

IEEE NZ Central Section Post-Graduate Presentation Event

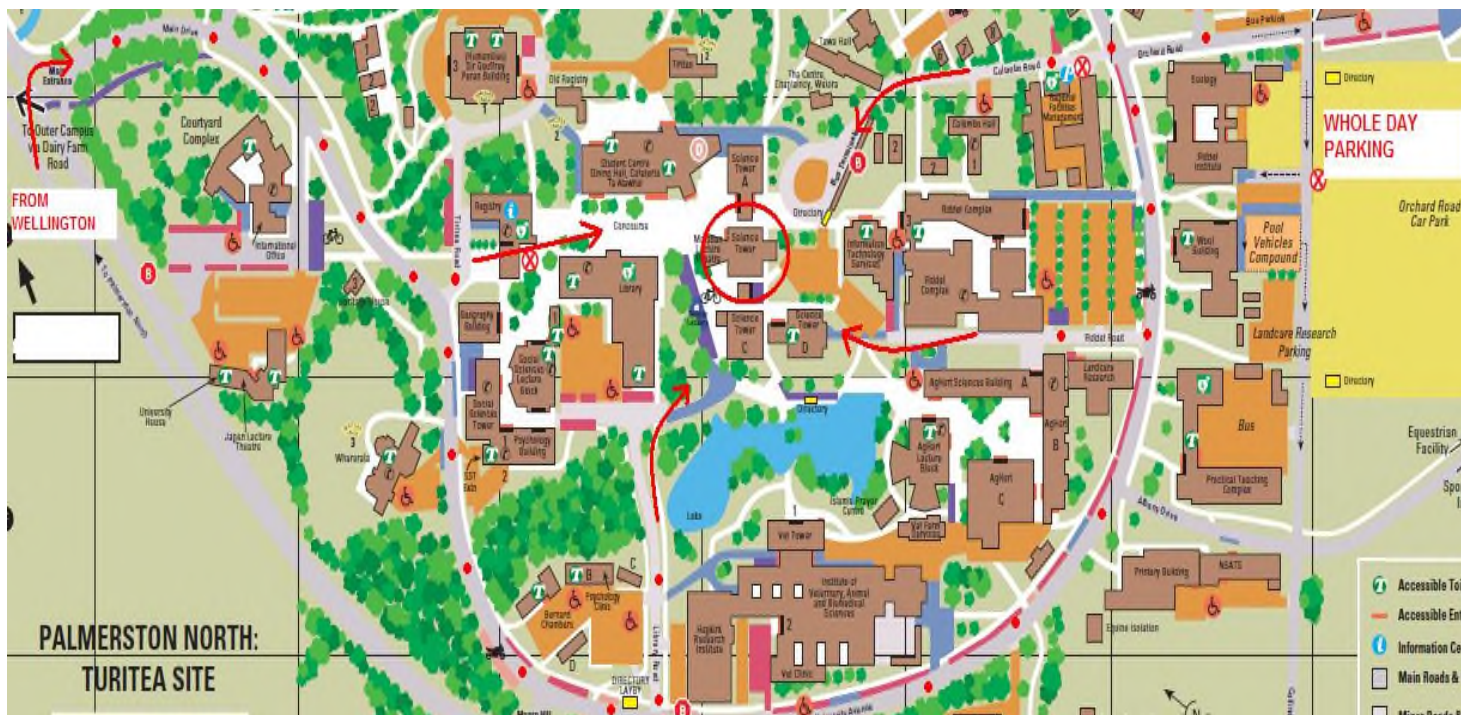

Date: 31st August at 2:00 pm – 6:00pm (approximately)

Venue: Massey University

ASTON 1 Lecture Theatre, Science Tower B, Manawatu Campus
Palmerston North

As part of the IEEE New Zealand Central Section's technical activities we are organizing a half-day event to showcase engineering post-graduate research work in the Central region. The event will provide post-graduate students who are pursuing their higher degree studies in the areas of engineering and technology in local universities to present their research work and to share their knowledge with other fellow-students and peers. The event will allow networking between students and IEEE members.

Each presentation will be time-limited to only 10 minutes with approximately 2 minutes for discussion and questions. Prizes for best presentations will be awarded, with food and refreshments available to all participants.

Post-graduate students please send your name, details, title of your presentation to Fahim Abbasi at f.abbasi@massey.ac.nz by Wednesday 25th August, 2010. Please use the form below to furnish these details.

IEEE Members wishing to attend and hear the presentations should also contact Fahim Abbasi at f.abbasi@massey.ac.nz by Friday 27th August, 2010 so that we can determine catering requirements.

For any other queries please contact Fahim Abbasi at f.abbasi@massey.ac.nz

Application to Present at the Post-Graduate Event:

Name of Presenter: _____

Title of Presentation: _____

University Affiliation: _____

Name of Supervisor: _____

Are you an IEEE Student member? ☐ YES ☐ NO

If Yes, your membership number: _____

(Please note that you don't need to be an IEEE member to participate in the event).
