## PART 2

### COUNTY AND CITY SCHOOL SUPERINTENDENT, AND SUPERINTENDENTS OF PAROCHIAL SCHOOLS

---

#### CONTENTS

	Page
County and City <sup>1</sup> Superintendents.....	1
Superintendents of Catholic Parochial Schools.....	71
Superintendents of Lutheran Parochial Schools.....	76

---

#### *Explanation:*

County<sup>2</sup> school superintendents with their post office addresses are listed by State and by county.

City school district superintendents are listed by State and by school district (city, town, borough, village, or township) if, according to the 1940 census, the district was composed (with a few exceptions) of an incorporated city having 2,500 inhabitants or more, or the district contained such an urban center. The list of these districts and superintendents, for each State, follows the list of counties and county superintendents. The number in parentheses following the name of the city indicates the city's population; not necessarily that of the school district. When a locality has separate districts for elementary schools and for high schools, one frequently has a different name from the other. Where this is true, it is indicated in parentheses following the term "Elem." or "High," although both may be listed under one city which is usually the post office address for both.

Superintendents of Catholic parochial schools with their addresses are listed according to archdiocese and diocese.

Superintendents of Lutheran parochial schools with their addresses are listed according to supervisory district.

---

<sup>1</sup> In some cases the school district includes more territory than does the city.

<sup>2</sup> The county, or part of it, is a unit for school supervision in most of the States. In a few States, all schools of each county are under the supervision of the county superintendent; in other States, this is true for some but not all schools of the county, for large city school systems commonly have their own school superintendents, independent of the county school system. In the New England States, the county is not a unit for school supervision; there, the unit for this service (usually excepting certain city school systems) is composed of two or more town [township] school districts; in these States, such a unit for school supervision is designated "district" or "union." In New York, the unit for school supervision (excepting any school district with a population of 5,000 or more) is the county or a part of the county and is designated "district." In Utah, the unit for school supervision is a city, a county, or a part of a county and is designated "district." In Virginia, the unit for school supervision is a city, a county, or a union of two counties and is designated "division."

#### INSTITUTIONS OF HIGHER EDUCATION INCLUDED IN THIS DIRECTORY

Institutions offering at least a 2-year program of college-level studies are included in this directory. Types of institutions included are as follows:

#### A. UNIVERSITIES, COLLEGES, AND TEACHERS COLLEGES:

1. Accredited by the following agencies.
  - (a) American Association of Colleges for Teacher Education.
  - (b) Association of American Universities.
  - (c) Middle States Association of Colleges and Secondary Schools.
  - (d) New England Association of Colleges and Secondary Schools.
  - (e) North Central Association of Colleges and Secondary Schools.
  - (f) Northwest Association of Secondary and Higher Schools.
  - (g) Southern Association of Colleges and Secondary Schools.
  - (h) State universities or State departments of education.
2. All State-supported institutions.

3. Four-year institutions which are not accredited by any agency but which enroll 100 or more resident college students in regular session, graduate at least 10 students annually, and furnish evidence that their work is accepted at full value by at least three institutions accredited by agencies listed under A-1.

**B. INDEPENDENT PROFESSIONAL AND TECHNOLOGICAL SCHOOLS:**

1. Accredited by professional associations or approved by State universities or State departments of education.
2. Not accredited by any agency but which enroll 25 or more resident students of college grade in regular session, graduate at least 5 students annually, and furnish evidence that their work is accepted at full value by at least three institutions accredited by agencies listed under B-1.

**C. JUNIOR COLLEGES AND NORMAL SCHOOLS:**

1. Accredited by the agencies listed under A-1 (above).
2. Not accredited by any agency but which require high-school graduation for entrance, offer 2 years of work of college grade, enroll 50 or more resident students of college grade in regular session, and furnish evidence that their work is accepted at full value by at least three institutions accredited by agencies listed under A-1.

**CLASSIFICATION OF INSTITUTIONS**

Institutions are classified according to their offerings into four types:

1. Colleges and universities offering liberal arts; 4-year; degree-granting.
2. Professional and technological schools—independently controlled.
3. Teachers colleges (4-year; degree-granting) and normal school (2- or 3-year; non-degree granting).
4. Junior colleges; 2- or 3-year; not granting baccalaureate degrees.

