,144	691	60.4%
Control	970	521	53.7%
<b>Total</b>	<b>2,114</b>	<b>1,212</b>	<b>57.3%</b>
<b>Year 2 Follow Up</b>			
Treatment	601	280	46.6%
Control	459	207	45.1%
<b>Total</b>	<b>1,060</b>	<b>487</b>	<b>45.9%</b>

<sup>1</sup> All randomized study participants received the Year 1 Follow Up survey. Only randomized study participants from the August 2013 through July 2014 cohorts received the Year 2 Follow Up survey. Year 2 Follow-Up Survey Response Rates are calculated by dividing the total number of Year 2 survey respondents by the total number of respondents eligible to complete the Year 2 survey (i.e., those participating in the July 2014 cohort and prior). Veterans who were identified as eligible for Priority of Service (n=87) are excluded from these totals because they were not randomized and therefore are not part of the outcomes analysis.

### Appendix 3.2: Qualitative Analysis Codes (NVivo Qualitative Analysis Software)

Name	Description
Adaptations Lessons Learned	Remarks relating lessons learned and adaptations.
Budgetary Implications	Comments about the budget and funding provided for ACE. Effects of flexibility, greater funding, any budgetary limitations.
CC & WIB Partnership control group	Comments / observations about the partnership between the WIB and the Community College all processes and procedures that involve the control group
Employer engagement	General engagement with employers (that does not fit another category such as planning, intake, etc.)
Evaluation Capacity	Comments from site staff related to data collection, management, tracking, using data in new ways because of ACE
External Partnerships	Partnerships created for or through ACE with partners other than CC or WIB
Great Quote	Important quotes that could be used for a report; should use this node in combination with another node if possible
Intake	Comments about intake process - vestibule, assessment of applicants, orientation - activities after recruitment and before class
Interviewee Role	Pre-coded: CODERS DO NOT USE
Long Term Impacts	ACE Impacts beyond the grant period
Most important ACE component	Perspectives on the most important component of the ACE model (e.g., co-teaching, partnership between the WIB and CC, etc.)
Planning	Comments about planning stage - identifying training classes, engaging community, establishing programs, etc.
Reflections on ACE	A general category to capture their big pictures thoughts looking back on their time in ACE
Retention	Comments about student retention and completion rates
Roles and Responsibilities	Remarks about role – what’s involved in the job description, responsibilities, how responsibilities have
Student Barriers	Comments about barriers faced by student population - e.g., literacy skills, housing, transportation, etc.
Success	General success
Support Services	Comments about support services provided to ACE participants; what they needed, how it was provided, the impact, etc.
Sustainability	Thoughts and reflections relating to the ACE model's sustainability in the future.
Training	Comments about ACE training - attendance, integrated curriculum/co-teaching, internships, job readiness, etc.
Transition and Tracking	Comments and transition after training and tracking students after training; includes engagement with employers, placement
WIOA References	References to WIOA, implications of WIOA

