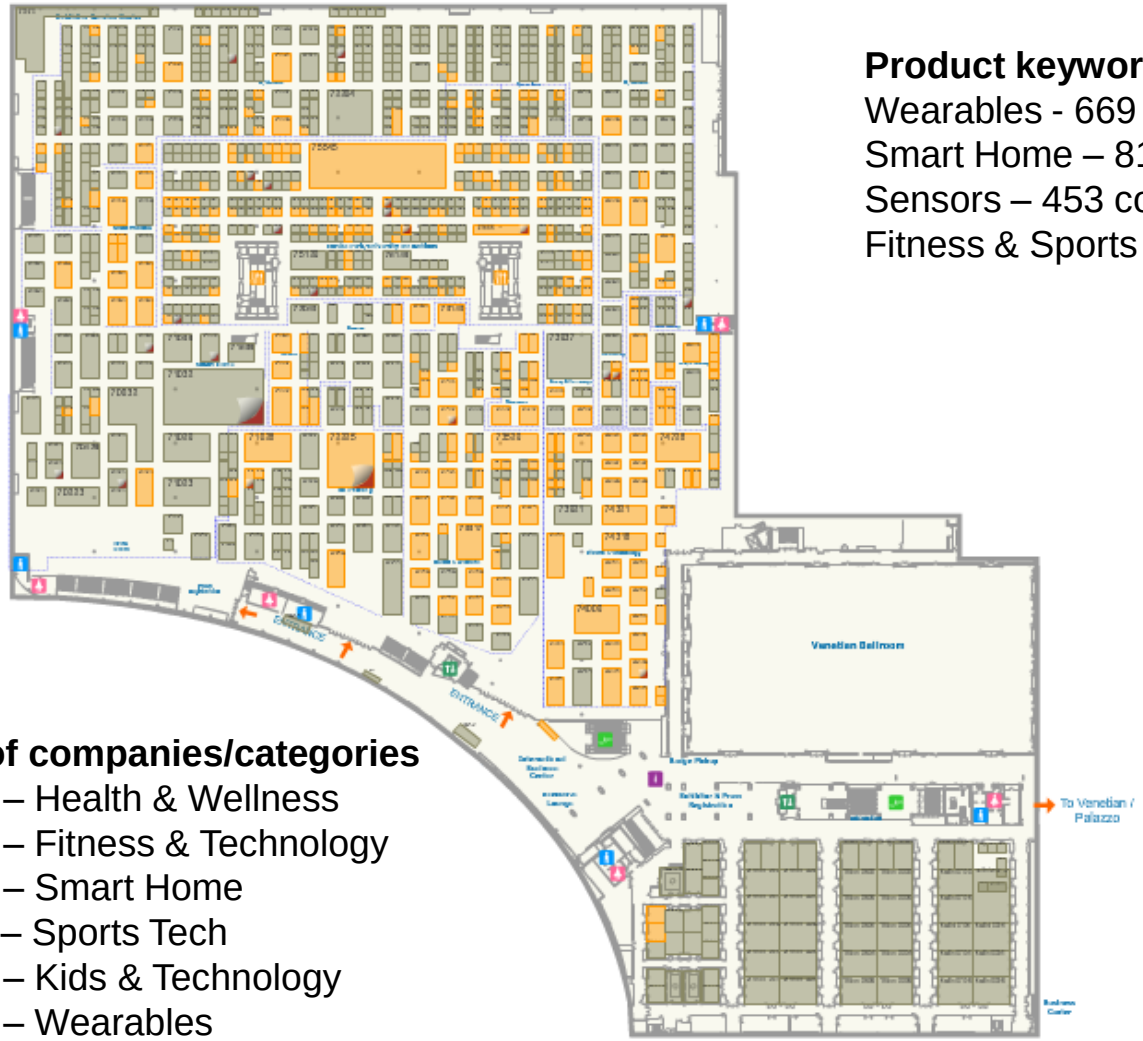
Wearables & IoT Companies



Product keyword search (LVCC & Sands) :
Wearables - 669 companies (all exhibits)
Smart Home – 817 companies
Sensors – 453 companies
Fitness & Sports – 429 companies

Tech West at Sands

# of companies/categories
89 – Health & Wellness
62 – Fitness & Technology
66 – Smart Home
11 – Sports Tech
6 – Kids & Technology
13 – Wearables

