Movelat[®] Gel

Prescribing Information

Presentation: Movelat Cream contains mucopolysaccharide polysulphate (MPS) 0.2g and salicylic acid 2.0g in a white vanishing cream base to 100g. Movelat Gel contains the same active constituents in a colourless gel base. **Indications:** For the relief of symptoms associated with painful inflammatory conditions of the musculo-skeletal system, including traumatic conditions such as sprains and strains. **Dosage and Administration:** Movelat Cream: Two to six inches (5-15cm) to be massaged into the affected area up to four times daily. The cream may also be used with a dressing, when it should be applied thickly. Movelat Gel: Two to six inches (5-15cm) to be applied to the affected area up to four times daily. **Contra-indications, Warnings:** Should not be used on large areas of skin. Should not be used on broken skin, sensitive areas of skin or mucous membranes. Should not be used on children under the age of 12 years. **Precautions:** In cases of sensitivity to salicylates, allergic skin reactions may occur. **Pregnancy and Lactation:** There is no evidence to suggest that Movelat should not be used during pregnancy and lactation. **Pharmaceutical Precautions:** Nil. **Legal Category:** P. **Basic NHS Price:** £4.14 per 100g tube of Cream or Gel. **Further information:** Nil. **PL:** Movelat Cream 0542/5001R. Movelat Gel 0542/0006R. **PL Holder:** Farillon Limited, Romford, RM3 8UE.

**WORLD CONFEDERATION FOR PHYSICAL THERAPY
PRIVATE PRACTITIONERS INTERNATIONAL MEETING
HONG KONG
30 NOVEMBER - 04 DECEMBER 1992**

INTRODUCTION

The World Confederation For Physical Therapy is delighted to announce its first International Private Practitioners Meeting. Specifically aimed at those either already in private practice or those considering making the move to private practice, this meeting will provide an unprecedented opportunity for practitioners to meet on an international level. Colleagues working in the non-private sector are also welcome to attend.

TOPICS

- The Latest Professional Methods And Techniques
- The Changing World Of Business Practice.

Keynote speakers and delegates will gather from all over the globe to discuss and exchange ideas on these topics. It is fitting that a business forum be held against the spectacular backdrop of Hong Kong, one of the most dynamic business centres in the world.

ISOKINETICS AND EXERCISE SCIENCE meets the professional needs of the contemporary exercise scientist, medical practitioner, allied health clinician, and industrial specialist through a consolidating focus on the field of isokinetics. **IES** serves as a vehicle to unify theoretical, physiological, and clinical information into one source.

This comprehensive approach includes traditional articles on basic and applied isokinetic research as well as practical features incorporating isokinetic technology and techniques into everyday clinical situations. This unique balance of the scientific and practical addresses needs of the practicing physician, surgeon, physical therapist, athletic trainer, chiropractor, exercise physiologist, industrial specialist, and occupational therapist, as each attempts to meet the exercise needs of clients and patients. **IES** promises to become the focal journal for this exciting, ever-expanding field.
