

2021 IEEE Second International Conference on Control, Measurement and  
Instrumentation (CMI) – *Virtual*  
Instructions for Submission of Revised Manuscript

A. The authors of ‘Accept without changes’ papers do not need any actions right now. Please wait for our instructions for Camera Ready Manuscript Preparation and Registration. Note that your final submission must be in IEEE Conference template, and will be evaluated for plagiarism using Cross-Check (from i-Thenticate) software. The current plagiarism report is available a supplementary file in your author console under Microsoft CMT portal.

B. All manuscripts declared under ‘Major revision’ / ‘Minor revision’ should be revised and submitted according to the following instructions:

1. All submissions must strictly follow IEEE Conference Template, available at <https://www.ieee.org/conferences/publishing/templates.html>. Please check the specifications of figure resolutions at the IEEE Template. Please note that registered papers not matching with IEEE Conference template will *not* be sent for uploading to the IEEEExplore Digital library.

2. The changes in the revised manuscript as per the review comments must be coloured with a different coloured font for easy identification. Do not indicate deletions, only new inclusions/alterations need to be marked.

3. The maximum manuscript length is 6 pages. If the length exceeds 6 pages to incorporate the revisions, the authors may judiciously adjust the lengths of sections / subsections keeping the spirit of the discussion intact. The revision file will be in PDF format only.

4. For manuscripts listed under ‘**Major Revision**’, the authors need to prepare an ‘Author Compliance’, where the authors must provide a response against each review comment and the revisions made in the manuscript in the following format:

-----  
Manuscript No:

Authors:

Reviewer #1:

Query 1: < copy and paste a single comment here >

Response: < provide your response against the query>

Query 2: < copy and paste a single comment here >

Response: < provide your response against the query>

...

...

-----  
The author compliance and the revised PDF manuscript file to be merged in a single PDF and renamed as <CMI\_paper ID> and replace the original submission in the Microsoft CMT portal.

5. For manuscripts listed under ‘**Minor Revision**’, no separate Author Compliance is required. However, changes in the revised manuscript must be marked as per guideline# 2.

**2021 IEEE Second International Conference on Control, Measurement and  
Instrumentation (CMI) – Virtual**

**Instructions for Submission of Revised Manuscript**

6. Please note that all the revisions (both under major and minor revision category) will be re-reviewed. If they do not sufficiently address the review comments, the manuscript will be rejected. The decision of Technical Program Chair will be final in this regard.
7. Changes of authorship (order, inclusion or deletion) is permitted. In such a case, a separate explanation has to be included at the end of Author Compliance clearly stating the reason(s). Please note that such changes may not be approved without sufficient reasons.
8. Title of manuscript is not allowed to be changed, otherwise received as a technical comment from a reviewer.
9. All revisions must be submitted through the Microsoft CMT Portal. No email communication will be entertained for submitting the revised manuscript and author compliance.
10. All the revisions will be evaluated for plagiarism using Cross-Check (from i-Thenticate). The revisions exceeding 30% similarity score (excluding bibliography and references) will be rejected without further communication. The current plagiarism report is available as a supplementary file in the author console under Microsoft CMT portal.
10. No author biographies / photographs are allowed to be included in the revised manuscript.
11. The Technical Program Committee will evaluate all revisions and a 'List of Final Acceptance' will be published in the CMI2021 website as per the conference time schedule. The authors must proceed for registration after the publication of this list only.
12. The authors may communicate any queries regarding the revision submission at [cmi2021india@gmail.com](mailto:cmi2021india@gmail.com).
