

Study site		n	# of Q's correct, of 25 (median)				Wilcoxon sign-ranked test results	
Country	Hospital		Pre-training	Post-training	Diff	IQR	V	p-value
	Kawolo	142	3	4	1	1.00	5015	<0.001
	Mubende	130	3	4	1	1.00	2627	<0.001
Uganda		272	3	4	1	1.00	14835	<0.001

Appendix 2: Testing the change in median confidence rating for twelve EC skills using the Wilcoxon sign-ranked test matched on participant. This shows the median confidence rating was higher after participation in the training when assessed for both Ugandan sites and when stratified by site