#### Anne Arundel ACE Process

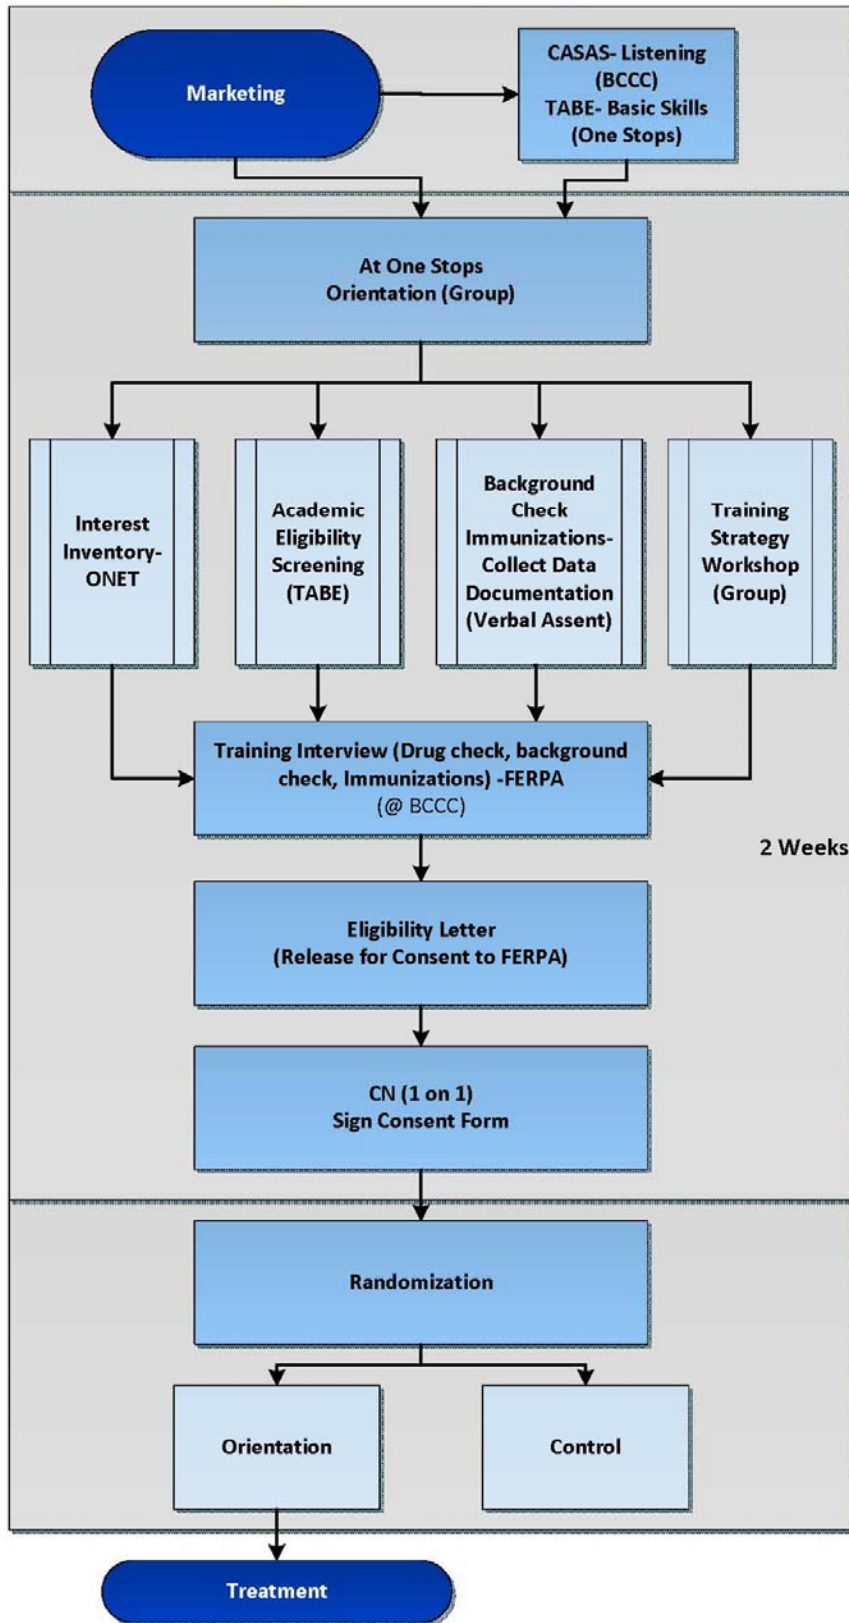

### Atlanta ACE Process

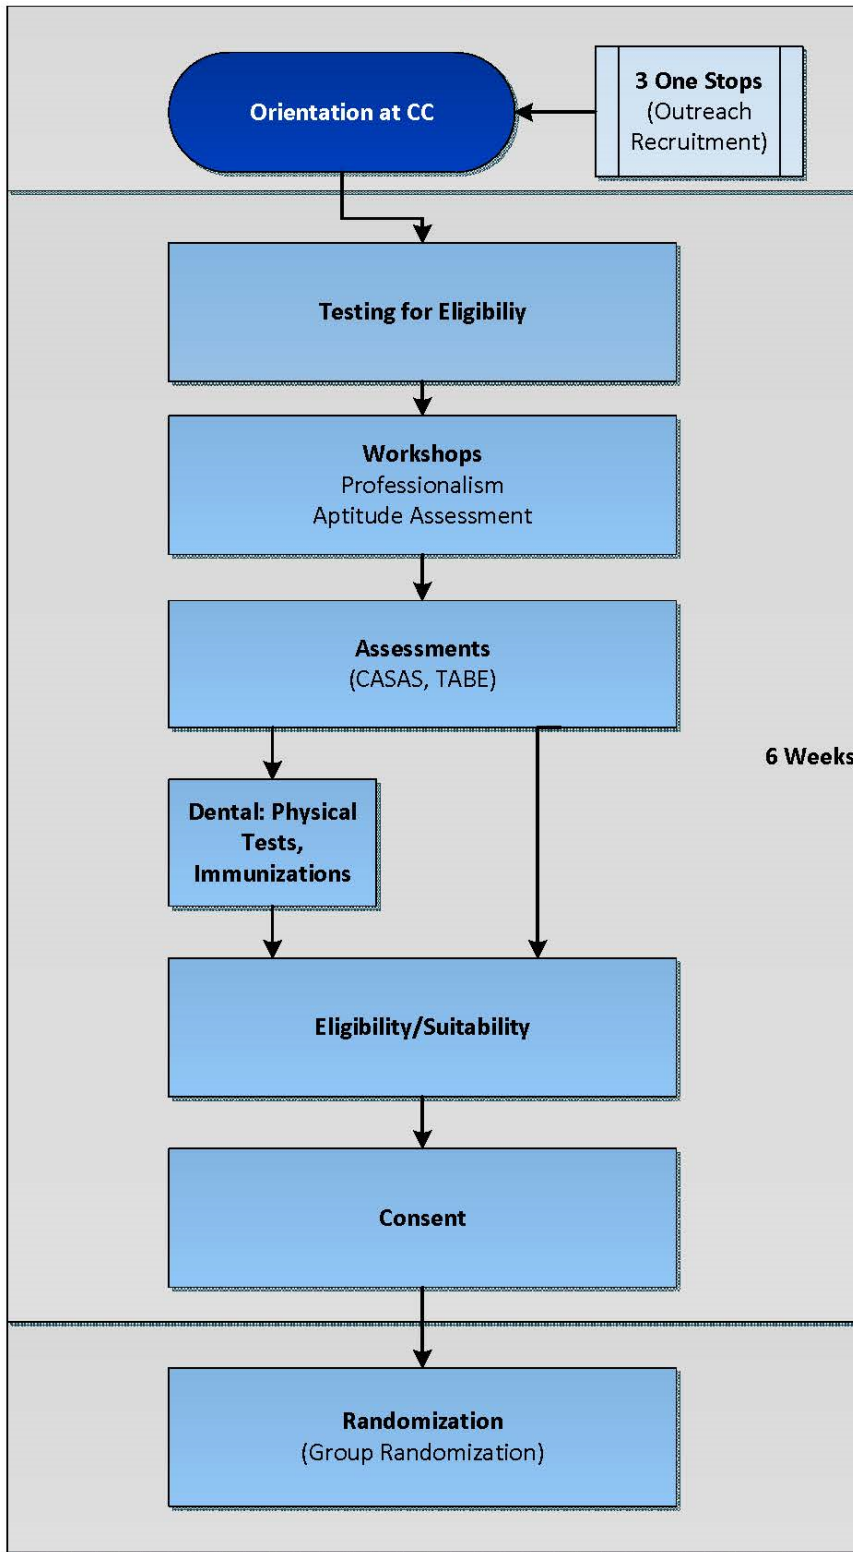

### Austin ACE Process

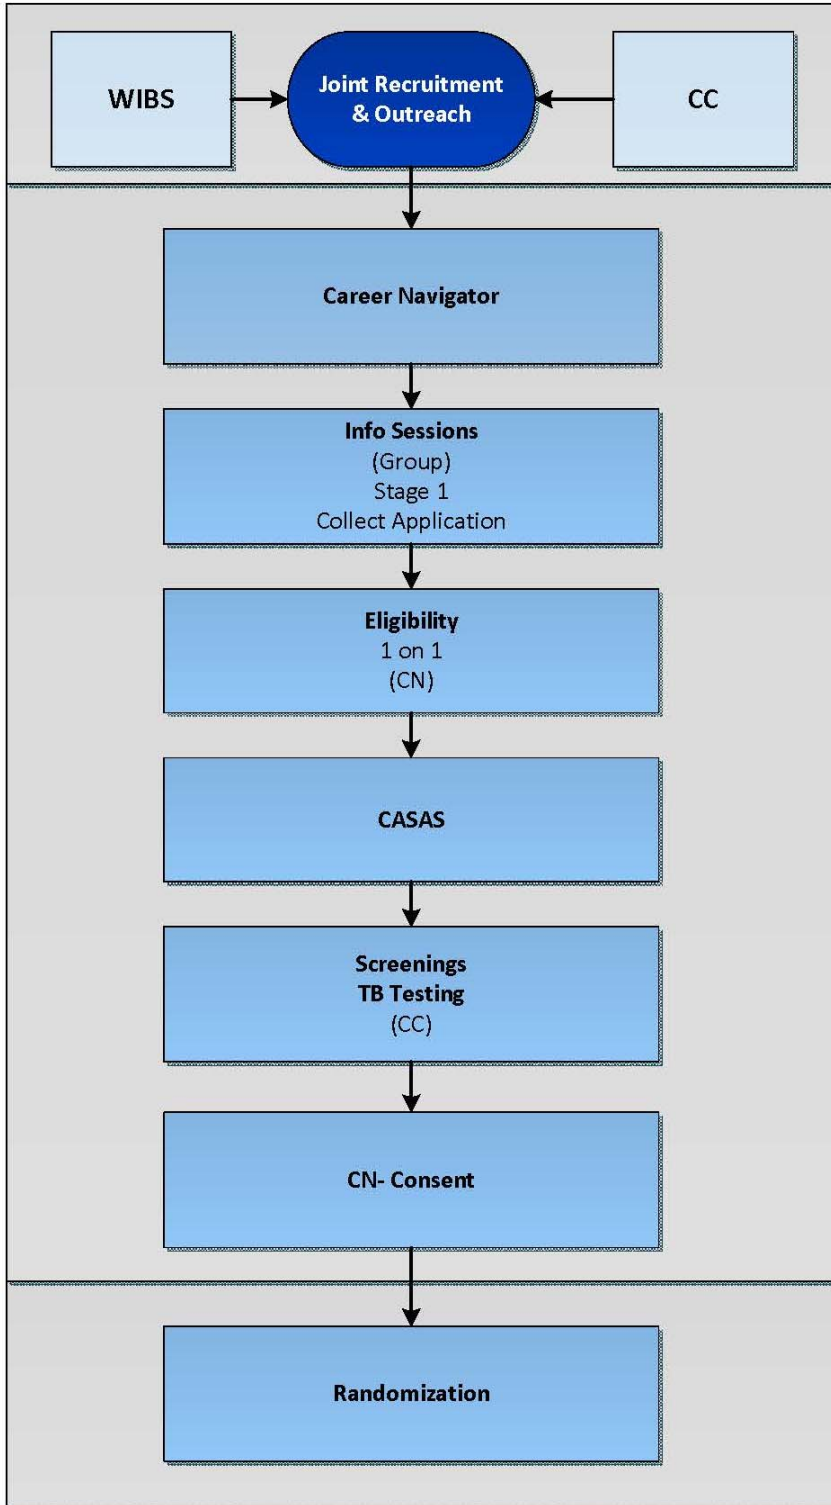

### Baltimore City Community College ACE Process

## Baltimore County ACE Process

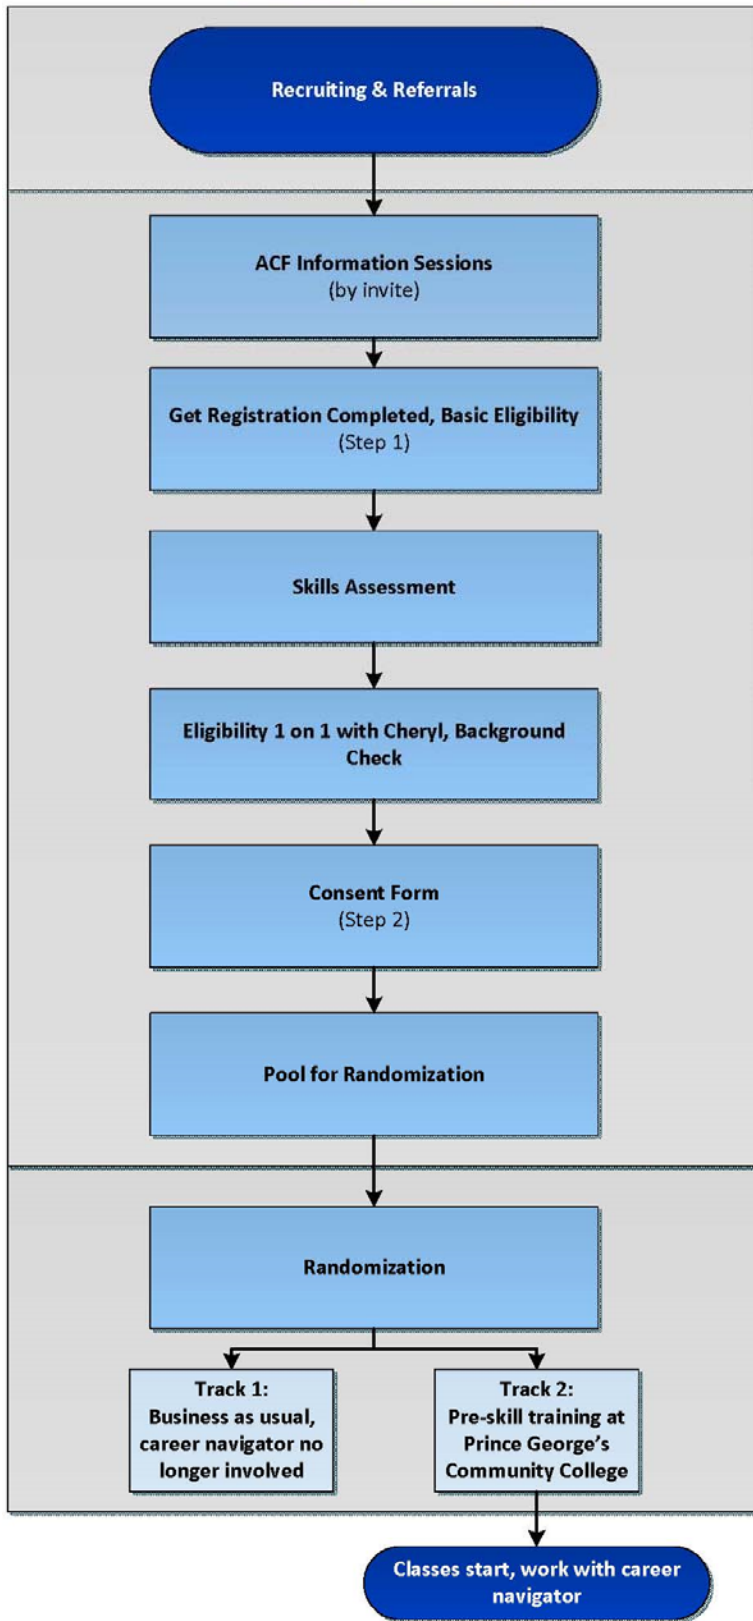

## Montgomery County ACE Process

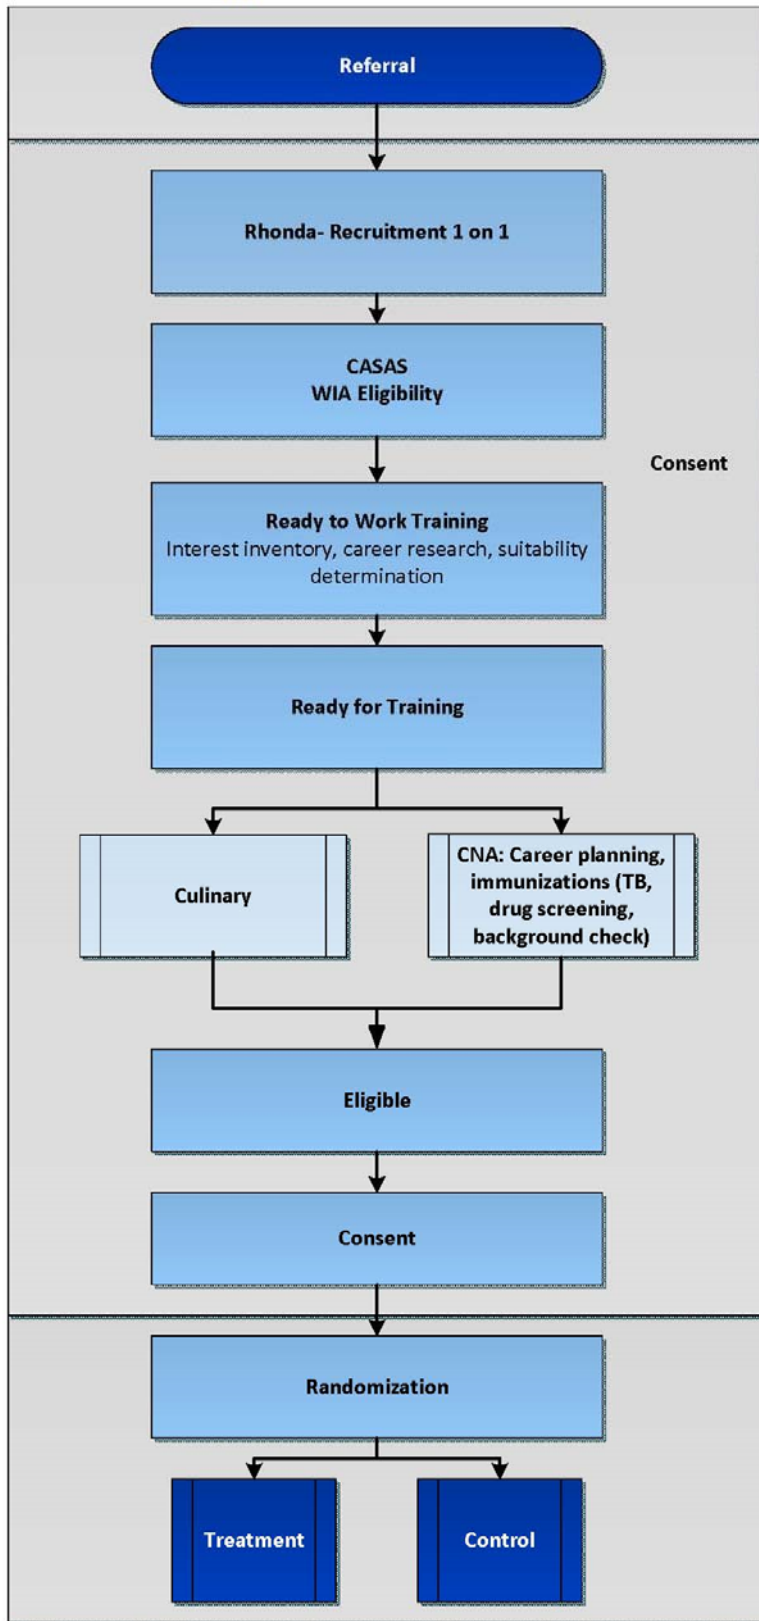

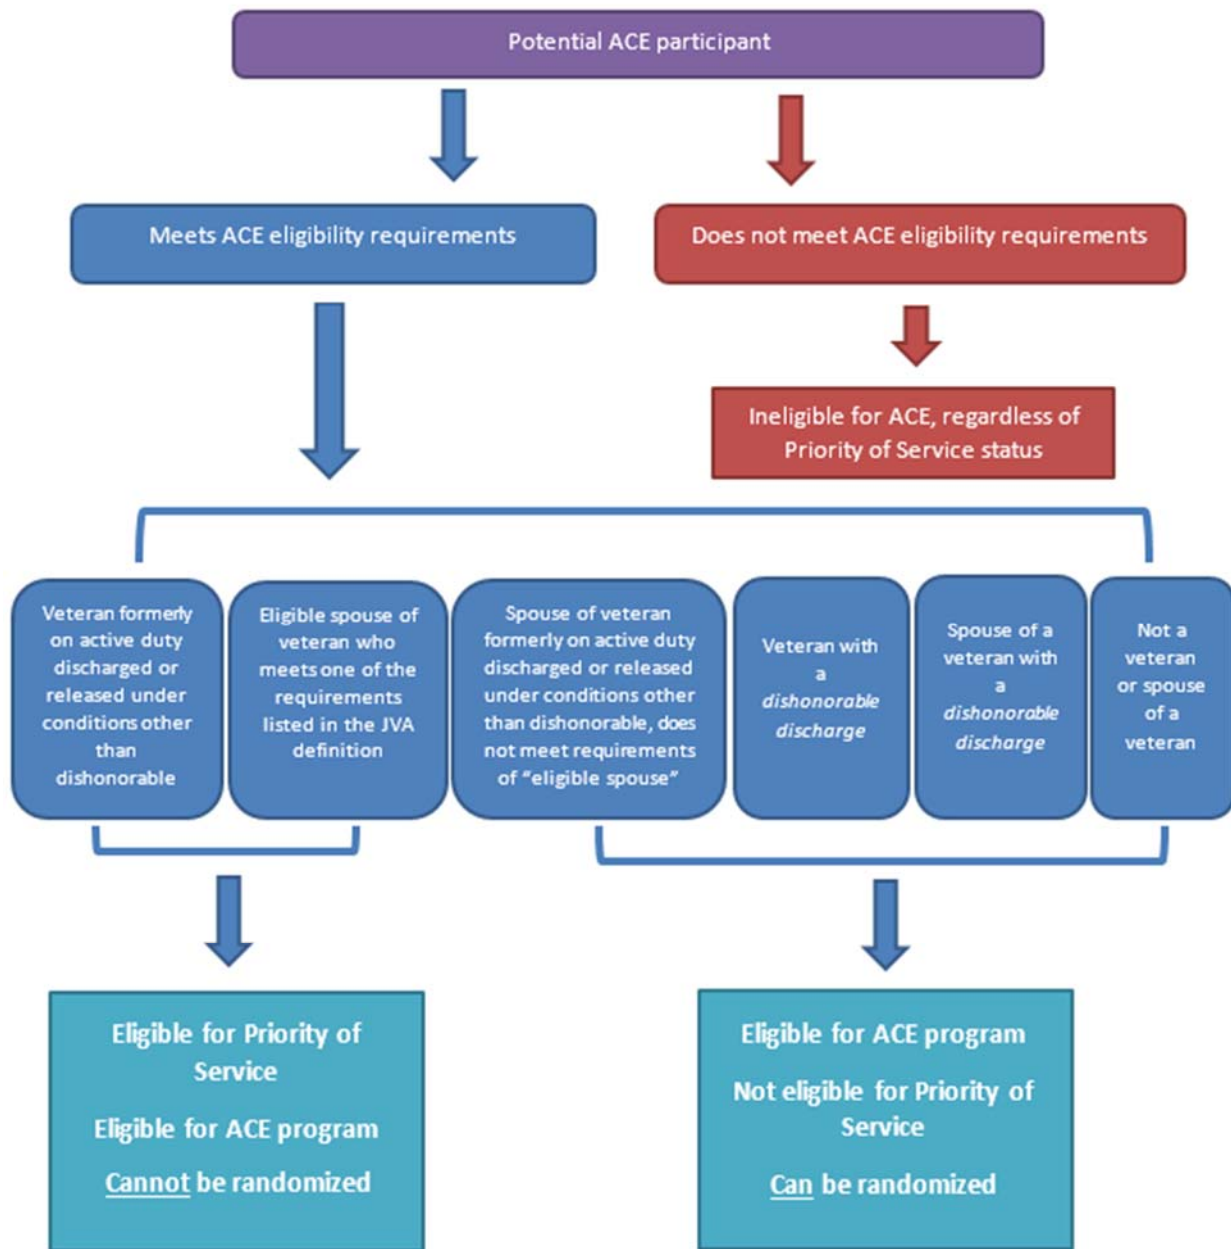

### PG County ACE Process

### Upper Shore ACE Process

### Appendix 4.2: Veterans Priority of Service Decision Tree

### Appendix 4.3: Crosswalk of Research Questions and Data Sources

Research Question	Source of Data Treatment Group	Source of Data Control Group
<b>Does the ACE program have an effect on employment rates and retention?</b>		
Do ACE participants have higher or lower employment rates than participants in the control group?	UI Data	UI Data
Do ACE participants have longer or shorter periods of continuous employment (as measured by the number of months worked in the past year) than the control group? Do ACE participants obtain full-time employment in a longer or shorter period of time than control group participants?	UI Data/ Surveys	UI Data/ Surveys
<b>Does the ACE program have an effect on earnings?</b>		
Do ACE participants have higher or lower annual earnings at each follow-up time period than control group participants?	UI Data	UI Data
Do ACE participants have higher or lower hourly earnings at each follow-up time period than control group participants?	Survey	Survey
Do ACE participants have higher or lower rates of receiving benefits (e.g., health, life insurance, retirement) at each follow-up time period than control group participants?	Survey	Survey
Does the ACE program have a positive or negative effect on the amount of time needed to secure employment, as measured as the time elapsed between training completion and the first job placement?	UI Data	UI Data
Does the ACE program have an effect on the likelihood that one will receive a high-quality job, defined as a job that is at least 35 hours a week, offering more than \$13/hour, with access to benefits such as health insurance and paid leave?	Survey	Survey
Does the ACE program have an effect on reliance on TANF and other public benefits?	Survey	Survey
<b>Does the ACE program have an effect on credential attainment?</b>		
Do ACE participants have higher or lower rates of credential attainment (GED, occupational credentials, postsecondary awards) relative to the control group?	ETO	Survey
Do ACE participants earn more or less cumulative college credits relative to the control group?	Survey	Survey
Do ACE participants enroll in work-related education or training at a higher or lower rate than the control group following their completion of the ACE program?	Survey	Survey
<b>Does the ACE program have an effect on career pathways?</b>		
Are ACE participants promoted at higher or lower rates than their counterparts in the control group?	Survey	Survey
Do ACE participants have a better or worse chance of remaining on the same career pathway at 12 and 24 months following training?	Survey	Survey
Do ACE program impacts vary by participant characteristics (e.g., age, race, and gender), prior work experience, income, or occupational focus?	ETO/ Survey/ UI Data	ETO/Survey/ UI Data

### Appendix 4.4: Summary Statistics, ACE Randomized Participants (Continuous Measures)<sup>2</sup>

	N	mean	P50	SD	min	max
Age (Years)	2166	35.46	34	11.69	18	76
Standardized Reading Score (TABE/CASAS)	2129	9.06	9.1	2.36	1	12.9
Standardized Math Score (TABE/CASAS)	1935	7.57	7.2	2.43	1	12.9

<sup>2</sup> Source: ACE participant data collected using the Efforts to Outcomes (ETO®) case management software. Calculations do not include ACE participants identified as Veterans because these individuals were not randomized. Note: Standardized Reading Score and Standardized Math Score are grade level equivalent scores. Highest Degree Earned: 1=Less than High School, 2=High School Diploma or GED, 3=Some College or Associates Degree, 4=Bachelors' Degree or Higher.

Source: Intake and tracking data collected by site staff and recorded in the ETO system were used to test for baseline equivalence.

Notes: \* Indicates that baseline difference is significant (Standardized Difference in Means >0.05 for continuous measures; chi-squared test p-value >0.05 for categorical measures). <sup>a</sup> Standardized difference in means is calculated as the absolute value of the difference in Treatment mean and Control mean divided by the pooled (Treatment and Control) standard deviation for that measure.

<sup>b</sup> Employment refers to the baseline employment status of the study participant at the time of recruitment (Employed, Unemployed, or Not in Labor Force). <sup>c</sup> Prior earnings are calculated as the sum of wages earned by the study participant during the four quarters prior to enrollment in the ACE program.

Source: Intake and tracking data collected by site staff and recorded in the ETO system were used to test for baseline equivalence.  
Notes: \* Indicates that baseline difference is significant (Standardized Difference in Means >0.05 for continuous measures; chi-squared test p-value >0.05 for categorical measures). <sup>a</sup> Standardized difference in means is calculated as the absolute value of the difference in Treatment mean and Control mean divided by the pooled (Treatment and Control) standard deviation for that measure.  