**ARRANGEMENT OF DATA**

An institution is listed in this directory under the State in which its post office is located. A branch institution is listed directly after its parent institution, with a cross reference in the alphabetical and classification list to facilitate finding of the data. Arrangement of the data shown is uniform as follows:

For institutions organized as universities:

Name of institutions, location (accreditation, control, student body, enrollment).

Names of officers as follows:

President or chancellor.

Dean.

Chief business officer.

Admissions officer, registrar, recorder.

Librarian.

Chief personnel officer, dean of women, dean of men.

Dean or director of each professional school or college.<sup>1</sup>

Dean of the graduate school.

Director of summer session.

For all other institutions of higher education:

All data as above, except those relating to professional schools.

<sup>1</sup> Some universities maintain accredited departments which are the equivalent of schools in other universities, but such departments are not listed unless they are separately organized, with a dean or director in charge.

## ABBREVIATIONS AND SYMBOLS

In parentheses immediately following the name and location of an institution, the abbreviations and symbols indicate four facts separated by semicolons:

# COUNTY AND CITY SCHOOL SUPERINTENDENTS AND SUPERINTENDENTS OF PAROCHIAL SCHOOLS

### CONTENTS

County and City <sup>1</sup> Superintendents.....	1
Superintendents of Catholic Parochial Schools.....	72
Superintendents of Luthern Parochial Schools.....	77

#### *Explanation:*

County<sup>2</sup> school superintendents with their post-office addresses are listed by State and by county.

City school district superintendents are listed by State and by school district (city, town, borough, village, or township) if, according to the 1940 census, the district was composed (with a few exceptions) of an incorporated city having 2,500 inhabitants or more, or the district contained such an urban center. The list of these districts and superintendents, for each State, follows the list of counties and county superintendents. The number in parentheses following the name of the city indicates the city's population; not necessarily that of the school district. When a locality has separate districts for elementary schools and for high schools, one frequently has a different name from the other. Where this is true, it is indicated in parentheses following the term "Elem." or "High," although both may be listed under one city which is usually the post-office address for both.

In cases where the schools of places of 2,500 population and over are part of a county unit or other school system the places are listed with

---

<sup>1</sup> In some cases the school district includes more territory than does the city.

<sup>2</sup> The county, or part of it, is a unit for school supervision in most of the States. In a few States, all schools of each county are under the supervision of the county superintendent; in other States, this is true for some but not all schools of the county, for large city school systems commonly have their own school superintendents, independent of the county school system. In the New England States, the county is not a unit for school supervision; there, the unit for this service (usually excepting certain city school systems) is composed of two or more town [township] school districts; in these States, such a unit for school supervision is designated "district" or "union." In New York, the unit for school supervision (excepting any school district with a population of 5,000 or more) is the county or a part of the county and is designated "district." In Utah, the unit for school supervision is a city, a county, or a part of a county and is designated "district." In Virginia, the unit for school supervision is a city, a county, or a union of two counties and is designated "division."

their 1940 population counts and are followed by the name of the county or other school system of which they are part.

Superintendents of Catholic parochial schools with their addresses are listed according to archdiocese and diocese.

Superintendents of Lutheran parochial schools with their addresses are listed according to supervisory district.

### INSTITUTIONS OF HIGHER EDUCATION INCLUDED IN THIS DIRECTORY

Institutions reported to the Office of Education as being in operation during 1948-49, offering at least a 2-year program of college-level studies, and meeting the criteria stated below, are included in this directory.

The criteria for listing in the directory are as follows:

1. Institutions accredited or approved by a Nation-wide, State, regional, or professional agency, or operating under State control, are eligible for inclusion.

2. Institutions not meeting requirements of criterion 1 are eligible for inclusion if their credits are accepted unconditionally (at full value) by not less than three fully accredited institutions. To be listed, a non-accredited, degree-granting institution which includes liberal arts or teacher education in its offerings should enroll at least 100 resident students of college grade in its regular session and should graduate at least 10 students a year. For an independent professional or technological school, the corresponding requirements are 25 resident college students and 5 graduates annually. A non-accredited junior college should require high-school graduation for entrance, offer 2 years of college work, and enroll at least 50 resident students a year.

