CLASSIFICATION OF PUBLIC-SCHOOL SUPERINTENDENTS INCLUDED IN THIS DIRECTORY

County and supervisory district or union superintendents.—The county constitutes an area for school administration in all of the States except Delaware, New York, and the six New England States.

Thirteen ¹ States have a county-unit type of school organization the superintendent of which administers all schools in his area except those in independent districts. In Florida, Nevada, and West Virginia the only administrative districts are county units. Each of the other 10 county-unit States has one or more independent city school districts that are independent of the county. In Virginia, some "divisions," the official designation for all school districts, include the territory of more than one county. Although most Utah districts are complete county units, some counties are divided into 2 or 3 districts, each of which has its own superintendent.

In the other 27 States having county superintendents there are few county-unit districts. In these States the county superintendent serves in an intermediate capacity between the State department of education and the local administrative districts in his county, typically performing supervisory or service functions for the local units.

In New England the town (exclusive of a number of city school districts and a few other exceptions) is the basic unit of school administration. Town school systems that are too small for each to employ a full-time superintendent are grouped in supervisory unions for the purpose of providing a superintendent who serves all town systems in his union. In New York State, towns have been combined to form supervisory districts, each of which has a superintendent.

All administrative functions not performed in Delaware by local districts are performed by the State Department of Education.

¹ Alabama, Georgia, Florida, Kentucky, Louisiana, Maryland, Nevada, New Mexico, North Carolina, Tennessee, Utah, Virginia, and West Virginia.

Urban place and superintendent.—Selection of school systems included in this section of the Directory was determined, with the exception noted below, in accordance with the 1950 Census listing of urban places.² The list of urban places shown for each State was taken from Bureau of the Census Volume I—Number of Inhabitants: April 1, 1950. Some of these places are not incorporated as urban centers; such unincorporated centers are designated with an asterisk (*).

In addition, a number of township and New England town school systems have been included because of their location either wholly or partly in suburban areas of larger cities. According to 1950 Census definition, each of these school systems has an urban population of 2,500 or more which is shown in parentheses following the name of the place. All those included are designated with a double asterisk (**).

Superintendents administering urban schools are indicated as follows:

Most cities and other urban places constitute independent school administrative districts, each of which has its own superintendent. Where this is true the name of the superintendent is listed after the name of the urban place.

Some urban localities have separate districts for elementary and for secondary schools; others maintain elementary districts only, with a separate high-school district encompassing a larger area such as the county. Where this is true, the districts are designated as "Elem." or "High," and the superintendent for each is listed.

In situations where the schools in urban places are administered as a part of county-unit school systems, the name of the county for each such place is shown.

In cases where urban schools in New England are administered by superintendents of supervisory districts or unions, the number of the union or name of the district is indicated in parentheses. Where urban schools are part of town systems, each of which has its own superintendent, the name of the town school district and the name of the superintendent are shown in parentheses.

There are instances in other regions where schools in smaller urban places are a part of nearby larger urban systems. Where this is true, the name of the larger school district is shown in parentheses.

Superintendents of local systems in Alaska, Hawaii, and Puerto Rico.—Urban schools in Hawaii and Puerto Rico are administered by

²The Bureau of the Census in 1950 classified as urban places (1) all population centers which have 2,500 or more persons and which are incorporated as cities, boroughs, villages, and towns (except towns in New England, New York, and Wisconsin where the term "town" refers to units of local government which are not necessarily densely populated centers), and (2) all unincorporated centers which have 2,500 or more persons and which are located outside the immediate vicinity of cities above 50,000 population.

district superintendents. The superintendent for each such district is shown. Superintendents in Alaska, which does not have county or comparable area superintendents, are listed by city.

PAROCHIAL SCHOOL SUPERINTENDENTS

Superintendents of Catholic parochial schools with their addresses are listed according to archdiocese and diocese.

Superintendents of Lutheran parochial schools with their addresses are listed by supervisory district.

INSTITUTIONS OF HIGHER EDUCATION—INTRODUCTION

CRITERIA FOR LISTING IN THIS DIRECTORY

Institutions reported to the Office of Education as being in operation during 1955-56, offering at least a 2-year program of college-level studies, willing to submit regularly and promptly the information required for listing, and meeting the criteria stated below, are included in this directory.

The criteria for listing in the directory are as follows :

1. Institutions accredited or approved by a nationally recognized accrediting agency, a State department of education, a State university, or operating under public control, are eligible for inclusion.
2. Institutions not meeting requirements of criterion 1 are eligible for inclusion if their credits are accepted as if coming from an accredited institution by not fewer than three fully accredited institutions.

CLASSIFICATION OF INSTITUTIONS

Institutions are classified by highest level of offering and by type of program.