<sup>b</sup> Employment refers to the baseline employment status of the study participant at the time of recruitment (Employed, Unemployed, or Not in Labor Force).

Appendix 4.20 Follow-up Survey (Treatment Group)

**Accelerating Connections to Employment (ACE) Student Questionnaire  
Follow-Up Survey – Treatment Group**

**Programming Directions**

Include “97 DON’T KNOW” & “99 REFUSED” option for every CATI question unless otherwise specified

Do not force questions unless otherwise noted.

Display “PREVIOUS”, “NEXT”, “STOP” navigation buttons on all screens

Display instructions at bottom of each page:

Please use the NEXT or PREVIOUS button to navigate through the survey. Do not use the BACK button of your browser as this may cause you to exit the survey and your responses will be lost.

Questions <<hyperlink to [<>?>>](mailto:ACE_Evaluation@icfi.com)

**Instructions:**

Please read the following instructions before beginning this survey.

**TO MOVE FORWARD:**

Click on the NEXT button located at the bottom of the page to save your responses and continue to the next page.

**TO MOVE BACK:**

Use the PREVIOUS button located at the bottom of the page to view your responses on a previous page. You may change your answers to previously entered responses.

Do not use the BACK button of your browser to return to the previous page. Using your browser’s BACK button may cause you to exit the survey, and your responses will be lost.

Please note: if you close or exit the survey without clicking the "STOP" button first, you will need to wait 10 minutes to re-enter the survey, and you will need to re-enter your response to the question where you exited the survey.

**//ASK IF MODE=PHONE//**

**INTRO1**

Hi, my name is [NAME] and I am calling to speak to [INSERT NAME FROM SAMPLE] about his/her experiences since completing the ACE program. May I please speak to [INSERT NAME FROM SAMPLE]?

- 1 Yes, Respondent on the phone (SKIP TO INTRO2)
- 2 Yes, Respondent coming to the phone (SKIP TO INTRO2)
- 3 No, not available
- 9 Terminate

## **INTRO2**

//IF INTRO1=2 INSERT "Hi, my name is [NAME] and I am calling to speak to you about your experiences since completing the ACE program."//

As a reminder, you participated in the \_\_\_\_\_ (Course name) class at \_\_\_\_\_ (College Name) in \_\_\_\_\_ (City, State). The course was a part of a national study, Accelerating Connections to Employment or ACE, and this follow up survey is meant to help us learn more about how you are doing after completing the ACE class. For completing the survey, you will receive a gift card in the mail for \$20. In addition, your thoughts on ACE will help inform future efforts to make these types of programs available to other students across the country.

Before we begin, I want to remind you that your participation is voluntary, the information you share will be kept confidential, and you can decline to answer any questions or discontinue the survey at any time.

Do you consent to participate?

- 1 Yes
- 2 No

**//IF INTRO1A=2 INSERT “Hi, my name is [NAME].”//**

About a year ago you signed up to participate in the ACE National Evaluation. For your participation, as part of the group that did not receive training through ACE, you received a gift card. I’m calling to ask you a few questions about your experiences since signing up to be in the study. For completing the survey, you will receive another gift card in the mail for \$20. Do you have a few minutes to talk?

- 3 Yes
- 4 No

**INTRO2**

As a reminder, you signed up to be a part of the ACE study in \_\_\_\_\_(Month/Year) at your local Community College or One-Stop in \_\_\_\_\_ (City, State). This follow up survey is meant to help us learn more about how you are doing since becoming part of the ACE study.

Before we begin, I want to remind you that your participation is voluntary, the information you share will be kept confidential, and you can decline to answer any questions or discontinue the survey at any time.

Do you consent to participate?

- 1 Yes
- 2 No

//ASK IF MODE=WEB//

//FORCE//

As a reminder, you signed up to be a part of the ACE study in \_\_\_\_ (Month/Year) at your local Community College or One-Stop in \_\_\_\_\_ (City, State). This follow up survey is meant to help us learn more about how you are doing since becoming part of the ACE study.

Before we begin, I want to remind you that your participation is voluntary, the information you share will be kept confidential, and you can decline to answer any questions or discontinue the survey at any time.

Do you consent to participate?

- 1 Yes
- 3 No (Label them screened out)

**Instructions:**

Please read the following instructions before beginning this survey.

TO MOVE FORWARD:

Click on the NEXT button located at the bottom of the page to save your responses and continue to the next page.

TO MOVE BACK:

Use the PREVIOUS button located at the bottom of the page to view your responses on a previous page. You may change your answers to previously entered responses.

Do not use the BACK button of your browser to return to the previous page. Using your browser's BACK button may cause you to exit the survey, and your responses will be lost.

Please note: if you close or exit the survey without clicking the "STOP" button first, you will need to wait 10 minutes to re-enter the survey, and you will need to re-enter your response to the question where you exited the survey.

