Huckleberry was cordially hated and dreaded by all the mothers of the town, because he was idle and lawless and vulgar and bad—and because all their children admired him so, and delighted in his forbidden society, and wished they dared to be like him. Tom was like the rest of the respectable boys, in that he envied Huckleberry his gaudy outcast condition, and was under strict orders not to play with him. So he played with him every time he got a chance..." (*Tom Sawyer* by Mark Twain.)

♦ "Frankie was...a wild figure... I had come to join his gang through clause number two (the threat of torture), and had stayed with it for profitable reasons of fun and adventure... When the women of our street could think of no more bad names to call Frankie Buller for leading their children into fights that resulted in black eyes, torn clothes, and split heads, they called him a Zulu, a label that Frankie came to accept as a

tribute." ("The Decline and Fall of Frankie Buller" by the great writer Alan Sillitoe.)

♦ "It was an absolutely scary experience. We called up our friends, and they said they didn't know us." (The physicist Victor Weisskopf, speaking to Robert Oppenheimer about his recent experience in the Soviet Union, following the arrest of one of Weisskopf's friends.)

♦ "Lyuda, from now on our contact with people has to be one-sided. If a man's been arrested, his wife can only visit people who've invited her. She doesn't have the right to say: 'I want to come round.' That would be humiliating for both her and her husband. You and I have entered a new epoch. We can no longer write to anyone ourselves; we can only reply to letters. We can no longer phone anyone; we can only pick up the receiver when it rings. We don't even have the right to greet acquaintances—they may prefer not to notice us. And if someone does greet me, I don't have the right to speak first. He might consider it possible to give me a nod of the head, but not to talk to me. I can only answer if he speaks first. You and I are pariahs." (*Life and Fate* by Vasily Grossman.)

(*The Beauty and the Sorrow* by Peter England.)

♦ "Pamphil [Palykh] was devoted to [his wife] and loved his children to distraction... With the arrival of his family he had cheered up and begun to recover... But now the news had got about that... [the families] were going to be sent... to winter quarters... Pamphil's spirits fell and his hallucinations came back... / A bleeding stump of a man [lay] on the ground. His right arm and left leg had been chopped off. It was inconceivable how, with his remaining arm and leg, he had crawled to the camp... Fainting repeatedly from loss of blood, the dying man told him ... of the tortures and atrocities perpetrated by Vitsyn's squads. 'As for the children and women—O God!' / Pamphil had been in the crowd surrounding the dying man. He had seen him, heard his words, and read the threatening inscription on the board. His constant fear for his family in

the event of his own death rose to a new climax... In his imagination he saw them handed over to slow torture... / In his desperate anguish he killed them himself, felling his wife and three children with that same, razor-sharp ax that he had used to carve toys for the two small girls and the boy... / The astonishing thing was that he did not kill himself immediately afterward. What could he be thinking of? It was a clear case of insanity... / While Liberius, the doctor, and the members of the army soviet debated what to do with him, he roamed freely about the camp... An obtuse vague grimace of inhuman, unconquerable suffering never left his face. / No one was sorry for him. Everyone avoided him, some people said he should be lynched, but they were not heeded. / There was nothing in the world left for him to do. At dawn he vanished from the camp, fleeing from himself like a dog with rabies." (*Doctor Zhivago* by Boris Pasternak.)

♦ "Partisan detachments must be formed in areas occupied by the enemy, to stir up guerilla war everywhere, to blow up bridges and roads, sabotage telephone and telegraph lines, and to burn forests, stores and transports. We shall create intolerable conditions for the enemy and his supporters, they must be pursued and eliminated at every step." (Stalin's radio broadcast to the Soviet People 3 July 1941. From "Soviet Storm: WW2 in the East.")

♦ "Naturally, the grownups tried hard not to talk about these horrors in the presence of children, at any rate not in Hebrew... But sometime a word slipped through... I could hear the whispering... Nazis, Vilna, partisans, death camps, death trains, Uncle David and Aunt Malka, and little cousin Daniel, who was the same age as me. Somehow the fear got into me..." ♦ According to Wilfred Funk, Litt. D., *passion* originally meant suffering: the passion of Christ. Then it morphed in the late 14th century (the time of Chaucer) to mean powerful emotions like hatred and rage, including the tender passion of love. In Funk’s day, it came to relate to the powerful emotion of sex. Today it commonly means enthusiasm. *Compassion* comes from the same root and literally means, “with suffering,” or “I feel your suffering.”

♦ “It was hard for family conversations. You couldn’t exactly talk about it over Thanksgiving dinner.” (Dr. Mark Siddall, who studies and is passionate about leeches.)

♦ “Reporting from France for Beardsley is the fulfillment of a lifelong passion for the French language and culture. At the age of ten she began learning French by reading the Asterix The Gaul comic book series with her father.” (The beloved National Public Radio correspondent Eleanor Beardsley, raised in Columbia, South Carolina. From her biography, “Eleanor Beardsley, Correspondent, Paris,” at NPR.)

♦ “Some people may say that passion is folly. I think if you haven’t followed your passions, you haven’t lived. If you haven’t lived, you haven’t evolved.” (John Chao, photographer and founder, publisher and editor in 1993 of the magazine *American Windsurfer*. In December 2016 he drove a panel truck full of firewood and propane from The Dalles, Oregon, to North Dakota to support the Standing Rock Dakota Access Pipeline activists in their winter camps.)

♦ “Playing video games for a living is a dream for many.” (Amazon’s Twitch, etc., and online streamers.)

♦ “He had a passion and desire to do something... / He was received as such a kind, loving, generous, funny, goofy, creative, funny, vibrant, fearless young man.” (The Arizona mother of a 14-year-old boy, struck and killed by a Seattle monorail while defacing buildings with his graffiti.)

♦ "It had seemed impossible that Japan would court destruction by war with Britain and the United States, and probably Russia in the end. A declaration of war by Japan could not be reconciled with reason. I felt sure she would be ruined for a generation by such a plunge, and this proved true. But Governments and peoples do not always take rational decisions. Sometimes they take mad decisions, or one set of people get control who compel all others to obey and aid them in folly. I have not hesitated to record repeatedly my disbelief that Japan would go mad. However sincerely we try to put ourselves in another person's position, we cannot allow for processes of the human mind and imagination to which reason offers no key. / Madness is however an affliction which in war carries with it the advantage of surprise." ♦ "I did not feel any pressure from Malcolm to perform girlfriend, but I think just moving through the world as a girlfriend, it just comes with a history of, you know, I'm playing a role, and this is—this role has a set of expectations attached to it." (Haili Blassingame. From "There's pressure to be partnered. Here's how to enjoy single life" with Meghan Keane, NPR's LIFE KIT, January 10, 2022.)

♦ "So I dress in drag as a man to go to work, I perform that. And then, off hours, I'm Tessa." (Miss Golden State Gay Rodeo, Tessa Trujillo.)

♦ "I don't want to hear one more peep out of them about diversity, equity, and inclusion. I don't wanna see any more of our C-suite execs

recommend books for women's history month. There were tangible actions they could've taken and they chose to perform these values. No thank you." (An underpaid employee with an Asian name who was repeatedly turned down for a raise. She finally applied for her job as a new hire at a higher salary, and her posts went viral.)

♦ "Knausgard's creation...reduces the entire world to the size of the author. This is happening everywhere now—as the writer himself, with characteristic insight, recognizes in a long passage about the ways in which the Internet and social media, by forcing us endlessly to perform our own lives, threaten to trivialize the very notion of selfhood... What work more than his deserves to become the great new classic of the age of the blog?" ("Knausgard" by Daniel Mendelsohn, *The New York Times Book Review*, September 24, 2018.)

♦ "[Ashley] Kim concurred. 'When I first joined the English department, I felt seen, but I also felt, Maybe I don't belong,' she said. ♦ “Eyebrows might arch at any art form as reliant upon the performance of cockiness. But when vertiginous pride emanates from Black egos, eyes tend to burn in their sockets.” (“Hip-Hop’s Un-Shakable Life Force” by Wesley Morris, *The New Yorker Magazine*, August 13, 2023.)

♦ The performance of Blackness, queerness, victimhood, etc.

♦ “I wondered, as I toured the monument (the Memorial To the Murdered Jews of Europe in Berlin), how much of the motivation to create memorials to the Holocaust reflected a desire for Germany to—internally—reckon with its heinous state-sanctioned crimes, and how much of it stemmed from a hope that putting memorials up would demonstrate to the rest of the world that Germany had accounted for its past? Put more directly were monuments like this one for Germans to collectively remember what had been done? Were they a performance of contrition for the rest of the world? Were they both?” (“Monuments to the Unthinkable: America still can’t figure out how to memorialize the sins of our history. What can we learn from Germany?” by Clint Smith, *The Atlantic*, December, 2022.)

♦ “*Love Island* makes us believe the performance of love leads to the real deal.”

♦ “Recall how many Americans, in the grim depths of the pandemic, refused to understand the wearing of masks as anything but ‘virtue signaling’—the performance of a political view, rather than a genuine public-health measure.” (We’re Already In The Metaverse: Reality is blurred. Boredom is intolerable. And everything is entertainment” by Megan Garber, *The Atlantic*, March, 2023.)

♦ “The story delves deep into what Bret sees as the performance of everyday life; the way everything is a narrative, a ‘pantomime,’ a ‘script.’” (“Bret Easton Ellis’ first novel in more than a decade, ‘The Shards,’ is worth the wait” by Gabino Iglesias, NPR, Review, Books, January 19, 2023.)

♦ “We told you that this would be a performance, the role of her lifetime as a heroic survivor of brutal abuse.” (Camille Vasquez, in her closing arguments in the Amber Heard-Johnny Depp trial.)

♦ “When you’re on set it seems obvious that pornography is a performance, just like a TV show or a choreographed dance. But most people haven’t been on a porn set, and so the idea that it is a performance is not that obvious.” (“Porn Is Easy To See But Hard To Talk About, Shaping The Ways People Think About Sex” by Kat Lonsdorf, NPR, All Things Considered, May 1, 2019.)

♦ Since the world began, beggars have *performed piteousness*...[italics mine]. Perhaps they have been maimed by fate, or intentionally maimed by their parents, or pretend to be maimed. Perhaps they are young and robust, and yet they still block the public’s path by lying on their backs and wailing. They often depend on the religious and charitable feelings of the public. This is especially true in Muslim societies, where charity is a pillar of Islam. They sometimes comprise subgroups of a society, like the Roma in the Balkans; or they are part of the fabric of certain countries, such as India; or they are associated with certain disabilities, such as the deaf, who in certain countries like Thailand, hand out cards soliciting money, and who can become quite aggressive if one does not “donate” to their disability. In the U.S., such hustlers have found new ways of operating. But always, as a *class*, beggars depend on the basic decency and gullibility of the public, even as they despise that public...

scientific Phoenix
he was a ~, rising from the ashes of his mistakes (Pasteur)

♦ In Greek mythology, the Phoenix was a bird that periodically was consumed by fire and then regenerated itself from the ashes.

♦ In his notes to Canto XXIV of *The Inferno*, John Ciardi describes the Phoenix thusly: "The fabulous Phoenix of Arabia was the only one of its kind in the world. Every five hundred years it built a nest of spices and incense which took fire from the heat of the sun and the beating of the Phoenix's wings. The Phoenix was thereupon cremated and was then re-born from its ashes." This is close to the story the Egyptians told Herodotus in the 5th century BC.)

♦ "We both know that if I burnt you down some punk phoenix would rise from your ashes." (Camp dialogue recited by the actor Ray Liotta from *Shades of Blue*.)

♦ In Atlanta, Georgia (USA), a bronze monument of the Phoenix rescuing a woman from a fire commemorates that city's rise from the ashes of the Civil War. Atlanta prides itself on its motto, "The city too busy to hate." Pretty much true today, except for the rappers.

♦ Scott Simon: I remember interviewing him once. This would have been 10 years after the riots. And he told me, 'Ashes don't always mean death. Ashes mean death to yesterday. Przewalski... /// [The old man] stopped and pointed out an old track overgrown with grass and shrubs. That was the old route, he told us, by which the Ussurians used to go through to Olga Bay. It was by that route that, in the sixties of the last century, Budishchev and Maximovich had come, and at the thought their portraits rose before my eyes and their description of their journey... /// The Tadusha! It was this very river that L. Veniukov was the first to explore, but the Chinese had stopped him and compelled him to turn back. That was in 1857 when he put up a big wooden cross to mark his farthest point, but I could find no trace of it. No doubt the Chinese had destroyed it as soon as the Russians had left. Later there came Maximovich, Budishchev, and Przewalski, all famous men of science... /// The climb up the ridge is stiff near the crest. The pass itself is in the form of a broad saddle, boggy, and covered with burnt-out forest. The altitude is 1584 ft., and it ought really to be named after the pioneer, M. Veniukov, who passed this way in 1857, breaking the way for the men who followed... /// September 27 was given up to a reconnaissance of the Bay of Terney, discovered by the famous La Perouse on 23 July 1767, who then and there gave it its name..." ♦ GRAMMAR, n. A system of pitfalls thoughtfully prepared for the feet of the self-made man, along the path by which he advances to distinction. (*The Devil's Dictionary* by Ambrose Bierce.)

♦ "Not far from the rock there is a big pitfall. This is in the form of a stout fence to keep animals away from their watering-place, built up partly of fallen logs and partly of growing trees. Big stakes had been driven in to hold it firmly and prevent the animals from trampling it down. In a few places openings were left with pits dug underneath them, hidden by grass and dry twigs spread over the top. When the deer come down to the water at night, they come up against the fence, and in trying to find a way round, come to the holes and fall into the pits. There are fences like that stretching over a distance of thirty miles and more, with a couple of hundred pitfalls. / This pitfall on the Vangou had been abandoned... / Dersu abused the Chinese terribly for abandoning the pits without filling them in." (*Dersu Uzala* by V.K. Arseniev.)

♦ 27 Nov. To Replee 11 miles. This was formerly an Ass Patrol's Post. It is now broken up and the nearest post is Odha 7 miles further—in this neighbourhood Mr Conway kills immense numbers of deer in pitfalls behind the line hedge—sometimes 19 or 20 are taken in one night in a single pitfall both Antelope and Ravine Deer—the place at which they usually jump the hedge is soon seen & a pitfall is dug just where they alight." (From a diary of Allan Octavian Hume. Quoted in the wonderful book *The Great Hedge of India* by Roy Moxham.)

The men smeared their faces with clay for protection. (*Gold*)

Diggers: Striking It Rich in the Klondike by Charlotte Gray. "Jack" is the great writer Jack London.)

♦ "Dense swarms of mosquitoes set in immediately after sunset... a nuisance that can hardly be imagined. No breath of air incommodes those light-winged tormentors. It is quite impossible, for the European at least, to close an eye without the shelter of a mosquito net. Our Indians slept with no covering, only occasionally brushing away the most obtrusive of the little fiends." (*The Amazon and Madeira Rivers* by Franz Keller.)

♦ "Before evening that day there put in its first appearance the curse of the *taiga*, flies. The settlers call them *gnus*, horror or abomination, and they are indeed the plague of the forest. Their bite draws blood and the wound itches desperately, and the more it is scratched the worse it becomes. When there are many biting flies about, it is impossible to expose the head for an instant. The flies blind your eyes, become entangled in the hair and ears, crawl up your sleeve, and savagely bite your neck. Your face swells up as though with erysipelas." (*Dersu Uzala* by V.K. Arseniev.)

♦ An online BBC article about a shortage of semiconductors entitled "How will 'chipageddon' affect you" prompted Timbob to snark, "Surely 'Chipocolypse' would have been better than 'Chipageddon.'"

♦ "The Subscription-Pocalypse Is About To Hit" by Brian Moritz, Nieman Lab, Predictions For Journalism 2019. His thought is, there are just too many things to subscribe to, so people will begin to cut back.)

♦ "This could be 'the year of the gas-pocalypse' analysts tell the Los Angeles Times..." ("Pained By Prices At The Pump? They're Likely To Go Even Higher" by Mark Memmott, NPR, The Two-Way, January 6, 2012.)

♦ A national shortage of Kraft Velveeta cheese at the start of 2014 was referred to as a *cheesepocalypse*.

♦ Poppy Apocalypse; Poppypalooza... (In 2019, a super bloom of desert poppies saw the town of Lake Elsinore, California, descended on by an army of blissed-out tourists equipped with cell phones and selfie sticks and earbuds. They parked alongside an interstate, blocked local roads, trampled everything, climbed trees to get the best photos, and fell down hills. A dog was bitten by a rattlesnake.)

♦ "I'm very careful to be very polite 'cause, you know, come that robopocalypse, I want them to remember that, you know, I'm not one of the bad guys. It's kind of the reason I made this film is that I'll get spared when they finally take over, they'll be like, 'He's OK. He understands us,' you know? (The British filmmaker Gareth Edwards about his 2023 film *The Creator*. Gareth claims he says "please" and "Thank you" when using Siri, Alexa, ChatGPT, etc.)

♦ "Oh, where I was born, everyone had this. First, a fly bit you, then you got a sore. After a while it healed and never came back." (A grandfather, originally from southern Turkey, explaining to his American grandson how he got a shallow scar—a papery depression—on his cheek. Cutaneous leishmaniasis is also known as "Oriental sore," "Baghdad boil," and Aleppo evil." In India it is known as kala azar, or black fever.)

♦ "One day I was called into the room of our hostess's younger sister. The room was dark, and only when hot hands gripped mine did I realize that I was standing near her. When my eyes had got accustomed to the darkness, I looked toward the bed and recoiled in a horror which I could hardly conceal. There lay completely transformed by sickness one who two days before had been a pretty healthy girl. Though a layman, I instantly saw that she had smallpox. Her larynx and tongue were already attacked and she could only cry out with thick articulation that she was dying. I tried to tell her that it was not so, and then escaped from the room as quickly as possible to have a thorough wash. There was nothing to be done and one could only hope that an epidemic would not break out. Aufschnaiter also visited her and agreed with my diagnosis... (*Seven Years in Tibet* by Heinrich Harrer, Chapter 4, "The Village of Happiness.")

♦ "For survivors, smallpox was a cruelly fickle disease, leaving many of its survivors blinded or dreadfully scarred, but others unscathed. It had existed for millennia, but didn't become common in Europe until the early sixteenth century. Its first recorded appearance in England was 1518." (*At Home: A Short History of Private Life* by Bill Bryson.)

♦ "I had lots of things to carry me across the river. Sometimes I could use a camel, sometimes I could get a boat. But if I knew there was critical timing involved...I would try to arrange in advance for the elephant. The elephant rides pretty smoothly and it's pretty tall. Usually I got on with a ladder, but you could step on its trunk and it would put you on its back. I was always a little nervous about that." (May Guinan, sent to Uttar Pradesh from the CDC in the campaign to eradicate smallpox, on how she would cross a river to get to her headquarters in Lucknow. Another method involved mounting a bicycle, which was then carried on the shoulders of two men. From *The Invisible Fire* by Joel N. Shurkin.)

♦ The point man is the lead man in a column of soldiers. He goes a bit ahead of the column and must look for snipers, mines, and booby traps. He may shoot first and discover to his horror that he has shot a noncombatant or a child, even. In a confused situation, he might be fired on by his fellow soldiers in a different unit. The enemy might shoot him dead, or he might set off a trap that kills him outright. Or, the enemy might shoot to wound him and then pick off anyone trying to come to his aid. Or, the enemy may let him pass and shoot up the main column of men, leaving the point man terrified, cut off, and isolated without support...

♦ "Mostly, the enemy is found by the point man, of the point platoon, of the point company bumping into that enemy." (Military operations in urban terrain / MOUT.)

♦ "Castro was yelling, 'Ah shit, man! Shit! Shit!...' / The medic was on his knees. Patrick's arms were lying loosely at his sides, his eyes roaming around the faces of the men standing above him... / Blood was everywhere. Patrick closed his eyes and his head rolled to the side, and he died. / 'I left as soon as I could this morning to get here and help you,' Pete said. 'Colonel wouldn't let me come last night.' He paused. 'Patrick must have fallen asleep, lying here in the bushes. He fired at my point man. Just jerked up and started firing. He and my point man just fired at each other. I'm sorry...' / I couldn't yell at Pete or his point man. It certainly wasn't their fault, nor was it Patrick's. I felt a mindless rage, like I wanted to cry and scream at the same time..." (*Last Man Out: A Personal Account Of The Vietnam War* by James E. Parker Jr.)

♦ "Lopinto was a tough mother. Shirtless beneath his flak jacket and slung with an especially heavy load of grenades and ammunition, he moved down the dirt cart trail they called Route 561." From the affecting history *Operation Buffalo: USMC Fight for the DMZ* by Keith William Nolan.)

♦ "There was another AK47 burst and, instantly, an inhuman scream, followed by shouts to Herbert that one of their guys was hit. Herbert sent

his superficially wounded corpsman in that direction, but he was shot in the legs as he ran and sent sprawling. / The next shot was to his head. KIA. / There was a shout to Herbert that it was the point man Lopinto who had screamed. That was Herbert's best friend, and he shouted back to ask how bad he was hit. The return shout was that he was dead. KIA." (From the affecting history *Operation Buffalo: USMC Fight for the DMZ* by Keith William Nolan. "Lance Corporal Herbert, the intelligent, articulate, and very able leader of the 2d Squad of Bravo Two, was right behind the monster erupting around Bravo Three...")

♦ "Bringing up the rear as tail-end-charlie was almost as bad as walking point." (The Vietnam War. In Vietnam, the Vietnam War is known as the American war.)

♦ Nowadays the "point person" is usually a female who mindlessly parrots the administration or company line, reading from a script.

- ♦ In Vietnam, the Vietnam War is called the American War. (Point of view and war.)
- ♦ The French blamed the pestilence on the Neapolitans. The English, Germans and Italians called it the *morbus gallicus* or the 'French disease.' The Polish labeled it the 'Russian disease.' To the Turks it was the 'Christian disease.' It was called the 'Chinese pox' by the Japanese and the 'Portuguese disease' in India and Japan. The Tahitians referred to venereal disease as 'the British disease.' (Names for syphilis, from *Disease, The Extraordinary Stories Behind History's Deadliest Killers* by Mary Dobson. Point of view and public health.)
- ♦ "I have a special hatred for ice cream trucks. I think they should be outlawed. I have so many traumas from them, and the children hit by ice cream trucks are usually on the small side, so they get head traumas." (Gracie Dinkins, a trauma surgeon. From "Flesh & Blood" by Gracie Dinkins as told to Matthew Segal, Los Angeles magazine. A purely personal point of view, based on occupation.)
- ♦ "People say it's a peaceful demonstration but I would say that a huge 18-wheeler is not a peaceful thing to have in the middle of your city." ("Health care workers in Ottawa are being harassed protesters [sic] against COVID-19 mandates," NPR, Weekend Edition, Saturday, Feb. 12, 2022.)

♦ "Yeah, they have these belts on with like all these extra bullets and they're like dressed for war." (Leah talking to her Brit producer, Georgia, for their podcast about the militia movement. Gen-Z point of view.)

♦ "Next morning I awoke, looked out the window, and nearly died of fright. My screams brought Atticus from his bathroom half shaven. 'The world's ended, Atticus. Please do something.' I dragged him to the window and pointed. 'No it's not,' he said. 'It's snowing.'" (The beloved American novel *To Kill a Mockingbird* by Harper Lee. This is an example of the point of view of a child.)

♦ The Turkana have few food taboos and will even eat fish.

♦ We all have accents.

♦ A FUNNY STORY. A young American on vacation from his job was shooting billiards with a local man at a country club in Nuwara Eliya, Sri Lanka. The Sri Lankan man spoke impeccable British English, and at one point during the game enquired, "What do you do for a living?" The young American said, "I teach English in Saudi Arabia." To which the Sri Lankan man expostulated, "How the hell can you teach English when you can't bloody well speak it!"

♦ A FUNNY CARTOON. Ragged, disheveled and unshaven Willie and Joe, fighting their way through Europe, are standing in a liberated French town that—Happily!—is completely intact, as opposed to having been reduced to an abandoned pile of rubble. The streets are thronged with French civilians, including a pulchritudinous young female in silhouette; a man is seated peacefully on a balcony smoking a pipe watching the scene below him; and the shop signs are all in French. Jut-jawed Willie is saying to Joe, "Did ya ever see so many furriners, Joe?" (*Up Front* by Bill Mauldin, World War II. Mauldin survived the war. So did Konstantin Simonov and Vasily Grossman. Ernie Pyle didn't.)

♦ A FUNNY STORY. A city man grew weary of the hustle and bustle, the hubbub and din, of city life, and he decided to visit his relative in the quiet and peaceful countryside. He made a sign that said, "Gone to the countryside," posted it on his door, and set off. He drove through the desert until the road ended. Then he drove off road, following tracks in the sands, until the tracks ended at the edge of a steep valley. He abandoned his truck there, crossed the valley on foot, and then walked for miles over a flat barren empty gravel desert. Finally, in the distance, he saw his relative's stone hut, next to a single tree. In great joy and anticipation he hurried to it, only to find, posted on the door, a note that read... "Gone to the countryside."

♦ “As wave after wave of pain and outrage swept through the *Times*, over a headline that was not damning enough of Trump or someone’s obnoxious tweets, I came to think of the people who were fragile, the ones who were caught up in Slack or Twitter storms, as people who had only recently discovered that they were white and were still getting over the shock. Having concluded they had got ahead by working hard, it has been a revelation to them that their skin colour was not just part of the wallpaper of American life, but a source of power, protection and advancement. They may know a lot about television, or real estate, or how to edit audio files, but their work does not take them into shelters, or police precincts, or the homes of people who see the world very differently. It has never exposed them to live fire. Their idea of violence includes vocabulary.” (“When the New York Times lost its way” by James Bennet, *1843 Magazine (The Economist)*, Dec 14th 2023.)

