

## Supplementary figures

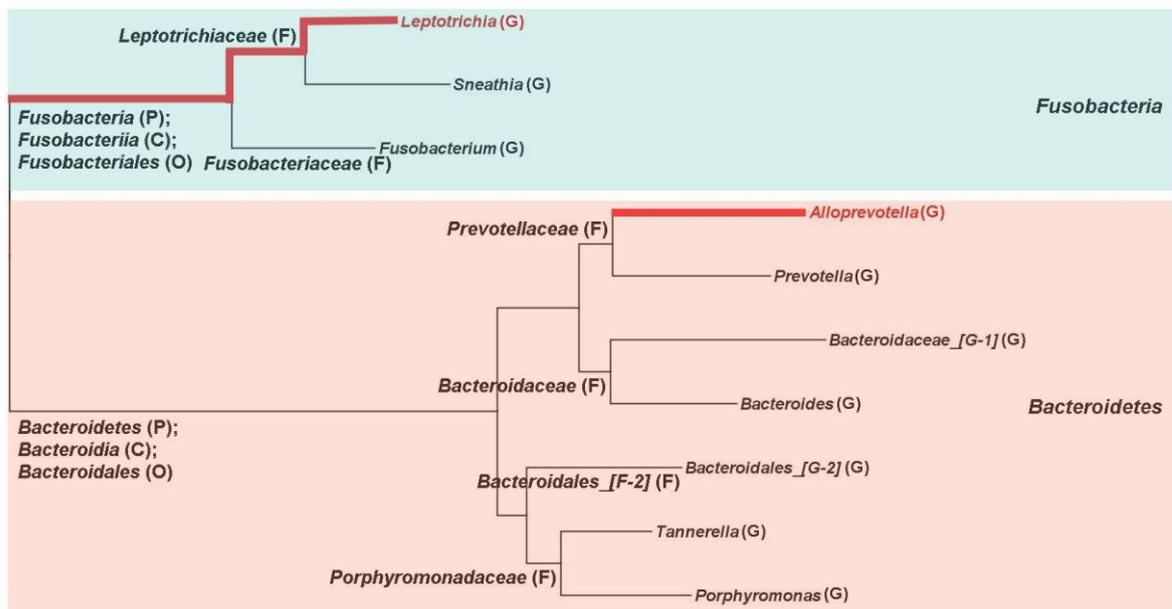

Supplementary Figure 1: Flow chart of cases and controls inclusion in the American Cancer Society Cancer Prevention Study (CPS) II and National Cancer Institute Prostate, Lung, Colorectal, and Ovarian Cancer

Supplementary Figure 2: Overall oral microbiota structure according to subsequent pancreatic cancer status in a case–control study nested within the CPS II and the PLCO cohorts

Supplementary Figure 3: Phylogenetic tree of taxa (phylum-genus) associated with pancreatic cancer risk in the combined CPS II and PLCO cohort.