*Disclosure Statement*

The Accelerating Connections to Employment (ACE) project is funded by the US Department of Labor under contract #IF-23245-12-61-A-24. The ACE evaluation is part of a national evaluation being conducted by the Department of Labor Workforce Innovation Fund (WIF). The ACE evaluation is being conducted by ICF International (Fairfax, VA). Questions regarding the evaluation can be submitted to the ACE call in line at 877-709-7314 or emailed to [ACE\\_Evaluation@icfi.com](mailto:ACE_Evaluation@icfi.com). The evaluation design has been reviewed and approved by the ICF Institutional Review Board (IRB): #4292013. Inquiries regarding IRB human subject's issues can be submitted to the ICF IRB call in line at 877-556-2218 or emailed to IRB@icfi.com

**Appendix D:**  
**Implementation Study**  
(Appendices for Section 5)

## Appendix 5.1: Measuring Fidelity of Implementation

Implementation fidelity measures the extent to which the program was implemented as intended. As part of the implementation study, it adds valuable information on why and how interventions work. Systematically measuring implementation fidelity confirms intervention delivery, supports replicability and scale-up, and if on-going, provides opportunities for program improvement. To harness similar information on the ACE model, an implementation fidelity rubric was developed to measure the fidelity of the ACE program implementation, retrospectively; to measure how well the ACE sites implemented the ACE model as intended at each site.

1. The first step of developing the rubric was to define the model components that would be measured. Using the ACE Measurement Logic Model (see Appendix 2.1) as the guiding framework, the major components of the rubric were identified as:
  - o Planning
  - o Intake
  - o Training
  - o Support Services
  - o Transition and Tracking

These key components are activities and inputs that are under the direct control of the ACE sites and are considered essential for implementing the ACE model.

2. Secondly, ancillary components stemming from each major component were defined as indicators. For example, one of the major activities and components of the ACE model is the integrated training curriculum (the integration of occupational and basic skills). Ancillary components identified under this major model component was student perception of how well the training content was integrated and how well the vocational and basic skills instructor worked together in the classroom. Indicators were identified for each major and ancillary component
3. For the next step, fidelity was measured separately for each key component and associated indicators. Measuring fidelity involved specifying a threshold for determining whether, for the entire sample, the components were implemented with fidelity. If fidelity measure is greater than or equal to the prescribed threshold, the key components will be judged to have been implemented with fidelity. "Implementation with fidelity" for the ACE rubric does not necessarily mean that an ideal implementation or impactful implementation; it simply means that implementation was a "fair test" of the model. For example, to determine if job readiness support services such as resume support were implemented or offered, we looked at the percentage of people who indicated on the survey that they received that service. The prescribed threshold for that indicator was 50%. Therefore, if 55% of participants at a particular site indicated that "Yes" they received that service then that indicator, or part of that job readiness component was implemented with fidelity and was given a score of 2= Met Requirement. Each indicator had their threshold and associated score.

Data sources identified for scoring the indicators included program documentation, survey data on participants, data from the ETO data system and qualitative data from site visits. Data for scoring on services implemented is primarily estimated from participant data from the Year 1

**Accelerating Connections to Employment**  
 Appendices

follow-up survey. All ACE study participants received the Year 1 Follow-up survey one year after randomization into the Treatment or Control (n=691).

**Fidelity of Implementation Indicators and Scores for Key Components of the ACE Measurement Model – Planning Phase.**

Key Component 1 = <i>Planning</i> – Assess Labor Market Demand						
#	Indicators	Operational Definitions	Data Source	Indicator Implementation Score		Scoring Notes
1A	Assessment of labor market demands	WIB team conducted LMI or analysis of local labor market demands prior to design of the training programs.	WIF Grant Application, interviews with program staff	<b>Indicator Scoring:</b> <u>Indicator</u> <u>Implementation Score</u> N                  0 = Did not meet requirement Y                  2 = Met requirement		N= ACE partners did not utilize labor market analysis in selecting in-demand training programs Y= ACE partners utilized labor market analysis in selecting in-demand training programs
Key Component 2 = <i>Planning</i> – Engage Community:						
#	Indicators	Operational definitions	Data Source	Indicator Implementation Score		Scoring Notes
2A	Community engagement	ACE Team interacted with community partners by visiting or holding meetings with churches, refugee centers, and community centers.	Site visit information: interviews with program staff.	<b>Indicator Scoring: 0-2</b> <u>Indicator</u> <u>Implementation Score</u> N                  0 = Did not meet requirement Y                  2 = Met requirement		N= the partners did not make an effort to interact with community partners Y= ACE partners communicated and collaborated with community partners
Key Component 3 = <i>Planning</i> – Planning with Community Colleges:						
#	Indicators	Operational definitions	Data Source	Indicator Implementation Score		Scoring Notes
3A	Collaboration and planning with Community Colleges	WIB partners with Community Colleges to plan and stand-up training programs through the use of regularly scheduled meetings and other forms of effective communication.	Site visit information: interviews with program staff. WIF Application	<b>Indicator Scoring: 0-2</b> <u>Indicator</u> <u>Implementation Score</u> N                  0 = Did not meet requirement Y                  2 = Met requirement		N= Weak collaboration between partners in planning phase Y= ACE partners communicated and collaborated closely with community partners in planning phase
Key Component 4 = <i>Planning</i> – Establish Programs:						
#	Indicators	Operational definitions	Data Source	Indicator Implementation Score		Scoring Notes
4A	Development of training programs	ACE Team close collaboration in designing training programs for in-demand employment opportunities	Site visit information: interviews with program staff. WIF Application	<b>Indicator Scoring: 0-2</b> <u>Indicator</u> <u>Implementation Score</u> N                  0 = Did not meet requirement Y                  2 = Met requirement		N= ACE Partners did not collaborate in the development of training programs Y= ACE Partners collaborated in the development of training programs

**Accelerating Connections to Employment**  
Appendices

Key Component 5 = <i>Planning</i> Establish Career Pathways:						
#	Indicators	Operational definitions	Data Source	Indicator Implementation Score		Scoring Notes
5A	Identification of career pathways that lead to economic self-sufficiency	Establish programs that lead to an attainable career pathway	Grant Application; site visit information; interviews with program staff.	<b>Indicator Scoring: 0-1</b> <u>Indicator</u> <u>Implementation Score</u> N                  0 = Did not meet requirement Y                  2 = Met requirement		N= ACE partners offered training programs that do not lead to effective pathways Y= ACE partners identified program pathways that are attainable for the target population

**Fidelity of Implementation Indicators and Scores for Key Components of the ACE Measurement Model – Intake Phase.**

Key Component 1 = <i>Intake</i> – Recruitment:						
#	Indicators	Operational definitions	Data Source	Indicator Implementation Score		Scoring Notes
1A	Achievement of recruitment targets	ACE teams reach their recruitment targets.	ACE Program Dashboard	<b>Indicator Scoring: 0-2</b> <u>Indicator</u> <u>Implementation Score</u> 0-99%        0 = Did not meet requirement 100%        2 = Met requirement		Goal = 100%
Key Component 2 = <i>Intake</i> – Assessment:						
#	Indicators	Operational definitions	Data Source	Indicator Implementation Score		Scoring Notes
2A	Assessment of ACE students	Community Colleges assess participants on basic literary and numeric skills prior to project enrollment.	ETO data on assessments (e.g. TABE/CASAS)	<b>Indicator Scoring: 0-2</b> <u>Indicator</u> <u>Implementation Score</u> N                  0 = Did not meet requirement Y                  2 = Met requirement		N= Site did not use TABE/CASAS or other test to assess students Y= Site used TABE/CASAS or other test to assess students
Key Component 3 = <i>Intake</i> Orientation:						
#	Indicators	Operational definitions	Data Source	Indicator Implementation Score		Scoring Notes
3A	Development and implementation of orientation process at Community Colleges	Community Colleges offered informational session on study, randomization and other required components of the study	Business As Usual Case Study  Staff interviews: Process for orientation	<b>Indicator Scoring: 0-2</b> <u>Indicator</u> <u>Implementation Score</u> 0                0 = Did not meet requirement 1                1 = Met requirement 2                2 = Exceeded requirement		0 = Site did not have a structured orientation process 1 = Orientation involved a workshop and participants understood the purpose of the study 2 = Orientation involved a workshop, vestibule and interview process

**Fidelity of Implementation Indicators and Scores for Key Components of the ACE Measurement Model – Training Phase.**

Key Component 1 = <i>Training</i> Integrated Curriculum:					
#	Indicators	Operational definitions	Data Source	Indicator Implementation Score	Scoring Notes
1A	Integration of basic/vocational skills content	Feedback on integration of basic and vocational skills content	ACE Follow-up Survey (Treatment Group) Q.31: <i>I would have rather had separate basic skills training and vocational training.</i>	<b>Indicator Scoring: 0-2</b> <u>Indicator</u> <u>Implementation Score</u> 0-49%      0 = Did not meet requirement 50-100%      2 = Met requirement	5-point Likert  % of participants that indicate that they <i>Strongly Disagree + Disagree</i>
1B	Satisfaction with basic skills instructor	Student perception on basic skills instruction	ACE Follow-up Survey (Treatment Group) Q.36: <i>I am satisfied with the instruction provided by my basic skills instructor.</i>	<b>Indicator Scoring: 0-2</b> <u>Indicator</u> <u>Implementation Score</u> 0-49%      0 = Did not meet requirement 50-100%      2 = Met requirement	5-point Likert  % of participants that indicate that they <i>Strongly Agree+ Agree</i>
1C	Satisfaction with vocational skills instructor	Student perception on vocational Skills instruction	ACE Follow-up Survey (Treatment Group) Students indicate on "agree" Likert scale with statement " <i>I am satisfied with the instruction provided by my vocational skills instructor</i> " (Q.37)	<b>Indicator Scoring: 0-2</b> <u>Indicator</u> <u>Implementation Score</u> 0-49%      0 = Low 50-100%      2 = Met requirement	5-point Likert  % of participants that indicate that they <i>Strongly Agree+ Agree with statement</i>
Key Component 2 = <i>Training</i> Co-teaching Strategy:					
#	Indicators	Operational definitions	Data Source	Indicator Implementation Score	Scoring Notes
2A	Integration of operational skills content	Student perception on classroom collaboration between basic and occupational/vocational training instructor	ACE Follow-up Survey (Treatment Group) Q.38: <i>I feel that my basic skills instructor and vocational skills instructor worked together well.</i>	<b>Indicator Scoring: 0-2</b> <u>Indicator</u> <u>Implementation Score</u> 0-49%      0 = Did not meet requirement 50-100%      2 = Met requirement	5-point Likert  % of participants that indicate that they <i>Strongly Agree+ Agree</i>

**Accelerating Connections to Employment**  
 Appendices

Key Component 3 = <i>Training</i> Job Readiness Training:					
#	Indicators	Operational definitions	Data Source	Indicator Implementation Score	Scoring Notes
3A	Resume writing	Community Colleges and WIB provided job readiness training with resume preparation sessions.	ACE Follow-up Survey (Treatment Group) Q8_1: <i>Did you receive ... - Help preparing a resume?</i>	<b>Indicator Scoring: 0-2</b> <u>Indicator</u> <u>Implementation Score</u> N      0 = Did not meet requirement Y      2 = Met requirement	0-Low= 49% or less said they received service 2-High= 50 % or more said they received the service
3B	Interview skills training	Community Colleges and WIB provided job readiness training with interview skills training	ACE Follow-up Survey (Treatment Group) Q8_2: <i>Did you receive ... - Interview skills training?</i>	<b>Indicator Scoring: 0-2</b> <u>Indicator</u> <u>Implementation Score</u> N      0 = Did not meet requirement Y      2 = Met requirement	Same as above
3C	Mock interview practice	Community Colleges and WIB provided job readiness training with Mock interview practice	ACE Follow-up Survey (Treatment Group) Q8_3: <i>Did you receive ... - Mock interview practice?</i>	<b>Indicator Scoring: 0-2</b> <u>Indicator</u> <u>Implementation Score</u> N      0 = Did not meet requirement Y      2 = Met requirement	Same as above
3D	Professional Behavior	Community Colleges and WIB provided job readiness training with professional behavior sessions	ACE Follow-up Survey (Treatment Group) Q8_4: <i>Did you receive ... - Appropriate/professional workplace behavior?</i>	<b>Indicator Scoring: 0-2</b> <u>Indicator</u> <u>Implementation Score</u> N      0 = Did not meet requirement Y      2 = Met requirement	Same as above
3E	Workplace and diversity harassment training	Community Colleges and WIB provided job readiness training with Workplace and diversity harassment information sessions	ACE Follow-up Survey (Treatment Group) Q8_5: <i>Did you receive ... - Diversity and workplace harassment training?</i>	<b>Indicator Scoring: 0-2</b> <u>Indicator</u> <u>Implementation Score</u> N      0 = Did not meet requirement Y      2 = Met requirement	Same as above
3F	Verbal and non-verbal communication	Community Colleges and WIB provided job readiness training with Verbal and non-verbal communication sessions	ACE Follow-up Survey (Treatment Group) Q8_6: <i>Did you receive ... - Verbal and nonverbal communication?</i>	<b>Indicator Scoring: 0-2</b> <u>Indicator</u> <u>Implementation Score</u> N      0 = Did not meet requirement Y      2 = Met requirement	Same as above
Key Component 4 = <i>Training</i> Internships:					
#	Indicators	Operational definitions	Data Source	Indicator Implementation Score	Scoring Notes
4A	Participants received internships	Program placed participant in an internship	ACE Follow-up Survey (Treatment Group) Q22: <i>Did ACE provide an Internship or Other On-the-Job Opportunities?</i>	<b>Indicator Scoring: 0-2</b> <u>Indicator</u> <u>Implementation Score</u> N      0 = Did not meet requirement Y      2 = Met requirement	Same as above