### CLASSIFICATION OF INSTITUTIONS

In previous editions of the directory, institutions have been classified as (1) colleges and universities, (2) professional and technological schools, (3) teachers colleges and normal schools, and (4) junior colleges. In this and future editions of the directory, institutions are to be classified by highest level of offering and by type of program.

The following categories have been established to designate institutions by highest level of training:

*2 but less than 4 years of work beyond the 12th grade*—includes junior colleges, technical institutes, and normal schools offering at least a 2-year program of college-level studies;

*Only the bachelor's and/or first professional degree*—includes those institutions offering courses of studies leading to the customary bachelor of arts or bachelor of science degree, and all those degrees which entitle the possessor to enter the profession indicated; e. g., doctor of medicine, bachelor of pharmacy, or bachelor of science in engineering;

*Master's and/or second professional degree*—includes those institutions offering the customary first graduate degree, and any degree earned in the same field after the first professional degree, or after a bachelor's degree in that field; e. g., the degree of electrical engineer, earned after the bachelor of engineering, or the degree of doctor of science of law earned after the bachelor of laws degree.

*Doctor of philosophy and equivalent degrees.*

Institutions not falling in these categories have been grouped in a separate classification and the deviation explained by footnote in each case.

The designations of institutions by type of program are as follows:

*a. Terminal-occupational (non-degree)*—to represent a program not extending beyond the 14th or 15th grade, designed to prepare directly for an occupation, and not intended to prepare for advanced study;

*b. Liberal arts and general*—including those institutions offering a 4-year program leading to the bachelor's degree;

*c. Liberal arts and general, and terminal-occupational*—for institutions offering programs described by *a* and *b* above;

*d. Primarily teacher preparatory;*

*e. Liberal arts and general, and teacher preparatory;*

*f. Liberal arts and general, teacher preparatory, and terminal-occupational;*

*g. Professional or technical only*—including those institutions offering a program of occupational preparation extending 4 or more years beyond the completion of

the secondary school, not maintaining a curriculum of liberal arts, general education, or teacher preparation;

*h. Professional or technical, and teacher preparatory;*

*i. Professional or technical, and terminal-occupational;*

*j. Liberal arts and general with 1 or 2 professional schools; and*

*k. Liberal arts and general with 3 or more professional schools*—to include institutions organized as universities.

#### ARRANGEMENT OF DATA

An institution is listed in this directory under the State in which its post office is located. A branch institution is listed as a unit of the parent institution, with a cross reference to facilitate finding of the data. Arrangement of the data shown is uniform as follows:

For institutions organized as universities:

Name of institution, location (accreditation, control, student body, code representing classification of institution by level of offering and by type of program, enrollment).

Names of officers as follows:

President or chancellor.

## ACCREDITATION

### *Junior Colleges, Colleges, and Universities*

Junior colleges, colleges, and universities are accredited by seven national or regional accrediting associations. These associations are indicated throughout this directory by the following abbreviations:

A, Association of American Universities—a national accrediting association.<sup>2</sup>

E, New England Association of Colleges and Secondary Schools—regional.

<sup>2</sup> In October 1948 the Association of American Universities voted to abandon the practice of accrediting institutions according to standards set up by the association. The member institutions and the institutions on the "approved" list effective during 1948 are indicated in this issue of the directory.

M, Middle States Association of Colleges and Secondary Schools—regional.  
 N, North Central Association of Colleges and Secondary Schools—regional.  
 NW, Northwest Association of Secondary and Higher Schools—regional.  
 S, Southern Association of Colleges and Secondary Schools—regional.  
 W, Western College Association—regional.

†—Preceding any of the letters listed above indicates that the institution is rated in class B.

‡—Preceding any of the letters listed above indicates that the institution is provisionally accredited, or accredited with some reservation, or is admitted on probation.

(—)—Not accredited by any national or regional accrediting association.

The accreditation or approval at colleges and universities by State departments of education or State universities is not shown in this directory, but may be found in Office of Education Bulletin 1949, No. 6, entitled *Accredited Higher Institutions*.

### *Professional Schools*

Professional schools are accredited by a separate group of associations. The symbol \* denotes that some or all of the units of a professional school are accredited by or hold membership in the appropriate organization.