Fashion Wearables - MISFIT / Swarovski

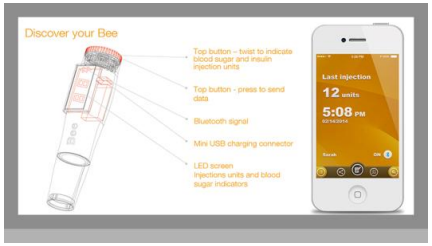
Solar charging design by Swarovski

MISFIT

MISFIT with Swarovski Crystal

Wearables for Health

TEMPTraq Intelligent thermometer
www.temptraq.com
- No pricing, waiting for FDA approval
- 24 hrs continuous tracking and alert of temperature
- Bluetooth Smart
- Smartphone App



Vigilant Bee Smart Diabetes Tracker
www.usvigilant.com/bee
- $69
- Logs the amount of insulin unit & blood sugar level
- Bluetooth Smart connection to send data via smartphone or tablet

Bellabeat
www.bellabeat.com/shell
- $119
- Listen to baby's heartbeat
- Track baby's movement
- Play sound/music to baby while in the womb
- Baby monitor
- Track air temp/humidity

OKU Skin Sensor
www.getoku.com
- $299
- Use light to see underneath of the skin
- Alert skin conditions
- Recommend diet and other daily actions

IEEE

Wearable GPS Tracker for Kids & Pets

Paxie™ Kids Tracker by
www.oursafefamily.com

- $175 pre-order
- Location via GPS
- Location tagging
- Boundary setting
- Activity tracking
- Heart rate
- Band removal alert

hereO Kids Tracker
www.hereofamily.com

- $179 pre-order
- Battery lasts up to 60 hrs
- Build-in SIM that works in 120 countries
- Supports GSM/GPS/WiFi
- Place notification
- Panic alert
- Temper alert
- Raised $215k from Indiegogo with goal of $100k

Weenect Kid & Pet Trackers
www.weenect.com

- ~ €129 - €149
- Real-time tracking
- Geofence, In & Out
- SOS button w/voice
- Water-resistant

Wearable for Sports & Fitness

Lechal Smart insole

www.lechal.com

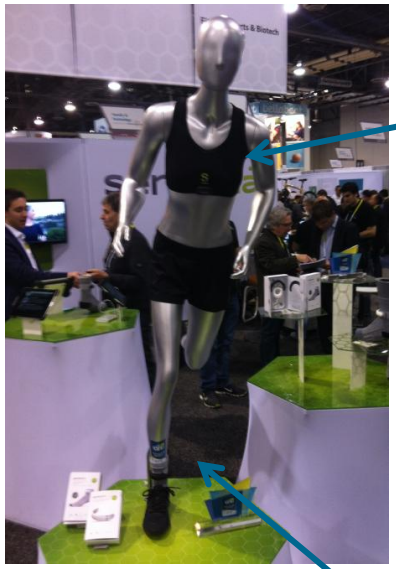
Mobile App

Sensor module
- Activity Tracking
- Haptics feedback
- Water resistant
- Anti-bacterial

Battery

Sensoria Wearable Sensors

www.sensoria.com



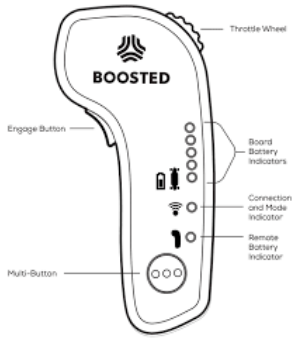
Sensoria Fitness Bra or T-Shirt
- Antimicrobial
- Moisture evaporation
- Machine Washable
- Works with popular HRM (e.g. Polar H7 or Garmin Premium)

Sensoria Socks
- Textile sensors
- Conductive fiber
- Magnetic attachment
- 3-axis accelerometer
- Bluetooth Smart
- 6 hrs battery

Wearable/Carryable for the Last Mile

Acton Rocket Skates
www.rocketskates.com
- starting at $499
- 6 – 10 miles range
- 12 mph max.