♦ “The Home Secretary has blamed political correctness for the failure of authorities to tackle child sexual exploitation.” (BBC, Six O’clock News, 02/04/2023. The Home Secretary was Suella Braverman, referencing fears of accusations of racism about investigating and prosecuting British Pakistani males.)

♦ “I’m actually convinced that it was political correctness gone mad. You know, there was absolutely no reason for it. I was rocking the multicultural boat. But, how would you get changes without talking about it?” (Ann Cryer, Labour MP for Keighley, 1997-2010. From *The Betrayed Girls: The Rochdale Scandal—2017 Documentary*.)

♦ “Why on Earth would anyone be proud of making a PC Snow White?” (Piers Morgan, about the upcoming “woke” 2024 Disney film. This question truly deserves thought and discussion. ♦ “It occurred to me that, because the world media establishment had ignored the Balkans for so long..., these people never had to learn, as the Israelis and Arabs did, how to talk in code, so as not to offend Western sensibilities with their racial hatred. In the Balkans, people spoke more honestly than in the Middle East, and therefore more brutally.” (*Balkan Ghosts: A Journey Through History* by the superb writer and correspondent Robert D. Kaplan.)

♦ “There is too big a gap between what people say in public and what they believe, when they are just by themselves. And this is you know somehow a collateral effect of this political correctness, which taught people that you are not allowed to say this or that but uh it didn’t change what they believe.” (“From Romanian director Christian Mungiu on his film R.M.N.,” NPR, Weekend Edition Saturday, May 6, 2023.)

*** analysis

♦ “The euphemism treadmill must be accepted as an inevitable and unexceptionable result of what a word is: not only a bundle of sounds linked to a meaning, but also one that naturally piles up with implications over time because it is used by human beings living lives. Since words can’t sit still, and the implications they attract will sometimes be unpleasant, civility will require changing some of them regularly, like underwear.” (*Words on the Move* by the linguist John McWhorter, Chapter 2, “It’s the Implication That Matters: Words on the Move.”)

♦ “Project 562. Matika Wilbur, a visual storyteller and licensed primary school educator from the Swinomish and Tulalip peoples of coastal Washington, has spent a decade traveling to more than 400 tribal nations. / Through her research as both a photographer and educator, Wilbur found that many state history standards fail to cover Native Americans post-1900—an oversight she says is ‘damaging to native and non-native youth.’ / What little documentation of contemporary native communities that does exist is often ‘poverty porn,’ says Wilbur. And that’s not what she wants her students—or any students—to think of Native American culture. / She hopes her continued work through her Project 562—dedicated to photographing the more than 562 federally recognized tribes in the United States—will help inspire native peoples and counteract problematic stereotypes. / ‘I remember thinking: I’m showing contemporary representation of indigenous people to my students that is traumatizing them. And I’m not doing the work. I can’t be a part of the problem that’s causing harm to the students. My job is to inspire them. My job is to give them hope,’ says Wilbur.” (“Want To See

♦ A FUNNY CARTOON. A wolf father and his son are crouched in the tall prairie grass near a herd of buffalo, ready to attack. The father is advising his son, "We don't go for the weakest—we go for the one that's checking its e-mail." Indeed, one nearby buffalo has his head down, a cellphone in his hoof, checking its email! *The New Yorker*, October 2, 2023. The vast majority of millennials and Zoomers lack situational awareness. It's why they fall into holes, walk off of piers, drive onto train tracks, and back off of cliffs taking selfies, etc. Darwin Award winners!

this is one reason Sesali Bowen is so powerful, she ~

hard-charging, take-no-prisoners
he's known as a ~ kind of guy (Governor Andrew Cuomo)

♦ "We fight hard, we play for keeps, we take no prisoners. We'll get in the trenches and fight dirty." (Greg Pruett, president of the Idaho Second Amendment Alliance, a gun-rights group.)

♦ "Bowen also calls out the classism and cultural biases even within Black media circles where so many of her colleagues come from privilege and 'have had to untangle their Blackness from the web of whiteness they were socialized in.' This is one reason Bowen is powerful; she takes no prisoners. Going against every tide, Bowen's trap feminism enthusiastically celebrates "ghetto girl culture." More than reconciling feminism with hip-hop, she marshalls [sic] its power." ("5 books at the intersection of Black feminist thought, culture, and politics" by Carole V. Bell, NPR, Book Reviews, March 21, 2022.)

*** war, conflict, etc.

♦ "Keep it under your hats, but our boys are so fucking well brassed off about it, they aren't taking any prisoners. Not those First Para bastards anyhow!" (The German scorched-earth program, destroying Italian villages, forcing Italian refugees onto roads to block the Allied advance, etc. World War II. Italy.)

♦ "A man cannot change his feelings again during the last rush with a veil of blood before his eyes." (Ernst Junger. World War I. Quoted in *On Killing* by Lt. Col. Dave Grossman. Close-quarters combat. Soldiers who resist to the final moment and then throw down their weapons and raise their hands may or may not be taken prisoner in the heat of battle.)

♦ "About saving the lives of enemy wounded there was disagreement; the convention varied with the division. Some divisions, like the Canadians and a division of Lowland Territorials, who claimed that they had atrocities to avenge, would not only avoid taking risks to rescue enemy wounded, but go out of their way to finish them off. The Royal Welch were gentlemanly: perhaps a one-in-twenty risk to get a wounded German safely would be considered justifiable." (*Good-Bye To All That* by Robert Graves. World War I. No man's land.)

♦ "We rode past the other bodies of men and women and four more dead babies, looking very soiled in the daylight, towards the village; whose loneliness we now knew meant death and horror. By the outskirts were low mud walls, sheepfolds, and on one something red and white. I looked close and saw the body of a woman folded across it, bottom upwards, nailed there by a saw bayonet whose haft stuck hideously into the air from between her naked legs. She had been pregnant, and about her lay others, perhaps twenty in all, variously killed, but set out in accord with an obscene taste... / I said, 'The best of you brings me the most Turkish dead', and we turned after the fading enemy, on our way shooting down those who had fallen out by the roadside and came imploring our pity. One wounded Turk, half naked, not able to stand, sat and wept to us. Abdulla turned away his camel's head, but the Zaagi, with curses, crossed his track and whipped three bullets from his automatic through the man's bare chest. The blood came out with his heart beats, throb, throb, throb, slower and slower. / Tallal had seen what we had seen. He gave one moan like a hurt animal... [H]e dashed his stirrups into the mare's flanks and galloped headlong, bending low and swaying in the saddle, right at the main body of the enemy... / Instantly their rifles and machine-guns crashed out, and he and his mare, riddled through and through with bullets, fell dead among the lance points... / By my order we took no prisoners, for the only time in our war... / Just one group of Arabs, who had not heard our news, took prisoner the last two hundred men of the central section... [A] man on the ground behind them screamed something to the Arabs, who with pale faces led me across to see. It was one of us—his thigh shattered. The blood had rushed out over the red soil, and left him dying; but even so he had not been spared. In the fashion of to-day's battle he had been further tormented by bayonets hammered through his shoulder and other leg into the ground, pinning him out like a collected insect. / He was fully conscious. When we said, 'Hassan, who did it?' he drooped his eyes towards the prisoners, huddling together so hopelessly broken. They said nothing in the moments before we opened fire. At last their heap ceased moving; and Hassan was dead..." (*Seven Pillars of Wisdom* by T.E. Lawrence, Chapter CXVII.)

Promethean task

the scale-up for treating a human is a ~ (growing livers)

♦ "In Greek Mythology, Prometheus was a Titan who loved humans too much. He gave them the gift of fire, and at the banquet with the gods, he would save them the best pieces of meat. That kind of generosity upset Zeus, who condemned him to be chained to a mountain and have his liver eaten by an eagle. Every night the liver would grow again, ready to be devoured the next day. This torment...is the punishment for wanting to outsmart the gods. Giving men fire, Prometheus provided the first important tool, the very first step towards technology, science, and the dominance of humans over nature... It didn't end well." (BBC, "The curious case of the man with a hole in his stomach," 17 May 2022.)

♦ This word refers to at least 4 things: (1) great creativity and originality, especially, now, new technology (2) "gifting" something of great benefit to others (3) defiance of authority and disobedience (4) great suffering.

♦ In Greek mythology, the myth of Prometheus and the story of Pandora are intertwined.

♦ "Prometheus unframed: A new type of camera could prove valuable on robots, drones and driverless cars," *The Economist*, January 29th, 2022.

♦ "Their father worked on the Manhattan Project, and for his Promethean sins the next generation was punished." (Graeme Wood's review of Cormac McCarthy's two latest books—*The Passenger* and *Stella Maris*—in *The Atlantic*. Wood does not mention J. Robert Oppenheimer in his review, or that Oppenheimer's daughter committed suicide.)

♦ "Paine is the preeminent spokesman of a new class of people who are emerging at just that time. We used to call them the artisans, self-educated working men with a skill... They've taught themselves to read or they've become literate... And they develop political ambitions. And Paine is the perfect spokesman of this group of people who meet in taverns and coffeehouses and public squares to discuss self-improvement and the improvement of society. And that's why—it's Promethean, I suppose, is the word I'm looking for. It's the desire to share the fire, not just with the gods but with the whole of humanity, so everyone can warm themselves by the flame and see by it, too." ("Hitchens: How Paine's 'Rights' Changed the World," NPR, October 23, 2007. From the special series, "Books That Changed the World.")

♦ Mary Shelley's 1818 novel was titled *Frankenstein, or The Modern Prometheus*. Frankenstein was Victor Frankenstein, the young scientist who created the monster.)

♦ "At this point if you chained [Erling] Haaland to a rock he would just pick up the rock and score like before. Amazing." (The online commenter Kalista about the great Norwegian soccer player.)

uses they/them pronouns

Sam Brinton ~ (the Federal Government suitcase thief)

♦ "Before (roller) derby, I knew I was on the spectrum of queer and pansexual, but I didn't have the language or support until I met my derby mates who genuinely wanted to see me become my best self. My derby league was the first place I asked people to use they/them pronouns for me." (Lauren Macadaeg, who identifies as they/them.)

♦ "NPR's Juana Summers talks with author Jas Hammond about their book, *We Deserve Monuments*. It's a young adult love story and a family mystery that explores intergenerational trauma and racism." (NPR.)

♦ "If they don't have something lined up by Feb. 6, Tu faces having to leave the country." (NPR. "They" and Tu are one and the same person.)

♦ Entire books have been written in the gender neutral unnamed "you."

♦ "Would I know them [an actor], Tony says. / I think so, you say. / Tony only blinks back at you. / So, they say, is that what you were crying about. / Yeah. / Been there, your driver [Tony] adds... / The two of you lean over your noodles." ("Arrivals" by Bryan Washington, *The New Yorker*, July 11 & 18, 2022.)

♦ “In ‘Pastoral,’ you use the first person singular and plural as well as the second person...” (Tobias Carroll interviewing Jac Jemc about *False Bingo*. Her name is pronounced “Jack Jams.”)

♦ “In Hollywood, cats have pronouns and this one’s are they/them, making *Open Throat* the best book narrated by a genderqueer feline you’ll read this year.” (“Open Throat by Henry Hoke review—inside the mind of a queer mountain lion” by Rahul Raina, *The Guardian*, Fri 28 Jul 2023. “That voice—simultaneously innocent, world-weary, human alien, queer in all the senses of the word—is the book.”)

♦ “Boop / bop / beep. Seriously? This was the start of the end for me? A 20-year career, the blood, sweat and tears of fighting?” (Gina Carano, about being canceled for her political views. Gina was a MMA fighter before being noticed by Steven Soderbergh and cast in the lead of the 2011 film *Haywire*. Her next role was in *Fast & Furious 6*. Read “Gina Carano on Getting Sacked From Star Wars and Her Grudge Match With Disney” by Seth Abramovitch, *The Hollywood Reporter*, March 14, 2024. It’s an excellent article.)

♦ “I’ll take outraged fans for \$1,000.” (A commenter about “Jeopardy!” sparks outrage with ‘neopronouns’ question: never existed when ‘Alex Trebek was still alive’” by Jack Hobbs, *The New York Post*, Feb. 28, 2024. The clue read, “Xem, Xyrs, Xemself” and the correct answer was “What are pronouns.” “Neopronouns” is a Wikipedia entry.)

♦ “France has little patience for American culture-war staples such as genderless pronouns and bathrooms. Even the relatively modest, gender-neutral *iel* was forcefully dismissed by the first lady, Brigitte Macron: ‘Our language is beautiful. And two pronouns are enough,’ she has said, to practically no pushback at all.” (“The French Are In A Panic Over Le Wokisme” by Thomas Chatterton Williams, *The Atlantic*, March 2023. The title seems to contradict the quote.)

♦ “I absolutely support trans, but all these pronouns are an esthetic nightmare.” (Elon Musk.)

♦ “Pronouns in bio = opinion discarded” (Libs of TikTok)

♦ Screw Your Pronouns. (The name of an online commenter at the *New York Post*.)

♦ At the Quora site, years ago, Joan B wrote, “Mostly millennials, using glottal stops in place of ‘t’s. First time it caught my ear was Kate Hudson advertising her exercise-wear... Every younger HGTV host is redecorating their ‘t’s.”

♦ Wolf Blitzer of CNN was probably responsible for popularizing the pronunciation of “Qatar” as “CUT-er” during his coverage of the Gulf War. It would be the rare American who heard his pronunciation and could then point out “Qatar” on a map of the Arabian Peninsula.

♦ Tyler Adams, the USMNT captain, graciously apologized to an Iranian journalist for pronouncing Iran as EYE-RAN at the FIFA World Cup in Qatar, and it is to his great credit. (“USMNT captain Tyler Adams apologizes for mispronunciation of Iran; addresses issue of discrimination in the US” by Ben Morse and Wayne Sterling, CNN, November 28, 2022. Tonya Mosley of NPR’s Fresh Air pronounces it as eye-RAN and eye-RAIN-i-an.)

♦ March 2, 2024, a black day for pronunciation! Listen to “The *Palast Orchester* performs 1920s German Jazz music once banned by the Nazis,” NPR, Weekend Edition Saturday, March 2, 2024. The opera *Mahagonny* is not pronounced the same as the wood mahogany.)

♦ Britain; certain; Dayton; didn’t; hundred (hun-nert); important; Martin; mountains; not only; Peyton; pollutant; presented; Putin (with an exuberant explosive plosive whooping and glottal); put in; reportedly; threatened; Trenton (the New Jersey city); uncertain; uncertainty; united; what is; written... (Words pronounced with affected, exaggerated glottal stops by hosts or guests, all heard on NPR.)

♦ The BBC, and English people in general, tend to retain the anglicization of foreign names. A BBC news reader might pronounce

Cape Verde as “Cape Vurd.” To paraphrase Winston Churchill, “Do we really want NPR pronouncing Paris Patee?”

♦ “From Iceland, to Italy, to the Philippines, to Afghanistan, to CHEE-laay, to Indonesia...” (NPR’s Steve Inskip. Five out of six ain’t bad.)

♦ Recently, NPR had a segment on a man condemned to death in Saudi Arabia. Unfortunately, his name was incomprehensible to almost all native American English speakers due to Leila Fadel’s inability or unwillingness to pronounce the first sound of the man’s last name with an Anglicized hard “g,” properly stressed. What is gained by this? What if someone wanted to get more information about the man on the internet?

♦ More NPR. Scott Detrow introduced a woman, sounded like Jennifer *Vermasco*. Searching on Google, I wondered if the person might be Jennifer *Schmidt*. Then I checked the beginning of the transcript, and the name was recorded—incorrectly—as Jennifer *Francisco*. Search on Google led to more confusion. Finally, I checked further down the transcript, and found that the byline name was Jennifer *Vanasco*!

♦ “There is still much resistance to the use of the pinyin name Beijing for the current Chinese capital. Not only are very few outsiders able to pronounce the word accurately; its use also flies in the face of the more general use in English of ‘English’ names or pronunciations for distant cities or countries. Roma is called Rome, Deutschland is called Germany, Suomi is called Finland, and Zhongguo is called China. Many who accept this logic would like Peking returned to common currency, but doubt that it will ever happen.” (Footnote 47. From *The Man Who Loved China* by Simon Winchester.)

♦ “Ixopo The name of a village. Its Zulu pronunciation is difficult, and would be considered *affected* [italics mine] in English speech. It is pronounced in English, ‘Ickopo,’ with the ‘o’ as in ‘hole.’ (From the “List of Words” at the end of the 1987 edition of *Cry, the Beloved Country* by Alan Paton.)

♦ “Enough! I can’t stand it anymore!...Competitors are NOT taking part, Alex, in the fencin, rowin, boxin, kayakin, weightliftin & swimmin.” (Lord Digby Jones, in a tweet about Alex Scott—a woman—dropping her g’s during her Olympics commentary.)

♦ Off-ter (after); thot (that); pod-cost (podcast); osk (ask)... (The affected speech of podcaster Bobbi Althoff—a young woman—speaking to Rick Glassman.)

♦ “‘You can take the boy out of the Bronx,’ murmured one technician as the dubbing proceeded, ‘but you can’t take the Bronx out of the boy!’ In view of the critical notices Pacino’s Scottish/cockney-with-a-dash-of-the-Bronx accent was to receive, it was an auspicious remark.” (*Al Pacino: A Life On The Wire* by Andrew Yule, about the 1985 film *Revolution*, which was savaged by most critics.)

♦ “Just try to ignore Tony Curtis as a Roman slave with a Brooklyn accent...” (The 1960 film *Spartacus*.)

♦ “‘Wheel of Fortune’ player denied win after mispronouncing word: ‘Pat Sajak was cold-blooded’” by Samantha Ibrahim, Jan. 5, 2024. To solve the puzzle, the contestant had to read “Congenial company and clever conversation.” She pronounced “congenial” as “CON jun uhl.” Pat Sajak muttered something about “a coined word,” and another contestant read the word correctly. A rare case where pronunciation cost a person money.

♦ “Something I’ve always wondered is when I’m going to develop the affected-Black-intellectual voice,” Harris said that summer, still stuck in London. He was reflecting on some of his favorite writers and artists of an older generation, and the way that their talk was often as effortfully stylized as their work. He’d been thinking about Andre Leon Talley, the fashion writer and editor whose high diction and baroque syntax became hallmarks of his style—and seemed, moreover, like a way of asserting his belonging in a largely white milieu. / Talk of that voice—I knew what Harris meant without having to ask—got me thinking, perhaps slightly defensively, of my own. / ‘You have it a little bit,’ he said, confirming a fear I’d spoken aloud.” (“Outside Man: Jeremy O. Harris, before and after ‘Slave Play’” by Vinson Cunningham, *The New Yorker*, September 25, 2023. “Blacks talking white.” The crab-bucket syndrome. Concerns about “authenticity” in the era of hip-hop. Sad.)

♦ “Looking at it today, it may seem inauthentic for our Spanish-Jewish-Irish Catholic family to belt out lines from Jamaican folksongs.” (Scott Simon. From “Opinion: Harry Belafonte’s voice will live on,” NPR, Weekend Edition Saturday, April 29, 2023. It’s a wonderful tribute.)

♦ “I’d listen to him read the phone book!” (An admiring comment about the wonderful voice and diction of the great American actor James Earl Jones, who has dealt with a stutter his entire life.)

♦ "Bob was the best cold reader in the business, you could throw a Budapest phone book at him and he'd read it out with unwavering authority and enunciation that was proper without being stuffy." (Scott Simon's wonderful tribute to Bob Edwards. From "Scott Simon remembers Bob Edwards, the voice of NPR for 25 years, NPR, Weekend Edition Saturday, February 17, 2024.)

♦ These sorts of pronunciations have many possible explanations.

the overuse of ~ (men gaslighting women)

♦ “The likes of Jonah Hill—who was accused of misusing psychology vocab to ‘control’ his ex this weekend—have faced criticism for the overuse of ‘therapy speak,’ or ‘psychobabble,’ as a tool of manipulation rather than an expression of emotional vulnerability.” (“How ‘therapy speak’ is being weaponized amid Jonah Hill ‘boundaries’ scandal” by Brooke Kato, *New York Post*, July 11, 2023.)

♦ “To be sure, many observers, beginning with de Tocqueville, have remarked that Americans are singularly concerned with their individual well-being. Since the 1830s, when de Tocqueville visited America, the United States has been swept by a series of popular movements concerned with improving health variously through diet, exercise, moral purity, positive thinking, and religious faith. Today, were a revived de Tocqueville to observe Americans jogging in parks, shopping in health food stores, talking psychobabble, and reading endless guides to keeping fit, eating right, and staying healthy, he would probably conclude that, if anything, the obsession is now more pronounced.” (*The Social Transformation of American Medicine* by Paul Starr, winner of the 1984 Pulitzer Prize for general non-fiction.)

But within a week they got to the stage of being intrigued, because the new approach, they realized, might actually work.” (*Elon Musk* by Walter Isaacson. Clever writing!)

♦ “Years later, I have ptsd, I have panic attacks I go to therapy. Finally I’m ready to talk about it and finally heal.” (Gabby, about a sexual assault with a Golden Globe nominee.)

♦ “Lady Gaga reveals how she used her PTSD in new role,” BBC.

♦ “There was a mile-long list of lawsuits. Income went from some exorbitant amount to zero... You can go through all of these things without suffering PTSD.” (“Lance Armstrong says that he experienced PTSD and had intensive therapy” by George Ramsay, CNN, March 17, 2024.)

♦ “Yeah, I think I had a little bit of umm like a PTSD happening around being judged, around not being able to be marketed...” (The retired WNBA star Sue Bird talking to Fresh Air’s Terry Gross about publicly coming out as gay.)

♦ “Ford also discussed other psychological principles during the course of her questioning, including her experience with anxiety and post-traumatic stress disorder, which at points in her testimony she referred to by the scientific term *sequelae*, or after-effects of trauma.” (“Indelible in the Hippocampus Is the Laughter.’ The Science Behind Christine Blasey Ford’s Testimony” by Jamie Ducharme, *Time Magazine*, September 27, 2018. In 2024, Christine Blasey Ford was interviewed by Terry Gross about the former’s new book. Listen to “For Christine Blasey Ford, the fallout of the Kavanaugh hearing is ongoing” with Terry Gross, NPR, Fresh Air, March 19, 2024.)

♦ “The push to expand the trained workforce coincides with a growing understanding of trauma’s effect. The National Council for Behavioral Health, a nonprofit organization of mental health care providers, calls trauma a “near universal experience” for people with mental and behavioral health issues.” (“Not Just For Soldiers: Civilians With PTSD Struggle To Find Effective Therapy” by Caroline Covington, NPR, May 20, 2019.)

♦ “Post-traumatic *growth* [italics mine] refers to positive changes that can happen after a life-shattering event occurs, according to Richard

Tedeschi, a clinical psychologist with the Boulder Crest Foundation, an organization that offers recovery programs for combat veterans, first responders, and their families." ("What Doesn't Kill You Might Actually Make You Stronger" by Emily Sohn, *Outside Magazine*, 04/05/21.)

♦ When a term includes everyone, it means nothing.

*** other cultures, countries

♦ "Every culture possesses what Edward Shorter, a medical historian at the University of Toronto, calls a 'symptom repertoire'—a range of physical symptoms available to the unconscious mind for the physical expression of psychological conflict.' In parts of India, patients are said to suffer from dhat syndrome: they complain of impotence and have the delusion that they are losing their semen. In Nigeria, students who can't retain information and report feeling a burning sensation in their heads are sometimes given a diagnosis of 'brain fog.' The illnesses are reinforced by a local belief that the symptoms are a sign of authentic suffering, worthy of expert attention and care." ("The Apathetic: Why are refugee children falling unconscious?" by Rachel Aviv, *The New Yorker*, April 3, 2017.)

♦ Zar: Spirit possession (Middle East); amok: an episode of murderous rage followed by amnesia (Southeast Asia); koro: the feeling that the genitals are retracting into the body (Southeast Asia); tsog tsuam (sleep paralysis / Hmong in the US); Digeunton (pressed on / Indonesia); Bei gui ya (held by a ghost / China); Boszorkany-nyomas (witches' pressure / Hungary); the Old Hag and ag rog (hag ridden / Newfoundland) ... (Illnesses associated with particular cultures.)

*** the military

♦ Shell shock (WW I), combat fatigue (WW II), operational exhaustion (Korea), PTSD (Vietnam)... (The military.)

♦ "One agency that seized upon Freeman's work was the Veterans Administration. Faced with an influx of shell-shocked World War II GIs that flooded its mental wards, the VA issued a directive in 1943 requesting its neurosurgeons to study and use the Freeman and Watts lobotomy technique. By 1951, nearly 3,000 lobotomies had been performed at VA hospitals, according to agency records." ("D.C. Neurosurgeon Pioneered 'Operation Icepick' Technique" by Glenn Frankel, the *Washington Post*, April 7, 1980.)

♦ Case B2.—DEAF-MUTISM / PRIVATE, 35 YEARS OF AGE. DURATION, 26 MONTHS/ A shell explosion in France resulted in this patient being buried to the neck. He could not remember anything until he arrived in England a few weeks later. While in a London hospital he made several attempts at escaping and was successful on one occasion. Previous to his admission to the National Hospital he had been given strong faradic shocks; tuning forks had been applied to the head; and sudden noises and hypnotism had also been tried, but all without any result whatever. He was dull, depressed, discouraged and suspicious, and in a tremulous condition." (*Hysterical Disorders of Warfare* by Lewis Ralph Yealland, M.D., Resident Medical Officer, National Hospital for the Paralyzed and Epileptic, Queen Square, London, with preface by E. ♦ From Hindi *pandit*, "a learned man or scholar."

♦ In a very nice opinion piece, Scott Simon of NPR rightly characterizes this word as a buzzword. ("Politics, Pundits And The Problem With The Word 'Pivot,'" NPR, Weekend Edition Saturday, June 11, 2016.)

