The Oklahoma State Regents for Higher Education, in compliance with Titles VI and VII of the Civil Rights Act of 1964, Executive Order 11246 as amended, Title IX of the Education Amendments of 1972, Americans with Disabilities Act of 1990 and other federal laws and regulations, do not discriminate on the basis of race, color, national origin, sex, age, religion, handicap or status as a veteran in any of its policies, practices or procedures. This includes, but is not limited to, admissions, employment, financial aid and educational services. This publication, printed by the University of Oklahoma Printing Services, is issued by the State Regents as authorized by 70 O.S. 2001, Section 3206. 100 copies have been printed at a cost of approximately \$787. Copies have been deposited with the Publications Clearinghouse of the Oklahoma Department of Libraries. This publication was produced in July 2022.

ROLE OF THE STATE REGENTS

Oklahoma’s constitutional state system of higher education was created in 1941 by a vote of the people. The State Regents fulfill a variety of responsibilities, including prescribing academic standards for higher education, determining functions and courses of study at state colleges and universities, and granting degrees. The State Regents allocate funding for each public college and university, establish tuition and fees within limits set by the Oklahoma Legislature, and manage numerous scholarships and special programs.

Additionally, the State Regents operate OneNet, the state’s advanced data network for education and government. The State Regents also manage the Oklahoma College Assistance Program, which

provides important college access, financial literacy and student loan default prevention programs and services that support students and the financial aid community.

Although the State Regents are the coordinating board of control for all institutions in the Oklahoma state system of higher education, governing boards of regents and boards of trustees are responsible for the operation of each state system institution and higher education program.

National higher education and business leader Allison D. Garrett became chancellor of the Oklahoma state system of higher education in September 2021. Selecting a Chancellor is a rare and important responsibility, and one the State Regents take very seriously. **After completing a comprehensive national search, we are confident Chancellor Garrett is the right person to lead Oklahoma public higher education into the future. Her visionary leadership and commitment to strategic innovation will greatly benefit our state, our colleges and universities, and the students they serve.**

As Oklahoma continues the economic recovery process in the wake of the coronavirus pandemic, we remain focused on modernizing our system and meeting our state’s evolving workforce needs through expanded collaborations and additional operational efficiencies to ensure all Oklahoma students and families know the dream of a college degree can be a reality.

Jeffrey W. Hickman, 2021-22 Chair

HIGHER EDUCATION UPDATE

Since becoming Chancellor of our state system of higher education in November 2021, I have focused on two overarching objectives: expanding workforce development efforts and creating paths to a better life for Oklahomans. I am working closely with our public colleges and universities across the state to advocate for investment in higher education and ensure we are developing an educated, engaged workforce to meet our state's current and future needs, particularly in the areas of engineering and other STEM fields, nursing, and teacher education.

Looking back on initiatives, activities and accomplishments in 2021, there are several highlights for public higher education. In March 2021, Morrison resident Dennis Casey and Holdenville resident Jack Sherry were sworn in as State Regents. Casey is fulfilling the unexpired term of State Regent Emeritus Andy Lester and will serve through May 2025. Sherry, who replaced State Regent Emeritus Toney Stricklin, is serving a nine-year term that expires in May 2029. In May 2021, Edmond resident Courtney Warmington was sworn in as a State Regent. Warmington, who replaced State Regent Emeritus Ronald H. White, M.D., is serving a nine-year term expiring in May 2030. We also recently welcomed Lawton resident Dustin Hilliary, who replaced State Regent Emeritus Jay Helm. Regent Hilliary was appointed to serve a nine-year term expiring in May 2031.

In June 2021, the State Regents approved a collaboration of 11 community colleges to offer the Associate in Applied Science in Applied Technology via traditional and electronic delivery. This statewide pilot program will provide a degree completion mechanism for adult learners who have received an industry-recognized credential, earned previous college credit in a technical field, or require specialized interdisciplinary training.

The State Regents approved a statewide contract with Coursera, one of the largest online learning platforms in the world, in September 2021. Through the partnership, participating colleges and universities have access to Coursera's comprehensive catalog of thousands of job-relevant courses across business, technology and data science, among other disciplines, to serve students, faculty and staff, and employers. The Coursera learning platform adds value not only for Oklahoma higher education students currently pursuing degrees, but also for degree-holders seeking to earn industry-recognized digital badges and micro-credentials in high-demand fields.

In November 2021, Gov. Kevin Stitt appointed me to serve a three-year term as an Oklahoma designee to the Southern Regional Education Board (SREB). SREB is a nationally respected source of educational data and does vital work to provide quality, affordable education opportunities for the students we serve. As a member of SREB, I am engaging with governors, legislators and state education leaders from member states to improve public education and student achievement from pre-K through higher education.