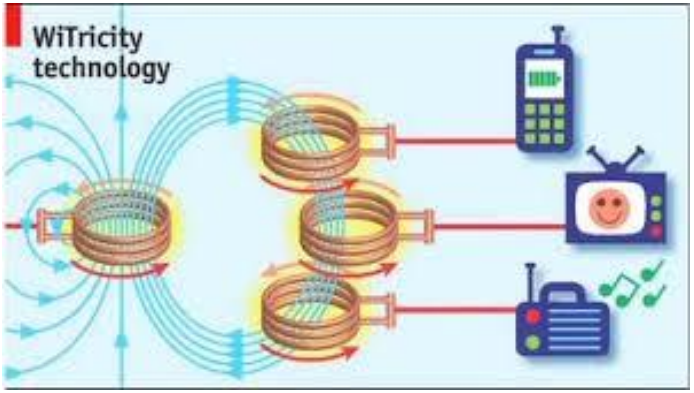
Boosted Boards
www.boostboards.com
- $999 - $1499
- 6 – 7 miles range
- 18 – 22 mph
- 15 – 25% hill gradient



Handheld remote control for Boosted board

IoT & Smart Connected Things (1)

www.witricity.com



Extender plates

Laptop powered by Witricty charger mounted under the table

Witricity Wireless charging pad via electron magnetic resonance

IoT & Smart Connected Things (2)

Valve Control

Moisture/ nutrition Sensor

goTenna for wireless messaging
www.gotenna.com
- $149.99 for a pair
- 2-watt radio VHF radio waves (151-154 MHz)
- Works up to 6 miles
- 24+ hours rechargeable Lithium-polymer battery for continuous use
- BluetoothLE data interface
- Water-resistant

Edyn – smart garden system
www.edyn.com
- Moisture/nutrition sensing ($99.99) and valve control ($59.99)
- Solar powered
- Supports WiFi

Smart Devices

Dual display smartphone.
E-Ink touch screen on the back.

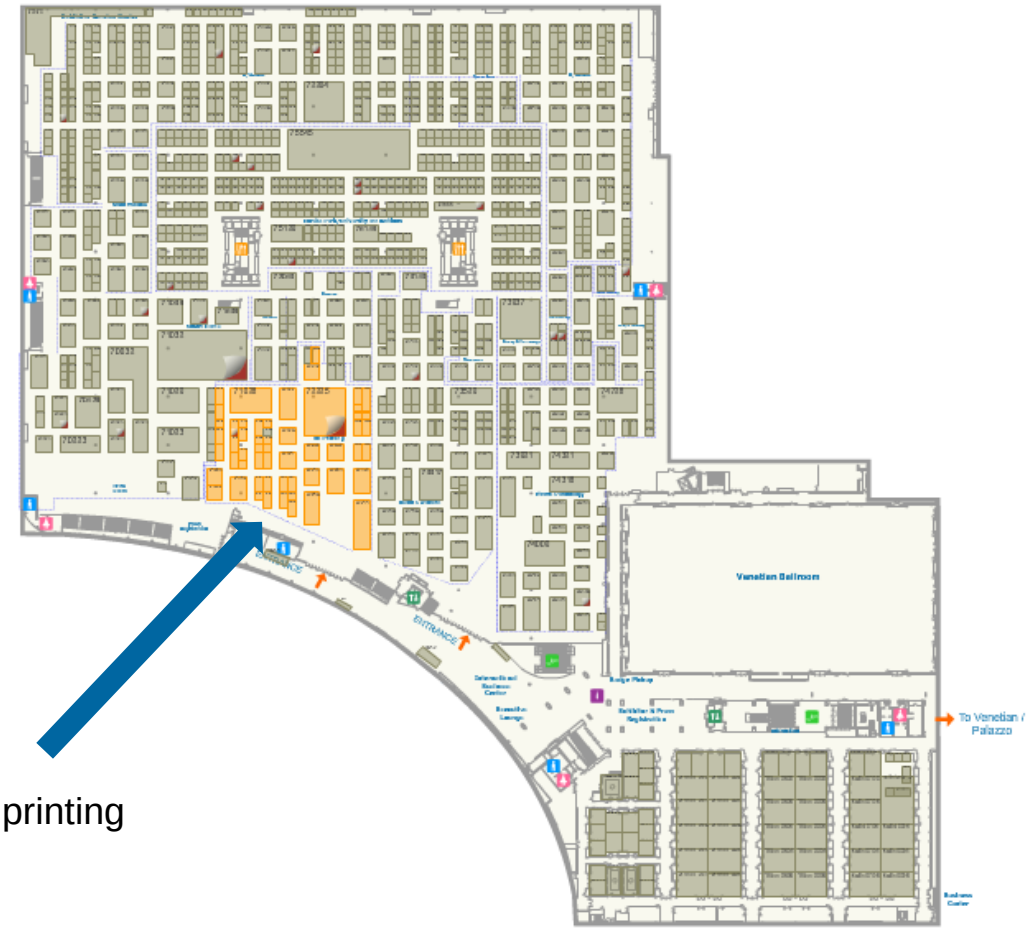
www.yotaphone.com

Smart Mug
- Color touch display
- Smart sensing
- Wireless charging
- Supports WiFi

