The Oklahoma State Regents for Higher Education, in compliance with Titles VI and VII of the Civil Rights Act of 1964, Executive Order 11246 as amended, Title IX of the Education Amendments of 1972, Americans with Disabilities Act of 1990 and other federal laws and regulations, do not discriminate on the basis of race, color, national origin, sex, age, religion, handicap or status as a veteran in any of its policies, practices or procedures. This includes, but is not limited to, admissions, employment, financial aid and educational services. This publication, printed by Southwestern Stationery, is issued by the State Regents as authorized by 70 O.S. 2001, Section 3206. 100 copies have been printed at a cost of approximately \$705. Copies have been deposited with the Publications Clearinghouse of the Oklahoma Department of Libraries. This publication was produced in July 2023.

ROLE OF THE STATE REGENTS

Oklahoma's constitutional state system of higher education was created in 1941 by a vote of the people. The State Regents fulfill a variety of responsibilities, including prescribing academic standards for higher education, determining functions and courses of study at state colleges and universities, and granting degrees. The State Regents allocate funding for each public college and university, establish tuition and fees within limits set by the Oklahoma Legislature, and manage numerous scholarships and special programs.

Additionally, the State Regents operate OneNet, the state's advanced data network for education and government. The State Regents also manage the Oklahoma College Assistance Program, which provides important college access, financial literacy and student loan default prevention programs and services that support students and the financial aid community.

Although the State Regents are the coordinating board of control for all institutions in the Oklahoma state system of higher education, governing boards of regents and boards of trustees are responsible for the operation of each state system institution and higher education program.

Led by Strategic Planning Committee Chair Courtney Warmington, the State Regents and Chancellor Allison Garrett recently launched *Blueprint 2030: Innovating and Elevating Oklahoma Higher Education for Tomorrow's Workforce*, a new strategic plan that reflects our commitment to leading a responsive, forward-thinking, and data-driven state system of higher education. Developed to guide public higher education over the next several years, the plan is anchored by four fundamental goals:

- produce workforce-ready graduates
- grow the student pipeline
- focus on student success
- improve system efficiency and effectiveness

Blueprint 2030 looks toward Oklahoma's bright future with bold strategies to increase educational attainment, align higher education with state workforce needs, and leverage system resources more effectively and efficiently.

Michael C. Turpen, 2022-23 Chair

HIGHER EDUCATION UPDATE

As Chancellor of our state system of higher education, I am focused on two overarching objectives: expanding workforce development efforts and creating paths to a better life for Oklahomans. Our public institutions and elected officials are partners in developing an educated, engaged workforce prepared to meet our state's current and future employment needs, particularly in the areas of healthcare, teacher education, engineering, computer science, and other STEM fields.

Looking back on 2022, there are several highlights for public higher education. In May 2022, Lawton resident Dustin J. Hilliary was sworn in as a State Regent. Hilliary, who replaced State Regent Emeritus Jay Helm, is serving a nine-year term expiring in May 2031. We also recently welcomed Tulsa resident Mitch Adwon, who was appointed to replace State Regent Emeritus Joseph L. Parker Jr. Adwon, who previously served as a Tulsa Community College regent, will serve a nine-year term expiring in May 2032.

In February 2023, the State Regents approved *Blueprint 2030: Innovating and Elevating Oklahoma Higher Education for Tomorrow's Workforce*, which provides a comprehensive set of strategies to create the future of public higher education. Regent Courtney Warmington chaired the Strategic Planning Committee, which was appointed by last year's chair, Jeff Hickman. *Blueprint 2030* will guide our state system of public higher education as we focus on workforce development, broadening the student pipeline, supporting our students, and maximizing system efficiency.

In 2022, state system institutions received over \$50 million in ARPA funds to support nursing education initiatives. We thank the Legislature and Governor for the 13.8% increase in state appropriations programmed for public higher education for FY24. Funds will be used for targeted investments directly aligned with priorities set in *Blueprint 2030*, including workforce development initiatives in high-demand fields, shared services programs, and financial aid and scholarships to incentivize college degree completion.

The State Regents approved Early College High School (ECHS) programs at Connors State College, Murray State College, Oklahoma City Community College, and Tulsa Community College in April 2022 and recently approved an ECHS program at the University of Central Oklahoma. ECHS programs enable students to graduate from high school with an earned associate degree or certificate at little or no cost. Students who participate in ECHS programs perform better on state assessments and are more likely to enroll in college and earn a degree.

The State Regents launched a new micro-credentials website, UpskillOK.org, in September 2022. The site showcases over 200 micro-credential programs developed by our public colleges and universities in partnership with more than 70 businesses for students and employees across the state. Each program provides specialized knowledge and skills for completers, enhancing their qualifications and expanding their career prospects across a wide spectrum of in-demand occupations ranging from groundwater drilling to information technology to teaching. Through UpskillOK, businesses collaborate with our campuses to build custom training and professional development programs for employees, including stackable credentials that lead to valued industry certifications and in some cases, to degrees. The site also empowers employers to connect with candidates who have earned a micro-credential designed to meet evolving workplace needs.

