

Meet The **New** OASIS

Thousands of libraries around the world use ProQuest OASIS to quickly find and buy academic content online with more accuracy. OASIS provides powerful collection development for today's academic librarians through online ordering, new title notifications, shelf-ready services for print and support from our collection development experts.

*So, how do we
improve on a
good thing?*

OASIS was originally created to bring the world of academic print titles to librarians. Now librarians can find electronic books, streaming video, publisher direct platforms and other digital resources in OASIS. With the content of OASIS continually improved, it was time for an intensive design and functionality refresh. Modern designs of screens and navigation improve workflow, so you work **faster** and **more efficiently** with **fewer costly errors**.

And we're not finished. ProQuest is continuing to invest in ongoing initiatives to upgrade the speed, efficiency and functionality of OASIS.

SIMPLE, EASY-TO-READ PAGE DESIGNS HELP YOU FIND CONTENT QUICKLY

When users can review search results, lists or new title notifications quickly, more time can be spent on making the best choice for content. That's why the new OASIS features:

- Intuitive organization of information for fast navigation
- Visually simplified page design with essential information made more evident
- Icons and color-coding to present useful facts in concise ways

MORE CONTENT TO SEARCH AND SELECT GIVES YOU MORE CHOICES

The OASIS catalog of content now includes:

- Over 39 million print titles
- Over 2 million electronic titles
- Over 36,000 streaming video titles
- New publisher direct platforms, providing convenient access to the preferred academic publishers
- Metadata powered by Bowker Books In Print® bibliographic information, the most trusted source in the industry
- Hard-to-find and out-of-print titles integrated into search results through iFound

BETTER INFORMATION FOR CONFIDENT PURCHASE DECISIONS

- Purchase electronic titles in a variety of acquisition models, licensing, platforms and aggregators to better align with your library's collection strategy.
- Smart profiling provides the flexibility to customize approval plans to be e-preferred based on publisher hierarchy and wait length.
- Reliable availability of print information is displayed so you can make informed decisions on titles.
- More print titles "in-stock" for fast shipment through our strategic partnership with Ingram Content Group.

INTEGRATIONS REDUCE INEFFICIENCIES

Our integrations (API and EDI) with leading ILS/LMS systems like Ex Libris Alma, and Innovative Interfaces Sierra reduce the manual work needed to transfer information from system to system.

NO FEES FOR FUNCTIONALITY

From unlimited holdings loads to integration support, there is no cost to use OASIS's powerful tools and information.

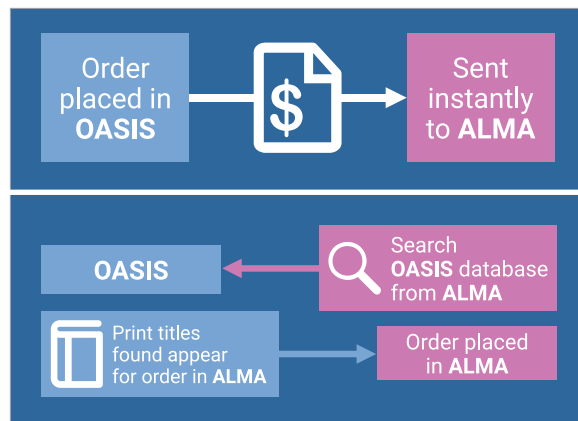

OTHER OASIS SERVICES

- Drive discovery through customized, accurate records across your entire collection. ProQuest delivers brief MARC records electronically to your library system even before a book is delivered, enabling library staff and students to know which books are on order. In addition, ProQuest offers various levels of cataloging to suit the specific needs of your library. These include records for OCLC via their WorldCat Collection Manager as well as generic, derived custom and original MARC Records provided by our ProQuest catalogers. (Fee applies)
- Get books delivered shelf-ready. Customized physical processing of books can include any of the following: barcodes, bookplates, book pockets, date due slips, spine labels, spine label protectors, stamping, security strips, and outer book cover options. (Fee applies)
- Optimized new title and approval plan profiles. Our collections consultations create print or ebook profiles to meet any combination of librarian requirements, from simple to complex. Our collections consultants are experienced librarians with Master's degrees in Library and Information Science and consider themselves part of your library's team. (No cost)

RELATED PROQUEST PRODUCTS

Ebook Central is ProQuest's award-winning platform for electronic books. Ebook Central's integration with OASIS provides automatic load of your subscription to Academic Complete as a collection to avoid duplications. And there's no fee for MARC records from titles ordered on Ebook Central through OASIS.

Ex Libris Alma is the fastest growing library management system in the world. Deep integrations between OASIS and Alma streamline the workflow efficiently and automatically.

Ask your ProQuest sales representative for a demonstration of everything the new upgraded OASIS can do for your library.