♦ "But what do we know about what that actually means now he actually owns the company? Do we know anything about how he..." / "Yeah, I mean he says he thinks..." (NPR punditry.)

♦ "How much do these 'pundits' get paid for spouting all these cliches and stating the obvious?" / "Well, all the pundits are saying either Brazil or Argentina, so it's obviously going to be either Belgium or the Netherlands." / "I don't need the pundits, build up, half time twaddle or the inarticulate trip over their words, the Aitches and 'he wot done it, like' phrasing—they don't add value, they detract." / "We only need a few pundits, preferably that can speak good English with proper grammar." / "Oh yeah and don't forget the Alex Scott sob story sympathisers..." (Commenters about the BBC commentators at the Qatar World Cup.)

♦ It would be better perhaps if pundits and commentators had term limits: perhaps one time on air only would be best.

He said that since it was impossible to tell whether a man was a virgin, women should have the same option." (Egypt's grand mufti, Sheik Ali Gomaa, "A Compass That Can Clash With Modern Life," by Michael Slackman, *NYT*, June 12, 2007.)

♦ "Virginity is a very real issue for Egyptian women, as illustrated in the popular film 'The Wedding.' It tells the story of Abdullah and Gamila, a young couple who signed their marriage contracts years ago but couldn't

afford the marriage ceremony that would, by tradition, allow the union to be consummated. But the couple has been having sex all along... ("Artificial Virginity Device Sparks Backlash In Egypt," by Peter Kenyon, NPR, Oct. 13, 2009.)

♦ "If they think they can get a pure-hearted girl this way they are really mistaken. To me, the way people are taking virginity as a commodity these days is such a sad thing." (A Chinese woman, on the practice of very rich Chinese businessmen advertising for virgin brides, and then interviewing them.)

♦ "She can be in danger because sometimes it's a matter of traditions and family. I believe we as doctors have no right to decide for her or judge her." (An Arab doctor in Paris who performs hymenoplasty two or three times a week. The operation takes about 30 minutes under local anesthetic and costs 2,000 euros.)

♦ "The editor of Morocco's Al-Ahdath Al-Maghribia daily newspaper, Moktar el-Ghzioui, is living in fear for his life after he expressed support for pre-marital sex during a local television debate. / 'The next thing there was a cleric from Oujda releasing a fatwa that I should die,' he says. / According to article 490 of the penal code, Moroccans can be jailed for having sexual relations outside marriage. / This is based on Islamic law, which bans unmarried people from engaging in sexual activity... / A sociologist at the University of Mohammed V, Abdessamad Dialmy, argues that article 490 needs to be removed because human beings have the right to sex. / He says more and more unmarried couples are having sex because they are getting married much later... / Imam Hassan Ait Belaid who preaches at a mosque in the commercial capital Casablanca says article 490 is part of the culture of a non-Western society. / 'If the code is removed, we will become wild savages. Our society will become a disaster,' he says." ("Morocco: Should pre-marital sex be legal?" by Nora Fakim, BBC, 8 August 2012.)

When is saying dick serving the accuracy of someone's experience, versus being crass for the sake of being crass? / I err on the side of saying 'dick' as much as you want, because it's funny, and it's just how people talk. ♦ [Note: The linguist John McWhorter talks about the word “minority.” But his insight seems to apply to words like “queer” and “gay” and “straight” and many other words in English] “*Minority* in American English has taken on, via implications, a meaning quite far from what the word originally referred to... Word meanings drift as always, this time from referring to a proportion to referring to dark-complected people. ‘He’s a minority’—imagine how queerly illogical that sentence would sound to someone transported to our times from 1600. ‘A minority of what?’” (*Words on the Move* by the linguist John McWhorter, Chapter 2, “It’s the Implication That Matters: Words on the Move.”)

scare quotes

our culture is skeptical of “greatness” (~ mandatory)

- ◆ “She was not in the quote unquote conversation.” (*New Yorker* writer Michael Schulman about the actor Andrea Riseborough and the 2023 Oscars.)
- ◆ Contemporary clichés—like *mindful*—sometimes appear in quotes, for the very good reason it is often hard to understand what the original user means.
- ◆ As one writer had a character say, “Much of life should have quotes around it.” (Frank’s ‘love’ for Betty Tran...)
- ◆ “[Lana] Del Rey, born Elizabeth Grant in New York, weathered a now-incomprehensible controversy about ‘authenticity’ (a word that, to paraphrase Nabokov, should only ever be in quotes) upon the 2011 release of her swooning, doomy single ‘Video Games.’” (“In Their Feelings: The indelible, indomitable voices of Miley Cyrus and Lana Del Rey” by James Parker, *The Atlantic*, April, 2023. Notice that *authenticity* is in quotes. James Parker is *not* George Packer.)
- ◆ “Use the modifiers anti-abortion or abortion-rights; don’t use pro-life pro-choice or pro-abortion unless they are in quotes or proper names. Avoid the term abortionist, which connotes a person who performs clandestine abortions.” (The Associated Press style book.)
- ◆ “Hawaii’s ‘overtourism’ becomes growing debate.” (ABC News. Notice that *overtourism* is in quotes.)
- ◆ “Maybe we all need some ‘sensitivity’ training.” (Notice that *sensitivity* is in quotes.)
- ◆ The term is coopted (and perhaps modified) by others groups. “Black lives matter” becomes “Blue lives matter,” “All lives matter,” “Black Dykes Matter,” etc. “Homophobia” becomes “hot phobia.” “Ghosting” becomes “zombie.” Doing anything “while black” morphs to NPR’s Selena Simmons-Duffin’s “Talking while Female.” The term is picked up by corporate advertisers, looking to appeal to specific groups and make profits. The term is used by aging news anchors, dowager readers, and ancient pundits. The term is used by politicians. The term is repeated from the pulpit. (Dialects are a major way everyone from corporations and pastors and military leaders and the like reach target demographics.) In the media, the term might be used first with quotes, but later the quotes will be dropped. The term begins to occur in the captions of cartoons: a real estate agent showing an apartment to a hip young couple says, “The refrigerator isn’t just smart, it’s woke!” (*The New Yorker*.) Finally, the term becomes a porn category: “Lesbian ASMR,” etc.... (The stages of linguistic cooption that weaves a cliché into the fabric of society.)
- ◆ A FUNNY CARTOON. Three yuccie types are sitting at a table in some trendy “space.” The unattractive but intense black-haired woman is saying, “O.K., so ‘maybe’ I don’t ‘understand’ how air quotes ‘work.’” Of course, she is making air quotes as she speaks, with fingers like claws. From *The New Yorker*, June 5, 2023. You can just hear her overenunciating. Funny! The cartoon is signed Slaut.

♦ Calpurnia: Scout, Jem, come on inside. Come on, come on! (Inside, on the phone.) Mr. Finch, this is Cal. I swear to God there’s a mad dog down the street a piece. He’s coming this way! (From the beloved film of *To Kill a Mockingbird* starring Gregory Peck. In a very dramatic scene, Mr. Finch shoots the mad dog and Jem learns something about his father that he hadn’t known.)

♦ “And then a cousin died. This was the first death in our joint family, and it left me desolate. I was about seven years old... / This is the story she told on her return, and it is permanently etched in my head: It was the afternoon of a very hot day, and most of the household in Delhi were napping. She was sitting alone on the long front veranda when she noticed a stray dog with a strange gait meandering down the front drive. The next thing she remembers is hearing screaming and sounds of a struggle. She ran through the opening in the henna hedge into the south courtyard. There, in front of the bedroom of my middle uncle, Shibbudada, was the dog, growling, frothing at the mouth, and clutching Brijesh’s hand. She tried to shake the hand free, but the dog’s teeth were firmly embedded around Brijesh’s thumb, so it took a while. In the meantime, she yelled for help, but not before getting a lot of blood on herself as well. Family and servants came running, and the dog was ultimately captured for examination in case it had rabies. / Lalit and my father left for Kanpur. It was in Kanpur that we got the call from Delhi saying that the dog did have rabies, that Brijesh was getting his rabies injections, and that Lalit should get them, too. / Lalit got her shot at the hospital on the way to school. I would go in with her. She would have to lie down and expose her stomach. The biggest, thickest needle would be poked slowly right into her soft belly. The medicine went in slowly, too. Her face expressed her agony, but she did not make a sound. I wanted to cry for her but did not dare. It seemed to take forever. I would think of Brijesh, too. He was so much younger. The same would be happening to him. / [L]ater, we learned that Brijesh had rabies and that he was in a hospital. The injections had not worked for him. It happened sometimes, they said. We got daily reports from Delhi. It was an agonizing death, they said, complete with hydrophobia and all the havoc that rabies wreaks. He cried for water but could not swallow a single drop.” (*Climbing The Mango Trees: A Memoir Of A Childhood In India* by Madhur Jaffrey. A wonderful remembrance of India by a wonderful writer.)

♦ “On a day in October in 1831, a nine-year-old boy ran frightened away from the edge of a crowd that blocked the door of the blacksmith shop of a village in the mountains of eastern France. Above the awed excited whispers of the people at the door this boy had heard the crackling “s-s-s-z” of a white hot iron on human flesh, and this terrifying sizzling had been followed by a groan of pain. The victim was the farmer Nicole. He had just been mangled by a mad wolf that charged howling, jaws dripping poison foam, through the streets of the village. The boy who ran away was Louis Pasteur, son of a tanner of Arbois and great-grandson of a serf of the Count of Udressier... (*Microbe Hunters* by Paul De Kruif. ♦ “A Norwegian woman has died after contracting rabies from a stray puppy in the Philippines. / Brigitte Kallestad, 24, was on holiday with her friends when they found the puppy on a street, her family said in a statement. / The puppy is thought to have infected her when it bit her after they took it back to their resort. / She fell ill soon after returning to Norway, and died on Monday at the hospital where she worked. / It was the first rabies-related death in Norway for more than 200 years. / Her family are calling on Norway to make rabies vaccinations compulsory for citizens traveling to the Philippines.” (“Norwegian woman dies from rabies after Philippines puppy bite,” BBC, 10 May 2019.)

♦ “Cindy Marabito runs a pit bull rescue out of her home in Austin, Texas... [She] is one of many pet owners with canine vaccine hesitancy. ♦ A relatively recent trope about racism in the US is the idea of “weathering.” That’s the idea that racism “weathers” people, affecting their health, etc., in ways that are not equitable. Black Americans “live sicker and die quicker.” Arline Geronimus of the University of Michigan coined the term for chronic stress.)

♦ “She doesn’t have the complexion for protection.” (Black criticism of media coverage of victims of crime.)

♦ John McWhorter’s article, titled “The Dictionary Definition of Racism Has to Change” (*The Atlantic*, June 22, 2020), is interesting. In it he says we need a “3.0 definition of racism based on “sociopolitics” and “a usage...that one often acquires in college classes in the social sciences.” This raises at least three points. (1) There is absolutely nothing in a dictionary that prevents McWhorter or anyone else from expressing ideas about racism; his use of the combining form “socio” with “politics” to coin “sociopolitics” proves it. My computer spellchecker marks “sociopolitics” as an error. “Sociopolitics” is not recognized by Merriam-Webster or the online Oxford Learner’s Dictionaries. If you type “sociopolitics” into search at Wikipedia, you are directed to a long article at “Political sociology.” (2) If such a 3.0 definition is included at Merriam-Webster as a new sense, it should be identified as “aggrieved group,” just as lexicographers tag certain words or senses as “biology,” “archaic,” “colloquial,” “substandard,” “slang,” etc. (3) No person interested in words has failed to note that all the dictionary publishers seem to be in

competition to add contemporary, trendy, and often controversial updated senses to new words; the attendant publicity is simply good business.

This was a terrible error and we apologise to Mr. Kwarteng and all our readers. The *Mirror* has a long history of working against racism and we will redouble our efforts on this.” Did the *Mirror* commit an act of racism or was it just a mistake, quickly corrected? You be the judge.)

♦ “Recently, Google processed images of a trio of happy young African Americans and its automatic photo-tagging service labeled them as gorillas. The company apologized profusely, but in systems like Google’s, errors are inevitable. It was most likely faulty machine learning (and probably not a racist running loose in the Googleplex) that led the computer to confuse Homo sapiens with our close cousin, the gorilla. The software itself had flipped through billions of images of primates and had made its own distinctions. It focused on everything from shades of color to the distance between eyes and the shape of the ear. Apparently, though, it wasn’t thoroughly tested before being released.” (*Weapons of Math Destruction* by the remarkable Cathy O’Neil.)

♦ Rainbows occur when it is raining while the sun is shining. To see a rainbow, turn your back to the sun. Look at your shadow on the ground. From the shadow of your head (the antisolar point), measure 42 degrees upwards, or about four fist widths with your arm held straight out in front of you, as if you were holding a stick in your fist vertically. There you may see the top of the rainbow. The sun must be less than 42 degrees above the horizon, so that you will never see a rainbow at noon on a summer day in the US, when the sun is high in the sky. At 51 degrees, you may see a second rainbow above the primary rainbow.

◆ “Not only did the Belgian baby whose hands had been cut off by the Germans travel through the towns and villages of Great Britain, but it went through Western Europe and America... Everyone wanted to believe the story, and many went so far as to say they had seen the baby... / [*The Times* Correspondent in Paris reported in an article of August 27, 1914 that] ‘One man whom I did not see told an official of the Catholic Society that he had seen with his own eyes German soldiery chop off the arms of a baby which clung to its mother’s skirts.’ / On September 2, 1914, *The Times* Correspondent quotes French refugees

declaring: ‘They cut the hands off the little boys so that there shall be no more soldiers for France.’ / Babies not only had their hands cut off, but they were impaled on bayonets, and in one case nailed to a door. But everyone will remember the handless Belgian baby. It was loudly spoken of in buses and other public places, had been seen in a hospital, was now in the next parish, etc., and it was paraded, not as an isolated instance of an atrocity, but as a typical instance of a common practice. / In Parliament there was the usual evasion, which suggested the story was true, although the only evidence given was ‘seen by witnesses.’ / But the most harrowing and artistically dressed version of the handless child story appeared in the *Sunday Chronicle* on May 2, 1915. / ‘Some days ago a charitable great lady was visiting a building in Paris where have been housed for several months a number of Belgian refugees. During her visit she noticed a child, a girl of ten, who, though the room was hot rather than otherwise, kept her hands in a pitiful little worn muff. Suddenly the child said to the mother: ‘Mamma, please blow my nose for me.’ / ‘Shocking,’ said the charitable lady, half-laughing, half-severe, ‘A big girl like you, who can’t use her own handkerchief.’ / The child said nothing, and the mother spoke in a dull, matter-of-fact tone. ‘She has not any hands now, ma’am,’ she said. The grand dame looked, shuddered, understood. ‘Can it be,’ she said, ‘that the Germans--?’ The mother burst into tears. That was her answer.’ / Signor Nitti, who was Italian Prime Minister during the war, states in his memoirs: / ‘To bring the truth of the present European crisis home to the world it is necessary to destroy again and again the vicious legends created by war propaganda. During the war France, in common with other Allies, including our own Government in Italy, circulated the most absurd inventions to arouse the fighting spirit of our people. The cruelties attributed to the Germans were such as to curdle our blood. We heard the story of poor little Belgian children whose hands were cut off by the Huns... Mr. Lloyd George and myself, when at the head of the Italian Government, carried on extensive investigations as to the truth of these horrible accusations, some of which, at least, were told specifically as to names and places. ◆ Joanna Kakissis: [They] were looking for Inna’s 8-year-old daughter, Ulya. [Translator: She’s very fond of her. She’s very smiley. She’s a blond-haired girl, so positive.] So the bodies of Ulya’s grandmother and father had already been found burned so badly that Oksana said that they looked like coal. As she kept holding out hope that Ulya would somehow be found alive. But when we called her last night, she told us Ulya was dead and that her mother recognized the little earrings and necklace on Ulya’s body. / Scott Simon [Emotional]: Oh, my. Bless them all... ◆ I overtook him, I hit him with a rifle. And he fell down. And I was going to bayonet ‘em when he start [pauses to gather himself]... he started calling for his mother. He started going, “Mommy, Mommy, Mommy.” I says, uh [in a hard voice] “Why are you calling for your mother?” He says, “I don’t want to die.” He says, “I want my mommy.” I said, “All right, I’ll tell you what, I’m gonna make it look like I stabbed ya. [In a firm, clear voice.] Pretend you’re dead... when I move away from you.” “Okay,” he

said, "Okay." [Sighing, in a firm voice.] I did it. (Private First Class Ralph Martire—pronounced MAR-tire—after the siege of Bastogne was lifted. The German soldier was a teenage boy. From Oral History Interview with Ralph Martire recorded 2010 Mar. 27, Central Connecticut State University Digital Collections / Veterans History Project.)

♦ "The question is why. Why did these men fail to fire? As I examined this question and studied the process of killing in combat from the standpoints of a historian, a psychologist, and a soldier, I began to realize that there was one major factor that was missing from the common understanding of killing in combat, a factor that answers this question and more. The missing factor is the simple and demonstrable fact that there is within most men an intense resistance to killing their fellow man. A resistance so strong that, in many circumstances, soldiers on the battlefield will die before they can overcome it." (*On Killing* by Lt. Col. Dave Grossman.)

*** analysis

♦ Linguist John McWhorter's analysis of "really" is interesting, as always. *Really* is "fundamentally emotional" and "personal." He says, "*Really* conveys a hand-on-the-heart testament." "*Really* is about your gut feelings in a way that *very* is much less so." In his FACE typology of MPMs (modal pragmatic markers), he considers it to represent "Factuality: For Real." (*Words on the Move* by the linguist John

McWhorter, Chapter 1, "The Faces of English: Words Get Personal," subsection "Factuality: For Real.")

♦ The linguist John McWhorter does not specifically mention "really" being doubled up. But he has a wonderful discussion of exclamation points that perhaps applies. "It is often remarked that people are now using multiple exclamation points in texting, social media, and casual writing... The reason for the proliferation? The potency of the single exclamation point has faded over time..." (*Words on the Move* by John McWhorter, Chapter 3, "When Words Stop Being Words: Where Does Grammar Come From?") subsection "The Signal Fades." It appears that words, letters, punctuation marks, and emojis can all proliferate. "Wayyyyy too blessed for that," etc.)

♦ The rearguard action of a group of British soldiers at the village of Khig, following the British disaster in the Battle of Maiwand (27 July 1880) during the Second Anglo-Afghan War, was one of the most courageous last stands in military history. It helped allow the bulk of the British troops to safely withdraw to Kandahar. The only survivor of the last stand was Bobbie, a terrier attached to the Berkshires, who made it all the way back to England. Bobbie visited Queen Victoria, who awarded him with a medal. No doubt he got treats, too.

♦ 1850-1864. The Taiping Rebellion. Led by Hong Xiuquan, who believed he was Jesus' younger brother. A rebellion against the Qing ("Ching") dynasty and its Manchu elite. Ultimately 20-30 million died, most from plague and famine. Sixteen of 18 provinces were affected and at least 600 cities destroyed. It was during this same time period that the *Susquehanna* bore the U.S. flag up the Yangtze to Wuhu (1854), and the side-wheeler *Saginaw* steamed into Tung Ting Lake, 700 miles from that river's mouth (1861). If the *Saginaw* had been a Chinese warship on the Mississippi River, it would have reached the vicinity of Memphis, Tennessee. And it was also during this time that the British and French forced the Second Opium War upon China (1856-1860). / Amazingly,

when the rebels tried to take Shanghai in 1860, they were repulsed by a Qing army led and supported by European officers that included Charles George Gordon (Chinese Gordon, Pasha Gordon, Gordon of Khartoum). Frederick Townsend Ward also assisted, a US sailor and soldier of fortune. / The Third Battle of Nanking (Nanjing) in 1864, which ended the Taiping Rebellion, was perhaps the bloodiest battle up to that point in human history. In three days, over 100,000 died. The rebels fought to their deaths or committed suicide rather than be captured. / The Qing Dynasty would last into the 20th century, but essentially the rebellion finished them off. One result of the rebellion was that it made the dynasty realize that it had to Westernize and modernize its military. This is but a part of China's long history that shapes Chinese attitudes to the West to this very day.

we ~, and not just in gender and race, but in...

make too much of 'representation'

I sometimes think we ~ (actor Nina Sosanya)

♦ "For me, it's a catalyst to go harder. It's a catalyst for the next door that I walk into to create a space where we can combine this scholarship and this culture to have more Black girls dominating these academic spaces." (Emani Stanton, 17. At *People*, "Black Female Duo Wins Harvard Debate Competition" by Rachel DeSantis, July 21, 2021.)

♦ “You see a fierceness that’s coming from the girls that are coming up now, that’s because we understand we ain’t got nuttin to lose. I already done lost that job, I already done lost that job.” (Angelica Ross, about Trans representation in media / entertainment. According to her Wikipedia entry, “Her breakthrough role came in 2018, as Candy Ferocity in Rya Murphy’s FX drama series *Pose*.”)

♦ “Barbie knows that representation matters and is committed to continuing to increase diversity across collections, so that more people can see themselves reflected.” (The trans Barbie doll, a Barbie doll with a prosthetic limb, the Ken doll with vitiligo, etc.)

♦ “We don’t have enough representation of people that look like me as non-binary... that are outside the white androgyny.” (Self-described as fat, Black, and non-binary. Dating...)

♦ “I think it had a lot to do with me being a Black woman, period. And having seen how historically, you know, if our stories, you know, have been presented to the world, oftentimes they’re misrepresented or they’re not represented in their fullness or there’s just like a sliver of us being presented. And so, I just felt like this is huge responsibility to not only show, like her—I would say ginormous levels of strength and resilience—but also to provide an audience like a window into the vulnerability.” (Katori Hall speaking about the great American-born Tina Turner, birth name Anna Mae Bullock, a Swiss citizen since 2013.)

♦ “We’ve been silenced and misrepresented. And so, any time you get an opportunity to tell your truth, you are pushing back against so many lies and falsehoods...And being an artist and in demanding that the world just looks at you, you oddly are being an activist.” (Katori Hall.)

♦ “We demanded representation, and not just in gender and race, but in perspective, values and experience.” (Rashad Robinson, president of Color of Change, about Ketanji Brown’s confirmation to the Supreme Court.)

♦ “At issue, is the question of who controls the non-fiction stories told on PBS and which stories—or filmmakers—get the most financial support.” (PBS And Ken Burns Vow To Do Better On Diversity But Critics Aren’t Convinced,” Eric Deggans, NPR, Television, August 12, 2021.)

♦ “It is really important to remember that we have very limited representation and presence isn’t the same thing as representation centered around the Black American person the Black American community and it does not take into account constantly the white gaze.” (Bethany C. Morrow, author of *So Many Beginnings: A Little Women Remix*, speaking with Lulu Garcia-Navarro on NPR.)

♦ “A lot of the festivals that we have, now, overlook hip-hop, they do. I mean, if you look at [?], there’s not enough hip-hop, uh, representation, if you look at Coachella, there’s not enough hip-hop representation, Firefly, any of those festivals, there’s not enough hip-hop representation.” (“Why hip-hop festival Rolling Loud seems to be a hotbed for arrests,” NPR, All Things Considered, Monday, Nov 1, 2021.)

♦ “It’s an issue of representation. It’s an issue of whether or not you can envision yourself doing something else other than playing this sport of football or maybe basketball.” (Professor Kevin Blackstone of the University of Maryland. From “Why playing football appeals to families in spite of danger,” NPR, All Things Considered, February 8, 2024. “An investigation by University of Maryland journalism students looks at why Black families are drawn to football, despite knowing the risks of injuries.” At some universities, Blacks make up just three percent of the student population but fifty to sixty percent of the football team.)

♦ “Once they’re finished, the outdoors will be a more inclusive place, according to their GoFundMe page.” (“A mountaineering group is aiming to be the 1st all-Black team to climb Mount Everest” by Sharon Pruitt-Young, NPR, October 9, 2021.)

♦ “There is a lack of representation of Black people in mountaineering and in high-altitude mountaineering.” (Philip Henderson, leader of the Team Full Circle Everest, an American / Kenyan group, in 2022. Ten Black climbers had, in fact, previously accomplished the feat.)

♦ “I’m no climber, but as a non-binary backpacker and general outdoors lover it was hugely affirming and so wonderful to see a non-binary person being portrayed in such a humanized and beautiful way through their love of climbing.” (Kera Leslie, commenting about *They/Them: One Climber’s Story*.)

♦ “It’s an exciting time right now for representation.” (The writer Tommy Orange.)

♦ “For a while, I have felt like a pawn in this hollow representation game. Because what the hell does Disney’s ‘Coco’ do for Mexican children? Bob Iger gets richer. That’s the climax.” (“Extraordinary Alien: The

otherworldly comedy of Julio Torres” by Michael Schulman, *The New Yorker*, December 28, 2020.)

♦ She remains thrilled by the unusually wide demographic appeal of the series (*Last Tango in Halifax*). Might this be due to its subject matter being love and families, which most people have some experience of? ‘Yes. Even if the characters didn’t look like them. I sometimes think we make too much of ‘representation’. You don’t necessarily need to see yourself on a screen for it to be interesting. For me, ideally ‘diversity’ would mean white audiences watching black shows and the other way round.” (The actor Nina Sosanya. From “Nina Sosanya: ‘I was always a minority—even in my own family’ by Mark Lawson, *The Guardian*, 11 July 2016.)

♦ “[My father said to me] ‘Listen son, people like us don’t do things like that...son, I just don’t want you to talk about it anymore...’” (“British Actor Terence Stamp Reflects on London in the Swinging ‘60s,” NPR, Fresh Air, Nov 5, 2021. Originally broadcast in 2002. About what his father had said, Stamp said, “In fact, it didn’t deter me at all.”)

♦ “Representation, diversity, inclusion, words that pervade the world we live in.” (If you live online.)

(Francine Wheeler, in a letter published in *The New York Times Magazine*, May 14, 2023. Her son, Ben, was murdered at the Sandy Hook Elementary School shooting.)