In May 2022, the National Science Foundation (NSF) awarded the State Regents and OneNet a \$942,263 Campus Cyberinfrastructure grant to connect two more campuses to the OneOklahoma Friction Free Network (OFFN) and enhance connectivity for two other institutions, generating campus-level cyberinfrastructure improvements for science applications and research projects. Previous NSF awards connected 19 Oklahoma research and regional universities to OFFN.

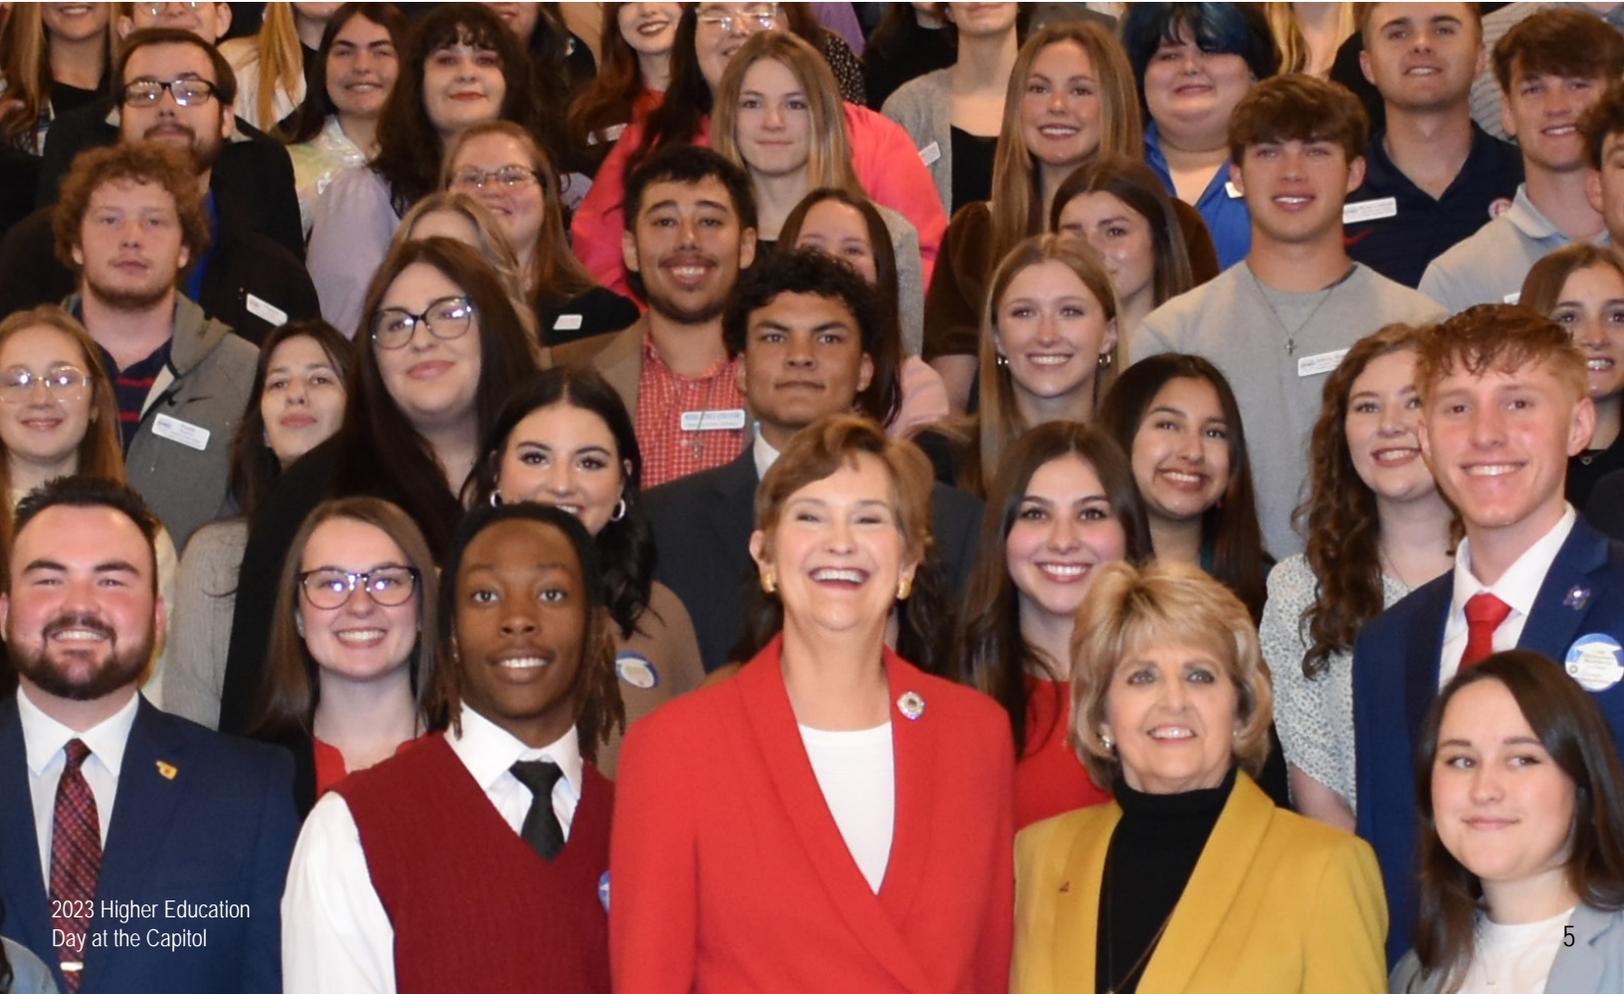

In October 2022, the State Regents established the Oklahoma Free Speech Committee to review campus free speech policies, complaints and personnel training programs. The committee works to ensure our institutions continue to be places where the open exchange of ideas and perspectives is encouraged and protected.

To strengthen the state's teacher education pipeline, the Oklahoma Future Teacher Scholarship and Employment Incentive Program (Inspired to Teach) was established during the 2022 legislative session. Inspired to Teach provides up to \$25,500 in a combination of scholarships for college expenses and, after graduation, incentive awards for participants who teach in an Oklahoma public school for five consecutive years. More than 2,100 students are currently enrolled in the Inspired to Teach program.

I am proud to serve the great state of Oklahoma in producing the workforce of the future.

Chancellor Allison D. Garrett

STATE SYSTEM FAST FACTS

Associate and bachelor's degree holders earn a median income **25% and 75% higher**, respectively, than those with only a high school diploma.

Data from the National Center for Education Statistics show Oklahoma universities have the **8th-lowest cost of attendance in the nation.**

The number of STEM bachelor's degrees conferred by state system institutions **increased 42.4%** over the last decade and **increased 24%** at all degree levels.

Nearly 90% of Oklahomans — and almost two-thirds of non-resident students — who graduate from a state system college or university remain and work in the state.

For every \$1 of state appropriations invested, the state system of higher education generates **\$9.40** in economic return.

Of Oklahoma's 100 critical occupations, the **top 29** highest-paying jobs require an associate degree or higher, and all of the **top 10** require a bachelor's degree or higher.

KEY INITIATIVES

HIGH SCHOOL STUDENTS

OKLAHOMA'S PROMISE

