ACCREDITING

Colleges and Universities

Colleges and universities are accredited by seven national or regional accrediting associations. These associations are indicated throughout this directory by the following abbreviations:

- A, Association of American Universities—a national accrediting association.
- E, New England Association of Colleges and Secondary Schools—regional.
- M, Middle States Association of Colleges and Secondary Schools—regional.
- N, North Central Association of Colleges and Secondary Schools—regional.
- S, Southern Association of Colleges and Secondary Schools—regional.
- T, American Association of Teachers Colleges—national.
- W, Northwest Association of Secondary and Higher Schools—regional.
- †—Preceding any of the above letters indicates that the institution is rated in class B.
- ‡—Preceding any of the above letters indicates that the institution is provisionally accredited, or accredited with some reservation, or is admitted on probation.

Information on the accrediting or approval of colleges and universities by State departments of education or State universities is not given in this directory, but may be found in U. S. Office of Education Bulletin 1938, No. 16, entitled "Accredited Higher Institutions."

Professional Schools

Professional schools are accredited by a separate group of associations. Some of the associations listed below do not accredit the schools, but admission to membership, for which definite requirements are set up, itself constitutes approval by the association.

- Architecture—Association of Collegiate Schools of Architecture.
- Business—American Association of Collegiate Schools of Business.
- Dentistry—Council on Dental Education of the American Dental Association. Ratings temporarily discontinued.
- Engineering—Engineers' Council for Professional Development.³
- Forestry—Society of American Foresters.

- Medicine—American Medical Association.
- Music—National Association of Schools of Music.
- Optometry—International Association of Boards of Examiners in Optometry.
- Osteopathy—American Osteopathic Association.

³ The accrediting applies to undergraduate engineering curricula. Seventeen different branches of engineering have been accredited. For some institutions the council has accredited curricula in practically all of these branches, but instead of indicating for each institution each accredited curriculum, approval of the general subject of engineering is shown in this directory. The complete list of engineering curricula accredited by the council is contained in the Sixth Annual Report of the Engineers' Council for Professional Development, October, 1938. It is included also in the bulletin on Accredited Higher Institutions published by the U. S. Office of Education.

Pharmacy—American Association of Colleges of Pharmacy.
 Social work—American Association of Schools of Social Work.
 Theology—American Association of Theological Schools.

NOTE.—The U. S. Office of Education does NOT accredit or approve any educational institution.

- A, Association of American Universities—a national accrediting association.
- E, New England Association of Colleges and Secondary Schools—regional.
- M, Middle States Association of Colleges and Secondary Schools—regional.

Information on the accrediting or approval of colleges and universities by State departments of education or State universities is not given in this directory, but may be found in U. S. Office of Education Bulletin 1938, No. 16, entitled "Accredited Higher Institutions."

Professional Schools

Professional schools are accredited by a separate group of associations. Some of the associations listed below do not accredit the schools, but admission to membership, for which definite requirements are set up, itself constitutes approval by the association.

- Architecture—Association of Collegiate Schools of Architecture.

³ The accrediting applies to undergraduate engineering curricula. Seventeen different branches of engineering have been accredited. For some institutions the council has accredited curricula in practically all of these branches, but instead of indicating for each institution each accredited curriculum, approval of the general subject of engineering is shown in this directory. The complete list of engineering curricula accredited by the council is contained in the Eighth Annual Report of the Engineers' Council for Professional Development, October 1940.

Pharmacy—American Council on Pharmaceutical Education, Inc.
 Social work—American Association of Schools of Social Work.
 Theology—American Association of Theological Schools.

ACCREDITING

Colleges and Universities

Colleges and universities are accredited by seven national or regional accrediting associations. These associations are indicated throughout this directory by the following abbreviations:

- A, Association of American Universities—a national accrediting association.
 E, New England Association of Colleges and Secondary Schools—regional.
 M, Middle States Association of Colleges and Secondary Schools—regional.
 N, North Central Association of Colleges and Secondary Schools—regional.
 S, Southern Association of Colleges and Secondary Schools—regional.
 T, American Association of Teachers Colleges—national.
 W, Northwest Association of Secondary and Higher Schools—regional.
 †—Preceding any of the above letters indicates that the institution is rated in class B.
 ‡—Preceding any of the above letters indicates that the institution is provisionally accredited, or accredited with some reservation, or is admitted on probation.

Information on the accrediting or approval of colleges and universities by State departments of education or State universities is not given in this directory, but may be found in U. S. Office of Education Bulletin 1938, No. 16, entitled "Accredited Higher Institutions."

Professional Schools

Professional schools are accredited by a separate group of associations. Some of the associations listed below do not accredit the schools, but admission to membership, for which definite requirements are set up, itself constitutes approval by the association.

- Architecture—Association of Collegiate Schools of Architecture.
 Business—American Association of Collegiate Schools of Business.
 Dentistry—Council on Dental Education of the American Dental Association. Ratings temporarily discontinued.
 Engineering—Engineers' Council for Professional Development.³
 Forestry—Society of American Foresters.
 Journalism—American Association of Schools and Departments of Journalism.
 Law—American Bar Association.
 Library Science—American Library Association.
 Medicine—American Medical Association.
 Music—National Association of Schools of Music.
 Nursing—National League of Nursing Education.⁴

³ The accrediting applies to undergraduate engineering curricula. Seventeen different branches of engineering have been accredited. For some institutions the council has accredited curricula in practically all of these branches, but instead of indicating for each institution each accredited curriculum, approval of the general subject of engineering is shown in this directory. The complete list of engineering curricula accredited by the council is contained in the Eighth Annual Report of the Engineers' Council for Professional Development, October 1940.

⁴ The National League of Nursing Education in 1941 issued a list of accredited nursing schools, and the symbol used in connection with nursing education in this issue of the directory refers to accrediting by that organization. The indication of the nursing schools which are members of the Association of Collegiate Schools of Nursing is discontinued.

Optometry—International Association of Boards of Examiners in Optometry.
 Osteopathy—American Osteopathic Association.
 Pharmacy—American Council on Pharmaceutical Education, Inc.
 Social work—American Association of Schools of Social Work.
 Theology—American Association of Theological Schools.
 Veterinary Medicine—American Veterinary Medical Association.

NOTE.—The U. S. Office of Education does NOT accredit or approve any educational institution.

CONTROL

The legal control of each institution (NOT support or affiliation) is shown for each institution with the following abbreviations:

C.—City or municipal government—public control.
 Church—refer to abbreviations—denominational control.
 Co.—County government—public control.
 Dist.—District government—public control.
 Nat.—National or Federal Government—public control.
 P.—Private; independent of church or state—private control.