♦ "They can [go to the police]. Always can. But in a lot of cases, it's the victims who don't want that. They see the criminal justice system as more grueling and potentially re-traumatizing. And not only is it harder to go through, but it's also harder to win in court where, you know, a case has to be proven beyond a reasonable doubt. On campus, the standard of proof is much lower. The government says it should be a preponderance of the evidence, which means, basically, just that something was more likely to have happened than not." ♦ "Two roads diverged in a yellow wood, / And sorry I could not travel both / And be one traveler..." ("The Road Not Taken" by Robert Frost.)

♦ "Finally, sometimes metaphoric mappings are so conventional that they force themselves on readers or listeners even without any overt specification of mappings. In such a case, the author can afford the apparent luxury of underspecification, exactly because it is only apparent. We cannot really call these minimalist—they don't give the reader any special sense of discovery or active participation in the reading. An example is Robert Frost's 'The Road not taken' which says, 'Two roads diverged in a yellow wood / and sorry I could not travel both... I took the one less traveled by / and that has made all the difference.' Despite Frost's own insistence that this poem was about actual choices of paths during country walks (poking fun at a friend who treated these choices too seriously), generations of readers have consistently and automatically understood it as being about LIFE AS A JOURNEY (within which LIFE CHOICES ARE CROSSROADS). This makes us realize that mappings which are not explicitly labeled may or may not be genuinely left open to the reader." (*Figurative Language* by Barbara Dancygier and Eve Sweetser.)

(An interesting NPR exchange. The older Inskeep seeks to "translate" the younger person's metaphor. But does he succeed? From "Taylor Swift breaks a record and sweeps Billboard's top ten spots," NPR, Morning Edition, November 1, 2022.)

♦ "Two Swedish tourists headed for the Italian resort of Capri misspelled the name in the GPS device and ended up in the industrial town of Carpi, 400 miles away, where they were very puzzled by the absence of a beach." (*The Week*, August 7, 2009.)

♦ "Triple A suggested that drivers who use GPS still carry a good old-fashioned map."

He had been on the Island four Years and four Months... His name was Alexander Selkirk a Scotch Man..." (*A Cruising Voyage round the World* by Woodes Rogers.)

♦ In *The Last Place on Earth*, Roland Huntford tells the tragic story of Hjalmar Johansen. After surviving the "Robinson Crusoe winter" with Nansen in the Arctic, he took to drink, separated from his wife and children, resigned from the army, went bankrupt, and became destitute. Nansen, wishing to help his old companion who had saved his life, convinced Amundsen to take Johansen on his expedition, which Amundsen did, against his better judgement. In Antarctica, Johansen rubbed Amundsen the wrong way. The result was that Johansen was left out of the party that went to the South Pole. Back home, Johansen resumed drinking and ended up committing suicide. He was a man who withstood and overcame harshest nature, but not society.

♦ "At eleven, they saw St. Alban's Head, a mile and a half to the leeward, upon which they took in sail immediately, and let go the small bower anchor, which brought up the ship at a whole cable, and she rode for about an hour, and then drove. They now let go the sheet anchor, and wore away a whole cable; the ship rode about two hours longer when she drove again. / In this situation the captain sent for Mr. Meriton, the

chief officer, and asked his opinion concerning the probability of saving their lives. He replied with equal candor and calmness, that he apprehended there was very little hope, as they were then driving fast on shore, and might expect every moment to strike." (The *Halsewell* went on the rocks near Seacombe, on the Isle of Purbeck (a peninsula), South Dorset, in 1786. Rescuers on the cliff above managed to pull seventy-four to safety. ♦ “The brilliant victory won by Nelson in the Bay of Aboukir imprisoned the army of France amid the arid sands of Egypt; but, nevertheless, Napoleon led it in 1799 across the desert to Palestine. He took Jaffa by storm, and laid siege to Acre, where, as related, he was repulsed by the British and Turks under Sir Sidney Smith. Subsequent to this, alarming news from France caused him to hurry home and leave his troops in Egypt, when they began to lose heart, about the time our great expedition to that country was projected, with the purpose of driving them out of it.” (*British Battles on Land and Sea* by James Grant. run out (of town on a rail, etc.)

run out of town
he survived but was ~ (Black newspaper editor)

♦ In the old days, a person might have been run out of town on a rail, after having been tarred and feathered.

♦ "The sheriff should have come with troops and cannon... Simms tells it all: '...sharing with their husbands the belief that they were the objects of oppression...they took the sheriff...and dealt with him according to his deserts... He was knocked down by a blow from the magistrate (Magdalene Zeh), and inducted into various places in that young village where the sow delighted to wallow. After receiving many indignities in the neighborhood of Weisersdorf, some of which he was conscious of receiving, and some not, he was placed upon a rail and rode skimmington through most of the settlements.' After a trip of some six or seven miles on the rail, Sheriff Adams was finally deposited on a log bridge on the road to Albany. Magdalene 'then seized a stake which she carelessly laid over his person, until two of his ribs made four, and his organs of vision diminished by one half.' After a final, and unmentionable, indignity, 'she called off her compatriots, leaving him for dead.'" (*The Mohawk* by Codman Hislop. His wonderful book is about the river in New York State.)

♦ “The fear of starvation is always hanging over the Indian peasant... / To an American it seems strange that under such distress these villagers never used their cows for food when it was inevitable that the animals would perish from lack of fodder. Only once on our trip did we hear—and then only in scandalized whispers—of a village that was actually ‘eating its cows.’ For a Hindu farmer to do away with a starving cow, even to put that beloved beast out of its misery, is as unthinkable as for him to slaughter it to feed his starving and equally beloved children. / Such prohibitions as these—too fantastic to seem credible to a Westerner—appear to separate the Indian from the American farmer by a distance greater than the curve of the world that divides them. And yet the problem of getting food out of the land has similarities which reach around the globe...” (*Halfway to Freedom* by Margaret Bourke-White.)

Harrison was addressing ninth graders.)

♦ "Recently there's been more visibility in the trans community. But being the person that's creating that visibility or that representation can also be really painful. The truth is that every day I experience violence of some kind that makes me feel like it's not safe to be in my body, and not safe to be visible." (Lor Sabourin, a non-binary rock climber.)

♦ "Been getting a lot of 'why are they placing her body like that in those ads?' Well, I direct the ads. I place myself like that. And it's because of the thousands of unwelcome comments I receive about my body. You've lost the privilege of looking at it until I feel safe again." (A tweet from Milana Vayntrub, AT&T commercial actress.)

♦ "The assertions are strident, and the vocabulary is esoteric ('harm,' 'insurrection') as if it were translated from a foreign language. In a sense, it is. The language is legalese, and it is designed to build a foundation upon which a company can be held liable under civil-rights law in an American court. This activist tactic has been widely misunderstood... The word 'safe' is carefully chosen. It gestures at certain specific kinds of negligence for which a university could pay dearly in a court of law." ♦ According to William Safire's book, *Lend Me Your Ears: Great Speeches in History*, this term was first used in the Sino-Japanese war during the 1930s. From his introduction to "Stalin Commands the Soviet Peoples to Scorch the Earth Being Taken by Hitler's Troops.")

♦ "At the time, the Allied command appeared to have been very little disturbed by this barbarism. It was said the Germans were simply pursuing the 'scorched-earth' policy they had developed in Russia, where everything which might conceivably have been of any use to the Russian Army was destroyed, and the civilian population—rendered homeless and destitute—was deliberately converted into a living obstacle in the path of the advancing Russian troops. Presumably because our brass hats considered the scorched-earth policy a legitimate military tactic, the atrocities inflicted on the Italian peasants in the Sangro mountains rated no more than a few casual and non-condemnatory references even in the official military histories written after the war..." (*And No Birds Sang* by the great Canadian writer Farley Mowat. Italy. World War II.)

♦ "Fiercely the red sun descending / Burned his way along the heavens / Set the sky on fire behind him / As war parties when retreating / Burn the prairies on their war trails." (William Wadsworth Longfellow. Quoted from memory.)

♦ "Scorched earth" has been a feature of warfare since the beginning of mankind, and, like "scalping," or any other atrocity anyone can think of, cannot be related to any particular time, place, or race.

It’s also the same day that Secretary of Defense Donald Rumsfeld was getting briefed about the future Iraq war plans by the Pentagon, and to me that sort of speaks for itself... The split screen on 9/11 (in 2021) will be the Taliban you know taking over chunks of Afghanistan using American military equipment that they’ve seized, and reading the names of the victims at the World Trade Center site, and I can’t imagine a worse split screen, but I think that is likely what we will see.” (The fine journalist Peter Bergen. From “Osama Bin Laden Biography Goes Inside Al-Qaida Leader’s Final Hideout,” NPR, Fresh Air, with Dave Davies.)

♦ “And here is a split screen 20 years later... (Video of Bush in 2001 announcing attacks in Afghanistan and Biden announcing US exit from Afghanistan in 2021.)

♦ “The same formula again and again. I want to post pictures of myself in bathing suits. When I get criticized I’ll say I want to do it for others and for body positivity. When I get criticized for that, I will show sadness that the world doesn’t support mental health and I’m a victim, and finally I’ll get

praised for being so brave for living my own truth." (Bob Loblaw. A BBC HYS comment about "SI Swim model Natalie Mariduena wants to 'be an example' of 'body normalcy'" by Stephanie Nolasco, August 20, 2022.)

♦ "Will Smith is executing a pretty standard and frankly effective return to the public. You know, he'd been keeping out of media, but with Emancipation's release, he appeared for a high-profile interview in a friendly venue, he talked over the scandal last week with Daily Show host Trevor Noah, who admitted that he's Smith's friend, and then he hit the red carpet and a few other friendly media outlets, and he emphasized how he hopes that audiences disregard the scandal for the sake of his co-workers. And that's kind of a common strategy for big-name celebrities in trouble, you disappear for a while, you talk over the controversy with a friendly interviewer, and then you return to public events and kind of act as if this situation is mostly behind you..." ("How celebrities work their way back into the spotlight after scandals," NPR, All Things Considered, December 5, 2022. With Eric Deggans.)

♦ "Instead, the Jan. 6 hearings were meticulously choreographed... Unlike typical congressional hearings, these would have a script. 'Every word was intentional,' one senior staff member recalled. 'Nothing was spontaneous.'" ("Inside the Jan. 6 Committee" by Robert Draper and Luke Broadwater, *The New York Times Magazine*, January 1, 2023.)

♦ "That pattern is initially denying there is a problem, sometimes making misleading or obfuscating statements, and making life difficult for those investigating the issue. Only when external findings eventually show wrongdoing or ineffectiveness by the Met, is there finally an admission of failings. This is usually accompanied by announcements of new actions which the Met claim address the problems and present as if they are fully implemented and effective. / Another part of the pattern is an acceptance of failings only in respect of individual officers, who are termed 'bad apples.' They are seen as distinct from the majority of officers, who do their jobs well and with integrity." (Baroness Casey Review.)

♦ "Same old story—beat some minnows, nation gets hysterical, lose to the first decent team you meet." (A sour commenter about English World Cup soccer.)

♦ "The story delves deep into what Bret sees as the performance of everyday life; the way everything is a narrative, a 'pantomime,' a 'script.'" ("Bret Easton Ellis' first novel in more than a decade, 'The Shards,' is worth the wait" by Gabino Iglesias, NPR, Review, Books, January 19, 2023.)

On one side of the narrow waterway a treacherous rock shows the yawning jaws of the Army. On the other side, equally hideous and threatening, gleam the sharpened teeth of the face typifying the Dreyfus Party. Waldeck-Rousseau, appreciating the choppiness of the sea and the dangerous rocks, calls to his gallant crew: 'Forward, dear friends, look neither to the right nor to the left, and we will win through at last.'" ♦ "The more money farmers can get for what they grow, the more likely they see deer damage as a problem." (Sofi Gratas paraphrasing Charlie Killmaster, deer biologist for the state of Georgia. The number of deer is stable and in north Georgia is actually declining, due to habitat change and more bears and coyotes. And yet, farmer requests for deer control permits (to shoot deer) have gone up. While row-crop prices are higher, prices for seed, diesel and fertilizer are also up, which is why farmers are reluctant to invest in fencing. From "White-tailed deer can cause farmers millions of dollars worth of damage" by Sofi Gratas, NPR, Morning Edition, October 30, 2023. Wonderful reporting.)

♦ A STORY ABOUT PERCEPTION: An old man lived in a house. His hobby was woodworking. One day a new family moved into the house next to him. The family had a young boy, and the old man watched him run home from school one afternoon through his window: the boy acted

like a child, ran like a child, laughed like a child. One morning the old man went into his garage and discovered that his hammer was missing. He looked out his window that afternoon and saw the boy arrive home from school, and now the boy acted like a thief, ran like a thief, laughed like a thief, and the old man felt bitter. A month or so later, the old man found his hammer in a place where he had absent-mindedly put it. That afternoon he looked out of his house and saw the young boy return home from school. And the boy acted like a child, ran like a child, laughed like a child.

♦ The novel *Lost Horizon* by James Hilton was set in Tibet and published in 1933. Shangri-la was a fictional place in the Kunlun Mountains.

♦ "The name Kyirong means 'the village of happiness' and it really deserves the name. I shall never cease thinking of this place with yearning, and if I can choose where to pass the evening of my life, it will be Kyirong. There I would build myself a house of red cedarwood and have one of the rushing mountain streams running through my garden, in which every kind of fruit would grow..." (From Heinrich Harrer's *Seven Years in Tibet*, published in 1953. Though Harrer doesn't explicitly mention Shangri-la, for him it seemed to be Kyirong.)

♦ "The scene was unforgettably dramatic. In the background was the immense massif, scoured by three mighty glaciers... She had long pigtailed, and her hair was decorated with amulets made of yellowed amber; on her arms she wore bracelets of braided silver. I thought then I had never seen anything quite so beautiful. There was distant birdsong...and some of the yaks wore bells, which pealed slightly... Tiny puffs of cloud lazed in the summer sunshine, their shadows briefly darkening the grassland. I wanted to stay here, my own Shangri-la among the hills, for always. / But we had to cross the Chola hills..." (*The River at the Center of the World: A Journey Up the Yangtze, and Back in Chinese Time*, by Simon Winchester, published in 1996. The last two chapters are set in western China.)

♦ "[T]he monastery appeared as the archetypal vision of Shangri-la: a rhapsody of warm and sensuous colors, topped by domes, roofs, and a medieval tower, clashing perfectly with the austere, sylvan tones of the landscape. The sunlight shone through dark and towering pine trees as Nadia [whom he later describes as an attractive, intelligent woman] led me up the hillside. Bands of mist, which made me think of high ideals, floated between the peaks. Everywhere I heard the sound of mountain torrents." (From *Balkan Ghosts: A Journey Through History* by the great travel writer, journalist and political analyst Robert D. Kaplan. He experienced his vision of Shangri-la at the Rila Monastery in Bulgaria.)

♦ "There is no dearth of prose describing the mass of humanity that made its way to the feet of the Great Emancipator that day; no metaphor that has slipped through the cracks waiting to be discovered, dusted off, and injected into the discourse a half century on. The March on Washington has been compared to a tsunami, a shock wave, a wall, a living monument, a human mosaic, an outright miracle. / It was all of those things..." (*Behind the Dream: The Making of the Speech that Transformed a Nation* by the fine writer Clarence B. Jones.)

♦ "In some sectors the Russians captured pillboxes that appeared to have sustained only moderate structural damage, only to find the entire Finnish garrison stone dead inside, without visible wounds of any kind except for rivulets of frozen blood from their nostrils, ears, and eye sockets. These men had died from the cumulative effects of sheer concussion." (*Frozen Hell: The Russo-Finnish Winter War Of 1939-40* by William R. Trotter.)

♦ "And as we got up, we were slapping each other on the back and thanking God that we made it, and whatever hit us didn't destroy us... And only then, because of the screams from the building 75 yards away, and also the screams from the marines outside yelling for us to come help, we realized we had only suffered the shock wave, the shock blast..." (A Navy chaplain about the 1983 Beirut barracks bombings that left over 200 dead. The chaplain had initially thought his barracks had been hit by a shell. It was the greatest daily toll of marines since Iwo Jima, and, like Pearl Harbor, the attack happened on a Sunday morning. Some consider the bombing the start on the "war on terror." If you cannot harm Russia, then why should you harm yourself?" (A government official in the Republic of Georgia, where relations with Russians are remarkably cordial, in spite of the conflict over Abkhazia and South Ossetia.)

♦ "...the constant danger of attack from Bolshevik forces caused a number of soldiers to intentionally wound themselves for the purpose of evading service at the front; these men were court-martialed, as was a soldier guilty of 'misconduct before the enemy.' Apparently, self-inflicted gunshot wounds were not the only method used to avoid combat: Pvt. Charles F. Kingan was convicted of contracting 'a venereal disease through neglect thereby unfitting himself for active military duty against the enemy.' Some seventy men were convicted of this last offense; almost all received three months confinement at hard labor to discourage such behavior in the future." ("Bolsheviks, Polar Bears, and Military Law: The Experiences of Army Lawyers in North Russia and Siberia in World War I," by Fred L. Borch III.)

♦ "A bloke in the Munsters once wanted a cushy, so he waves his hand above the parapet to catch Fritz's attention. Nothing doing. He waves his arms about for a couple of minutes. Nothing doing, not a shot. He puts his elbows on the fire-step, hoists his body upside-down and waves his legs about till he gets blood to the head. Not a shot did old Fritz fire. 'Oh,' says the Munster men, 'I don't believe there's a damned square-head there. Where's the German Army to?' He has a peek over the top—crack! he gets it in the head. Finnee.'" ♦ “A body of the 89th Highland Regiment, which had been raised among the Gordon clan in the preceding year at Badenoch, were landed from the *Sandwich*, East Indiaman, and behaved with their usual gallantry. Pressing onward, they burst from the rear, through Draper’s grenadiers, in their eagerness to get at the enemy. Tossing aside their muskets, they raised a wild cheer, and with their bonnets in one hand and claymores in the other, threw themselves upon the soldiers of Lally, and cut many to pieces. They were only fifty in number, and were commanded by Captain George Morrison. From that time the operations of Lally were confined to the ramparts of Pondicherry. Several of his cannon were taken by the brave little band of Highlanders. Seven of these were found to be eighteen-pounders, loaded to the muzzle with all sorts of projectiles—bars of iron, jagged metal, stones, and bottles.” (“Siege of Pondicherry, 1760-1,” from *British Battles On Land And Sea* by James Grant.)

silence of the past 27 years

the ~ has spoken loudly in our community

Amazon's silence

~ on 'Rings of Power' audience size is deafening

♦ "The silence of the past 27 years surrounding this case has spoken loudly in our community." (Sekyiwa Shakur, about the arrest in 2023 of the only living suspect in the murder of her brother, the rapper Tupac Shakur.)

♦ "Absence is present in this film. The absence is definitely... it's kind of deafening in its absence and its presence. And I feel that even in this city—New York—that there is that feeling as well." (The film director Steve McQueen talking about his film *Occupied City*.)

♦ "At the Armistice, the sudden cessation of the artillery fire which had continued ceaselessly on the Western Front for more than four years had an almost frightening effect on the troops. It was as if the kitchen clock had stopped at eleven o'clock in the morning and the household was uncertain as to when the potatoes should be put on to boil, if at all. 'When the guns stop' had been a synonym for 'when the war is over.' Yet was it over?... [T]here were no scenes in the trenches even remotely resembling those that took place at home." (*Good-Bye To All That* by Robert Graves.)

♦ "There were no birds singing in the forest. No animals, no wolves or bears. There were not even mice. Nothing. There was nothing there. Perhaps the prisoners had eaten the birds, I don't know. But I never heard a sound." (The Polish schoolgirl Danuta Maczka, describing the Siberian logging camp she was deported to in early 1940. From "A Polish girl's journey across three continents" by Monica Whitlock, BBC, 16 September 2012.)

♦ "The men in the bunkers and command-posts of the 62nd Army felt very strange indeed; they wanted to touch their faces, feel their clothes, wiggle their toes in their boots. The Germans weren't shooting. It was quiet. / The silence made their heads whirl. They felt as though they had grown empty, as though their hearts had gone numb, as though their arms and legs moved in a different way from usual. It felt very odd, even inconceivable, to eat kasha in silence, to write a letter in silence, to wake up at night and hear silence. This silence then gave birth to many different sounds that seemed new and strange: the clink of a knife, the rustle of a page being turned in a book, the creak of a floorboard, the sound of bare feet, the scratching of a pen, the click of a safety-catch on a pistol, the ticking of the clock on the wall of the bunker... / Chuykov left the bunker and climbed slowly up to the top of the slope; the wooden steps creaked under his boots. It was dark. Both the east and the west were quiet. The silhouettes of factories, the ruined buildings, the trenches and dug-outs all merged into the calm, silent darkness of the earth, the sky and the Volga. / This was the true expression of the people's victory. Not the ceremonial marches and orchestras, not the fireworks and artillery salutes, but this quietness—the quietness of a damp night in the country... / Chuykov was very moved; he could hear his heart thumping in this breast. Then he realized the silence was not total. From Banniy Ovrage and the 'Red October' factory came the sound of men singing. Below, on the banks of the Volga, he could hear quiet voices and the sound of a guitar..." (*Life And Fate* by Vasily Grossman, Part 3, 17, page 659-661.)

♦ "It's pretty obvious, right from the first moment that the soldiers deploy because... you have this eerie sort of quietness?" (Siobhan Fallon, military wife, speaking about her book, *You Know When the Men Are Gone* on NPR's All Things Considered in 2011.)

♦ Day is done / Gone the sun / From-the-lake / From-the hill / From-the-sky / Rest in peace / Sol jer brave / God is nigh And as the last note quivered to pridelful silence... (*From Here to Eternity* by James Jones.)

♦ “It’s this very unusual juxtaposition of veganism, which is often connected to what I’m *not allowed* to eat, with sluttiness, which is all the things that I’m *gonna do* even though I’m not allowed to.” (“Special Sauce: The Slutty Vegan burger chain puts the party in plant-based eating” by Charles Bethea, *The New Yorker*, April 17, 2023. “Slut,” “slutty,” “sluttiness,” and “sluttified” are mentioned 57 times in the article. See the excellent response to the article directly below.

*** analysis

♦ “Charles Bethea’s entertaining piece on Slutty Vegan shows the burger chain’s use of the word ‘slutty’ to be a savvy bit of branding, capable of capturing the paradoxical associations of cute promiscuity, chic vulgarity, and naughtily virtuous veganism (“Special Sauce,” April 17th). The history of the word ‘slut’ reinforces its good-bad connotations. The word might be connected to the Old English ‘slyt’ (sleet) and seems related to words meaning ‘muddy’ and ‘slushy.’ Since its earliest appearance, in the fifteenth century, ‘slut’ has often, but not always, had a negative meaning: a dirty or slatternly woman, a licentious woman or man, a scullery maid, or simply a girl. In the past half century, some speakers have reclaimed ‘slut’ and used it proudly, as in SlutWalks, marches against stigmatizing victims of sexual assault. Other modern uses trade jokingly on its implications of promiscuity, as in ‘I’m a TV slut. I’ll watch anything.’ Who knows how it will evolve in the future—perhaps into a common food term?” (PROMISCUOUS USAGE, by Judith Tschann, Redlands, Calif. From “The Mail,” *The New Yorker*, May 15, 2023.)

♦ For examples of words changing, see the two quotations below.

♦ “The situation was complicated by large numbers of ‘slut farmers’—men with sufficient private means not to worry about making their farms pay. They left their fields to get full of thistles and even thornbushes, which provided cover for game; and found rough shooting far more fun than uneconomic farmwork.” (*The Long Week-End: A Social History of Great Britain 1918-1939* by Robert Graves and Alan Hodge.)

♦ “No one liked Henry Clinton, especially Clinton himself, who was, by his own account, ‘a shy bitch.’” (*Valiant Ambition: George Washington, Benedict Arnold, and the Fate of the American Revolution* by Nathaniel Philbrick. Page 12.)

♦ "Scout Snipers The Grim Reaper Confirmed kills [number obscured by a soldier]" (The backdrop to a group photo in front of a tent, An Hoi, Vietnam. In Vietnam, the Vietnam War is called the American War.)

♦ "Zaitsev began to tell the story of his battle of wits with a German sniper at the foot of Mamayev Kurgan. It had lasted for days. The German knew Zaitsev was watching him and he himself was keeping watch on Zaitsev. They seemed well-matched; neither could catch the other out..." (*Life And Fate* by Vasily Grossman. The great 2001 film *Enemy at the Gates* starred Jude Law as Zaitsev and Ed Harris as the German. It also starred Joseph Fiennes and Rachel Weisz.)

♦ [A quiet card game in the rear was disturbed by the shots of a sniper in a tree. A soldier from the West, a crack shot, dealt with the problem.] "That gray squirrel is pretty frisky, and I must stop his fun to stop him spoiling ours." He drew a bead on the man in the tree and fired. As the Confederate sharpshooter came crashing through the branches to the ground, the Westerner sat down and asked: 'What's trumps?' He seemed as unconcerned as if he had killed a mosquito that had been annoying him. / ...[B]ehind all this was constantly present to our eyes and mind the scene of a great stream, a procession, so to speak of human souls on their way to eternity." (*Memoirs of Chaplain Life* by W. Corby. The Civil War.)

♦ See the Homer Winslow picture "Sharpshooter (1863)." About snipers, Homer Winslow wrote that sniping was "as near murder as anything I ever could think of in connection with the army." Of course, he was not a soldier. See below.

♦ In *fact*, snipers operate at long range, as opposed to mid- and hand-grenade range, close range, edged-weapons range (bayonet, etc.), knife range, and hand-to-hand combat range, etc. The closer to the victim, the stronger the resistance to killing in combat, according to *On Killing* by Lt. Col. Dave Grossman. So, snipers (and pilots and members of the artillery) suffer psychologically relatively less from their killing.