Oklahoma's Promise is recognized as one of America's best college access programs and is considered a model that combines emphases on academic preparation and financial support for college. Over 14,000 students received Oklahoma's Promise scholarships in the last academic year.

CONCURRENT ENROLLMENT

The concurrent enrollment program allows outstanding juniors and seniors to earn college credit while still in high school, which strengthens student preparation, reduces family college costs, and decreases the time required to complete a degree. More than 15,000 students enrolled in concurrent courses generating nearly 142,000 credit hours in the last academic year.

OKCOLLEGESTART.ORG

The state's web-based college planning portal has nearly 128,000 active accounts across the state and offers extensive information and tools to help students, parents and adult learners prepare, plan and pay for college. OKcollegestart serves as an ICAP administration platform for K-12 educators and features robust career planning resources, including career profiles that outline higher education requirements and expected salaries.

GEAR UP

Oklahoma GEAR UP (Gaining Early Awareness and Readiness for Undergraduate Programs) is the fourth consecutive federally funded grant program administered by the State Regents. GEAR UP is designed to prepare middle and high school students for college success through direct student support services, including college campus tours, ACT preparation and testing, college exploration courses, one-on-one guidance from school specialists, and Oklahoma's Promise and FAFSA completion assistance.

OKLAHOMA TEACHER CONNECTION

Through collaborative partnerships and strategically focused efforts, the Oklahoma Teacher Connection (OTC) supports initiatives and programs designed to recruit, retain and place teachers in Oklahoma classrooms. Supporting PK-12 and higher education, in addition to professional development opportunities, OTC has directly impacted over 50,000 educators and students through professional development, curriculum, policy, scholarships and incentive programs.

INSPIRED TO TEACH

The Oklahoma Future Teacher Scholarship and Employment Incentive Program (Inspired to Teach) allows students who have graduated from an Oklahoma high school and who declare teacher education as a college major to receive a scholarship during undergraduate matriculation and an incentive award for committing to teach five consecutive years in an Oklahoma public school, for a total of up to \$25,000 in scholarships and employment incentives.