The following categories have been established to designate institutions by highest level of training :

- I. *2 but less than 4 years of work beyond the 12th grade*—includes junior colleges, technical institutes, and normal schools offering at least a 2-year program of college-level studies;
- II. *Only the bachelor's and/or first professional degree*—includes those institutions offering courses of studies leading to the customary bachelor of arts or bachelor of science degree, and all those degrees which entitle the possessor to enter the profession indicated; e. g., doctor of medicine, bachelor of pharmacy, or bachelor of science in engineering;
- III. *Master's and/or second professional degree*—includes those institutions offering the customary first graduate degree, and any degree earned in the same field after the first professional degree, or after a bachelor's degree in that field; e. g., the degree of electrical engineer, earned after the bachelor of engineering, or the degree of doctor of science of law earned after the bachelor of laws degree;
- IV. *Doctor of philosophy and equivalent degrees*; and
- V. *Other* (explained by footnote).

The designations of institutions by type of program are as follows :

- a. *Terminal-occupational (below bachelor's degree)*—to represent a program not extending beyond the 14th or 15th grade, designed to prepare directly for an occupation, and not intended to prepare for advanced study;
- b. *Liberal arts and general*—including those institutions offering a 4-year program leading to the bachelor's degree;

- c. Liberal arts and general, and terminal-occupational*—for institutions offering programs described by *a* and *b* above;
- d. Primarily teacher preparatory;*
- e. Liberal arts and general, and teacher preparatory;*
- f. Liberal arts and general, teacher preparatory, and terminal-occupational;*
- g. Professional or technical*—including those institutions offering a program of occupational preparation (excluding teacher preparatory);
- h. Professional or technical, and teacher preparatory;*
- i. Professional or technical, and terminal-occupational;*
- j. Liberal arts and general with 1 or 2 professional schools; and*
- k. Liberal arts and general with 3 or more professional schools*—including institutions organized as universities.

ARRANGEMENT OF DATA

An institution is listed in this directory under the State in which its post office is located. A branch institution is listed as a unit of the parent institution, with a cross reference to facilitate finding of the data. Arrangement of the data shown is uniform as follows:

For institutions organized as universities:

Name of institution, location (accreditation, control, student body, calendar system, code representing classification of institution by level of offering and type of program, enrollment).

Name of officers as follows:

President or chancellor.

Dean.

Chief business officer.

Registrar and admissions officer.

Librarian.

Chief personnel officer or dean of men and dean of women.

Dean or director of each professional school or college.¹

Dean of graduate school.

Director of summer session.

For other institutions of higher education having an enrollment of more than 200:

All data as above, except those relating to professional schools.

For institutions with enrollments of 200 or fewer:

Chief executive officer.

Chief academic officer.

Chief business officer.

Registrar or equivalent officer.

ABBREVIATIONS AND SYMBOLS

In parentheses immediately following the name and location of an institution, the abbreviations and symbols separated by semicolons indicate six facts:

¹ Some universities maintain departments which are the equivalent of schools in other universities, but such departments are not listed unless they are separately organized with a dean or director in charge.

1. Accreditation of the institution by one or more of the nationwide or regional accrediting associations.
2. Control of the institution whether public, private, or denominational.
3. The student body:
 - coed.—coeducational—for both men and women.
 - cord.—coordinate—separate colleges for men and women.
 - men—for men students only.
 - wo.—women—for women students only.
4. Calendar system on which the institution operates: semester, quarter, or other.

THIS DIRECTORY contains information based upon replies to a questionnaire sent by the Office of Education to education associations and organizations. The fact that an association or organization is listed in the Directory does not imply that the Office of Education either recommends or evaluates it.

The first item in a listing is the organization's name, followed by the address of headquarters, if any; the second, name and address of the head (president, chairman, director, etc.); the third, name and address of the secretary; the fourth, title(s) of the official periodic publication(s) and frequency of issue. If no address appears for the head or the secretary, it is the same as that for the organization.

The frequency of publication is shown by abbreviations: an. (annual); bien. (biennial); bm. (bimonthly); bw. (biweekly); ir. (irregular); m. (monthly); nos. (number issued each year); q. (quarterly); sa. (semiannual); sm. (semimonthly); w. (weekly).

NATIONAL AND REGIONAL ASSOCIATIONS

THE FIRST SECTION includes (1) associations of educators and other persons directly concerned with schools and colleges; (2) community health, service or social welfare groups whose activities are related to school and college programs; (3) historical, learned, professional, research and scientific organizations growing out of or related to school and college activities; (4) library and museum associations; (5) organizations sponsoring youth group activities in schools and colleges or supplementing school or college programs.