**Fidelity of Implementation Indicators and Scores for Key Components of the ACE Measurement Model  
– Support Services.**

Key Component 1 = <i>Support Services</i> Individual Coaching:						
#	Indicators	Operational definitions	Data Source	Indicator Implementation Score		Scoring Notes
1A	Participants received individual coaching from ACE staff	ACE staff provided one-on-one coaching	ACE Follow-up Survey (Treatment Group) Q10: <i>Did ACE provide you with Academic Support?</i>	<b>Indicator Scoring: 0-2</b> <u>Indicator</u> <u>Implementation Score</u> N                  0 = Did not meet requirement Y                  2 = Met requirement		0-Low= 49% or less said they received service 2-High= 50 % or more said they received the service
1B	Participants received direct academic support	ACE staff provided one-on-one academic support	ACE Follow-up Survey (Treatment Group) Q11: <i>Provided directly or by referral?</i>	<b>Indicator Scoring: 0-2</b> <u>Indicator</u> <u>Implementation Score</u> N                  0 = Did not meet requirement Y                  2 = Met requirement		0-Low= ACE partners provided service directly 49% or less of the time 2-High= ACE partners provided service directly 50% or more of the time
Key Component 2 = <i>Support Services</i> Support Services:						
#	Indicators	Operational definitions	Data Source	Indicator Implementation Score		Scoring Notes
2A	Transportation Assistance	Participants received support services – Transportation Assistance	ACE Follow-up Survey (Treatment Group) Q7_1: <i>Did you receive... -Transportation assistance?</i>	<b>Indicator Scoring: 0-2</b> <u>Indicator</u> <u>Implementation Score</u> N                  0 = Did not meet requirement Y                  2 = Met requirement		0-Low= 49% or less said they received service 2-High= 50 % or more said they received the service
2B	Classroom supplies and equipment	Participants received support services – Classroom supplies and equipment	ACE Follow-up Survey (Treatment Group) Q7_4: <i>Did you receive... - Classroom supplies and equipment?</i>	<b>Indicator Scoring: 0-2</b> <u>Indicator</u> <u>Implementation Score</u> N                  0 = Did not meet requirement Y                  2 = Met requirement		Same as above

## Appendix 5.2: Documenting the Treatment Contrast- ACE Business as Usual

From September through November 2014, the evaluation team contacted staff at ACE sites (seven WIBs and community colleges)<sup>4</sup> and control group participants who were randomized between May 2014 through September 2014 at all nine original ACE sites. The surveys and interviews were conducted to gather data to:

- compare services received by the ACE treatment group with the ACE control group as part of business as usual;
- create a preliminary inventory of what constitutes business as usual for the ACE control group; and
- gain information about the nature of the interaction between site staff and the ACE control group and how the ACE control group perceives the randomization process.

Respondents were asked about the procedures surrounding randomization and the services offered to the control group. Data were collected via four methods:

1. Short email surveys of all current ACE sites.
2. In-depth phone interviews with four sites.<sup>5</sup>
3. Online surveys of recently randomized ACE study control group participants (290 participants).
4. Implementation study site visits with seven sites.

Site visits and email surveys were conducted with all seven WIBs and community colleges and phone conferences were subsequently conducted with four sites chosen for in-depth interviews. Figure 2 provides a summary of the online survey of the control group participants. A total of 290 emails were sent to control group participants from all nine sites and at the end of the online survey period, October 31, 2014, and the response rate was 36%.

### Response Rate for Control Group Members Randomized Between May 2014 and September 2014

ACE Site	Responded		Non-Response		Non-Valid Email		Total N
	N	%	N	%	N	%	
Anne Arundel	3	13	16	67	5	21	24
Atlanta	2	13	14	88	0	0	16
Austin	19	58	13	39	1	3	33
Baltimore City	18	38	28	58	2	4	48
Baltimore County	20	41	27	55	2	4	49
Montgomery	8	25	23	72	1	3	32
New Haven	14	34	22	54	5	12	41
Prince Georges	20	43	26	55	1	2	47
<b>Total</b>	<b>104</b>	<b>36</b>	<b>169</b>	<b>59</b>	<b>17</b>	<b>6</b>	<b>290</b>

<sup>4</sup> At the time of this case study, Atlanta and Upper Shore were no longer part of the ACE study.

<sup>5</sup> The four sites chosen were representative of the range of ACE sites within the study

## Analysis

### Pre- and Post- Randomization Process

The accuracy of the results stemming from the evaluation depends heavily on the randomization process. The randomization process ensures that both treatment and control have similar characteristics at baseline and that changes in participant outcomes can be attributed to the program rather than some other factor. If there are variations in the pre- and post-randomization process across sites, the evaluation team needs to make a note of those differences and factor them into its estimates of participant outcomes.

ACE partners, the community colleges and WIBs, fared well in terms of implementing standardized messaging before and following the randomization process. For example, Baltimore County and New Haven community colleges held orientations with all potential ACE candidates prior to randomization. Orientations at the WIBs involved the presentation of information on ACE and other workforce programs to potential participants and also the determination of eligibility into the ACE program.

Following randomization, ACE sites provided handouts or other shareable resources often referring control group members to other Workforce Investment Act (WIA) funding opportunities for which they may have been eligible or to other funding sources at the college. Control group members (72%) that were surveyed confirmed that they were directed toward alternative services (training or employment) by ACE staff. In addition, about one-third (36%) of those surveyed reported receiving written materials or resources.

### Communication with the ACE Control Group

The ACE program model is unique in that the control group participants can access alternative services at the WIB as part of business as usual. Therefore, both the treatment and control groups may have engaged in similar activities in their respective locations throughout the study. Due to this overlap of services, there may have been an increased likelihood of interaction between program staff, treatment group members and those in the control group, i.e. contamination of the control group.

Across both ACE community colleges and WIBs, regular and planned communication with the control group was uncommon. None of the community colleges kept in formal contact with members of the ACE control group after randomization; and among WIBs, only Montgomery County noted maintaining regular contact with the ACE control group. At Montgomery County, staff members communicated with the ACE control group on an ad hoc basis if individuals email or call, as well as through an email communication every four to six weeks. The email typically contained information on available resources.

ACE control group members in the online survey were also asked about their interactions with the treatment group and they reported little or no contact with them. Among respondents, nine percent reported they had family or friends enrolled in an ACE training class, 23 percent had been in contact with the college, and 17 percent had been in contact with the WIB. The vast majority of this communication with either the college or the WIB took place on an ad hoc basis.

## Services Offered to the Control Group as Part of Control Business as Usual

In order to understand how ACE works and which strategies were critical to the program's success, detailed data on services offered were collected for both the treatment and control groups. Since control group participants had access to services provided by the WIB, it was critical to collect those data and to understand what types of services were being offered to the control group. The control group served as a baseline for comparison, therefore, the quality and quantity of services offered to the control group can influence the differences estimated between the treatment and control groups.

ACE partners offered a variety of services to the ACE control group as part of business as usual, either as part of specific ACE control group procedures or regular WIB and community college services. WIBs and community colleges provided different types of services. Community colleges focused on academic support, the most common of which included academic counseling and GED assistance. WIBs focused on employment supports such as career counseling, assistance with résumés, interview practice, job search assistance, and workplace behavior coaching.

### Academic Support

- ❖ **All ACE sites provided some form of academic counseling and GED assistance to members of the ACE control group.**

Academic support services were typically available to members of the ACE control group through the community college. All sites provided general academic counseling services and assistance with completing a GED, if necessary. In addition to general academic counseling services and GED assistance, some sites provided other assistance. Austin, Baltimore County, and New Haven organized study sessions for participants. Anne Arundel, Austin, and Baltimore County also offered tutoring services.

### Employment Services

- ❖ **All ACE sites provided a broad variety of employment services to control group members.**

All sites provided employment services such as career counseling; resume preparation; professionalism training (e.g., guidance related to appropriate workplace behavior and communication), as well as help with searching for jobs and basic computer skills and other employment services. These services were typically provided through the WIB. However, several colleges provided help with computer literacy skills needed to search and apply for a job.

Although all sites helped participants develop job readiness skills, some sites provided additional employment supports and services. For example, the Anne Arundel, Austin, Montgomery County, and New Haven WIBs provided assistance with selecting and buying appropriate workplace clothing. The Anne Arundel and New Haven WIBs also provided help with speed interviewing; Baltimore City, Baltimore County, and New Haven offered diversity and workplace harassment training; and the Austin, Baltimore City, Baltimore County, and New Haven WIBs also provided training and advice in money management. Five WIBs and six community colleges reported referring control group members to training or classes similar to

the ACE training for which they applied. While similar training may exist in terms of subject matter or credential attainment, some noted that the control group would not have access to the ACE-like or I-BEST model or to a career navigator.

### **On-the-Job Training Opportunities**

Relatively few sites offered on-the-job training opportunities to members of the ACE control group as part of business as usual. Although three sites offered internships to ACE control group members as part of their business as usual, other sites provided training services that did not fit in to the defined survey categories. For example, the Austin WIB offered subsidized employment to business as usual customers including ACE control group members enrolled in other WIB programs. The Baltimore City WIB had customized training agreements in place with employers to help funnel business as usual customers into on-the-job training opportunities. The Baltimore City WIB also referred ACE control group members to Train Baltimore (<http://trainbaltimore.org>), a website offering resources for job training opportunities, and offered control group members Individual Training Accounts (ITA) funding through WIA.

### **Personal Issues and Life Stressors Support**

- ❖ **All sites referred the ACE control group to government and nonprofit organizations that provide personal issue and life stressor support, and some sites provided this support directly.**

Many sites offered support for personal issues and common life stressors that may have prevent participants from attending and completing ACE courses and finding employment. However, many services were not offered directly by the WIB or community college. The most common personal supports that community colleges and WIBs offered directly included transportation, child care, workplace clothing, and classroom supplies. The least common included housing, utilities, food, health care, and counseling. If there were no direct WIB or community college support in-house, members of the control group were referred to other organizations that provide these services.

Four colleges and one WIB provided counseling with personal issues such as substance abuse, domestic violence, and mental health. Three sites (Anne Arundel, Baltimore City, and Baltimore County) provided some form of food assistance. Other services provided by a handful of sites include help with utilities (Baltimore City WIB, Baltimore County CC, and New Haven WIB) as well as housing and healthcare services (Baltimore City WIB and Baltimore County CC). The Baltimore City WIB also offered assistance for ex-offenders, assistance with child arrears, traffic ticket assistance, legal advice, and state identification services.

### **Comparing ACE Treatment Services to Control Business as Usual Services**

During the in-depth interviews, ACE staff were asked to compare and contrast the services available to ACE treatment group members with those available to control group members in terms of quantity and quality. The thoughts of ACE staff on the differences between treatment and control business as usual services are summarized below:

- ❖ **ACE treatment group may have a comparative advantage over control group**

According to a New Haven WIB staff member, the treatment group had several advantages. The treatment group had access to services at the WIB, as well as through ACE, which includes referrals to employers and job coaching. In general, ACE site staff felt ACE treatment participants got more one-on-one attention because multiple staff members were keeping track of them and were available to assist with any struggles in or out of class. The control group did not have the built-in support system of the ACE model. As an example, New Haven staff were able to prevent an ACE treatment group member from dropping out of the program by helping the participant avoid eviction from his home.

According to Austin staff, the main difference between treatment services and control business as usual is that treatment services provided wraparound support to help participants succeed in class and treatment classes were more focused on soft skills (e.g. interviewing skills, work behavior, time management, etc.) than the traditional community college class. Prince George's County staff noted that treatment participants had access to tutoring, computer skills training, interview practice, counseling, and job clubs. In contrast, according to New Haven staff, ACE control group members were not given in-depth information about course options. Furthermore, ACE control business as usual did not include basic skills instruction, direct employment guidance, a dedicated career navigator or job developer, or internship coordination. There are some parallel services at one site for SNAP-eligible individuals that may apply to some ACE control group members, but the services were not as focused as those provided by ACE. ACE control group members may also have some opportunities to obtain WIA funding or Trade Adjustment Assistance (TAA) benefits.