KEY INITIATIVES

ADULT LEARNERS

REACH HIGHER

Through Reach Higher's FlexFinish and DirectComplete programs, 21 institutions offer specialized advising and support systems to help adult students return to college and complete degrees that lead to employment in Oklahoma's critical occupations. Reach Higher is now able to offer financial support through the Reach Higher Finish Line Scholarship to eligible adult students in Oklahoma. More than 10,000 degrees have been awarded through Reach Higher since 2007.

SHOW WHAT YOU KNOW

ShowWhatYouKnowOK.org is a dedicated website that empowers students to determine how previously earned college credit, licenses, certifications, military training, advanced standing scores, and knowledge gained through other learning experiences can be applied toward a college degree.

UPSKILLOK

The State Regents built a statewide framework for the development of micro-credentials, including over 200 alternative learning pathways directly aligned with high-demand skills requested by employers. Micro-credentials help individuals adapt and succeed, equipping both students pursuing a degree and current degree-holders with specific career skillsets, competencies, and knowledge that can be readily transferred to fill critical workforce needs.

AFFORDABILITY

COMPARING UNDERGRADUATE TUITION & MANDATORY FEES WITH PEER INSTITUTIONS, NATIONAL AVERAGE

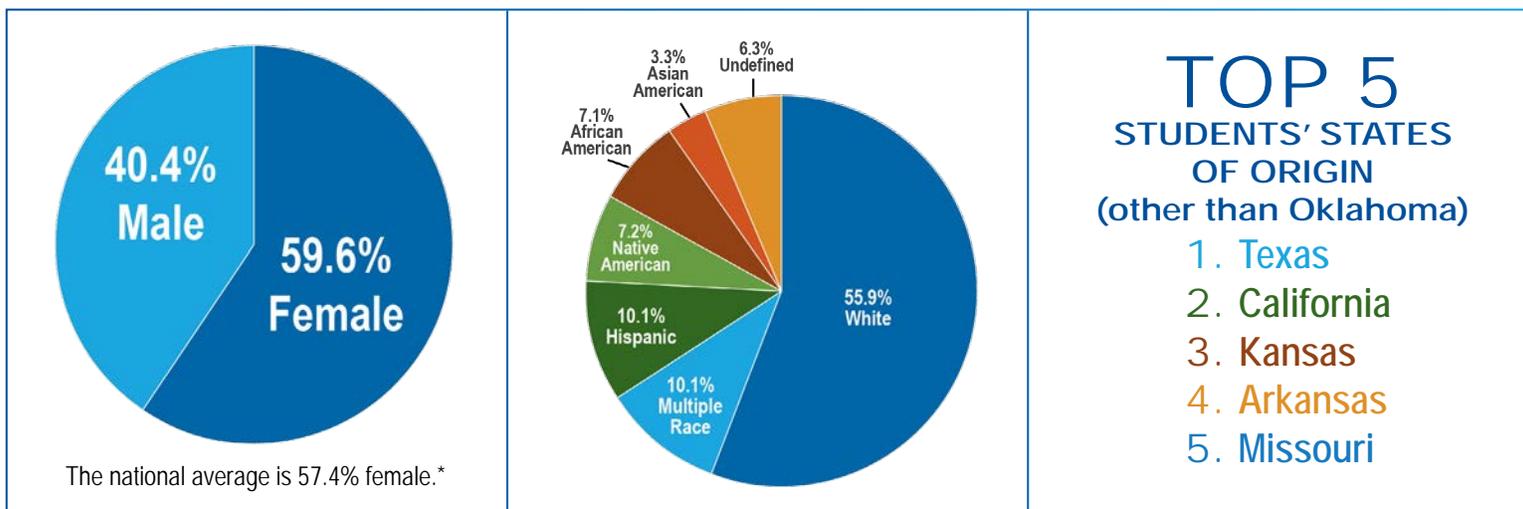

Tier	FY22 Oklahoma Average	FY22 Peer Average	Oklahoma Comparison to Peer Average (%)	FY22 National Average	Oklahoma Comparison to National Average (%)
Research Universities	\$9,277	\$12,818	-27.6%	\$10,940	-15.2%
Regional Universities	\$7,539	\$8,772	-14%		-31.1%
Community Colleges	\$4,714	\$6,819	-30.9%	\$3,860	18.1%

The Oklahoma State Regents for Higher Education establish tuition and mandatory fees within limits prescribed by the Legislature. At the research institutions, resident undergraduate tuition and mandatory fees must be below average resident tuition and mandatory fee rates charged at public institutions in the Big 12 Conference. At the regional universities and community colleges, resident undergraduate tuition and mandatory fee rates must be below average tuition and mandatory fee rates charged at like-type institutions in surrounding and other states.