♦ "Early on [Benedict Arnold] realized that an officer on a gray horse was playing a prominent role in maintaining the integrity of the British right. Arnold rode over to Colonel Morgan on the American left and requested that he order a sharpshooter to aim at the British officer. It took three shots, but eventually the Indian fighter Tim Murphy managed to put a rifle ball into the gut of General Simon Fraser, the Scotsman who was Burgoyne's intimate friend and the commander of the British right. The Americans had already begun to overwhelm the enemy, but the felling of Fraser by an American sniper appears to have precipitated the collapse of the British line..." (*Valiant Ambition: George Washington, Benedict Arnold, and the Fate of the American Revolution* by Nathaniel Philbrick.) See the quote below about the funeral of Fraser.

♦ "[T]he funeral of General Fraser took place under fire, and under circumstances extremely rare even in war. / The October evening was calm and clear, and the funeral procession, as it entered the great redoubt, with arms reversed and the mournful roll of the muffled drums, was followed by the eyes of hundreds of both armies; but some of the Americans, ignorant of its true nature, poured a constant cannonade upon the spot where the grave was dug. Unmoved by the danger, Mr. Brudenel, the chaplain, while the shot threw the sand and loose soil over his white surplice, read the touching burial service of the Church of England, while the sun sank down, and twilight added to the solemnity of the scene. / 'Suddenly,' says the Field-Book of the Revolution, 'the irregular firing ceased, and the solemn voice of a single cannon boomed at measured intervals along the valley, and awakened the responses of the hills. It was a minute gun fired by the Americans in honour of the gallant dead. The moment information was given that the gathering in the redoubt was a funeral company fulfilling the last wishes of the noble Fraser, orders were issued to withhold the cannonade with balls, and render military honours to the fallen brave.'" (*British Battles On Land And Sea* by James Grant, "The Funeral of Fraser." Arguably, Saratoga, 1777, was the battle that won the American Revolution. Benedict Arnold, the

"American Hannibal," would go on to betray his country in his role as Commandant of West Point. The revolution was, of course, also a bitter civil war between the Loyalists and the Patriots, or Americans.)

***** what civilians think soldiers are**

♦ "I need you to be a soldier of God, a good little soldier." (Female victim testimony from the Commission to Inquire into Child Abuse (CICA) / Ryan Commission, which detailed Catholic Church abuse in Ireland. What the priest told a child in Catholic care prior to sexually abusing her.)

♦ "I've always said, 'I'm his soldier.' Jim's this director I'll do anything for, but he's in the trench right there next to me." (Hollywood actor Sam Worthington about *Avatar: The Way of Water* and its director, James Cameron.)

♦ "I mean, I've been in the Twitter war zone for a while, it takes a lot to phase me at this point. You can't take it personally, none of these people actually know you. It's like if you're fighting a war and there's some opposing soldier that shoots at you, it's not like they hate you. They don't even know you. So, just think of it like that. They're firing bullets, whatever, but they don't know you, so don't take it personally." (Elon Musk talking to Joe Rogan.)

♦ "Embracing collaborations...is critical to our shared success, and a *force multiplier* [italics mine] for delivering top-notch journalism across the country." (Senior Vice President of News and Editorial Director Nancy Barnes.)

♦ "We are here to provide you the approved short-term substitute training. I'm sorta the *captain* [italics mine] of today's shift, and I've got a wonderful crew..." (Chicago education.)

♦ Be a good soldier; be a loyal supporter; Don't upset the apple cart; fall in line; don't speak to anyone about this... (Government servants.)

♦ "Yeah, they have these belts on with like all these extra bullets and they're like dressed for war." (Leah talking to her Brit producer, Georgia, for their podcast about the militia movement.)

***** soldiers**

♦ "Nobody can soldier without coffee." (A Union cavalryman, writing in 1865. Not strictly true. You might meet an ex-soldier who, on religious grounds, eschews coffee.)

♦ Who won the war? / The MPs won it. / How'd they win it? / Why, their mothers and sisters laying for Liberty Bonds. (Infantry chant while marching past MPs. *From Here to Eternity* by James Jones.)

♦ "I weighed one hundred eighty going in, and I came out weighing one hundred fourteen..." (From *Once Upon a Town, the Miracle of the North Platte Canteen* by the brilliant *Chicago Tribune* writer Bob Greene.)

♦ "The French... were shocked by the attitude of some American soldiers, who seemed to think that when it came to young French women 'everything can be bought.' / In Pigalle, rapidly dubbed 'Pig Alley' by GIs,

French prostitutes were coping with more than 10,000 men a day. The French were also deeply shocked to see US soldiers lying drunk on the pavements of the Place Vendôme. The contrast with off-duty German troops, who had been forbidden even to smoke in the street, would hardly have been greater." ("An ugly carnival," by Antony Beevor, *The Guardian*, Thursday 4 June 2009.)

♦ "It don't mean a thang." (The Vietnam War. In Vietnam, the Vietnam War is known as the American War.)

♦ "The Caravan is a hundred grenades, that missed / The Caravan is sand on your face / The Caravan, three toasts, a moment of silence / Someone's lost, someone's won / Caravan, caravan, caravan." (The haunting Soviet Afghan War Song. Video created by Irina Rakhsha. Translation: Irina Rakhsha. Read *Zinky Boys* by Svetlana Alexievich.)

♦ "The most ironic thing is that it became really quite serious and in the Falklands War the sailors sitting on the HMS *Sheffield* after they had been hit by an Exocet sang it for 3 hours while they were waiting to be rescued. And the RAF pilots would sing it in great jeopardy, when they were changing for their long, low-level bombing in the Bush Wars, Desert Storm. And so you know, it took on a kind of optimistic component to it..." (The "Bright Side" song by Monty Python, BBC, "Inheritance Tracks, Eric Idle." As late as 2016, Monty Python sketches were a favorite of civilian US Iraq and Afghanistan War combat veterans at Camp Vinnell in Riyadh, Saudi Arabia, sitting around the pool at the Tiki Hut on the weekends. They knew the skits by heart. Or was it heartbreak?)

♦ "Your mother had a pair and your little brother and your girlfriend and you nail them to a wall in some bar in the Philippines and you've spread yourself so far and wide that there's no way you can die because your dog tags are out there pulsing around the globe." (The great writer Anthony Swofford, Marine, who served in the Gulf War, 1990.)

♦ "There's no beer, no prostitutes and people are shooting at us. It's more like Portsmouth." (A British soldier, on hearing that the British defense secretary Geoff Hoon had asserted that Umm Qasr, Iraq, was like Southampton.)

♦ "Camp Lejeune." (A US marine in Afghanistan, who had also served in Iraq, on being asked where he felt the threat was most dire. Camp Lejeune is in North Carolina in the United States.)

♦ "In combat, cleanliness for the infantryman was all but impossible. Our filth added to our general misery. Fear and filth went hand in hand..." (*With the Old Breed* by E.B. Sledge.)

♦ "With human corpses, human excrement, and rotting rations scattered across Peleliu's ridges, the blow flies or bluebottle flies underwent a population explosion. Those nasty insects were so large, so glutted, and so lazy that some could scarcely fly... It was revolting, to say the least, to watch big fat blowflies leave a corpse and swarm into our C rations... Each morning, just before sunrise, when things were fairly quiet, I could hear a steady humming sound like bees in a hive as the flies became active with the onset of daylight. They rose off the corpses, refuse, rocks, brush, and wherever else they had settled for the night like a swarm of bees. There numbers were incredible." (*With the Old Breed* by E.B. Sledge.)

♦ "The worst thing about Cassino [Town] was the smell. The stench was absolutely horrible because every time a mortar bomb went off, it raised a stench..." (The British para James "Jim" Knox, fighting with the New Zealanders. The stench was caused by the mortar's explosive exhumation of decomposing bodies and body parts from the rubble.)

♦ There was an all-pervasive stench of putrefaction and millions of fat blowflies filled the air. Even Junger, normally so cool, was shaken by what he saw. "The ploughed-up battlefield was a scene of horror. The dead lay there among the living defenders. When we dug bunkers we saw how the dead lay in layers one above the other. One company after another had been mown down as they made a stand shoulder to shoulder under the drum fire; then their corpses had been buried under the tons of earth hurled up by the projectiles and new men had taken the place of the fallen." (*The Beauty and the Sorrow* by Peter Englund.)

*** a soldier's fate

♦ "The duke did what he could for his wretched men. He sent urgent appeals to the towns and churches of northern Spain, begging for the immediate dispatch of beds, clothes...for the 4,000 sick survivors ashore. That total steadily increased as further ships limped home. Some were in a terrible state..." (*The Spanish Armada* by Colin Martin and Geoffrey Parker.)

♦ Years ago they had marched thousands of miles to legendary battlefields... they had once gone to the ends of the earth and seen beyond the farthest horizon... We looked at these men in blue, existing in

pensioned security, honored and respected by all... and we were in awe of them. Those terrible names out of the history books—Gettysburg, Shiloh, Stone's River, Cold Harbor—came alive through these men. They had been there... and to watch them was to be deeply moved." (*Waiting for the Morning Train: An American Boyhood* by Bruce Catton.)

♦ "Corday also comes across a representative of a new phenomenon, the soldier beggar. Of late it has become usual to see them at restaurants or cafes. They are often wearing medals on their chests, fine medals like the Croix de Guerre, awarded for heroism in the field. They sell picture postcards or sing patriotic songs to collect a little money. / The begging soldier Corday meets on the pavement has an arm missing. He is also drunk. He is meandering through the stream of people, asking one, then another, for a few coppers or for a cigarette at least. And he repeats the same word all the time: 'Peace... peace...'" (*The Beauty and the Sorrow* by Peter Englund. He is writing about World War I.)

♦ "Saratov greeted Lyudmila rudely and cruelly... / At the tram-stop some young women quietly shoved past anyone who happened to be old or weak. A blind man in a Red Army hat, obviously only recently released from hospital and still unable to cope alone, moved anxiously from one foot to the other, tapping his stick rapidly in front of him... / People were jostling each other as they climbed into the tram-car—while he stood there, weeping and shouting..." (*Life And Fate* by Vasily Grossman.)

*** analysis

♦ "And the savage in you makes you adore it with its squalor and wastefulness and danger and strife and glorious noise. You feel that, after all, this is what men were intended for rather than to sit in easy chairs with a cigarette and whiskey, the evening paper or the best-seller, and to pretend that such a veneer means civilization and that there is no barbarian behind your starched and studded shirt front." (Harvey Cushing, a US surgeon during World War I. From *The Beauty and the Sorrow* by the brilliant Swedish historian and writer Peter Englund.)

♦ "How many men who listened to me have served their nation in the wars? How very many, are not here to listen? The war in Vietnam is not like those other wars. Yet, finally, war is always the same. It is young men dying in the fullness of their promise. It is trying to kill a man you do not even know well enough to hate. Therefore, to know war is to know that there is still madness in this world." (President Lyndon Baines Johnson, speaking about the Vietnam War. In Vietnam, the Vietnam War is known as the American War.)

♦ “We also offer chaplains from many different faiths here at Dartmouth. Chaplains who will nurture and help protect your souls. Please take advantage.” (Professor Susannah Heschel, introducing a forum in the wake of the Hamas attack on Israel on October 7, 2023. See the quote below by her close professional colleague.)

♦ “Some of them of course were upset, angry, scared, but they brought these emotions, the soul baggage also, and expressed it, but they expressed it in a thoughtful way, and things remained reasonable throughout.” (Dartmouth professor Tarek El-Ariss, about the forums he and Professor Susannah Heschel held for Dartmouth students in the wake of the Saturday, October 7, 2023 attack by Hamas from Gaza on Israel.)

♦ “This was bread, bread, black bread... Science is bread, bread for the soul.” (Viktor Shtrum’s physics breakthrough from *Life And Fate* by Vasily Grossman, New York Review Books, translated by Robert Chandler.)

♦ “I am interested to inspire people to uplift their soul and to look at the sky and say ‘Wow, I can move mountains now, nothing is impossible’ so that’s why I love what I do... I never leave anything to chance and I have weaved this safety net in my head for the past 55 years. So I value life too much to risk my life and I do something I think much more inspiring and noble, I don’t risk my life, I carry my life across.” (The remarkable high-wire artist Philippe Petit.)

♦ “In the desert, the soul empties and clears and becomes free and brave in the process. And so it enables you to defy the endless open space, challenge the horizon, and explore the emptiness that leads beyond the horizon, beyond the desert void. It invites you to face the other world, the hereafter. It was here, only here, in the labyrinths of never-ending desert plains, that the extremes converge—open expanse, horizon, and desolation—to form a firmament that expands outward, toward eternity, toward the afterlife.” (*Gold Dust* by Ibrahim al-Koni. The desert plays a central role in the three Abrahamic religions of Judaism, Christianity, and Islam.)

♦ "When Sinead O'Connor broke out on the music scene in 1987, she was just 20 years old and a brand-new mother. But the wisdom and depth in her voice immediately marked her as an old soul." (NPR's Anastasia Tsioulcas' appreciation of the great Irish singer Sinead O'Connor, dead at the age of 56.)

♦ "Angus you were an open soul, with the kindest heart, and you filled every room with laughter." (Sydney Sweeney's tribute to Angus Cloud, age 25, who consumed a lethal combination of fentanyl, cocaine, methamphetamine, benzodiazepine, and other drugs.)

♦ "May God bless all their souls." (Taraja Ramsess.)

♦ "Eric, I'm sure you've seen a lot of TV deaths, how do you think this show handled mourning and grief." ("Succession' gets one step closer to finding a successor," NPR, All Things Considered, April 10, 2023.)

♦ "Navigating this hideous grief that has absolutely destroyed & shattered my heart and my soul into nothing has swallowed me whole." (A public expression of grief.)

♦ "No possible good can come from incarcerating a 71-year-old soul..." (From a 3-page letter written by David Simon, co-creator of *The Wire*, seeking leniency for Carlos Macci for the role Macci played in the overdose death of actor Michael K. Williams, who played Omar Little in the HBO crime drama.)

♦ This usage of "soul" commonly occurs with the word "light."

♦ Requesting privacy while we "navigate our grief" has become a cliché. The language of mourning and grief is quite interesting, and it is changing rapidly, especially on social media. Read "ChatGPT use for wedding vows, eulogies stokes dispute over authenticity," ABC.)

♦ "Kubler-Ross once considered a belief in the afterlife a form of denial. But starting in the mid-1970s, she had a change of heart, compiling thousands of testimonies from those who'd had near-death experiences in order to show that our souls outlast us. / 'I looked at life-after-death books, but they were too faith-based,' Helen says. 'I wanted to believe what I was taught in my Catholic upbringing. But what I liked about Kubler-Ross is that she had a science background.' / It was precisely because she was a scientist, of course, that Kubler-Ross's fellow physicians were so dismayed by this strange turn in her interests. They thought it kooky and unrigorous, a stain on her legacy. I tell this to Helen. She laughs. 'Bet they didn't sell millions of books.'" ("Twenty Years Gone," also titled "What Bobby McIlvaine Left Behind" by Jennifer Senior. Her essay won a Pulitzer Prize. Senior then turned her essay into a book: *Grief: Love, Loss, Memory*.)

♦ [A quiet card game in the rear was disturbed by the shots of a sniper in a tree. A soldier from the West, a crack shot, dealt with the problem.] "That gray squirrel is pretty frisky, and I must stop his fun to stop him spoiling ours." He drew a bead on the man in the tree and fired. As the Confederate sharpshooter came crashing through the branches to the ground, the Westerner sat down and asked: 'What's trumps?' He seemed as unconcerned as if he had killed a mosquito that had been annoying him. / ...[B]ehind all this was constantly present to our eyes and mind the scene of a great stream, a procession, so to speak of human souls on their way to eternity." (A very interesting and very odd conversation. Interesting because Audi Cornish seems to react sharply to the use of the cliché "head south" and very correctly restates the meaning as, "if there's a threat that the government could collapse..." But odd because Michele Kelemen does not represent the State Department, she is NPR's

diplomatic correspondent. Were the two of them "acting out" a script? From "Biden To Meet With Afghanistan Leaders As Sept. 11 U.S. Troop Withdrawal Nears." All Things Considered, June 25, 2021.)

♦ "Space is a feminist issue."

♦ "Orchestras have traditionally been a pretty white space." (Diversity, equity and inclusion / DEI.)

♦ "I try to cry quietly so that I don't take up more space." (Robin DiAngelo. She coined the term "White fragility" which has been characterized as silence, defensiveness, argumentation, certitude, and pushback.)

♦ "For Anders, although his newly brown skin is a constant physical reminder that he's no longer who he used to be, the greatest change may be in his psyche. He's now acutely aware of otherness and being observed, how he moves in the world and how he takes up space. When he returns to work...he's both drawn to and repulsed by the only other dark-skinned employee, who, unlike him, has always known what it's like to be treated as both invisible and hypervisible." (Cady Lang's *Time* review of *The Last White Man* by Mohsin Hamid, *New York Times* bestselling author of *Exit West*. This paragraph deftly weaves together several tropes relating to inclusion and exclusion.)

♦ "I want spaces in sport for trans athletes to be their authentic selves and compete at the highest level, and know they are loved and that they belong there." (Chris Mosier, about transgender athletes at the Tokyo Olympics.)

♦ "The space of play, playing with dolls, the space of creating worlds with dolls is that space of dreaming. And now kids get to dream with a Laverne Cox Barbie, the first transgender Barbie—that is a beautiful space of dreaming and possibility." ("Laverne Cox honoured as first transgender Barbie, BBC, 26 May, 2022. That's a lot of space!")

♦ "We feel very proud to be Asian here, and we want to share kind of culture and space with each other but also with the rest of the city." (Joanne Kwong, President, Pearl River Mart.)

♦ "People have become accustomed to more car-free spaces during the pandemic." (Cities block streets so restaurant patrons can dine in the road, socially spaced. Ordinarily, this would be express as "car-free zones.")

♦ "It's so unfortunate that marginalized communities are in competition for the tiny allotment of space that society gives them." (Ani DiFranco.)

♦ "Watts (2001) has made the argument that to have a voice an agent must find a space where the voice can be concretized... The connection between voice and space becomes particularly critical when such a space is denied in the real world through marginalizing forces and a new space needs to be carved out." ("Voices of the Marginalized on the Internet" by Ananda Mitra.)

♦ "Black folk have always been aware that we've been excluded and othered. Even in spaces we've managed to create for ourselves, [non-Black] people violently infiltrate and occupy these spaces with no respect to the architects who built it." (Eric Louis, age 21, a Black TikTok "creator" who helped to organize the #BlackTikTokStrike, to protest cultural appropriation and preferential treatment.)

♦ "I think the superpower of a Black Woman is to occupy the space in the fullness of who she is." (The actress Aisha Hinds.)

♦ "The industry caught up to my ambitions and created space for me to have my voice." ("Faces of NPR HBCU Edition: Kia Miakka Natisse," Sommer Hill, NPR, February 16, 2022.)

(“Marie Ulven Talks TikTok Fame, Sexuality And Her New Album,” NPR, Weekend Edition Sunday, May 2, 2021.)

♦ “I studied theater, but I was focused on being an actor, and I noted that people seemed to have a very narrow view of what kind of space my people could occupy on stage—and I found that really frustrating. I decided to write plays.” (The playwright Aleshea Harris.)

♦ “This girl in jean shorts standing in her house with eleven men. Like the female body in that space was what drew me to this for sure.” (Tina Satter, theater director, about *Is This a Room: Reality Winner Verbatim Transcription*.)

♦ “I wanted to create a safe space not in the sometimes trite sense we see the term used, but a true and sacred space for all our queer family to feel safe enough for freedom, fun, and cathartic self-expression. I wanted to build an antidote for the Trump era. I wanted to build all of us a home.” (Frankie Sharp, who is suing his former partners at The Q, one of New York City’s largest LGBTQ nightclubs. So much for “a true and sacred space for all our queer family.”)

♦ “I’m wondering how can [sic] a shared sense of space be created in places where Black and brown people are literally sharing the same physical space. I mean sharing being economically marginalized, overpoliced, unrepresented in big issues that affect both of them...” (“What the city council scandal reveals about LA’s racial divides—and Solidarity,” NPR, Morning Edition, Oct 14, 2022.)

♦ “When you’re in a position in which you are a distinct minority, then there is a sense in which within a majority white culture you do start to see other people of color as rivals rather than as allies. Because there is so little space for you, there’s such scarcity, and so you fight with other people who are of your same identity in order to get the spoils.” (Korean American author Julia Lee, author of *Biting the Hand: Growing Up Asian in Black and White America*. From “Biting the Hand”: Korean American author calls for weaponizing invisibility,” NPR, Morning Edition, April 19, 2023.)

♦ “The assertions are strident, and the vocabulary is esoteric (‘harm,’ ‘insurrection’) as if it were translated from a foreign language. In a sense, it is. The language is legalese, and it is designed to build a foundation upon which a company can be held liable under civil-rights law in an American court. This activist tactic has been widely misunderstood... The word ‘safe’ is carefully chosen. It gestures at certain specific kinds of negligence for which a university could pay dearly in a court of law.” (“The Inequality of ‘Equity,’” by Christopher Caldwell, *National Review*, May 17, 2021.)

♦ I love it when an animal comes back. Good for the animals! May they be fruitful and multiply and repopulate their historic ranges! It thrills me when a right whale—hunted to the brink of extinction by whalers for its oil and baleen—is spotted in the Azores, or when a cloud leopard—still wearing its beautiful hide and possessing its claws—is spotted in Bangladesh. It gives me mordant cheer to know that Korean tigers are thriving in the no-man's-land of the DMZ between North and South Korea, safe from people who would otherwise eat their meat and grind their bones into powder for medicines and aphrodisiacs.

♦ "In 2008, the U.S. Marines deployed to Sangin, reinforcing American Special Forces and U.K. soldiers. Britain's forces were beleaguered—a third of its casualties in Afghanistan would occur in Sangin, leading some soldiers to dub the mission 'Sangingrad.'" ("The Other Afghan Women" by Anand Gopal, *The New Yorker*, September 13, 2021.)

♦ How was the Battle Of Shanghai like the Battle of Stalingrad? (1) Both battles were titanic "no quarter given" battles in wars that would shape and define the modern world (2) Both featured urban warfare, tanks in cities, soldiers fighting house-to-house in rubble (3) Rivers were important in both battles: in Russia, the Volga; in Shanghai, the Yangtze and the Whangpoo (Huangpu) Rivers. Of course, there were many differences. By definition, metaphor recognizes similarities and ignores differences.

♦ Hype? James Holland, author of *The Savage Storm: The Battle for Italy 1943*, talking with John Batchelor, referred to the Battle of Ortona as "the Stalingrad of the Adriatic." The Wikipedia entry for the battle states, "The battle was known to those who fought it as the 'Italian Stalingrad,' for the brutality of its close-quarters combat, which was only worsened by the chaotic rubble of the town and the many booby traps used by both sides." The Wikipedia article goes on to mention that the battle is still studied as an example of military operations in urban terrain (MOUT). One big difference between Stalingrad and Ortona (among all the obvious ones) is that the Germans were beaten at Stalingrad. At Ortona, the Germans withdraw to defensive lines further north. The great Canadian writer Farley Mowat fought near Ortona and mentions the city several times towards the end of his book, *And No Birds Sang*: "Second Brigade, Kennedy told them, had managed to claw its way into the outskirts of Ortona but the street fighting which had then erupted had bogged them down in a bloody stalemate with the [German] paratroopers. Therefore, First Brigade would go back into the line, and the Regiment would lead a sweeping left hook around Ortona in an attempt to force the Germans to abandon the town... / He did not tell his officers what the Brigade intelligence office had told me: 'Monty blew into Div. H.Q. last night and he was frothing at the mouth. Passed the word to get on with it at any cost. The General told him the Div is worn down to the nub and ought to be relieved, but there ain't no reserves, so no reliefs. It's carry on, boys, and do-or-die, and bring me Pescara on a bleeding silver plate!' At war's end, the Germans *still* occupied the north of Italy.

♦ "[A] long dismal wail from steamship hooters and factory sirens. This cry, prophesying death and disaster, hung in the air, as if conveying the anguish of all the city's inhabitants. It was the voice of the entire city—the voice not only of people but also of stone, of buildings, of cars, trucks and machines, of telegraph poles, of the grass and trees in the parks, of electric cables and tram rails; it was a cry let out not only by living beings but also by inanimate objects. All now sensed their coming destruction. Only a rusty iron throat could have engendered this sound, which expressed in equal measure animal horror and the anguish of a human heart. / It was followed by silence—Stalingrad's last silence. / Planes were coming from every direction... / Only people on the east bank of the Volga, ten or fifteen kilometres away...could see the fire as a whole and grasp the extent of the disaster..." the company was the system's ~ (sued)

♦ Hunters discovered that if they hid behind a cutout of a horse, they would not frighten their prey.

♦ "Between 1868 and 1881 [the buffalo men] would kill thirty-one million buffalo, stripping the plains almost entirely of the huge, lumbering creatures... The first large-scale slaughter of buffalo by white men with high-powered rifles took place in the years 1871 and 1872. There was no real market for buffalo hides until 1870, when a new tanning technology allowed them to be turned into high-grade leather. That, combined with a new railroad in Dodge City, Kansas, meant that the skins could be shipped commercially. For hunters, the economics of the new business was miraculous, all the more so since the animals were so stupefyingly easy to kill. If a buffalo saw the animal next to it drop dead it would not flee unless it could see the source of the danger. Thus one shooter with a long-range rifle could drop an entire stand of the creatures without moving. A hunter named Tom Nixon once shot 120 animals in 40 minutes. In 1873 he killed 3,200 in 35 days... Surprisingly, only a few voices cried out against the slaughter of the buffalo, which had no precedent in human history." (*Empire of the Summer Moon: Quannah Parker and the Rise and Fall of the Comanches, the Most Powerful Indian Tribe in American History* by S.C. Gwynne. To explain further, if the hunter stood up and was noticed, the buffalo would stampede. But if the hunter was concealed behind a blind, the herd would continue grazing even as its members dropped around it, unperturbed even by the sound of gunshots.)