❖ **ACE treatment group participants are more likely to use available resources than control group**

Nearly all staff felt that treatment participants were more likely to use available resources. According to New Haven, the control group is less likely to receive the guidance needed to identify these resources, so utilization would depend primarily on their desire, need, or motivation. New Haven has found that while control group members may come to the program staff for advice after randomization, few follow through afterwards. Austin staff echo this notion that the treatment group is more likely to be informed and aware of the possibilities than the control group. Baltimore City staff felt, again, that service use depended on motivation, but that for some, the disappointment associated with finding out the randomization result can reduce their motivation to pursue other options.

### **How Are ACE Treatment Services Influencing Control Business as Usual?**

To serve as an effective comparison, the control group represented individuals receiving “typical” services and support from community colleges and WIBs (i.e., services that these individuals would have received in the absence of the ACE study). From the perspective of the evaluator, it is important that the ACE trial not influence these typical services so that the control group can serve as an effective comparison and allow for a valid estimation of treatment effects.

Data from these in-depth phone interviews with the four ACE sites show that:

- ❖ **Although, ACE has not significantly influenced control business as usual at either the WIBs or community colleges at this time, the ACE sites are enthusiastic about incorporating elements of ACE going forward**

Generally, community college staff at ACE sites responded that the ACE program did not have a strong influence over the services and supports provided through control business as usual. Community colleges generally responded that because the ACE program provides an entirely new curriculum, the ACE training classes operate separately and did not influence the classes that the community college normally offers. Others, however, responded that the community college was enthusiastic about the co-teaching model implemented by ACE, and that training focused on developing job skills had become more popular among non-ACE classes since the beginning of the evaluation.

Responses from WIB staff also indicated that the ACE evaluation had not significantly impacted the way they conduct control business as usual, but that some marginal elements of ACE may have found their way into everyday practice. One site notes that the ACE evaluation helped make the intake process more efficient by streamlining paperwork. However, WIB staff, in general, clearly stated that the ACE evaluation did not alter the way that the WIB conducts programs or orientations, and that the services offered to customers as part of control business as usual were unaffected by the ACE implementation.

In contrast to these observations, during our fall site visits, several sites discussed ways ACE had influenced them and demonstrated an interest in continuing elements of the ACE model after the funding period. At Austin, co-teaching was increasingly being integrated into adult basic education. Baltimore County was interested in expanding its use of elements of the ACE model, and felt that ACE had encouraged them to align resources and establish lines of communication across social welfare agencies. New Haven indicated that the State of Connecticut was interested in the ACE model and New Haven envisioned growing collaborations between WIBs and colleges as well as integrating job development within the community college environment. Baltimore City had seen an influence of ACE on other grants, particularly with regards to incorporating job readiness into training programs. Montgomery County noted that ACE had provided leverage to begin a conversation about increasing the job development presence at the community college. At Anne Arundel, the ACE program had inspired them to do more outreach in the community. They found that many people who could benefit from non-credit job training were not inclined to attend college.

## Business as Usual Summary Findings

The findings from our surveys, in-depth phone interviews, and site visits revealed the following:

- ❖ The community colleges and WIBs fared well in terms of implementing standardized messaging following the randomization process.
- ❖ The control group did, in fact, receive some services as part of control business as usual. These services varied by site. Some control group participants were directed towards a standardized set of services, and others receive services that were tailored to their circumstances. Sites generally did a good job ensuring that these services matched

**Accelerating Connections to Employment**  
 Appendices

closely with services offered to typical WIB customers but were different from those offered to the treatment group.

- ❖ Elements of the ACE model were gradually being integrated into business as usual offerings at a few sites while others planned on adopting ACE program elements in future programming. Co-teaching, job readiness and job placement were the most cited ACE elements that community colleges were trying to emulate throughout their other adult education and training programs.

#### Introduction/Purpose of Study

My name is \_\_\_\_\_ and I am part of the ACE National Evaluation team. Thank you for agreeing to participate in today's interview regarding the ACE program at [site name]. We appreciate you taking time to assist with this evaluation because your input on how this program works is important. This interview gives us the opportunity to learn from you. We want to hear

about whether you think ACE works and if so, how it works. The aim is to can share lessons learned with others around the country that are in workforce development and education.

Before we begin, we want to remind you that your participation in this interview is voluntary and the information you share with us will be kept confidential. Specifically, this means that (1) you can decline to answer any questions, or discontinue the interview at any time; (2) we will not connect your name with what was said in any written reports; and (3) only evaluation staff will have access to the interview data. In our report on the evaluation of the ACE program we will provide overviews of what was learned during the interviews and site visits and will connect anecdotes to other data we have collected. However, we will not report or present the information you share with us in any way that will identify a specific person. Your WIB or Community College may be identified in the reports but only if prior permission is given from both organizations. The interview will last about 30 minutes. I will be recording the interview because I don't want to miss any of your comments.

Are there any questions about what I have just explained?

Are you willing to participate in this interview? \_\_\_\_\_ Yes \_\_\_\_\_ No

***BEGIN INTERVIEW - \*22 if using ICF Recording Service***

### **Role in ACE/Workforce development experience**

1. Tell us a little about yourself. Can you elaborate on the specific roles and responsibilities you have in the ACE program?

- Recruitment
- Enrollment
- Intake
- Job readiness
- Job searching
- Job placement
- Identifying barriers
- Addressing barriers
- Linking students to support services
- Establishing class or program policies

a. How long you have been with the WIB?

**Accelerating Connections to Employment**  
Appendices

- b. How many years have you been in workforce development?
- 2. What are the training programs that you have offered through the ACE program?
  - a. How long are students in class per day? How many times per week do they meet? How long does the training last? Is there an on-the-job component?
  - b. How is your enrollment process going? Has it changed since last year?

*Let's talk about the target population for your WIB*

- 3. Describe your target population.
  - a. Have you adjusted your target population or enrollment requirements since the ACE program started? If yes, why? If no, why not?

**Recruitment and Eligibility**

- 4. How is recruitment going at your site?
  - a. Have you made any changes to your recruitment process since last year? If so, why? If no, why not?
  - b. What is your current recruitment process like?
  - c. What successes can you share regarding that process?
  - d. What challenges can you share regarding that process?
  - e. How would you change that process going forward?

**Support Services and Barriers**

- 5. Which of the following support services do you currently offer at your site?
  - Transportation
  - Child care
  - Food
  - Housing
  - Utilities
  - Assistance with benefits
  - Healthcare services
- 6. What support services did participants need most? What are their biggest barriers to success in the program?
- 7. How have support services been helpful to the customer?
- 8. How could they be improved?

**Accelerating Connections to Employment**  
Appendices

9. What additional resources not anticipated in the program design and budget were necessary to coordinate your services?
10. Are there any other services you think customers might need or appreciate?
11. Do you think the ACE program has resulted in any secondary benefits for the student and his/her family?
12. Do you think the ACE program has resulted in any secondary benefits for the student's community?
13. What services do members of the control group (i.e., study participants not chosen for an ACE class) receive as part of "business-as-usual"?

**Job Readiness**

14. What is your role in providing job readiness assistance?
15. Which of the following job readiness supports does your site offer?
  - Resumes
  - Interviewing
  - Work behavior
  - Dressing for work
  - Using job search tools
  - a. Do ACE customers take advantage of job readiness assistance? If yes, why? If no, why not?
  - b. What successes are you having with job readiness at your site?
  - c. What challenges are you having with job readiness at your site?
  - d. How can job readiness services be improved?

**Job Placement**

16. What is your role in the job placement process?
  - a. Does your site have a dedicated job developer?
  - b. Do you work with employers or have any employer partnerships? Are there any successes or challenges you can share about partnering with employers?
17. What assistance with job placement is available?
  - a. Do ACE customers take advantage of job placement assistance? If yes, why? If no, why not?
  - b. What job placement assistance do customers take the most advantage of? Why do you think that is?
  - c. What successes are you having with job placement at your site?
  - d. What challenges are you having with job placement at your site?
  - e. How can job placement services be improved?

## ACE Model

*Now let's talk a little bit about the ACE model*

18. In your opinion, what elements of the ACE model are the most important? (***If respondent doesn't know or is unsure, please read statement below, followed by question***)

a. Perhaps it would be helpful if I describe some of the ACE elements.

The ACE model has a strong focus on understanding labor market demand, by working with communities and employers. It provides students with skills testing, support services, transition and employment services. ACE integrates recruitment, screening, and orientation, and combines occupational and basic skills training. Programs also track student data.

- Do any of these elements stand out to you as the most important?

19. Has the ACE model resulted in a big shift in how you coordinate and deliver services for your customers? If yes, what are the biggest adjustments you've had to make to administer ACE?

## Partnerships

*The ACE model calls for Career Navigators to work with community partners including One-Stop, employers, and community colleges.*

20. What was your initial experience like engaging with partners for ACE?

21. How has the relationship between the WIB and the Community College been going?

22. How frequently do you all meet as a group?

23. How do the partners divide program management tasks? How do you make decisions in this process?

24. How have relationships between the partners changed over time?

- a. What successes can you share in forming those collaborative relationships?
- b. What challenges can you share in forming those collaborative relationships?

## Lessons Learned

25. What lessons have you learned about how the ACE program works?

**Accelerating Connections to Employment**  
Appendices

- a. In what ways is it working as intended?
  - b. In what ways is it not working as intended?
26. What do you see as a major challenge going forward for the ACE program?
27. What do you think about this model's sustainability after the funding period?
28. What takeaways would you like to share from your experiences?
29. Is there anything else you would like to add?

**That's the end of the interview. We really appreciate your time today. Thank you!**

**Interview Length:** \_\_\_\_\_

**Interviewer comments:**

*Disclosure: The Accelerating Connections to Employment (ACE) project is funded by the US Department of Labor under contract #IF-23245-12-61-A-24. The ACE evaluation is part of a national evaluation being conducted by the Department of Labor Workforce Innovation Fund (WIF). The ACE evaluation is being conducted by ICF International (Fairfax, VA). Questions regarding the evaluation can be submitted to the ACE call in line at 877-709-7314 or emailed to [ACE\\_Evaluation@icfi.com](mailto:ACE_Evaluation@icfi.com). The evaluation design has been reviewed and approved by the ICF Institutional Review Board (IRB): #4292013. ### **Introduction/Purpose of Study (to be read to instructors before interview)**

My name is \_\_\_\_\_ and I am part of the ACE National Evaluation team. Thank you for agreeing to participate in today's interview and classroom observation for the ACE program at [site name]. We appreciate you taking time to assist with this evaluation because your input on how this program works is important. This interview gives us the opportunity to learn from you about how the ACE Model is being implemented in your classroom so we can share lessons learned with others around the country that are in workforce development and education.

Before we begin, we want to remind you that your participation in this interview is voluntary and the information you share with us will be kept confidential. Specifically, this means that (1) you can decline to answer any questions, or discontinue the interview at any time; (2) we will not connect your name with what was said in any written reports; and (3) only evaluation staff will have access to the interview data. In our report on the evaluation of the ACE program we will provide overviews of what was learned during the interviews and site visits and will connect anecdotes to other data we have collected. However, we will not report or present the information you share with us in any way that will identify a specific person. Your Workforce Investment Board or Community College may be identified in the reports but only if prior permission is given from both organizations. The interview will last about 30 minutes. I will be recording the interview because I don't want to miss any of your comments.

Are there any questions about what I have just explained?

Are you willing to participate in this interview? \_\_\_\_\_ Yes \_\_\_\_\_ No

***BEGIN INTERVIEW***

**Pre-Observation Questions (*to be asked of instructor prior to class beginning*):**

1. How have you found working together as coteachers?
  - a. How did you prepare to teach the class?
  - b. How do you typically split instruction time?
2. What do you anticipate doing with the class today? Is this a typical day? If not, what do you do during a typical class?
3. What, if anything, should I know about the students in this class?
4. How many students typically attend this class? What factors influence attendance?
5. Do you feel that the students are engaged in the material?
6. Are there any services they need that they are not being offered that would help them to succeed in the class?
7. Do you teach any soft skills/professional skills with the class?

