

# MEMORANDUM

April 18, 2024

Information - ANNUAL

Office of Strategic Initiatives  
MONTGOMERY COUNTY PUBLIC SCHOOLS  
Rockville, Maryland

TO: High School Principals

FROM: Stephanie S. Sheron, Chief <sup>SSS</sup>  
Kecia L. Addison, Director, Department of Shared Accountability *Kecia*

SUBJECT: ***Class of 2023 Advanced Placement and International Baccalaureate Exam Participation and Performance***

## Summary

- This memorandum provides information pertinent to the participation and performance of Advanced Placement (AP) and International Baccalaureate (IB) examinations for 2023 graduates in Montgomery County Public Schools (MCPS). In 2023, 59.3% of MCPS graduates took one or more AP exams; 17.3 percentage points more than graduates in Maryland and 24.6 percentage points more than graduates in the nation. Additionally, 46.1% of the 2023 MCPS graduates earned a score of 3 or higher on at least one AP exam, while 27.4% of graduates in the State of Maryland and 21.7% of graduates in the nation earned an AP score of 3 or higher.
- Although decreases in AP exam participation and performance rates were observed for all graduates in the last three years, some high schools were able to show improvement on this measure. From 2021 to 2023, six out of 25 high schools saw increases in AP exam participation rates for graduates identified as Black or African American and three of them for graduates identified as Hispanic/Latino. Richard Montgomery and Walt Whitman high schools are the two schools that demonstrated an increase in AP exam participation for graduates who identified as Black or African American and Hispanic/Latino. Across all high schools, two out of 25 observed increases in AP exam performance for graduates identified as Black or African American. However, none of the high schools had improved AP exam performance rates for graduates identified as Hispanic/Latino.
- The IB exam participation rate for 2023 graduates, districtwide, was 6.7%, a small decrease of 0.7 percentage points compared to both 2021 and 2022. The proportion of all 2023 graduates who earned a score of 4 or higher on at least one IB exam was 5.2%, a decrease of 1.3 percentage points compared to 2021 and 2022.
- In 2023, the percentage of graduates who took at least one IB exam ranged from 15.2% to 32.2% among schools offering IB programs. The percentage of graduates in 2023 who earned a score of 4 or higher on at least one IB exam ranged from 6.4% to 23.9% among schools offering IB programs. From 2021 to 2023, only Springbrook High School demonstrated a steady increase in IB exam participation (10.1 percentage points) and performance (2.5 percentage points) for all student groups.
- AP and IB exams are indicators of student readiness for college-level coursework, and colleges use exam scores for possible course credit and placement of students in non-introductory courses. One way to gauge a student's college readiness is by an AP exam score of 3 or higher or an IB exam score of 4 or higher. The overall AP and IB participation rate for MCPS graduates decreased from 67.4% in 2021 to 64.2% in 2022, and declined to 60.8% in 2023. The percentage of 2023 graduates who scored college-ready on at least one AP/IB exam was 47.6%, a decline of 7.1 percentage points from 2021 and 2.7 percentage points from 2022.

## Links/Additional Information

Additional information on AP/IB exam participation and performance by school for 2023 graduates can be accessed on the MCPS Data dashboards via the following links:

*Note.* AP = Advanced Placement; IB = International Baccalaureate; Black/African Am. = Black or African American; FARMS = Free and Reduced-price Meals System; EML = Emergent Multilingual Learner; ReEML = Recently Exited Emergent Multilingual Learner. AP or IB exam results reflect all scores received by July 2023. Results for graduates identified as American Indian or Alaskan Native and Native Hawaiian or Other Pacific Islander, or non-binary are included with all graduates, but are not reported separately due to small sample size. Results are reported separately for graduates who received FARMS, special education, and EML/ReEML services during Grade 12. To comply with federal requirements, any percentage rates greater than or equal to 95.0% or less than or equal to 5.0% are noted as ≥95.0 or ≤5.0, respectively, and the numbers of graduates, of those who took one or more AP and/or IB exams, and of those who earned a college readiness score on one or more AP and/or IB exams are not reported (--). Additionally, results are not reported (--) for groups with fewer than 10 total graduates. For groups of between 10 and 20 graduates, only the percentage rate is reported.

<sup>a</sup> The college readiness scores are met by attaining at least an AP exam score of 3 or higher or at least an IB exam score of 4 or higher.

<sup>b</sup> Includes graduates enrolled in MCPS special schools during Grade 12.

<sup>c</sup> School has graduates who participated in IB exams.