♦ Subterfuge is a thoroughly modern and cross-cultural topic of interest to all people, but not one that is likely to turn up in our teaching materials, which tend to focus on "topics" like "shopping," "going to the doctor," or functions like "apologizing," etc. Perhaps that should change, and there should be more lessons based on targets such as the ones used in the thesaurus of this work. Of course, should an expression relating to subterfuge ever come up, the teacher would explain it in context: teachers are good at that. But few teachers are prepared, off the top of their heads, to mention the set of expressions relating to a topic like subterfuge, much less categorize the set. The thesaurus of this dictionary will help.

♦ "We are resetting, we are not retreating, and we are here, we have a vision, we are capable of fulfilling it. I mean, this is the hill on which I'm willing to die." (Ashley Judd of Time's Up, responding to criticism of that organization.)

♦ "It's quite obvious that Amber Heard is lying and it is making it harder for women who are victims of domestic abuse or sexual violence to be taken seriously; but apparently these Cretans are going to die on this hill with her! I can't say that I'm surprised." (Melissa Wiggins, who signed the "Fire Raven Smith From Vogue" petition at change.org.)

♦ The rearguard action of a group of British soldiers at the village of Khig, following the British disaster in the Battle of Maiwand (27 July 1880) during the Second Anglo-Afghan War, was one of the most courageous last stands in military history. It helped to allow the bulk of the British troops to safely withdraw to Kandahar. The only survivor of the last stand was Bobbie, a terrier attached to the Berkshires, who made it all the way back to England. Bobbie visited Queen Victoria, who awarded him with a medal.

♦ The Battle of the Alamo is well known to Americans, as is Custer's last stand. Less well known is the fact that there was one survivor at Custer's last stand, Comanche, the favorite mount of Captain Myles Keogh. The

horse was found wandering the battlefield, badly wounded. Comanche was transported by ship to Fort Lincoln, and then to Fort Riley, Kansas, to live out his life in peace, never ridden again, allowed to eat the flowers from the flower gardens, and called upon only to participate in "riderless horse" ceremonies.

♦ Another famous rear-guard action was the Battle of Thermopylae in Greece in 480 BC, against the invading Persians, who were eventually defeated. No evidence of the pass currently exists. It is now a plain, and the only bodies are those of trucks drivers who have pulled over and are sleeping under their trucks.

♦ "Marcus ['Get up, let's go'] Luttrell...was the lone survivor." (Operation Red Wings. The great American hero.)

(“Is Kamala Harris Ready to Be President?” by Elaina Plott Calabro, *The Atlantic*, September 2023.)

♦ In the notes to his translation of Canto XXXII of Dante's *The Inferno*, John Ciardi writes, “At the battle of Montaperti [Bocca degli Abbat] hacked off the hand of the Florentine standard bearer. The cavalry, lacking a standard around which it could rally, was soon routed.” And so Bocca degli Abbat ended up in the 9th circle of hell, “The Treacherous to Country,” deserving completely his boot to his head.

our North Star

equity is ~ (Health Equity Task Force)

♦ A lodestar refers to the North Star, or to stars that help people to find the North Star. As such, it relates to direction and following.

♦ "In my career, I've been told I was to young... I've been told I was too old. Whether young or old, I've always know what endures, I've known our north star." (President Joe Biden's 2024 State of the Union address to Congress.)

♦ "If there's any fixed star in our constitutional constellation, it is that the government may not interfere with an 'uninhibited marketplace of ideas.'" (Supreme Court Justice Neil Gorsuch, writing for the majority.)

♦ (1, 2) "He declared that diversity—on our staff and in our audience—was the overriding mission, the 'North Star' of the organization Phrases like 'that's part of the North Star' became part of meetings and more casual conversation." (3) "When I suggested we had a diversity problem with a score of 87 Democrats and zero Republicans, the response wasn't hostile. It was worse. It was met with profound indifference. I got a few messages from surprised, curious colleagues. But the messages were of the 'oh wow, that's weird' variety, as if the lopsided tally was a random anomaly rather than a critical failure of our diversity North Star." (4) "Even so, out of frustration, on November 6, 2022, I wrote to the captain of ship North Star—CEO John Lansing—about the lack of viewpoint diversity and asked if we could have a conversation about it." (5) Which is a shame. Because for all the emphasis on our North Star, NPR's news audience in recent years has become less diverse, not more so." (6) "It's a tough job. Her [Katherine Maher, who has replaced John Lansing] first rule could be simple enough: don't tell people how to think. It could even be the new North Star." ("I've Been at NPR for 25 Years. Here's How We Lost America's Trust" by Uri Berliner, The Free Press, April 9, 2024. The author used "North Star" six times in his article.)

♦ "Oppenheimer, of course, knew Los Alamos well. Perro Caliente was a forty-mile horseback ride across the plateau. He and his brother had explored the Jemez Mountains on horseback over many summers. / Oppenheimer got what he wanted—a spectacular view of the Sangre de Cristo Mountains—and General Groves got a site so isolated there was only a winding gravel road and one phone line into the place..." (*American Prometheus: The Triumph And Tragedy Of J. Robert Oppenheimer* by Kai Bird and Martin J. Sherwin.)

♦ Nina Totenberg: [John Paul] Stevens' rise was, to some extent, a fluke... / Clifford Sloan: It was an accident of history, and the stars lined up in a way that could not have been possible before that precise moment and probably could not have been possible after that precise moment." (John Paul Stevens had no political ties and was known as a judge's judge. Gerald Ford, who only became president after Nixon resigned, and who was vice president only because Spiro Agnew had resigned, suddenly had the appointment to fill, at a time after Watergate when people were sick of politics. Ford appointed Stevens to the Supreme Court, and he was swiftly confirmed with bipartisan support, 98-0 in the Senate. The confirmation of Supreme Court judges has been quite different since.)

♦ "The result of collaborative efforts and compromises often leads to the proverbial committee-designed racehorse becoming a giraffe. This process is inherent in the motion-picture business and will never change. / Sometimes, however the moons, the planets, and the stars all line up... / My Hollywood experience may be atypical, and I may not be as lucky or fortunate on my next close encounter with Hollywood, but this time, the heavenly bodies did align." ("Author's Foreword: The General's Daughter, The Book & The Movie" by Nelson DeMille.)

Star Chamber prosecutions
this is a throwback to the ~ (a defense lawyer)

♦ "Strauss was relieved when the hearing board finally convened ...in Building T-3, a dilapidated two-story temporary structure built during the war on the Mall near the Washington Monument at 16th Street and Constitution... / The opposing teams of lawyers sat across from each other at two long tables positioned to form a 'T.' On one side sat the AEC's lawyers... Facing them were Oppenheimer's defense team... At

the bottom of the 'T' was placed a single wooden chair, where the defendant or other witnesses sat facing the judges. When Oppenheimer was not testifying, he sat on a leather couch against the wall, behind the witness chair." (*American Prometheus: The Triumph And Tragedy of J. Robert Oppenheimer* by Kai Bird and Martin J. Sherwin.)

♦ "Such a wrong can never be righted; such a blot on our history never erased... We regret his great work for his country was repaid so shabbily." Henry DeWolf Smyth, about Robert Oppenheimer being stripped of his security clearance and having his reputation smeared in 1954.)

♦ The courtroom scenes in the great 1980 film *Breaker Morant* are quite affecting. The entire film can be seen as the contrast between the vibrant, vivid and complex scenes of life, love, duty, honor, and death outside the courtroom and the rigid formalism and predetermined verdict of the scenes inside.

scientific agencies on ~s

♦ "Starvation budgets; skeleton staffs and crews; bare-bones care for seniors; the need for budgetary "belt-tightening"; "I'm famished, let's eat!"; "I could eat a horse!"...

♦ "Just as our hunger is not that feeling of missing a meal, so our way of being cold has need of a new word. We say 'hunger,' we say 'tiredness', 'fear', 'pain', we say 'winter' and they are different things. They are free words, created and used by free men who lived in comfort and suffering in their homes. If the Lagers had lasted longer a new, harsh language would have been born; and only this language could express what it means to toil the whole day in the wind, with the temperature below freezing, wearing only a shirt, underpants, cloth jacket and trousers, and in one's body nothing but weakness, hunger and knowledge of the end drawing nearer." (*If This Is A Man* by Primo Levi, Chapter 13, "October 1944.")

♦ "The fear of starvation is always hanging over the Indian peasant. For several centuries, at recurrent intervals, famine has thrown its withering shadow over India, but in recent years the pace has quickened. One of the severest crises, the great Bengal famine of 1943, is still frighteningly fresh in the minds of the peasants... In 1943 the roads and railroads served the Indian people even less than usual, because of the prior claims of the military. While the outside world was losing its hundreds of thousands of lives on the battlefield, India was losing them from starvation... When more than a million dead clogged the streets of Calcutta and other millions of bodies lay strewn over the fields of several provinces, censorship within India kept the world outside from appreciating the ghastly extent of the tragedy." (*Halfway to Freedom* by Margaret Bourke-White.)

♦ "Another resident of the Isle of Skye, Ross McKerlich, told the BBC that he was surprised to see the submarine outside his home when he awoke this morning." (The HMS *Astute*, stuck in the mud just yards off the coast of Scotland. The new submarine has been described as Britain's 'stealthiest' because its 39,000 acoustic panels rendered it invisible to enemy warships and submarines. The Navy used old-fashioned ropes and tugboats to tow it back out to deeper water.)

♦ "Sorry, we didn't know you were invisible." (The mocking Serbian apology offered in 1999 after its military shot down an American F-117A stealth fighter during NATO's bombing campaign.)

♦ "They seem almost like beasts, don't they? You stand close to one, and it gives off heat. The compressors pant. When it's going up a steep grade, the rods are going back and forth in a cyclic motion and the thing strains and grunts. To my mind, there is nothing more romantic. You can hear them from afar, and they speak to us of the ability to travel to different places and feel mystical things." (Gary Hunter, about the steam locomotives on the Jitong railway.)

♦ In late December 2009 modern electric rail service was disrupted in England by cold and snow which even shut down the Channel Tunnel. A steam locomotive offering "Christmas meal" trips was unaffected, however. On its final trip of the season, it picked up 100 stranded passengers at Victoria Station and carried them to cities in the south for free. (Old technology rescues new.)

♦ "Steam under high pressure is dangerous, of course. People were killed (140 in a gigantic boiler explosion in Charleston in 1838, for instance). Cassandras denounced what they saw as a troubling new American tendency to recklessness and blind ambition: 'Go Ahead!' seemed to one diarist of the time to be the watchword of the age, 'regardless of the consequences and indifferent to the value of human life.'" (*The Men Who United The States* by Simon Winchester.)

♦ "Most of the new passengers were Union soldiers, chiefly from Ohio and just released from Confederate prison camps such as Cahawba and Andersonville. The US government had contracted with the Sultana to transport these former prisoners of war back to their homes." (From the Wikipedia entry for the SS Sultana, a Mississippi River steamboat paddlewheeler that blew up on April 27, 1865, killing an estimated 1,800 of 2,400 aboard. Three of the ship's four boilers exploded, and the ship sank near Memphis.)

♦ "Many different streams of migrants were to make their confluence in the future United States. But the British stream flowed first and remained foremost. From the beginning its leaders were out of sympathy with the Government at home. The creation of towns and settlements from the wilderness, warfare with the Indians, and the remoteness and novelty of the scene widened the breach with the Old World. During the critical years of settlement and consolidation in New England the Mother Country was paralysed by civil war. When the English State again achieved stability it was confronted with self-supporting, self-reliant communities which had evolved traditions and ideas of their own." (*A History of the English-Speaking Peoples*, Volume 2, "The New World," by Winston S. Churchill.)

♦ The trailhead for the Noland Creek Trail in the Great Smoky Mountains National Park is almost at the end of The Road to Nowhere out of Bryson City, western North Carolina. In a little over a mile you will cross four wooden bridges. On the first, look to your left, and the current is going away. On the second, coming towards you. On the third, going away. On the fourth, coming towards you. Now that's twisty! It's a wonderful walk, in every season.

♦ "A great Indian river, at low water, suggests the familiar anatomical picture of a skinned human body, the intricate mesh of interwoven muscles and tendons to stand for water-channels, and the archipelagoes of fat and flesh inclosed by them to stand for the sandbars. Somewhere on this journey we passed such a river, and on a later journey we saw in the Suttlej the duplicate of that river. Curious rivers they are; low shores a dizzy distance apart, with nothing between but an enormous acreage of sand-flats with sluggish like veins of water dribbling around amongst them; Saharas of sand, smallpox pitted with footprints..." ♦ "We can control our heartbeat, which in cold, drawn-out bivouacs is preferably as slow as possible. It is necessary to disconnect the arms and the legs and draw most of one's blood into the core of the body and the head. We switch to other dimensions. We become insensitive to pain, cold, wind, homesickness, thirst, hunger. Instead of having dinner we separate from the physical world. But the further you go into the world where there are no reasons or consequences, points of the compass, time points like yesterday or today, where you only are—the harder it is to return. The reentry into the body is usually accompanied by pain." (*No Impossible Ways* by the great Slovenian climber Tomaz Humar.)

*** war, conflict, etc.

♦ "John J. Hardin, an Indiana volunteer, found it 'dreadful...to see the poor soldier just thrown in a ditch and covered over without any box.' / Burials like these dehumanized the dead and appalled many of the living. A Union chaplain observed that in pit burials bodies were 'covered over much the same as farmers cover potatoes and roots to preserve them from the frost of winter; with this exception, however: the vegetables really get more tender care...' Frequently, corpses were quite literally naked... Soldiers desperate for clothing robbed the dead... and thieves and scavengers appeared on battlefields immediately after the end of hostilities... / Soldiers worried that the piles of dead might include those still living, unable to speak..." (*The Republic of Suffering, Death And the American Civil War* by the great American historian Drew Gilpin Faust.)

*** analysis

♦ "Every culture possesses what Edward Shorter, a medical historian at the University of Toronto, calls a 'symptom repertoire'—a range of physical symptoms available to the unconscious mind for the physical expression of psychological conflict.' In parts of India, patients are said to suffer from *dhat* syndrome: they complain of impotence and have the delusion that they are losing their semen. In Nigeria, students who can't retain information and report feeling a burning sensation in their heads are sometimes given a diagnosis of 'brain fag.' The illnesses are reinforced by a local belief that the symptoms are a sign of authentic suffering, worthy of expert attention and care." He carried a Colour with the leading company, kept it in advance of all, in the face of the thickest fire, his colour-sergeants having fallen, one mortally, the other dangerously wounded...The Colour he carried was six times pierced by musket balls." (From the citation, in the *London Gazette*, for Boyes' Victoria Cross, for his actions at Shimonoseki, Japan, in 1864. Born in Cheltenham, Glos., England, Boyes joined the Royal Navy at the age of 14. He received his VC at the age of 17. Later, he was kicked out of the navy for ill-discipline and went to New Zealand. Suffering from depression and alcoholism, he committed suicide at the age of 22.)

♦ "At last my watch ended with the first signs of dawn. I passed the word along the line for the company to stand-to arms. The N.C.O's whispered hoarsely into the dug-outs: 'Stand-to, stand-to,' and out the men tumbled with their rifles in their hands. Going towards Company Headquarters to wake the officers I saw a man lying on his face in a machine-gun shelter. I stopped and said: 'Stand-to, there!' I flashed my torch on him and saw that one of his feet was bare. / "The machine-gunner beside him said: 'No good talking to him, Sir.' / I asked: 'What's wrong? Why has he taken his boot and sock off?' / 'Look for yourself, Sir!' / I shook the sleeper by the arm and noticed suddenly the hole in the back of his head. He had taken off the boot and sock to pull the trigger of his rifle with one toe; the muzzle was in his mouth. 'Why did he do it?' I asked. / 'He went through the last push, Sir, and that sent him a bit queer; on top of that he got bad news from Limerick about his girl and another chap.' / ...Two Irish officers came up. 'We've had several of these lately,' one of them told me. Then he said to the other: 'While I remember, Callaghan, don't forget to write to his next-of-kin. Usual sort of letter; tell them he died a soldier's death, anything you like. I'm not going to report it as suicide.'" (*Good-Bye To All That* by Robert Graves.)

*** analysis

♦ "There's a level of exaggeration that we've come to expect..." (An NPR report about a congressional hearing.)

♦ "The extreme language of extroverts," BBC Reel, 13 May 2021, an excellent script and narration by Susie Dent.

♦ In Italy, "*americanata*" refers to something big and flashy, over the top, like an oversized American car trying to force its way up a small, narrow Italian street. The term can be disparaging or admiring.

♦ "Ah, the word genius is passed around rather generously, isn't it... Russians assign the thinner term TAL•ant, talent... It is a bizarre example of semantic discrepancy, the same word [genius] being more substantial in one language [Russian] than in another [English]. Although my Russian and my English are practically coeval, I still feel appalled and puzzled at seeing genius applied to any important storyteller... Genius still means to me in my Russian fastidiousness and pride of phrase a unique, dazzling gift, the gift of James Joyce, not the talent of Henry James." (Vladimir Nabokov, BBC Author Archive Collection, "James Mossman talks to Russian writer Vladimir Nabokov in this 1970 interview.")

♦ **MAGNIFICIENCE**, adj. Having a grandeur or splendor superior to that which the spectator is accustomed, as the ears of an ass, to a rabbit, or the glory of a glowworm, to a maggot. (*The Devil's Dictionary* by Ambrose Bierce.)

♦ Much in U.S. society is and always has been commercial, promotional, and self-promotional. And our language reflects it: *big, super-, trendy, performative, curated, boutique*, "throw it all on the wall and see what sticks," *artisanal, craft, custom, heirloom, designer, bespoke, bedazzled* (or is it *bejazzled?*), *uber, meta, hyper, upcycled, -forward, -informed, -driven, -ized, reinvented, pop-up, verb-up, kinetic, fluid, deep, massive, generational, transactional, intersectional, insanely cool*, "try this genius hack to..." In warfare, bombs and missiles have gone from *dumb* to *smart* or *brilliant*. As Michael Goldhaber said, "The value of true modesty or humility is hard to sustain in the attention economy."

♦ “NIH scientists, studying Havana syndrome patients, find no physical trace of harm” by Jon Hamilton, NPR, Morning Edition, March 19, 2023. The syndrome is associated with U.S. State Department employees.

♦ “Internet gaming disorder is its official name.” (Type that into Wikipedia, and you are redirected to “Video game addiction.” In that article, “controversy” is mentioned five times. “No medication is FDA approved for gambling.”)

♦ Odd syndromes listed in Wikipedia include the Stendhal syndrome and the Jerusalem syndrome.

♦ Dr. Hiroaki coined the term Paris Syndrome in the 1980s. Hopefully this will not affect all those attending the 2024 Summer Olympic Games in Paris!

♦ “I think I suffer with pareidolia, I think it’s called, where I see faces in everything.” (Chris Judge, Dubliner, who takes pictures of clouds, adds a few lines to make them look like bears and cats, etc., and posts at “Daily Cloud.” See the Wikipedia entry, “Pareidolia.”)

♦ “Our primary conclusion...is that without fresh real data in each generation of an autophagous loop, future generative models are doomed to have their quality (precision) or diversity (recall) progressively decrease. We term this condition Model Autophagy Disorder (MAD), making analogy to mad cow disease.” (“Self-Consuming Generative Models Go MAD,” arXiv.org.)

♦ SAD, seasonal affective disorder, was identified in the 1980s and always related to the diminishing hours of sunlight in the winter. Now there is “summer SAD,” which supposedly relates to anxiety about heat waves, smoke from Canadian wildfires, etc., which nicely ties into anxiety about global warming.

♦ “Do you search compulsively for health information online? You might have ‘cyberchondria’” by Melissa Rudy, Fox News (on the *New York Post*), December 14, 2023. (“Cyberchondria is a subset of health anxiety.”)

♦ Read “Lesser-known Postpartum Mood Disorders” by Jena Friedman, *The New Yorker*, June 5, 2023. It’s in the Shouts & Murmurs humor section, and lists and describes such made up disorders as postpartum-anxiety anxiety, not-getting-paid-leave personality disorder; postpartum amazon amnesia, post-postpartum depression, and unspecified postpartum post-roe rage, etc. Funny!

♦ “I decided to call it Ataxic Neurodegenerative Satiety Deficiency Syndrome. So ataxic, meaning you don’t walk that well. And neurodegenerative means your brain stops working so you degenerate neurologically. Satiety is the sense that you’re full and that’s not working, so it’s deficient. (Dr. Steven Schlozman of the Harvard Medical School, a lover of zombie movies.)

♦ "Tourists are strongly advised to consult an etiquette guide before visiting one of Thailand's revered temples. The lists of taboos is very long, and the country's ruling junta is strict. / Do not turn your back on a Buddha statue, the *Bangkok Post* cautions. Do not wear sleeveless tops to the temples, or show your knees. Even President Barack Obama had to remove his shoes when he toured the Wat Pho Royal Monastery a few years ago, lest he give offense." ("Two American Instagram stars bared their buttocks at a Thai temple. Now they're under arrest." by Avi Selk, *The Washington Post*, November 30, 2017.)

♦ "The fear of starvation is always hanging over the Indian peasant... / To an American it seems strange that under such distress these villagers never used their cows for food when it was inevitable that the animals would perish from lack of fodder. Only once on our trip did we hear—and then only in scandalized whispers—of a village that was actually 'eating its cows.' For a Hindu farmer to do away with a starving cow, even to put that beloved beast out of its misery, is as unthinkable as for him to slaughter it to feed his starving and equally beloved children. / Such prohibitions as these—too fantastic to seem credible to a Westerner—appear to separate the Indian from the American farmer by a distance greater than the curve of the world that divides them. And yet the problem of getting food out of the land has similarities which reach around the globe..." (*Halfway to Freedom* by Margaret Bourke-White.)

♦ "Incidentally, it is noticed that the Weissmuller haircut, or rather lack of cut, is quite the bang among the heart flutterers. A sort of long bob. Between tunes, the musicians now join the ladies at their tables, an intimacy once strictly taboo." ("New York Day by Day" by O.O. McIntyre, from the newspaper *The Day*, New London, CONN., Thursday Afternoon, April 1, 1937.)

~ (NPR, Tell Me More, July 23, 2007)

♦ “When most adults, even older children, see an infant, they shamelessly slip into baby talk: Whoose a prettee baabee? Such a cutiee. Their speech gets smoother, slower, higher pitched and sing-songy. Researchers call this altered form of speech ‘parentese,’ but almost everybody does it—an uncle, a neighbor or the nice lady at the grocery store...” (“Scholars confirm what itsy bitsy babies around the world already know” by Susan Brink, NPR, Goats And Soda, August 4, 2022.)

♦ “The study calls it co-ruminating.” (Girls sharing their problems, i.e. “girl talk.” From “‘Girl Talk’ vs. ‘Boy Talk’ with Michel Martin, NPR, Tell Me More, July 23, 2007. It’s a wonderful segment by a great host from the good old days of NPR.)

♦ About the word “parentese.” Wikipedia redirects “parentese” to “Baby talk.” Merriam-Webster does not recognize the word. Neither does Wiktionary. Search for -ese at Wiktionary, however, and you get a wonderful list of words that incorporate that suffix, including “motherese,” which is the same thing.

♦ Baby talk (which dog owners often use to address their pets) is not the same thing as “sexy baby voice.” See the Wikipedia entry, “Sexy baby voice.” That entry has an excellent audio clip of the phenomenon. You can hear “sexy baby voice” used by hosts and guests at NPR.

♦ “Having to pay a ‘Black tax’ as they move through white areas deepens this demoralization. This tax is levied on people of color in nice restaurants and other public places, or simply while driving, when the fear of a lethal encounter with the police must always be in mind. The existential danger this kind of encounter poses is what necessitates ‘The Talk’ that Black parents—fearful every time their kids go out the door that they might not come back alive—give to their children. The psychological effects of all of this accumulate gradually, sapping the spirit and engendering cynicism.” (“Black Success, White Backlash” by Elijah Anderson, *The Atlantic*, September 2023.)

(Information overload. Quoted in *Krakatoa* by Simon Winchester. From *The Victorian Internet* by Tom Standage, 1998.)

♦ "The great events which are now transpiring in Europe are, in themselves and in their relation to the rest of the world, without a parallel in the history of the human race. We seem, as it were, to be present at the enactment of a sublime and terrible drama, with the Crimea for its

stage, and all Europe and America gazing, as in a theatre, with agonized interest at what is passing, as incident after incident brings us gradually, through one tragic scene after another, to the approach of the last awful catastrophe. For, although in other periods of the world's history, events of equal magnitude and interest may have occurred, still they never before happened under circumstances of the same publicity, so to speak, as now, when the celerity with which information is propagated the Press, the Telegraph and by steam, and the general dissemination of intelligence, have the effect of placing every incident almost before the eyes simultaneously of all mankind..." ♦ "Jungle warfare is a new kind of warfare. It tears up text books and confounds the experts." (Narration to the short war documentary "Kokoda Front Line 1942." Papua New Guinea, World War Two.)

