

The IEEE Computer Society and iVEC invite you to a supercomputing seminar:

Supercomputing - the Fast and the Furious

Interested in supercomputing, large data storage, fast networks and furious applications? If so, join us at iVEC to hear the latest from Supercomputing 2012 (SC12). Held in Salt Lake City, Utah, it's the key international conference in the area of supercomputing and computational science.

iVEC staff joined over 10,000 attendees at the conference and in this seminar will highlight current and future developments in supercomputing.

Read the iVEC blog from SC12 at <http://ivec.org/blog>

Feel free forward this invitation to your colleagues.

Venue: ARRC Auditorium, 26 Dick Perry Ave, Kensington

Date: 29th November

Time: 4-5pm, followed by sundowner

Cost: Free

Please RSVP your attendance to rsvp@ivec.org

iVEC is an unincorporated joint venture of CSIRO and the four public WA universities with funding from the State Government. iVEC fosters and promotes scientific and technological innovation through the provision of supercomputing and eResearch services to the research community, commercial organisations and government agencies. In 2009, iVEC was charged with establishing and operating the \$80 million Pawsey Centre by the Australian government.