***STOP INTERVIEW***

**Classroom Observation**

1. Class title: \_\_\_\_\_
2. Training program (e.g., certified nursing assistant, welding): \_\_\_\_\_
3. Attendance (# of students): \_\_\_\_\_

4. Absences (# of students): \_\_\_\_\_

5. Class duration (minutes): \_\_\_\_\_

a. Overall duration of basic skills training (minutes): \_\_\_\_\_

b. Overall duration of vocational training (minutes): \_\_\_\_\_

6. Time on task (teachers actively engaged in instruction):

a. Time on task for basic skills training (minutes): \_\_\_\_\_

b. Time on task for vocational training (minutes): \_\_\_\_\_

7. Student engagement scale for basic skills instruction (*circle appropriate choice*)

1	2	3	4
Students were intellectually unengaged with the content.	A few of the students were intellectually engaged with the content related to the lesson activities. The lesson challenged a few students to think at high cognitive levels.	Some of the students were intellectually engaged with the content. The lesson challenged some students to think at high cognitive levels.	Most of the students were intellectually engaged with the content. The learning tasks challenged most students to think at high cognitive levels.

8. Student engagement scale for vocational instruction (*circle appropriate choice*)

1	2	3	4
Students were intellectually unengaged with the content.	A few of the students were intellectually engaged with the content related to the lesson activities. The lesson challenged a few students to think at high cognitive levels.	Some of the students were intellectually engaged with the content. The lesson challenged some students to think at high cognitive levels.	Most of the students were intellectually engaged with the content. The learning tasks challenged most students to think at high cognitive levels.

9. Classroom discourse scale for basic skills instruction (*circle appropriate choice*):

1	2	3	4

Classroom culture did not support and encourage student discourse.	Generally teachers support and encourage constructive discourse but some students exhibit a disregard for the ideas of others.	For the most part, students and teachers support and encourage constructive discourse, however only some students seem comfortable being engaged.	Students and teachers all support and encourage constructive discourse. Most students are engaged in asking questions and discussing ideas with one another.

Classroom culture did not support and encourage student discourse.	Generally teachers support and encourage constructive discourse but some students exhibit a disregard for the ideas of others.	For the most part, students and teachers support and encourage constructive discourse, however only some students seem comfortable being engaged.	Students and teachers all support and encourage constructive discourse. Most students are engaged in asking questions and discussing ideas with one another.

**Post-Observation Questions** (*to be asked of instructor after class*)

***START INTERVIEW***

*We appreciate the opportunity to observe your class today. If you have the time, I'd like to ask you some follow-up questions.*

1. How typical was this lesson for your students?
2. Was the level of engagement that we saw today typical for the students?

**Accelerating Connections to Employment**  
Appendices

3. How are your students handling the pace of the curriculum?
  - a. What, if any adjustments have you made in the pace of the class?
4. What do you think about the content of the curriculum? What would you add; what would you remove?
5. How do you communicate/collaborate with the other ACE staff (e.g., Career Navigator, Community College, WIB staff)?
6. What successes have you encountered with this class?
7. What challenges have you encountered with this class?
8. Are there any other thoughts you'd like to share about ACE?

***STOP INTERVIEW***

**That's the end of the interview. We really appreciate your time today. Thank you!**

**Introduction/Purpose of Study**

My name is \_\_\_\_\_ and I am part of the ACE National Evaluation team. Thank you for agreeing to participate in today's interview regarding the ACE program at [site name]. We appreciate you taking time to assist with this evaluation because your input on how this program works is important. This interview gives us the opportunity to learn from you. We want to hear about whether you think ACE works and if so, how it works. The aim is to can share lessons learned with others around the country that are in workforce development and education.

Before we begin, we want to remind you that your participation in this interview is voluntary and the information you share with us will be kept confidential. Specifically, this means that (1) you can decline to answer any questions, or discontinue the interview at any time; (2) we will not connect your name with what was said in any written reports; and (3) only evaluation staff will have access to the interview data. In our report on the evaluation of the ACE program we will provide overviews of what was learned during the interviews and site visits and will connect anecdotes to other data we have collected. However, we will not report or present the information you share with us in any way that will identify a specific person. Your Workforce Investment Board or Community College may be identified in the reports but only if prior permission is given from both organizations. The interview will last about 30 minutes. I will be recording the interview because I don't want to miss any of your comments.

Are there any questions about what I have just explained?

Are you willing to participate in this interview? \_\_\_\_\_ Yes \_\_\_\_\_ No

***BEGIN INTERVIEW - \*22 if using ICF Recording Service***

**Role in ACE/workforce development experience**

1. Tell us a little about yourself. Can you elaborate on the specific roles and responsibilities you have in the ACE program?

- Recruitment
- Enrollment
- Intake
- Job readiness
- Job searching
- Job placement
- Identifying barriers
- Addressing barriers
- Linking students to support services
- Establishing class or program policies

a. How long you have been with the college?

b. How many years have you been in workforce development?

## **Initial Implementation**

2. What successes did you experience when initially implementing the ACE Model?
3. What challenges did you experience when initially implementing the ACE Model?

## **Support Services**

*Let's talk about the support services for students in ACE*

4. Which of the following support services do you currently offer at the college?
  - Transportation
  - Child care
  - Food
  - Housing
  - Utilities
  - Assistance with benefits
  - Healthcare services
5. What support services did participants need most? What are their biggest barriers to success in the program?
6. How have support services been helpful to the customer?
7. How could they be improved?
8. Are there any other services you think customers might need or appreciate?
9. What additional resources not anticipated in the program design and budget were necessary to coordinate your services?
10. Do you think the ACE program has resulted in any secondary benefits for the student and his/her family?
11. Do you think the ACE program has resulted in any secondary benefits for the student's community?
12. What services do members of the control group (i.e., study participants not chosen for an ACE class) receive as part of "business-as-usual"?

## **ACE Model**

*Now let's talk a little bit about the ACE model*

13. In your opinion, what elements of the ACE model are the most important? (*If respondent doesn't know or is unsure, please read statement below, followed by question*)

- a. Perhaps it would be helpful if I describe some of the ACE elements.  
The ACE model has a strong focus on understanding labor market demand, by working with communities and employers. It provides students with skills testing, support services, transition and employment services. ACE integrates recruitment, screening, and orientation, and combines occupational and basic skills training. Programs also track student data.
- Do any of these elements stand out to you as the most important?

14. Has the ACE model resulted in a big shift in how you coordinate and deliver training and support services for your students? If yes, what are the biggest adjustments you've had to make to administer ACE?

### **Partnerships**

*The ACE model calls for WIBS to work with community partners including One-Stop, employers, and community colleges.*

15. What was your initial experience like engaging with partners for ACE?

16. How has the relationship between the WIB and the Community College been going?

17. How frequently do you all meet as a group?

18. How do the partners divide program management tasks? How do you make decisions in this process?

19. How have relationships between the partners changed over time?

- a. What successes can you share in forming those collaborative relationships?  
b. What challenges can you share in forming those collaborative relationships?

### **Lessons Learned**

20. What lessons have you learned about how the ACE program works?

- a. In what ways is it working as intended?  
b. In what ways is it not working as intended?

**Accelerating Connections to Employment**  
Appendices

21. What do you see as a major challenge going forward for the ACE program?
22. What do you think about this model's sustainability after the funding period?
23. What takeaways would you like to share from your experiences?
24. Is there anything else you would like to add?

**That's the end of the interview. We really appreciate your time today. Thank you!**

**Interview Length:**\_\_\_\_\_

#### Introduction/Purpose of Study

My name is \_\_\_\_\_ and I am part of the ACE National Evaluation team. As an evaluator, I study how a program is working. Thank you for agreeing to participate in today's interview regarding the ACE program at [site name]. We appreciate you taking time to assist with this evaluation because your input on how this program works is important. This interview gives us the opportunity to learn from you. We want to hear about whether you think ACE works and if so, how it works. The aim is to can share lessons learned with others around the country that are in workforce development and education.

Before we begin, we want to remind you that your participation in this interview is voluntary and the information you share with us will be kept confidential. Specifically, this means that (1) you can decline to answer any questions, or discontinue the interview at any time; (2) we will not connect your name with what was said in any written reports; and (3) only evaluation staff will have access to the interview data. In our report on the evaluation of the ACE program we will provide overviews of what was learned during the interviews and site visits and will connect anecdotes to other data we have collected. However, we will not report or present the information you share with us in any way that will identify a specific person. Your local WIB or Community College may be identified in the reports but only if prior permission is given from both organizations. The interview will last about 30 minutes. I will be recording the interview because I don't want to miss any of your comments.

Are there any questions about what I have just explained?

Are you willing to participate in this interview? \_\_\_\_\_ Yes \_\_\_\_\_ No

***BEGIN INTERVIEW - \*22 if using ICF Recording Service***

### **Job Placement / Recruiting**

1. How would you describe your relationship with the WIB and Community College?
2. How has your relationship with the WIB changed over time? What about your relationship to the Community College? How has the ACE program influenced these relationships?
3. How were collaborative relationships developed between you and other ACE partners? What would you say are the keys to the development of high-quality, collaborative relationships?
4. Did you have any input in the selection and design of the ACE courses or subject matter of the classes? What about the ACE program implementation?
5. Did you work with an ACE Career Navigator to identify job candidates and recruit new employees? If not, why not?
6. Would you please describe any shifts in the labor market over the study period that may have influenced the absorption of ACE graduates?

### **Job Readiness**

7. How satisfied are you with the quality of training ACE participants received?

**Accelerating Connections to Employment**  
Appendices

8. How do ACE graduates compare to other employees with the same job title?
9. Are there any industry-specific skills that ACE students should have learned in the program but did not? What about soft skills?

**Lessons Learned**

10. Do you plan to actively seek out ACE graduates in the future? Why or why not?
11. Do you have any other thoughts on the ACE program or ACE graduates that we haven't discussed?

*Disclosure: The Accelerating Connections to Employment (ACE) project is funded by the US Department of Labor under contract #IF-23245-12-61-A-24. ### ACE TREATMENT CUSTOMER FOCUS GROUP DISCUSSION GUIDE

***Date of Focus Group:***

***Facilitator:***

***Co-Facilitator:***

***ACE Site:***

---

#### ***Introduction/Purpose of Study***

My name is (Facilitator)\_\_\_\_\_ and this is (Co-facilitator)\_\_\_\_\_. We are part of the ACE National Evaluation team. As an evaluator, I see how a program is working. I'll be asking you questions and (Co-facilitator) is here to take notes on our conversation. Thank you for agreeing to participate in today's focus group regarding the Accelerating Connections to Employment or ACE program at [insert site name]. A focus group is a discussion that involves us asking you for your opinions about a program. It is almost like an interview except that it happens with a group. Our session today will last about an hour. We appreciate you taking time to assist with this evaluation because your input on how this program works is important. This focus group gives us the opportunity to learn from you. We want to hear about whether you think ACE works and if so, how it works so we can share lessons learned with others around the country that are in workforce development.

Before we begin, we want to remind you that your participation in this focus group is voluntary and the information you share with us will be kept confidential. Specifically, this means that (1) you can decline to answer any questions, or leave at any time; (2) we will not connect your name with what was said in any written reports; and (3) only evaluation staff will have access to the interview data. In our report on the evaluation of the ACE program we will provide overviews of what was learned during the site visits and will connect your feedback to other data

we have collected. However, we will not report or present the information you share with us in any way that will identify a specific person. Your Workforce Investment Board or Community College may be identified in the reports but only if prior permission is given from both organizations.

**What we discuss today is private. We ask that you don't talk about what was said here today. That includes not sharing information about what you said, or what others said.**

To help the focus group work, we would like to ask each of you to:

1. During the focus group, use your first names only when necessary
2. Be respectful of other participants and the facilitators. This includes being respectful about not sharing outside of this room without the participant's permission.
3. Fully participate to the best of your abilities by sharing your experiences with your peers.
4. Ask questions and make suggestions that will help everyone.
5. Turn off cell phones and/or pagers or place them on vibrate.

**Has everyone signed a consent form to participate in the discussion today?** (*Unconsented participants need to sign form to be included in discussion*)

***(Start the recorder)***

### ***Introductions/ACE Training***

1. Let's go around the room and each person please tell us your first name and what ACE training program you're in:
  - a. First name
2. What are some of the reasons that you're taking the ACE training?

*Now let's talk about your classes*

3. Describe your experience with the training classes?

4. How much time do you spend on your classes during the week?  
Probe: Too much, too little, just right?

5. What do you think about having two instructors?

Probe: Is it distracting? If yes, in what way?

Probe: Is it helpful? If yes, in what way?

Probe: Would you prefer to have just one instructor?

- a. Are the class materials easy to understand?
- i. If yes, in what way?
  - ii. If not, how can they be improved?
- b. How do you feel you're progressing (have progressed) in the class? (*Note verb tense for cohorts that have finished the first training*)
6. How do you think the information you're learning in class will help you get a job?
- Probe: Are there any other things you think you should be learning? What are they?

### **Career Navigator**

*Let's shift to talking about your experiences with your Career Navigator*

7. How often do you meet with your Career Navigator?
- a. In what ways does your Career Navigator help you?
  - b. Is there anything else you need from the Career Navigator that you're currently not getting?