♦ "Up until that point, the Marines had been fighting with smaller arms in the jungle and in rice paddies. So in his final hours before joining the battle, Cheatham sought out a large trunk that the battalion carried around. It contained field manuals—and Cheatham found the ones on fighting in urban settings and attacking heavily fortified positions. / And he spent the night reading them and realizing that what he was going to need were heavier weapons than what he had,' Bowden says. 'He went to the battalion armory, and there were these heavy-duty bazookas, which were World War II-era rocket launchers which fired a big, fat, 3 ½ pound rocket, which made a big hole in things.' / Cheatham and his weapons officer rounded up as many of these unused bazookas, anti-tank rifles and tear gas canisters as they could find. / And then they headed into Hue. / By the time Cheatham arrived, the Marines in Hue had suffered about 100 total casualties and gained just a block and a half. They'd have to go about another 10 blocks to take the southern part of the city. / Cheatham began putting what he'd read into practice. Instead of sending men charging into the street, he'd start by using the heavier weapons. / 'To essentially hammer the target building, fill it full of holes and then pump tear gas into it,' Bowden explains. 'This would clear out most of the enemy before he actually sent men running across the street. And instead of going through doors, you blew holes in the walls and sent men in through those holes because the enemy would likely have set up their guns to cover the entrances.'" You have to go with a good heart. You can't be cranky and fussy." (A Lummi speaking of gathering bark from the cedar tree.)

♦ "Her father would have tenderly poured a little fresh water in the seal's mouth, ready for the next life; held its claws and said 'hello again' and 'Kuana' (thank you) before dividing the meat." (An Inuit elder in Paulatuk, Canada.)

***** the sad death in the U.S. of "you're welcome," NPR**

♦ It is rare to hear an NPR reporter, analyst, pundit, etc. respond to an NPR's host's "Thank you" or "Thanks" with "You're welcome." The script is almost always, "Thank you," "Thank you!" Either speaker will often use a first name: "Thank you so much, Jane," "Thank you, Andrea," "Thanks, Leila," "Thanks, Mary Lou," "Thank you so much, Rodney," etc. The effect on the listener is to enforce the notion that NPR is a clubby, self-congratulatory place where the employees all share the same ideas and spend a lot of time thanking one another. See the following two quotes.

♦ "The way that the place operates is really congenial, but in that congeniality what you lose is the friction of differing opinions and people saying 'no, I don't agree with that, you know, I don't agree with that policy, where's the evidence' or the things that people do when they have really intellectually honest disagreements, I think we lose a lot of that." (Uri Berliner talking about NPR with Bari Weiss. From "NPR Editor Speaks Out: How National Public Radio Lost Americans' Trust," *Honestly with Bari Weiss*.)

♦ "Throughout these exchanges, no one has ever trashed me. That's not the NPR way. People are polite. But nothing changes. So I've become a visible wrong-thinker at a place I love. It's uncomfortable, sometimes heartbreaking." ("I've Been at NPR for 25 Years. Here's How We Lost America's Trust" by Uri Berliner, *The Free Press*, April 9, 2024. NPR CEO Katherine Maher called Berliner's criticism "profoundly disrespectful, hurtful, and demeaning.")

♦ "It was the hardest thing to shake when I spent time in Australia, and somebody would say, 'thank you,' and I would say, 'Yep! Oh—uh, I mean, 'you're welcome!' Because to me, it's kind of rude—like, it's not rude, but saying 'yep' and 'sure' is the equivalent of saying 'no problem,' and that is more polite in America than saying 'you're welcome.'" (Some random person named Millie on TikTok.)

♦ "Thanks Elissa." "You bet, Ari."

grotesque, according to the fancy of the spectator... [T]he flocks of wild swans; the solitary sea-mew, skimming with snowy pinions the liberated waves—formed a scene altogether strange and beautiful." (*The Englishwoman in Russia; Impressions of the Society and Manners of the Russians At Home by a Lady, Ten Years Resident in That Country*, 1856.)

♦ "While Yurii Andreievich slept his fill, the spring was heating and melting the masses of snow... / Ancient pine trees perched on dizzy heights drank the moisture almost from the clouds, and it foamed and dried a rusty white at their roots like beer foam on a mustache. / Yurii Andreievich woke up, stretched, raised himself on one elbow, and looked and began to listen." (*Doctor Zhivago* by Boris Pasternak.)

♦ Weather helped cause the famine (drought), and weather helped delay the relief (thaw), and a return to cold weather helped the relief (hard ground). (The Great Famine of 1921-22 in Russia. See "America's Gift to Famine Stricken Russia," PBS, American Experience.)

♦ "In the meantime, the thaw we had been fearing for so many days had started, and as the snow slowly disappeared, the camp began to change into a squalid bog. The bodies and the filth made the misty, muggy air impossible to breathe." (*The Truce: A Survivor's Journey Home From Auschwitz* by Primo Levi.)

♦ "Three months before Needham traveled toward the front, the Japanese advance westward had been halted, decisively, at the famous battle of Kohima in the Indian state of Assam, described variously as the 'Stalingrad of the East,' 'Britain's Thermopylae,' and 'one of the greatest battles in history.' Between April and June 1944 a small British contingent held off thousands of Japanese, the climax coming in the legendary 'Battle of the Tennis Court,' hand-to-hand fighting in the gardens of the deputy commissioner's bungalow, ending on the tennis court's center line. Kohima was the most westerly point the Japanese ever attained: after June they were being relentlessly pressed back toward Tokyo, and fought like tigers as they went..." He performed 2 handstands—one in honor of the US troops in Vietnam—as 30,000 men, women and children looked on. When he reached the end of the walk, his wife handed the 65-year-old Wallenda a martini.

♦ "I am interested to inspire people to uplift their soul and to look at the sky and say 'Wow, I can move mountains now, nothing is impossible' so that's why I love what I do... I never leave anything to chance and I have weaved this safety net in my head for the past 55 years. So I value life too much to risk my life and I do something I think much more inspiring and noble, I don't risk my life, I carry my life across." (The remarkable high-wire artist Philippe Petit.)

Child: Then why does the thunder get so angry? It makes me want to cry. Adult: Well, when anything bothers me and I'm feeling unhappy, I just try and think of nice things..." (The beloved 1965 film *The Sound of Music*. This bit of dialogue leads into the song, "My Favorite Things.")

♦ "Thunder, that is Agdy. When the devil stays too long in one place, then the God Enduli sends thunder, and Agdy drives the devil away. That is to say, at the spot where the storm burst out the devil was sitting. When the devil had been chased away, that is after the storm, there was peace around. Animals, birds, fishes, insects, and the grass, all knew that the devil had gone, and were happy and cheerful again. / As the thunder and snow together, [Dersu] said that previously they used to have thunder and lightning only in summer, and that it was the Russians who brought winter thunder with them. This was the third winter thunderstorm that he could remember in his lifetime." (Dersu speaking to V.K. Arseniev on the lower Kusun after a rare thundersnow. Just previous to the storm, a native Solon with the group had determined the presence of a devil on a large rock, which had caused them to move their camp. During the storm, a small landslide occurred from the rock. From *Dersu the Trapper*, by V.K. Arseniev.)

♦ "Thunder and lightning, once rare, have become commonplace. An eerie warm wind now blows in from the south. Hunters who prided themselves on their ability to read the sky say they no longer can predict the sudden blizzards. 'The Earth,' one hunter concluded, 'is turning faster.'" (Yanrakynnot, Russia.)

Pennies saved one and two at a time by bulldozing the grocer and the vegetable man and the butcher until one's cheeks burned with the silent imputation of parsimony that such close dealing implied." (The beginning of "The Gift of the Magi" by O. Henry. One of the greatest love stories ever written. To this day people put pennies on the grave of its author in Riverside Cemetery, Asheville, North Carolina, USA.)

♦ "Ahead of his time" and "before his time" have the same meaning, different conceptions of time. The former seems to represent the time queue, the latter the idea that "the future is forward" and moving towards us.

♦ "When we speak of artists as being 'ahead of their time,' we often mean that they were operating in a time, place or space that was not prepared for them, and wouldn't be prepared for years or decades to come. A very specific ache in the Connie Converse story is that she was ahead of her time, but by only minutes." ("Fugitive Desires" by Hanif Abdurraqib, *The New York Times Magazine*, August 14, 2022. Finely conceptualized and written.)

♦ "Johnson certainly sounds wise, ahead of the curve." (A comment about Samuel Johnson, the British lexicographer, about Johnson's acknowledgement of language change.)

♦ Glyn Williams, naval historian: "There is the Cook, which is you say, is one of the great, supreme navigators, and that part of his reputation remains. But there are worries, there is an uneasiness among many I think today, particularly among the Pacific peoples, about the legacy of Cook. I think most white Australians, most white New Zealanders, would still see Cook as a kind of founding father, a hero, almost an iconic figure, but the Maori, Aborigines, Hawaiians, many of those see a very different Cook, a despoiler, a destructive force." / Greg Dyke: "You have to place him in context, you have to place him in time, and what he did at the time was amazing." (Captain James Cook, BBC, Sounds, Great Lives, December 2002.)

♦ "I used to be in punk bands when I was a kid and I just kind of suddenly thought, 'I killed Captain Cook' sounded like a really good name for a Hawaiian punk band to have made..."

♦ "That's the way I think history should be written. As if you were living in that time. It's totally unfair to look at it from 150-odd years later and pass judgment on what those people did without knowing what their values were and what the laws were, even. It's what causes an awful lot of misunderstanding, trying to apply a different set of standards to a different nation, really." (The great Civil War writer Shelby Foote.)

♦ "It is unfair, of course, to judge someone by the standards of later times. 'Civil War surgeons had to work without knowledge of the nature of infection and without drugs to treat it,' wrote one student of the field. 'To criticize them for this lack of knowledge is equivalent to criticizing Ulysses S. Grant and Robert E. Lee for not calling in air strikes.'" (*Bellevue: Three Centuries of Medicine and Mayhem at America's Most Storied Hospital* by David Oshinsky.)

♦ "You will remember I was not a Sweet Girl Graduate of a Library School. I was a Scholar and Frontiersman and a Two-fisted He-Person and that I went to the roots of that Sissy Library and made it, within two years, an Institution of Character, a He-Library, of which we were all proud." (Charles Lummis, the head librarian of the Los Angeles Public Library, quoted in the wonderful *The Library Book* by Susan Orlean, author of *The Orchid Thief*, who correctly and rightly gives full credit to Lummis in the evolution of the library, in spite of attitudes that seem a bit old-fashioned nowadays.)

♦ "As appears from his name, Oppenheimer is a Jew, but entirely without the usual qualifications of his race. He is a tall, well set-up young man, with a rather engaging diffidence of manner, and I think you need have no hesitation whatever for any reason of this sort in considering his application." (Percy Bridgman's letter of recommendation to Rutherford's lab at Cambridge for J. Robert Oppenheimer. As the authors correctly and rightly note, Bridgman's words were "not unusual for that time and place." From *American Prometheus: The Triumph and Tragedy of J. Robert Oppenheimer* by Kai Bird and Martin J. Sherwin.)

♦ "Despite the peril in judging action (or inaction) from twenty-five years ago through the lens of society's current views regarding the crime of sexual assault and our service's significant efforts to eliminate it, a few things are clear..." ("Fouled Anchor" Investigation—Final Report. The United States Coast Guard.)

♦ "I don't get it. (Dumfounded.) Yes, I do get it. (Exasperated.) Part of social justice under this idea of being offended is that you prove you're a good person by sticking your middle finger up at very dead people in order to show that you disagree with their views." (The linguist John McWhorter about the renaming of campus buildings. "John McWhorter: Pitfalls in the Policing of Language—YouTube." Watch and listen: [youtube.com/watch?v=Fer2yb5qgWE](https://www.youtube.com/watch?v=Fer2yb5qgWE))

♦ "We are told that Columbus was no worse than the men of his race and generation—that his vices were 'those of his time.' No vices are peculiar to any time; this world has been vicious from the dawn of history, and every race has reeked with sin. To say of a man that he is like his contemporaries is to say that he is a scoundrel without excuse. The virtues are accessible to all. Athens was vicious, yet Socrates was virtuous. Rome was corrupt, but Marcus Aurelius was not corrupt. To offset Nero the gods gave Seneca. When literary France groveled at the feet of the third Napoleon Hugo stood erect." we feel we’re ~ (declining enrollments / English)

moving the deck chairs on the *Titanic*

essentially they’re ~ (political criticism of a bill)

rearranging deck chairs on the *Titanic*

it’s the same as ~ (a poor solution)

♦ Camille Vasquez: You also wrote, quote, “Imagine a powerful man as a ship, like the *Titanic*. That ship is a huge enterprise. When it strikes an iceberg, there are a lot of people on board desperate to patch up holes—not because they believe in or care about the ship, but because their own fates depend on the enterprise.” (Taps microphone to illustrate the point.) In this op-ed, you’re saying Mr. Depp is a ship, right? / Amber Heard: I’m making an analogy to a powerful man as a ship. / CV: The powerful man you’re referring to in this analogy is Mr. Depp, right? / AH: Uh, I was talking about a bigger issue actually than just Johnny... / CV: The iceberg is you in this analogy, right, Miss Heard? / AH: (Obviously surprised) Um, I would not say that, I hadn’t, I had not... (exhales) That was not what I intended, no. (The Amber Heard-Johnny Depp trial.)

♦ “She is rearranging the deckchairs on the *Titanic* and trying to run up new flags on it as it’s hurtling right into an iceberg, and that iceberg is the energy crisis...” (Ben Judah about Liz Truss. From “The United Kingdom’s next prime minister could be a foreign policy hardliner,” NPR, All Things Considered, September 2, 2022.)

♦ “And to the Chinese, if you jump on the Putin train now, you’re dumber than dirt. It would be like buying a ticket on the *Titanic* after you saw the movie. Don’t do this.” (A vile and stupid threat from a U.S. Republican Senator.)

♦ “I was so excited for the maiden voyage and launch of Cynisca. One press release, a brief pause, and they’ve become the *Titanic*.” (Inga Thompson, Olympian, removed as Director for Cynisca Cycling. Inga opposes transgender athletes in women’s sports. The company claimed she “affected Cynisca’s brand and reputation.” Cynisca was a Spartan princess.)

♦ “We’re not going to keep doing incremental changes on a contract that no longer honors what is happening right now with this business model that was foisted upon us. What are we doing? Moving around furniture on the *Titanic*? It’s crazy.” (Fran Drescher, President of SAG-AFTRA, announcing a strike. Drescher’s speech is SUPER: “Watch: Fran

Drescher delivers fiery speech on SAG-AFTRA strike” Live CBS News. <https://www.youtube.com/watch?v=J4SAPOX7R5M>)

♦ “At that point I realized that his film is like the *Titanic*, but it’s not about Jack and Rose, it’s about the people who decided to stay back on the *Titanic* and go out playing their violins.” (Vinay Shukla, about his documentary *While We Watched*, out on PBS.)

♦ “Shut up, shut up! I am busy; I am working Cape Race!” (First Operator John George Phillips to wireless operator Cyril F. Evans of the *Californian*, just 10 miles away from the *Titanic*, and just 40 minutes before the *Titanic* glanced the iceberg with a grinding jar. Evans had contacted Phillips to warn him of icebergs but never got a chance to give the message. Evans went off duty a bit later and the *Californian*, the closest ship to the *Titanic*, never went to its aid.)

♦ “All the boats together could carry 1178 people. On this Sunday night there were 2207 people on board the *Titanic*.” (*A Night to Remember* by Walter Lord. There were 675 survivors. Not all the lifeboats were full. In cases where the women requested that lifeboats return to pick up survivors, the sailors at the oars advised against doing so. In cases where the sailors spoke up about returning, the women advised against it.)

♦ “Into the halls they poured, gently prodded along by the crew [of the *Titanic*]... / Up the stairs they trooped—a hushed crowd in jumbled array... / Automobiling, as practiced in 1912, affected the attire of many ladies—Mrs. C. E. Henry Stengel wore a veil tightly pinned down over her floral hat, Madame de Villiers a long woolen motoring coat over her nightgown and evening slippers.” (*A Night to Remember* by Walter Lord.)

♦ “Lord had access to many survivors... Jack Thayer, a teen-age passenger from Philadelphia’s Main Line, who was one of only a handful of people picked out of the water by lifeboats, later recalled that the sound made by the many hundreds of people flailing in the twenty-eight-degree water, drowning or freezing to death, was like the noise of locusts buzzing in the Pennsylvania countryside on a summer night.” (“Unsinkable, Why we can’t let go of the *Titanic*,” by Daniel Mendelsohn, *The New Yorker*, April 16, 2012.)

♦ “It was not the only sound that drifted over the water. All the time while Collapsibles A and B were filling up and painfully struggling away from the scene, hundreds of swimmers were crying for help. Individual voices were lost in a steady, overwhelming clamor. To Fireman George Kemish, tugging at his oar in Boat 9, it sounded like a hundred thousand fans at a British football cup final. To Jack Thayer, lying on the keel of Boat B, it seemed like the high-pitched hum of locusts on a midsummer night in the woods back home in Pennsylvania.” (*A Night to Remember* by Walter Lord.)

♦ “Another survivor, a boy of nine at the time, realized long after settling with his family in the Midwest that he couldn’t bring himself to go to the Detroit Tigers games because the noise that greeted home runs reminded him of the cries of the dying.” (“Unsinkable, Why We Can’t Let Go of the *Titanic*” by Daniel Mendelsohn, *The New Yorker*, April 16, 2012.)

♦ “What troubled people especially was not just the tragedy—or even its needlessness—but the element of fate in it all. If the *Titanic* had heeded any of the six ice messages on Sunday...if ice conditions had been normal...if the night had been rough or moonlit...if she had seen the berg 15 seconds sooner—or 15 seconds later...if she had hit the ice any other way...if her watertight bulkheads had been one deck higher...if she had carried enough boats...if the *Californian* had only come. Had any one of these ‘ifs’ turned out right, every life might have been saved. But they all went against her—a classic Greek tragedy.” (*A Night to Remember* by Walter Lord.)

♦ The meaning is *excessive and exaggerated*, like hyperbole. Merriam-Webster gives first use of this meaning to 1984. Many websites claim the phrase somehow relates to World War I soldiers going over the top of trenches.

♦ "This has been the most dizzying, jaw-dropping, eyeball-popping, head-spinning news conference I have ever attended. And I was at Bill Clinton's news conference in 1998 when he faced the press for the first time over his relationship with Monica Lewinsky." (John Sopel for the BBC, following a press conference with President Trump on Monday, April 13, 2020.)

♦ "It's the biggest myth in the history of myths." (John Madden, the bombastic sports broadcaster, reacting to comments about something that he had allegedly done. Sports broadcasters are well known for being bombastic, flamboyant, and for their hyperbole. A great example is the wonderful *Steven A. Smith*, who is always worth listening to.)

♦ "Basketball can be the greatest game in the world. But when you lose it's like somebody reaches in and grabs your heart and shakes it right in front of you, and just sort of taunts you a little bit." (A crying coach Roy Williams about North Carolina's loss to Wisconsin in the 2021 NCAA tournament. Some were disturbed by his behavior and language. A short time later, the storied coach retired.)

♦ The politician Howard Dean screamed or shrieked (some characterized it as a battle cry) while running for president in 2004, which only helped to ruin his chances. Wikipedia has an entry, "Dean scream." The scream went "viral" in the early days of the internet, and some claim it was the very first political meme.

*** analysis

♦ Linguist John McWhorter's analysis of "totally" is interesting, as always. "It refers to feelings between you and the person you are talking to." It says that "the naysayers are wrong." "Totally tracks and nods to the opinions of others with an air of warm fellow feeling." "Totally is about shared sentiment." In his FACE typology of MPMs (modal pragmatic markers), he considers it to represent "Acknowledgment: I Hear You." (*Words on the Move* by the linguist John McWhorter, Chapter 1, "The Faces of English: Words Get Personal.")

♦ "Byron visited; so did the Wordsworths—twice—and the architect and collector John Soane and thousands of others. They carried away skulls—Sir Walter Scott had one—and fingers and teeth and bullets and cannon balls... A century later such battlefield tourism would flourish even if its more gruesome collecting tastes were suppressed." (The site of the Battle of Waterloo, in Belgium. From *The Work of the Dead: A Cultural History of Mortal Remains* by Thomas W. Laqueur.)

♦ "We the oldest community in the county, and we look like the oldest community in the county. We've been left behind. We have not benefiting as we should with this history." (Mayor Johnny Thomas of Glendora, Mississippi, about efforts to create an Emmett Till National Historic District. The mayor is referring to civil-rights tourism.)

♦ "Some "farmers" say they need agritourism to make extra money. These "farmers," however, are often Millennial and Zoomer "blow-ins" from urban areas, and, as a result, they have poor or no relations with their neighbors. Agritourism includes such things as providing event spaces for weddings and corporate retreats, cooking classes, pie classes (on a small blueberry farm), farm dinners, or using the farmhouse as an Airbnb. Naturally, nobody attending a wedding in the country wants dust or bad smells, no matter when in the agricultural season. Farmers say fertile land should be used for farming. In the Skagit Valley in Washington State, the locals are considering new zoning codes to reduce agritourism, and they are snitching on their new neighbors, resulting in stricter enforcement. It's very much an old story. Locals versus outsiders, newcomers, immigrants. It mirrors gentrification in the cities. It mirrors the surf line-up in Hawaii, which favors locals, of course. There's the culture clash of "urban refugees" versus fifth-generation farmers. Money is involved. Law enforcement and lawyers are getting involved. Where do *you* stand on the issue?

♦ "Bedouin have a remarkable ability to find their way across the desert. There is an Arab saying that a Murra (Al Murrah) tribesman can be taken on a 3-day journey across trackless country, blindfolded, and then told to

bury a coin in the sand at night. A decade later he will be able to return and locate his coin." (George B. Cressey.)

♦ "Tigers, lynxes, bears, wolverines, wapiti, deer, roe, pig, all are resident in this rich taiga. / Dersu strode on in silence, serenely seeing everything. I was reveling in the view, but he looked at a twig broken off at the height of a man's arm, and from the way it was hanging knew the direction in which the man had been going. From the freshness of the fracture he judged the time that had elapsed. Whenever I passed by a particularly obvious track, Dersu would chuckle, wag his head, and say: / 'H'm! Just like small boy. Go walk, wag head; have eyes, no-can look-see.' / As we went, I trod upon a thorn..." (*Dersu Uzala* by V. K. Arseniev.)

♦ "The reconstruction of jungle events from signs on the ground has always held great interest for me." (*Man-Eaters of Kumaon* by Jim Corbett, Introduction by Sir Maurice Hallett, Preface by Lord Linlithgow (Viceroy of India 1936-1943). It is a wonderful account of hunting actual man-eating tigers. The Jim Corbet National Park is in Uttarakhand. Tigers live there.)

And I know for a fact when he went to Korea, he didn't know whether he was going to come back or he was going to stay there. So, maybe he got a little scared when he was captured. Maybe he was pressured, tortured. I don't think it's the boy's own fault. No doubt at the time—I never seen him or never met him—No doubt he was young and he wasn't trained properly." (Charles E. Kelly, World War Two veteran and Medal of Honor recipient, when he was asked by Mike Wallace, "How do you think that we should treat US Army turncoats?" like Samuel David Hawkins, who had just returned home to the US from China in 1957. Hawkins had been a POW who, at the end of the Korean War, had decided to defect to China instead of returning home immediately. Hawkins was the youngest of only 22 American and British servicemen to defect to China after the war. The oilman M. H. Champion paid for Hawkins' return and gave him a job. In general, Hawkins was accepted on his return to the US.)

♦ “One thing we need to better understand is intergenerational trauma and history. All the research shows the survivors have no parenting skills. Now, there’s something called Boarding School Syndrome—it’s basically post-traumatic stress disorder. They have intrusive memories, flashbacks, nightmares, attachment disorder, personal shame—they’re

ashamed of being Indian—trouble sleeping, poor anger management, deficient parenting skills and the tendency to abuse alcohol. It's also called 'disenfranchised grief' because it can't be publicly mourned. Some call it a 'soul wound.'" (Denise Lajimodiere. From "Q & A with Denise Lajimodiere," *National Catholic Reporter*, July 22-August 4, 2022.)

♦ "Yeah, I mean, spend any time in Miami in the heart of the Cuban-American community, and in some sense, it's as if, these things from 60 years ago had just happened yesterday. I mean the stories and legends are kept alive, that sense of kind of inherited generational trauma, is very very strong."

♦ "My great-great-grandparents' home was burned to the ground by a mob in Illinois. You don't forget stuff like that." (A Mormon.)

*** secondary trauma

♦ "With the moral injury, that was going on with the officers, because of the scrutiny from the public, umm, uhh... I'm sure you've heard of the term compassion fatigue and secondary trauma, we felt it..." (Andy Carrier, clinical social worker, who counseled Uvalde school-shooting officers.)

*** indigenous

♦ "These brothers were born into trauma and are now sharing that trauma with those around them." (Professor Niigaan Sinclair, an Anishinaabe, head of indigenous studies at the university of Manitoba, about Myles and Damien Sanderson, 2022. See the Wikipedia entry, "2022 Saskatchewan stabbings.")

♦ "I truly believe it's a matter of time. And again, this isn't about taking anything from anyone, it's actually about lifting trauma and..." (Debbie Ngarewa-Packer, seeking to change New Zealand's name to Aotearoa.)

*** Blacks

♦ "The trauma that sometimes comes with being a black student at predominately white institutions is tangible. In their 2015 paper, 'Reimagining Critical Race Theory in Education: Mental Health, Healing and the Pathway to Liberatory Praxis,' Ebony O. McGee, a professor at Vanderbilt University, and David Stovall, a professor at the University of Illinois at Chicago, found that black college students who weather the effects of studying and living on predominately white campuses suffer from a 'physical and mental wear-and-tear that contributes to a host of psychological and physical ailments.'" ("For Black College Prospects, Belonging and Safety Often Top Ivy Prestige" by Denene Millner, NPR, Code Switch, Opinion, February 26, 2017.)

♦ "Tanya [Mosely] is also the host of the podcast *Truth Be Told*, which has a new season coming in April, exploring advances in the use of psychedelics to treat PTSD due to racial trauma." (NPR, Fresh Air, Dave Davies, March 17, 2023.)

