WYOMING COMMUNITY COLLEGE SYSTEM  
2021-2022 ANNUAL ENROLLMENT REPORT

This report provides an annual look at the summer 2021, fall 2021 and spring 2022 term's enrollment in categories such as student enrollment status, location and demographics of the community college student population. The content and format of this report have been developed through a collaborative effort between the Wyoming Community College Commission (WCCC), the Executive Council and the Data Governance/Institutional Research Council members representing the seven community colleges.

Effective with the summer 2018 term, data were extracted from the Centralized Station Instance (CSI) reporting system using one report without the need to consolidate individual reports from each of the seven colleges. The three term and the annual enrollment reports have the foundation of:

- Student enrollment being counted the day after 12% of each course has been completed.
- "Full-time equivalency means the number of approved academic or vocational-technical credit hours for each class for which students are enrolled divided by twelve (12)". W.S. 21-18-102 (a)(xii).
- Student headcount includes students who are enrolled for a letter grade, pass/fail designation as well as those who are auditing a course.
- "Duplicated headcount" means that within a survey or polling exercise of numerous programs and/or courses, a student may be counted more than once". WCCC Rules-2015
- "Unduplicated headcount" means that within a survey or polling exercise of numerous programs and/or courses, a student shall be counted only once". WCCC Rules- 2015
- Full-time equivalency (FTE) reported in tables 1, 5, 7b, 8 and 10 in the term reports may vary slightly due to rounding in the enrollment calculations.

Prior to the 2016-2017 academic year both annual headcount and FTE counts were calculated by adding each term's category totals together and dividing by 2. CSI provides data that is truly unduplicated for each term and therefore, enables the annual report to do the same and eliminate the aforementioned calculation. This more accurate approach can't apply to previously approved and published historical headcount and FTE totals to provide comparative data for a ten-year history relayed in tables 9 and 10. These 2 tables were added back to the annual report in the 2017-2018 academic year and started with a 2 year historical comparative.

The data presented in this report may differ from enrollment reports posted on Wyoming college websites due to extraction date and sub-set parameter differences.

For additional information and discussion regarding this report, please refer to the Wyoming Community College Commission's meeting minutes for October, 2022 located on the Commission's website at <http://communitycolleges.wy.edu>.

Transfer Preparation programs provide students with the first two years of an education sequence designed to transition to a Bachelor's Degree program. Programs generally lead to an AA, AB, AFA or AS degree.

Career Technical (CTE) programs are designed to prepare students for entry into a specific occupational area or advancement in the workplace immediately upon completion/graduation. Programs generally lead to Certificates or an ADN or AAS degree.