Architecture—National Architectural Accrediting Board.

Bible—Accrediting Association of Bible Institutes and Bible Colleges.

Business—American Association of Collegiate Schools of Business.

Chemistry—American Chemical Society.

Dentistry—American Dental Association.

Education—American Association of Colleges for Teacher Education.

# COUNTY AND CITY SCHOOL SUPERINTENDENTS AND SUPERINTENDENTS OF PAROCHIAL SCHOOLS

### CONTENTS

County and City " Superintendents .....	2
Superintendents of Catholic Parochial Schools .....	79
Superintendents of Lutheran Parochial Schools .....	83

The county, or part of it, is a unit for school supervision in most of the States. In a few States, all schools of each county are under the supervision of the county superintendent; in other States, this is true for some but not all schools of the county, for large city school systems commonly have their own school superintendents, independent of the county school system. In the New England States, the county is not a unit for school supervision; there, the unit for this service (usually excepting certain city school systems) is composed of two or more town [township] school districts; in these States, such a unit for school supervision is designated "district" or "union." In New York, the unit for school supervision (excepting any school district with a population of 5,000 or more) is the county or a part of the county and is designated "district." In Louisiana, the supervisory unit is termed "parish." In Utah, the unit for school supervision is a city, a county, or a part of a county and is designated "district." In Virginia, the unit for school supervision is a city, a county, or a union of two counties and is designated "division."

County school superintendents with their post-office addresses are listed by State and by county.

City school district superintendents are listed by State and by school district (city, town, borough, village, or township) if, according to the 1940 census, the district was composed (with a few exceptions) of an incorporated city having 2,500 inhabitants or more, or the district contained such an urban center. The list of these districts and superintendents, for each State, follows the list of counties and county superintendents. The number in parentheses following the name of the city indicates the city's population, not necessarily that of the school district. Some localities have separate districts and superintendents for elementary schools and for high schools, or maintain only a high school or elementary school. Where this is true, the districts are designated as "Elem." or "High."

In cases where the schools of places of 2,500 population and over are part of a county unit or other school system the places are listed with their 1940 population counts and are followed by the name of the county or other school system of which they are part.

Superintendents of Catholic parochial schools with their addresses are listed according to archdiocese and diocese.

Superintendents of Lutheran parochial schools with their addresses are listed according to supervisory district.

<sup>1</sup> In some cases the school district includes more territory than does the city.

#### INSTITUTIONS OF HIGHER EDUCATION INCLUDED IN THIS DIRECTORY

Institutions reported to the Office of Education as being in operation during 1949-1950 offering at least a 2-year program of college-level studies, and meeting the criteria stated below, are included in this directory.

The criteria for listing in the directory are as follows:

1. Institutions accredited or approved by a Nation-wide, State, regional, or professional agency, or operating under State control, are eligible for inclusion.

2. Institutions not meeting requirements of criterion 1 are eligible for inclusion if their credits are accepted unconditionally (at full value) by not less than three fully accredited institutions. To be listed, a non-accredited, degree granting institution which includes liberal arts or teacher education in its offerings should enroll at least 100 resident students of college grade in its regular session and should graduate at least 10 students a year. For an independent professional or technological school, the corresponding requirements are 25 resident college students and 5 graduates annually. A non-accredited junior college should require high-school graduation for entrance, offer 2 years of college work, and enroll at least 50 resident students a year.

#### CLASSIFICATION OF INSTITUTIONS

Institutions are classified by highest level of offering and by type of program.

The following categories have been established to designate institutions by highest level of training:

- I. *2 but less than 4 years of work beyond the 12th grade*—includes junior colleges, technical institutes, and normal schools offering at least a 2-year program of college-level studies;
- II. *Only the bachelor's and/or first professional degree*—includes those institutions offering courses of studies leading to the customary bachelor of arts or bachelor of science degree, and all those degrees which entitle the possessor to enter the profession indicated; e. g., doctor of medicine, bachelor of pharmacy, or bachelor of science in engineering;
- III. *Master's and/or second professional degree*—includes those institutions offering the customary first graduate degree, and any degree earned in the same field after the first professional degree, or after a bachelor's degree in that field; e. g., the degree of electrical engineer, earned after the bachelor of engineering, or the degree of doctor of science of law earned after the bachelor of laws degree.
- IV. *Doctor of philosophy and equivalent degrees.*

Institutions not falling in these categories have been grouped in a separate classification and the deviation explained by footnote in each case.