*** war, conflict...

♦ "Case 16.—N.M.M.—, major 14th Tennessee regiment, aged 30, wounded at the second battle of Manassas August 30th, 1862. A common musket ball struck the left side of the head, a little in front of, and on a level with the parietal protuberance... He was not examined by a surgeon on the field, as no one who saw him thought he would live beyond a few hours at the most. The day following a large piece of bone was removed by his brother with his finger... At present, July 1st, 1863, he is walking about with the assistance of a crutch. His paralysis is getting very slowly better; but he speaks with a good deal of difficulty... There is a large cicatrized surface covering a depression two and a half inches long and three-fourths of an inch wide, beneath which, when the head is bent forward, the pulsations of the brain can be seen and felt distinctly..." ♦ "The wounds caused by shell high-explosive fragments and by bombs and grenades are so infinitely various that it is not possible to describe a characteristic shell wound as a type... The large fragments tear away from the limbs or trunk huge masses of skin and muscle.. [A]s a result of these injuries, the exposed muscle often loses all its natural characteristic appearance and looks exactly like a mass of mud... In other cases fragments of big shells may tear away the abdominal wall and expose the viscera, or may carry away portions of the face or neck, while the bones of the limbs may be fractured or the limb itself may be completely shot away..." (From the 1915 Bradshaw Lecture on Wounds in War by Surgeon-General Sir Anthony Bowlby, K.C.M.G., A.M.S., Surgeon in Ordinary to H.M. the King; Consulting Surgeon to the British Expeditionary Force in France; Surgeon to St. Bartholomew's Hospital.)

♦ "Living was resumed in San Pietro. Children are able to forget quickly. Yesterday, they wept. Today, there are smiles, even laughter. Tomorrow it will be as though the bad things had never happened." ("The Battle of

San Pietro" 1945 U.S. Army Documentary John Huston WWII Italian campaign 80824. Up next for the surviving soldiers on both sides and the Italian civilians was the Battle of Rapido River, and the Battle of Monte Cassino.)

♦ "The Old City had erupted. Hindus and Muslims, who had for centuries lived there cheek by jowl, in the closest proximity. Mainji's son, my inner-city first cousin, was in his late teens at the time. He left his house for some minor shopping and did not return for several days. By then he had lost his mind. Literally. Was he beaten? Raped? Tortured? He never spoke coherently after that. / Delhi's Muslims began disappearing, making their way to Pakistan. All of my Muslim classmates left without farewells. I can only assume they had safe journeys. I have not seen even one of them since..." (*Climbing The Mango Trees: A Memoir Of A Childhood In India* by Madhur Jaffrey. It's a wonderful book.)

♦ "Then Blough kept asking if his balls were all right and the corpsman muttered, 'Yeah, yeah,' but Blough was getting freaky about it, so the doc finally took Blough's unwounded right hand and cupped it against his groin. 'Your balls are there.' / Meanwhile, the vet corpsman had his cherry corpsman working on Blough's left foot. As instructed, he cut away the frayed jungle boot, and the horror of the sight suddenly dribbled from his mouth, 'Oh my God, look at his foot!' / I must be pretty fucked up, Blough thought. He couldn't tell. He was in pain, but mostly he was numb, especially after the senior corpsman thumped a morphine Syrette into his leg... Blough was lifted into a poncho. A Sea Horse landed in their smoke-marked clearing-turned-land zone. The one-legged black Marine, who was in bad shape (but who would survive), was hefted into the cabin; and the other wounded man was being helped in when Blough, waiting his turn, thought he heard the soft exit of a mortar round from its tube over the slap-slap-slap of the vibrating chopper's propellers... / Then Gunny Santomasso also heard the pops of a 60mm mortar... The Sea Horse, nose down, roared out of the LZ with its three bloody, bandaged Marines as the first shells began exploding around Alpha Company." (The affecting *Operation Buffalo: USMC Fight for the DMZ* by Keith William Nolan.)

*** analysis

♦ "It is not healthy if you circle too much around your own navel. And it is not good to recall all the traumata of your childhood. It's good to forget them, it's good to bury them. Not in all cases, but in most cases... Psychoanalysis is not my thing." (Werner Herzog talking to Terry Gross in 2023.)

♦ "I wrote Bill every day for two and a half years, from 1943 to 1945... He was on Saipan... I think he got every letter I wrote... Writing every day was something I wanted to do... [When he got back] we got back in the groove pretty quickly." (*Once Upon a Town: The Miracle of the North Platte Canteen* by the great *Chicago Tribune* writer Bob Greene.)

♦ "An unfortunate man, especially horribly and hideously mutilated, was being carried on a stretcher. The bottom of an exploded shell, which had split his face open, turning his tongue and teeth into a bloody gruel, but without killing him, was lodged between his jawbones in place of his torn-out cheek. The nurse (Lara) imagined that, under the influence of his moaning, the lightly wounded men walking beside him were about to pull this horrible iron splinter out of his cheek with their bare hands. / 'No, you can't do that! ♦ Torpedoed by a Jap sub, the USS *Indianapolis* sank in 12 minutes. Of the 1,195 crew, eight hundred and ninety sailors lived to make it into the water. Of those, only 316 survived before rescue. Many of those were killed by sharks. The men in the water clung together, forming little islands, and the marauding sharks savaged those on the outer edges. This was at a time when sailors on boats would poke a lifejacketed man in the water with a stick. If the lifejacket flipped over, it meant the man's body was gone from the waist down. trigger (emotion, memory, etc.)

memory triggers

~ lurk in wait all around (war and suffering)

♦ "Memory triggers lurk in wait all around—a particular outdoor tap or fire hydrant, the drone of an aeroplane or the squeak of sled runners, the smell of jointer's glue or just the sight of untrodden snow on a city pavement. One man never puts up a New Year's tree, because it reminds him of the one underneath which his father lay dying of hunger; others always detour round particular streets or bridges. For Grechina, one day in 1978, it was the smell of a bonfire, drifting in at her window. Having for years given the conventional version of the siege in talks to students, she sat down at her desk and wept and wrote for two days and nights, releasing a torrent of long-pent-up grief and anger." (*Leningrad* by the great writer Anna Reid.)

♦ "A few boys were playing in the yard when I got there, but I waited until they had run down to the other end before I went in the door. The same smell of chalk, that I hate to this day, and quiet... / 'Well,' [Mr. Motshill] said. 'What is it? / 'I have come to join school,' I said. / 'Speak English,' he said..." (*How Green Was My Valley* by Richard Llewellyn.)

♦ "One of the girls she was very sick. I let her come into my bed one morning, she was very ill. They brought me down to the shoe room, they stripped me off, they threw cold water over me... (prior to severe beating)...It was the shoe room you know where all the shoes were, even now if I get the smell of shoe polish, the feeling of enclosurement, it was awful..." (The long-term effects of physical and emotional abuse. From the Commission to Inquire into Child Abuse (CICA / Ryan Commission), the record of abuse (female witnesses), Chapter 9, 2009, Ireland.)

♦ "Another survivor, a boy of nine at the time, realized long after settling with his family in the Midwest that he couldn't bring himself to go to the Detroit Tigers games because the noise that greeted home runs reminded him of the cries of the dying." ("Unsinkable, Why We Can't Let Go of the Titanic" by Daniel Mendelsohn, *The New Yorker*, April 16, 2012.)

♦ "Those were dreadful days and nights after that—the bombing and the fires. Even now I can never listen to the sound of dried autumn leaves blowing along the roads because that was the sound the fires made in the wooden houses near the hospital." (Sakiko, speaking about having her baby during air raids in wartime Japan. From *East of Home* by Santha Rama Rau.)

♦ “Now before we begin, heads up for listeners. Tierra speaks openly about the suicidal thoughts that came with success, sent her to therapy, and ultimately inspired some of her darkest, brightest music yet...” (Rodney Carmichael on NPR.)

♦ “And here’s where I have to let you know that in this piece you will hear the sounds of gunshots and sirens.” (NPR’s Michel Martin.)

♦ “Warning. Some of the details of this story are graphic.” (BBC. Some listeners may have been surprised by such a “trigger warning.”)

♦ “But I completely agree with you about the description of an elephant being killed, slam, slam, slam, the bullets go in, and he says the elephant takes on an incredible senility... You know, I’ve had students year after year cry when we read that text, and I can tell you it takes a lot to make a student cry over a text... It is a wonderful, wonderful passage.” (Robert Colls, *Start the Week*, “Heart of Darkness: Conrad and Orwell,” BBC Sounds, 6 Nov 2017. British academics and students are, of course, utterly different from American ones, and that was especially true in 2017. If Colls, Professor of Cultural History at De Montfort University, Leicester, had been teaching in the US, he would have issued a “trigger warning” before reading George Orwell’s “Shooting An Elephant,” and in spite of that he would have been cancelled for claiming it had a “wonderful, wonderful passage.” God only knows what students would have said about him on the “Rate My Professor” website.)

♦ In the old days, trolls lurked under bridges or in dark forests and caught and ate unsuspecting people. Nowadays, trolls are provocateurs who lurk online. They identify a person they consider to be a "blowhard" or "full of it" and provoke and attack him. While the person who is attacked goes nuts, the trolls sit back and laugh!

♦ "I was a troll, full stop. And I am so sorry." (Someone named Chrissy Teigen, who is apparently married to a singer named John Legend, which sounds like a made-up name.)

♦ "Shitposting..." (Rest assured. It has its Wikipedia entry.)

♦ This version of *truth* is characterized by the absence of the definite article "the truth" and its replacement with a possessive adjective: my truth, our truth, your truth, his truth, her truth, their truth... But not always. "The truth" is also code for "my truth."

♦ "He was telling his truth and I think unfortunately some of that has been distorted due to some other factors, but I do think he did not intend to tell a truth that wasn't his truth." (Juror Samantha Imrie explaining her vote in the Gwyneth Paltrow-Terry Sanderson trial.)

♦ "I reiterate that our top priority is to serve younger and more diverse audiences... Now is a time for truth telling, for listening, and for action. As a news organization, we act by bearing witness and elevating voices..." (A message to staff from John Lansing, President and CEO of National Public Radio. Uri Berliner's comments about Lansing are interesting. Read, "I've Been at NPR for 25 Years. Here's How We Lost America's Trust" by Uri Berliner, *The Free Press*, April 9, 2024.)

♦ "He's someone who is looking for truth—truth from the world, and truth from himself. [His latest album is] so full of truth he originally wasn't sure if he should release it at all." ("Hiss Golden Messenger Is Looking For Truth On 'Terms Of Surrender,'" heard on NPR, World Café WXPN, January 15, 2020.)

♦ "He is a man who is basically rebooting his life and stepping into his truth and embracing the fact that he's a gay black man in the South. And so, I've always been that type of person who uses the truth, umm, and it's inspired by just what I've gone through, my folks go through, and people who are close to me go through, and then I weave it into fiction..." (Katori Hall.)

♦ "We've been silenced and misrepresented. And so, any time you get an opportunity to tell your truth, you are pushing back against so many lies and falsehoods...And being an artist and in demanding that the world just looks at you, you oddly are being an activist." (Katori Hall.)

♦ *The Truths We Hold: An American Journey*. (A memoir by Kamala Harris. With a young reader edition.)

♦ *Barbara Jordan: Speaking the Truth with Eloquent Thunder*, edited by Max Sherman, University of Texas Press.

♦ "I am with you. I stand by you. People forget you're paid for your opinion and that you're just speaking your truth." (Sharon Osbourne defends Piers Morgan in a tweet after the latter criticized Meghan Markle, saying, "I don't believe a word she says... I wouldn't believe her if she read me a weather report." He was commenting on an Oprah Winfrey-Meghan Markle interview.)

♦ "Alana Thompson is no longer 'Honey Boo Boo,' and is speaking her truth." (ABC News.)

♦ "The truth is there is now extreme anxiety in Washington and Tokyo about how to deter China's growing threat to the island. In the meantime, President Biden seems to have been speaking his own truth, that a friendly democracy must be defended." (BBC Six O'Clock News, 23/05/2022.)

♦ "This is my truth. I am not a stigma. I'm a person that walks their life." (Selena Gomez, quoted from *People* magazine, on a GMA feature story about Gomez's new mental health platform WonderMind.)

♦ "I'm coming out as non-binary, I'm speaking my truth, and you know what, this is who I am, and I'm gonna own it, and I am taking the power back from what you have to say about me." (Demi Lovato.)

♦ "They keep sayin' I should get help, but I don't even know what I need, they keep sayin', 'Speak your truth,' and at the same time put it onto me." (Megan Thee Stallion, "Anxiety.")

♦ "The same formula again and again. I want to post pictures of myself in bathing suits. When I get criticized I'll say I want to do it for others and for body positivity. When I get criticized for that, I will show sadness that the world doesn't support mental health and I'm a victim, and finally I'll get praised for being so brave for living my own truth." (Bob Loblaw. A BBC HYS about "SI Swim model Natalie Mariduena wants to 'be an example' of 'body normalcy'" by Stephanie Nolasco, August 20, 2022.)

♦ "My man at @X is tweeting some truth dis' mornin'!"

♦ "Blow it the fuck up. That was moving closer to my truth." (Jada Pinkett Smith, talking to the BBC's Kirsty Young.)

♦ "Suppose he's tellin' the truth, that fella?" / (Grimly.) "He's tellin' the truth. The truth for him. He wasn't makin' it up. / "Was it the truth for us?" / "I don't know." (Dialogue from John Ford's great film *The Grapes of Wrath*, based on the book by John Steinbeck.)

♦ A FUNNY CARTOON. A well-appointed young woman with good hair (but oddly unfocused eyes) is in the witness box of a court and saying, "Whole Truth, And Nothing But My Truth..." A frumpy tousle-haired public defender at a table is whispering to her male colleague, "College Professor." (Chip Bok, Townhall.com, Dec 13, 2023. Funny!)

*** analysis

♦ TRUTH, n. An ingenious compound of desirability and appearance. Discovery of truth is the sole purpose of philosophy, which is the most ancient occupation of the human mind and has a fair prospect of existing with increasing activity to the end of time." (*The Devil's Dictionary* by Ambrose Bierce.)

♦ Truth (noncount and count noun): (a) Whatever you can convince yourself of (b) Whatever you can convince others of (c) Whatever you can get away with—"I didn't do nuffin'" (A definition written in the spirit of Ambrose Bierce's *The Devil's Dictionary*.)

♦ "There is no dearth of prose describing the mass of humanity that made its way to the feet of the Great Emancipator that day; no metaphor that has slipped through the cracks waiting to be discovered, dusted off, and injected into the discourse a half century on. The March on Washington has been compared to a tsunami, a shockwave, a wall, a living monument, a human mosaic, an outright miracle. / It was all of those things..." (*Behind the Dream: The Making of the Speech that Transformed a Nation* by the fine writer Clarence B. Jones.)

♦ "I am not afraid of it, ghosts or something. If a ghost comes to haunt me, I will just ask where his body is so I can pick him up." (Muzahar, 26, an Indonesian, paid to collect dead bodies following the 2004 Indian Ocean Earthquake and Tsunami, which killed up to 230,000 people.)

♦ "It was fate. If you were meant to die, you died. People visiting here to see friends, or foreigners here on holiday, all were here because their time had come to die. I've lived here all my life but I was spared. How do you explain that? My time had not yet come. When I think like this, it makes me feel better. Nature decides. Things come and things disappear. If you don't just let go, it can make you crazy." (Am Changkrai-Chok, 68, Thai fisherman, talking about who and who didn't survive the 2004 Indian Ocean earthquake and tsunami.)

♦ Prime Minister to General Ismay. (24.VI.40.) It seems most important to establish now before the trap closes an organisation for enabling French officers and soldiers, as well as important technicians, who wish to fight, to make their way to various ports. A sort of 'underground railway' as in the olden days of slavery should be established and a Scarlet Pimpernel organisation set up. I have no doubt there will be a steady flow of determined men, and we need all we can get for the defence of French colonies. The Admiralty and Air Force must co-operate. ♦ "After World War II, there were some 250,000 displaced Jews in Europe. They'd escaped the Nazis or survived concentration camps. Once they returned home, however, they found their houses occupied, their communities decimated and many of their non-Jewish neighbors unwelcoming. They decided the only place they could build a new life and find true sanctuary was in British Palestine—or, as they call it, Eretz Yisrael. / Still, a great many obstacles stood in their way. A plan to circumnavigate them came by way of a clandestine organization called the Bricha. The Hebrew word means 'escape' or 'flight,' and the journey was both. It was also illegal." ♦ "After World War II, there were some 250,000 displaced Jews in Europe. They'd escaped the Nazis or survived concentration camps. Once they returned home, however, they found their houses occupied, their communities decimated and many of their non-Jewish neighbors unwelcoming. They decided the only place they could build a new life and find true sanctuary was in British Palestine—or, as they call it, Eretz Yisrael. / Still, a great many obstacles stood in their way. A plan to circumnavigate them came by way of a clandestine organization called the Bricha. The Hebrew word means 'escape' or 'flight,' and the journey was both. It was also illegal." upspeak (contempo-speak)

you know all our stories (upspeak on "stories")

it's like, ~ (2001 film *American Pie*)

◆ Upspeak used to come at the end of the sentence, but now it is quite common to hear upspeak on *any* word.

◆ Online commenters have begun putting question marks at the end of statements, indicating how they would say them with upspeak. At the end of 2022, the following headline appeared at ABC online: "Harry and Meghan always planned to be on TV?" by Andy Tillet, *New York Post*, Dec. 8, 2022.)

◆ "Apologizing only works when it clears up the reason why?" (A *New York Post* article by Ariel Zilber, quoting Jay Jaye, founder of Ace of Spades branding agency.)

◆ "Come here for a sec?" she says. "Where did you go last night? I came out and you weren't on the couch." / "I was probably in the bathroom?" ("Getting Up" by Oliver Munday, *The Atlantic*, November 2022.)

◆ "While Ed was manly, the strong, silent type, Bobby was extraordinarily effeminate. His voice was singsong with a trilling inflection that would have turned your head in the street if you overheard him. He tended to raise the pitch when he ended a sentence as if he was asking a question. It was a baroque touch that, together with the way he tossed his head, and the way his hands were held near his face, created the illusion that he was Salome wearing a diaphanous veil, not Bobby Keller, the salesperson." (*My Own Country: A Doctor's Story* by Abraham Verghese.)

◆ "I mean I think back to like just being pretty confused about what I was experiencing (upspeak). When I first tried to explain my identity, I was talking to my sister, and we just like tried, we were like, well, that means you're a lesbian, like I'm pretty sure, that kinda lines up, and it's like, we were looking for the only words that we had. / It's really hard to articulate what's going on if you don't have words for it (upspeak). It took a long time for me to even know that there were people who were non-binary, to know that I wasn't the only person in the world that had my gender identity (upspeak). (One Climber's Story. They / Them film and panel. Lor Sabourin.)

◆ Upspeak is associated with females, particularly young ones. However, older females, especially in broadcast media, have affected upspeak, most likely to sound "younger" for that demographic. Upspeak is also associated with gay men. Males or females may acquire upspeak from their own group, or affect it in solidarity with a group.

◆ People (mainly women) who use upspeak, baby talk and vocal fry are widely considered hesitant and weak, and their language is considered affected and irritating. The matter has been widely discussed and needs no comment. NPR's Selena Simmons-Duffin's "Talking While Female" animation (2014), and the *comments* relating to it, say everything that needs to be said. The issue has been settled: listen to the two *Fresh Air* Terry Gross episodes about the matter. The first was critical of upspeak, the second was essentially a retraction. The consensus is, it is wrong to criticize or judge these things.

◆ A CURIOUS CASE. "Exploring how content creators speak on TikTok—it's known as influencer speak," NPR, January 31, 2024, now redirects to "Do you have 'TikTok voice'? It's OK if you don't want to get rid of it" by Claire Murashima, Leila Fadel, and Steve Inskip, NPR, Updated on Morning Edition, February 1, 2024. The transcript does not match the audio. Mmmm... The audio is funny and good. I suspect that the original story was controversial at NPR.

◆ A FUNNY CARTOON. Two young men are sitting at a table. The man on the left is in despair: His elbows are on the table, his head is bowed, and his hands are on the top of his head, so that you can't see his face. It is a very good rendering of despair. Across the table, his nerdy Zoomer friend is saying, "Maybe try turning the mug around so its inspirational message faces you?" On the table is a mug. Looking closely, you can see that the "inspirational message" on the mug is the yellow smiley face. The upspeak indicated by the question mark in the caption is priceless. *The New Yorker*, November 7, 2022.)

◆ "The little engine that could do another round, if everyone else is?" (A not very funny cartoon, but notable for the question mark indicating upspeak. *The New Yorker*, March 6, 2023.)

◆ Michelle: "It's like, you know all our stories?" (Pronounced upspeak on "stories.") / Jim: (Confused and startled.) "Uh, was that a question?" / Michelle: "Well, I don't know. Maybe... Do you want to answer it anyway?" (The 2001 [italics mine] film *American Pie 2*. Since then, upspeak has only become more prevalent, to include males. Funny! View on YouTube I Get Nasty When I'm H*rny! *American Pie 2*)

*** analysis

◆ Linguist John McWhorter's analysis of upspeak (or uptalk or uptick) is interesting, as always. "Do you understand? Do you share the same basis of knowledge and evaluation?" "It ongoingly establishes that you and the other person are on the same page." In his FACE typology of MPMS (modal pragmatic markers), he considers it to represent "Acknowledgment: I Hear You." (*Words on the Move* by the linguist John McWhorter, Chapter 1, "The Faces of English: Words Get Personal." Listen also to "The shifting Meanings Of Our Evolving Modern Language," wbur, on point, December 26, 2016.)

♦ "He once spent a glorious summer on the Nantahala, trying to attain the Ledges Rapid, to force his way against the current into the big easy, the easy water in the long welcoming pool above it. Try as he might with all his skill and might, he was never able to beat the last six feet of current, the wild green heart—the muscular organ—of that spirited little river. And perhaps it was just as well. For he never felt any regret at his failure, only the good clean memories of the attempt and the effort against that adversary of real worth. There was a good lesson in that."

♦ In the oil business, oil and gas fields are upstream assets (source), pipelines are midstream, and refineries and retail outlets are downstream.

♦ In the area of health, upstream interventions are things like wireless scales for weighing people, and free rides to medical appointments. These measures are largely preventative in nature and save money in the long run. Downstream outcomes are things like hospitalizations and surgeries.

♦ *Mitigating the Downstream Impact of US-China Competition on American Democracy* by Jessica Chen Weiss, Cornell University.

♦ Upstream; downstream; river right (kayaking); river left (kayaking); the left bank; the right bank; the north / south / east / west bank; the headwaters; the upper reaches; the middle reaches; the lower reaches... (Orientation, position on a river.)

♦ The trailhead for the Noland Creek Trail in the Great Smoky Mountains National Park is almost at the end of The Road to Nowhere out of Bryson City, western North Carolina. In a little over a mile you will cross four wooden bridges. On the first, look to your left, and the current is going away. On the second, coming towards you. On the third, going away. On

the fourth, coming towards you. Now that's twisty! It's a wonderful walk, in every season.

uncanny valley of dolls
one craftswoman is populating the ~ (see quote below)

♦ It’s a phenomenon known as the uncanny valley—if something looks human-like but not believably so, it becomes unnerving and even frightening.” / As Prof Helen Hastie says: ‘If it’s too human-like, it will put off the human.’” (“Tesla’s Optimus and the problem with humanoids” by Zoe Kleinman, BBC, October 8, 2022.)

♦ ‘Uncanny valley’ is the term used to describe the uncomfortable feeling people have when making eye contact with an android—a robot made to resemble a human.” (According to an article about the viral “uncanny valley” makeup trend on TikTok. The #uncannyvalleymakeup has 41.5 million views.)

♦ “Creepy new AI animates photos to bring the dead back to life” by Joshua Hawkins, June 8th, 2022. (The app *Deep Nostalgia* from MyHeritage.)

♦ “One master craftswoman is singlehandedly populating the uncanny valley of the dolls. Denise Hall, a 37-year-old doll artist from Wales, creates hyperrealistic silicone babies that she later hawks for more than \$4,000.” (“Vally of the dolls I make ‘scary’ realistic dolls—but parents love them like real babies” by Brooke Kato, *New York Post*, October 27, 2023.)

♦ “There was something improbable about how very bourgeois and ordinary it all was: the more normal, the more human the conversation, the less the speaker seemed like a human being. There’s something ghastly about a monkey imitating the ways of a man... At the same time Krymov had a clear sense that he himself was no longer a human being—when had people ever had conversations like this in front of a third person...?” (The investigator at the Lubyanka interrupts his interrogation to have a banal, flirty conversation with his wife, while Krymov listens and waits for his interrogation to resume. From *Life And Fate* by Vasily Grossman.)

♦ “Over the pass we dropped at once into a gulch. The place was extraordinarily broken. Deep crevices, encumbered with boulders and trunks, streams and rocks, all thickly overgrown with a carpet of moss; the whole scene reminded me vividly of a picture of Walpurgis Night. It would be hard to imagine a wilder and more repellent scene than that grim gorge. / Sometimes it happens that mountain and forest have such a cheerful and attractive appearance that one would be glad to linger there for ever. In others mountains seem surly and wild. It is a strange thing that such impressions are not purely personal and subjective, but were felt by all the men in the detachment. I tested this several times and was always convinced that it was so. That was the case here. In that spot there was an oppressive feeling in the air, something unhappy and painful, and the sensation of gloom and ill-omen was felt by all.” (*Dersu Uzala* by V.K. Arseniev.)

valley of death (figurative)

Valley of Death

~, a term from the pharmaceutical industry

♦ “When you talk to the CEOs of these companies, they are backed by venture capital and they all talk about what they call the Valley of Death, which is a term you usually hear from the pharmaceutical industry, when they’ve invented a new drug, but getting it to the marketplace before they run out of money is a real challenge. And the Valley of Death is now a term you hear in the defense industry from these high-tech Silicon Valley-styled military start-ups.” (Getting Pentagon defense contracts to companies before they fail.