Oklahoma Works recently released workforce projection data for Oklahoma's "100 Critical Occupations," jobs identified as vital for our state's economic growth. By 2028, 66 of our state's 100 critical occupations — and each of the 10 highest-paying critical occupations — will require a college degree. Clearly, public higher education plays a pivotal role in workforce and economic development.

Higher education is the engine that drives progress and prosperity in our state and profoundly changes the lives of individual Oklahomans. It is my privilege to work in partnership with the State Regents, the Governor and Legislature, our public institutions, and the business community to produce more graduates with the skills required to compete in our dynamic global economy.

A handwritten signature in black ink that reads "Allison D. Garrett". The signature is written in a cursive, flowing style.

Chancellor Allison D. Garrett

CAMPUS RANKINGS

#1

NORTHWESTERN OKLAHOMA STATE UNIVERSITY

Ranked #1 on the "Top 35 Nurse Practitioner Programs" list by [intelligent.com](https://www.intelligent.com)

#5

OKLAHOMA STATE UNIVERSITY

Ranked #5 on the "America's Best Online Learning Schools 2022" list by newsweek.com

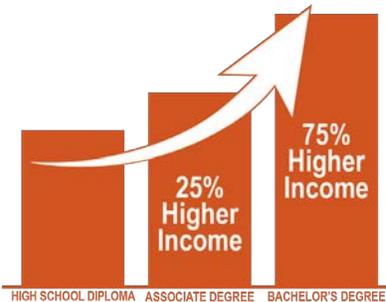

STATE SYSTEM FAST FACTS

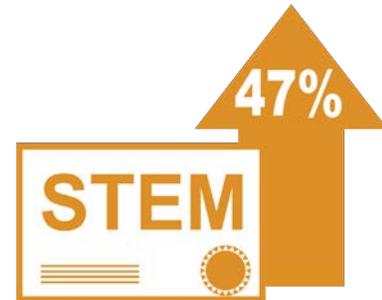

Of the top 100 critical occupations in Oklahoma (2018-2028), **66** require an associate degree or higher.

For every \$1 of state appropriations invested, the state system of higher education generates **\$9.40** in economic return.

Associate and bachelor's degree holders earn a median income **25% and 75% higher**, respectively, than those with only a high school diploma.

The number of STEM bachelor's degrees conferred by state system institutions **increased 47%** over the last decade and **increased 29%** at all degree levels.

U.S. News and World Report 2021 rankings place Oklahoma tuition and fees as **11th-lowest in the nation**.

Nearly 90% of Oklahoma residents who earn an undergraduate degree remain and are employed in the state one year after graduation.

KEY INITIATIVES

HIGH SCHOOL STUDENTS

OKLAHOMA'S PROMISE

Oklahoma's Promise is recognized by many as America's best college access program and is considered a model that combines emphases on academic preparation and financial support for college. Nearly 15,000 students received Oklahoma's Promise scholarships in the last academic year.

CONCURRENT ENROLLMENT

The concurrent enrollment program allows outstanding juniors and seniors to earn college credit while still in high school, which strengthens student preparation, reduces family college costs, and decreases the time required to complete a degree. Nearly 14,500 students enrolled in concurrent courses generating more than 141,000 credit hours in the last academic year.

OKCOLLEGESTART.ORG

The state's web-based college planning portal has nearly 102,000 active student accounts across the state. In addition to offering extensive information and tools to help students, parents and adult learners prepare, plan and pay for college and serving as an ICAP administration platform for K-12 educators, OKcollegestart features robust career planning resources, including career profiles that outline higher education requirements and expected salaries.

GEAR UP

Oklahoma GEAR UP (Gaining Early Awareness and Readiness for Undergraduate Programs), the fourth consecutive federally funded grant program administered by the State Regents, is designed to prepare middle and high school students for college success through direct student support services, including college campus tours, ACT preparation and testing, college exploration courses, one-on-one guidance from school specialists, and Oklahoma's Promise and FAFSA completion assistance.

ADULT LEARNERS

REACH HIGHER

Through Reach Higher's FlexFinish and DirectComplete programs, 21 institutions offer specialized advising and support systems to help adult students return to college and complete degrees that lead to employment in Oklahoma's critical occupations. More than 10,000 degrees have been awarded through Reach Higher since 2007.

SHOW WHAT YOU KNOW

A dedicated website, ShowWhatYouKnowOK.org, empowers students to determine how previously earned college credit, licenses, certifications, military training, advanced standing scores, and knowledge gained through other learning experiences can be applied toward a college degree.

UPSKILLOK

The State Regents are building a statewide framework for the development of micro-credentials, alternative learning pathways directly aligned with high-demand skills requested by employers. Micro-credentials help individuals adapt and succeed, equipping both students pursuing a degree and current degree-holders with specific career skillsets, competencies, and knowledge that can be readily transferred to fill critical workforce needs.