Bluetooth tracker w/remote shutter for taking selfie

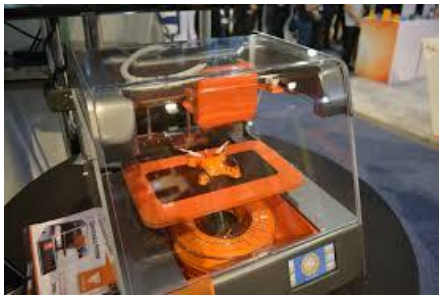
Click Button

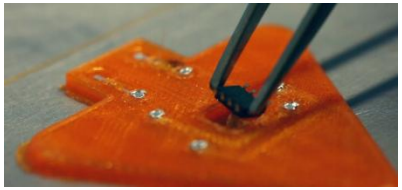
3D Printing Companies

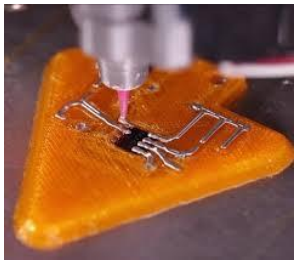


57 companies in 3D printing

Voxel8 - 3D Electronics Printer



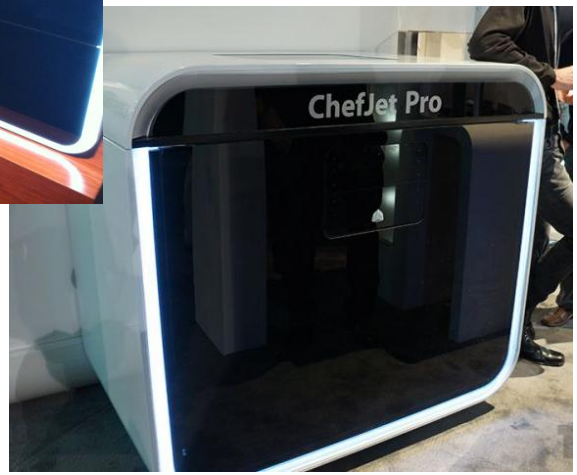




Pre-order for $8,999
www.voxel8.co

- co-print matrix materials such as thermoplastics and highly conductive silver inks

3D Systems – 3D Printer for Food



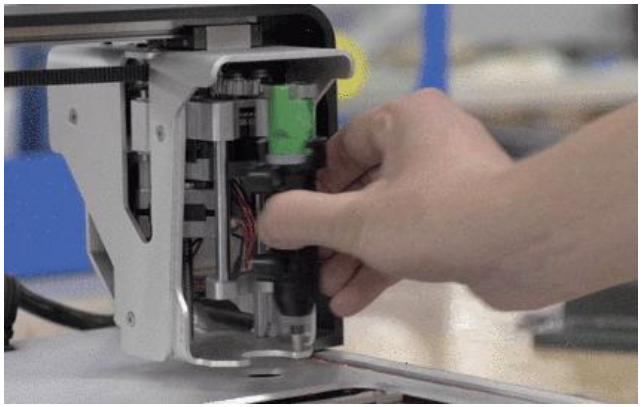
Drums, guitar, keyboard are made by 3d-printers from 3D Systems

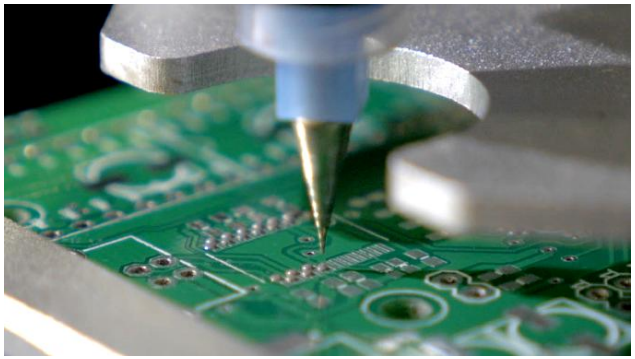
ChefJet Pro: ~$20,000
ChefJet: TBD

www.3dsystems.com/es/chefjet
- prints in a variety of edibles, including sugar, chocolate or candy
- ChefJet Pro supports a build volume of 10x14x8”

ProJet® 3D Printers
www.3dsystems.com/

Voltera Circuit Board Printer





www.voleterainc.com

Starting at $1,199 on Kickstarter

- Prints 2-layer PCB on FR4 with 8mil space/trace with silver conductive ink