### **Support Services**

*Let's talk about support services with the ACE program. These are things such as childcare, meal cards, tutoring, and transportation services.*

8. What kinds of supports are you getting?
- a. What support has been the most helpful?
  - b. What support would you have liked to have that you didn't get?

9. Have you started to receive any training or support for finding a job? For example, resumes, interviewing, using job search websites.
  - a. If so, who do you get that support from?

**Satisfaction with ACE**

*OK, this is the last question.*

10. Has the ACE program been helpful to you?
11. Is there anything else you think the program could be doing to help you?
12. Overall, are you satisfied with the ACE program?
  - a. On a scale of 1 to 5 with 1 being the worst and 5 being the best, how would you rate the ACE program? Let's go around the room, how many 1s? (count), how many 2s? (count) how many 3s? (count) how many 4s? (count), how many 5s? (count).
13. Are there any final thoughts about your experience with the ACE Program?

**That's the end of the discussion. We really appreciate your spending time with us today. Thank you very much and good luck as you continue your career.**

***Facilitator/Notetaker Comments***

I will be recording the interview because I don't want to miss any of your comments.

Are there any questions about what I have just explained?

Are you willing to participate in this interview? \_\_\_\_\_ Yes \_\_\_\_\_ No

***BEGIN INTERVIEW - \*22 if using ICF Recording Service***

### **Role in ACE/workforce development experience**

1. Tell us a little about yourself. Can you elaborate on the specific roles and responsibilities you have in the ACE program?

- Recruitment
- Enrollment
- Intake
- Job readiness
- Job searching
- Job placement
- Identifying barriers
- Addressing barriers
- Linking students to support services
- Establishing class or program policies

- a. How long you have been with the WIB?
- b. How many years have you been in workforce development?

2. What are the training programs that you have offered through the ACE program?

**Accelerating Connections to Employment**  
Appendices

- a. How long are students in class per day? How many times per week do they meet? How long does the training last? Is there an on-the-job component?
- b. How is your enrollment process going? Has it changed since last year?
- c. What process did you use to select your training programs? Did you utilize labor market information? If so, what sources?

*Let's talk about the target population for your WIB*

3. Describe your target population.
  - a. Does your target population for ACE differ from your typical clientele at the WIB? If yes, in what way?
  - b. Have you adjusted your target population or enrollment requirements since the ACE program started? If yes, why?
4. Has the ACE model changed the way you coordinate and deliver training and support services for your target population? If yes, what are the biggest adjustments you've had to make to administer ACE?

**Implementation**

5. What successes did you experience when initially implementing the ACE Model?
6. What challenges did you experience when initially implementing the ACE Model?

**Support Services**

*Let's continue talking about customers that you've enrolled in ACE.*

7. Which of the following support services do you currently offer at your site?
  - Transportation
  - Child care
  - Food
  - Housing
  - Utilities
  - Assistance with benefits
  - Healthcare services
8. What support services did participants need most? What are their biggest barriers to success in the program?
9. How have support services been helpful to the customer?

**Accelerating Connections to Employment**  
Appendices

10. How could they be improved?
11. Are there any other services you think customers might need or appreciate?
12. What additional resources not anticipated in the program design and budget were necessary to coordinate your services?
13. Do you think the ACE program has resulted in any secondary benefits for the student and his/her family?
14. Do you think the ACE program has resulted in any secondary benefits for the student's community?
15. What services do members of the control group (i.e., study participants not chosen for an ACE class) receive as part of "business-as-usual"?

**Job Readiness**

16. What is your role in providing job readiness assistance?
17. Which of the following job readiness supports does your site offer?
  - Resumes
  - Interviewing
  - Work behavior
  - Dressing for work
  - Using job search tools
  - a. Do ACE customers take advantage of job readiness assistance? If yes, why? If no, why not?
  - b. What job placement assistance do customers take the most advantage of? Why do you think that is?
  - c. What successes are you having with job readiness at your site?
  - d. What challenges are you having with job readiness at your site?
  - e. How can job readiness services be improved?

**Job Placement**

18. What is your role in the job placement process?
  - a. Does your site have a dedicated job developer?
  - b. Do you work with employers or have any employer partnerships? Are there any successes or challenges you can share about partnering with employers?
19. What assistance with job placement is available?
  - a. Do ACE customers take advantage of job placement assistance? If yes, why? If no, why not?
  - b. What successes are you having with job placement at your site?

## Accelerating Connections to Employment

### Appendices

- c. What challenges are you having with job placement at your site?
- d. How can job placement services be improved?

## ACE Model

20. In your opinion, what elements of the ACE model are the most important? (*If respondent doesn't know or is unsure, please read statement below, followed by question*)

- a. Perhaps it would be helpful if I describe some of the ACE elements.  
The ACE model has a strong focus on understanding labor market demand, by working with communities and employers. It provides students with skills testing, support services, transition and employment services. ACE integrates recruitment, screening, and orientation, and combines occupational and basic skills training. Programs also track student data.
  - Do any of these elements stand out to you as the most important?

21. Has the ACE model resulted in a big shift in how you coordinate and deliver services for your customers? If yes, what are the biggest adjustments you've had to make to administer ACE?

## Partnerships

*The ACE model calls for WIBS to work with community partners including One-Stop, employers, and community colleges.*

22. What was your initial experience like engaging with partners for ACE?

23. How has the relationship between the WIB and the Community College been going?

24. How frequently do you all meet as a group?

25. How do the partners divide program management tasks? How do you make decisions in this process?

26. How have relationships between the partners changed over time?

- a. What successes can you share in forming those collaborative relationships?
- b. What challenges can you share in forming those collaborative relationships?

## Lessons Learned

27. What lessons have you learned about how the ACE program works?
- c. In what ways is it working as intended?
  - d. In what ways is it not working as intended?
28. What do you see as a major challenge going forward for the ACE program?
29. What do you think about this model's sustainability after the funding period?
30. What takeaways would you like to share from your experiences?
31. Is there anything else you would like to add?

**That's the end of the interview. We really appreciate your time today. Thank you!**

**Interview Length:** \_\_\_\_\_

**Interviewer comments:**

*Disclosure: The Accelerating Connections to Employment (ACE) project is funded by the US Department of Labor under contract #IF-23245-12-61-A-24. The ACE evaluation is part of a national evaluation being conducted by the Department of Labor Workforce Innovation Fund (WIF). The ACE evaluation is being conducted by ICF International (Fairfax, VA). **Introduction/Purpose of Study**

My name is \_\_\_\_\_ and I am part of the ACE National Evaluation team. Thank you for agreeing to participate in today's interview regarding the ACE program at [site name]. We appreciate you taking time to assist with this evaluation because your input on how this program works is important. This interview gives us the opportunity to learn from you. We want to hear about whether you think ACE works and if so, how it works. The aim is to can share lessons learned with others around the country that are in workforce development and education.

Before we begin, we want to remind you that your participation in this interview is voluntary and the information you share with us will be kept confidential. Specifically, this means that (1) you can decline to answer any questions, or discontinue the interview at any time; (2) we will not connect your name with what was said in any written reports; and (3) only evaluation staff will have access to the interview data. In our report on the evaluation of the ACE program we will provide overviews of what was learned during the interviews and site visits and will connect anecdotes to other data we have collected. However, we will not report or present the information you share with us in any way that will identify a specific person. Your WIB or Community College may be identified in the reports but only if prior permission is given from both organizations. The interview will last about 30 minutes. I will be recording the interview because I don't want to miss any of your comments.

Are there any questions about what I have just explained?

Are you willing to participate in this interview? \_\_\_\_\_ Yes \_\_\_\_\_ No

***BEGIN INTERVIEW - \*22 if using ICF Recording Service***

**Role in ACE/Workforce development experience**

30. Tell us a little about yourself. Can you elaborate on the specific roles and responsibilities you have in the ACE program?

- Recruitment
- Enrollment
- Intake
- Job readiness
- Job searching
- Job placement
- Identifying barriers
- Addressing barriers
- Linking students to support services
- Establishing class or program policies

a. How long you have been with the WIB?

b. How many years have you been in workforce development?

31. What are the training programs that you have been involved with through the ACE program?
- c. Is there an on-the-job component offered as part of the training?
  - d. How is the job readiness and placement process going? Do you feel it has changed since you first started working at your site?

*Let's talk about the target population for your WIB*

32. Describe your target population.
- b. Do you feel that the ACE participants you serve are different from the typical WIB customer you have worked with previously? If yes, why? If no, why not?
  - c.

### **Job Readiness**

33. What is your role in providing job readiness assistance?
34. Which of the following job readiness supports does your site offer?
- Resumes
  - Interviewing
  - Work behavior
  - Dressing for work
  - Using job search tools
- a. Do ACE customers take advantage of job readiness assistance? If yes, why? If no, why not?
  - b. What successes are you having with job readiness at your site?
  - c. What challenges are you having with job readiness at your site?
  - d. How can job readiness services be improved?

### **Job Placement**

35. What is your role in the job placement process?
- a. Do you work with employers or have any employer partnerships? Are there any successes or challenges you can share about partnering with employers?
36. What assistance with job placement is available?
- a. Do ACE customers take advantage of job placement assistance? If yes, why? If no, why not?
  - b. What job placement assistance do customers take the most advantage of? Why do you think that is?
  - c. What successes are you having with job placement at your site?
  - d. What challenges are you having with job placement at your site?

- e. How can job placement services be improved?

## **ACE Model**

*Now let's talk a little bit about the ACE model*

37. In your opinion, what elements of the ACE model are the most important? (***If respondent doesn't know or is unsure, please read statement below, followed by question***)

- a. Perhaps it would be helpful if I describe some of the ACE elements.  
The ACE model has a strong focus on understanding labor market demand, by working with communities and employers. It provides students with skills testing, support services, transition and employment services. ACE integrates recruitment, screening, and orientation, and combines occupational and basic skills training. Programs also track student data.
- Do any of these elements stand out to you as the most important?

38. Has the ACE model resulted in a big shift in how you coordinate and deliver services for your customers? If yes, what are the biggest adjustments you've had to make to administer ACE?

## **Partnerships**

*The ACE model calls for Job developers to work with community partners including One-Stop, employers, and community colleges.*

39. What was your initial experience like engaging with partners for ACE?

40. How has the relationship between the WIB and the Community College been going?

41. How frequently do you all meet as a group?

42. How do the partners divide program management tasks? How do you make decisions in this process?

43. How have relationships between the partners changed over time?

- a. What successes can you share in forming those collaborative relationships?  
b. What challenges can you share in forming those collaborative relationships?

44. How has the relationship between the WIB, the Community College and employers been going?
- What successes can you share in the collaborative relationships with employers?
  - What challenges can you share in the collaborative relationships with employers?

### **Lessons Learned**

45. What lessons have you learned about how the ACE program works?
- In what ways is it working as intended?
  - In what ways is it not working as intended?
46. What do you see as a major challenge going forward for the ACE program?
47. What do you think about this model's sustainability after the funding period?
48. What takeaways would you like to share from your experiences?
49. Is there anything else you would like to add?

**That's the end of the interview. We really appreciate your time today. Thank you!**

## About ICF

ICF (NASDAQ:ICFI) is a global consulting and technology services provider with more than 5,000 professionals focused on making big things possible for our clients. We are business analysts, policy specialists, technologists, researchers, digital strategists, social scientists and creatives. Government and commercial clients have worked with ICF to overcome their toughest challenges on issues that matter profoundly to their success.

Founded in 1969 as the Inner City Fund, ICF got its start as a venture capital firm with a mission to finance inner-city businesses in the Washington, D.C area of the United States. Today, we are a global consulting and technology services firm comprised of more than 5,000 business analysts, policy specialists, technologists, researchers, digital strategists, social scientists and creatives worldwide. We provide data, insights, and deep implementation expertise that businesses and governments need today to deliver results that matter to consumers, citizens, and communities tomorrow. Our clients are leaders in markets ranging from health to energy to transportation, as well as government agencies in the United States and Europe. From program management and project assessment to digital marketing and social media strategy, our work delivers deeper engagement, more confident decisions, and measurable impact.

Our markets include:

### Government

- Climate
- Cybersecurity
- Energy
- Education
- Natural Disaster Recovery
- Digital & Marketing

- Health
- Transportation
- Environment
- Resilience
- Social Programs and Communities
- International Development

### Commercial

- Aviation
- Cybersecurity
- Digital & Marketing
- Energy
- Health

With more than 40 years of consulting experience, ICF is a global, diversified firm that combines the entrepreneurship and dynamism of a new company with a solid reputation and expertise in the consulting industry—offering solutions that help clients worldwide solve their biggest challenges to achieve their most formidable goals.
