## Petition Information

A **Student Branch** provides opportunities to meet and learn from fellow IEEE student members and engage with professional IEEE members locally. An active IEEE student Branch can be one of the most positive elements at a college or university offering programs, activities, and professional networking opportunities.

The first step in **forming an IEEE Student Branch** is to complete and submit a petition. You will need to have faculty and department support, as well as signatures of at least 12 active IEEE student members. The required information is indicated by an asterisk(\*).

*As the leader of your student branch, you will have the opportunities to develop new opportunities that engage the student body at your university or college. Being an IEEE Volunteer can help you do just that.*

*Here are some of the programs and resources that we offer to assist our leaders: [Managing an IEEE Student Branch](#)*