The designations of institutions by type of program are as follows:

- a. *Terminal-occupational (below bachelor's degree)*—to represent a program not extending beyond the 14th or 15th grade, designed to prepare directly for an occupation, and not intended to prepare for advanced study;
- b. *Liberal arts and general*—including those institutions offering a 4-year program leading to the bachelor's degree;
- c. *Liberal arts and general, and terminal-occupational*—for institutions offering programs described by a and b above;
- d. *Primarily teacher preparatory*;
- e. *Liberal arts and general, and teacher preparatory*;
- f. *Liberal arts and general, teacher preparatory, and terminal occupational*;

- g. Professional or technical*—including those institutions offering a program of occupational preparation;
- h. Professional or technical, and teacher preparatory;*
- i. Professional or technical, and terminal-occupational;*
- j. Liberal arts and general with 1 or 2 professional schools; and*
- k. Liberal arts and general with 3 or more professional schools*—to include institutions organized as universities.

## ARRANGEMENT OF DATA

An institution is listed in this directory under the State in which its post office is located. A branch institution is listed as a unit of the parent institution, with a cross reference to facilitate finding of the data. Arrangement of the data shown is uniform as follows:

For institutions organized as universities:

Name of institution, location (accreditation, control, student body, code representing classification of institution by level of offering and by type of program, enrollment).

Names of officers as follows:

President or chancellor.

Dean.

Chief business officer.

Registrar or equivalent officer.

Librarian.

Chief personnel officer or dean of men and dean of women.

Dean or director of each professional school or college.<sup>1</sup>

Dean of graduate school.

Director of summer session.

For all other institutions of higher education:

All data as above, except those relating to professional schools.

## ABBREVIATIONS AND SYMBOLS

In parentheses immediately following the name and location of an institution, the abbreviations and symbols indicate five facts separated by semicolons:

1. Accreditation of the institution by one or more of the national or regional accrediting associations.

## ACCREDITATION

Institutions with liberal arts programs are accredited by six regional accrediting associations.<sup>2</sup> These associations are indicated throughout this directory by the following abbreviations:

- E., New England Association of Colleges and Secondary Schools.
- M., Middle States Association of Colleges and Secondary Schools.
- N., North Central Association of Colleges and Secondary Schools.
- NW., Northwest Association of Secondary and Higher Schools.
- S., Southern Association of Colleges and Secondary Schools.
- W., Western College Association.

†—Preceding any of the letters listed above indicates that the institution is rated in class B.

‡—Preceding any of the letters listed above indicates that the institution is provisionally accredited, or accredited with some reservation, or is admitted on probation.

(—)—Not accredited by any Nation-wide or regional accrediting association.

Professional schools are accredited by a separate group of associations. The symbol \* denotes that some or all of the units of a professional school are accredited by or hold membership in the appropriate organization.

Architecture—National Architectural Accrediting Board.

Bible—Accrediting Association of Bible Institutes and Bible Colleges.

Business—American Association of Collegiate Schools of Business.

Religious organizations.....	31
State associations.....	34
International associations.....	51
Index.....	53

INFORMATION contained in this directory is based on replies to an inquiry sent to education organizations. The inquiry asks for name of organization, headquarters address, officers, number and type of membership, purpose, date organization was founded, meetings, and publications.

Listing in the Directory does not imply that the Office of Education recommends the organizations or evaluates them in any way except with reference to the criteria stated at the beginning of each section.

Associations are entered under their corporate names. The first item is the name of the association and the address of the headquarters if maintained; the second is the name and address of the president, chairman, or director; the third is the name and address of the secretary. Titles when given are enclosed in parentheses. Where no address is given for an official, it is the same as for the association. The fourth item lists official publications and frequency of issue.

Abbreviations indicating frequency of issue of publications are as follows: an., annual; bien., biennial; bm., bimonthly; bw., biweekly; ir., irregular; m., monthly; nos., numbers issued each year; q., quarterly; sa., semiannual; sm., semimonthly; w., weekly.
