Vol. 1, No. 1 Spring 2010

IEEE-USA Annual Meeting

2010 Annual Meeting Highlights

If you were unable to join us in Nashville for the 2010 IEEE-USA Annual Meeting, 4-7 March, you can visit the Annual Meeting Blog for recaps of the keynote talks and session presentations at: <http://ieee-usa.blogspot.com>

Also, watch keynote speakers in their entirety at: <http://www.ieeeusa.org/calendar/conferences/annualmeeting/2010/video>

2011 Annual Meeting Announcement

IEEE-USA's 2011 Annual Meeting, "Engineering in Motion" will be held either 24-27 February, or 3-6 March 2011, in Austin, Texas. Mark your calendars, and join us to learn about IEEE-USA activities, and to receive PACE and leadership training.

Awards and Recognitions

IEEE-USA Awards and Recognitions

The 2009 IEEE-USA Awards Winners were presented at the 2010 Annual Meeting, including the six winners of the Regional/Divisional Professional Leadership Awards, which recognize members for their outstanding leadership efforts in advancing the professional aims of IEEE within their Regional or Divisional entities. Nominate someone for the 2010 awards. The nomination deadline is 31 July. Nomination forms can be found online at: <http://www.ieeeusa.org/volunteers/awards/forms>

American Association of Engineering Societies (AAES) Awards

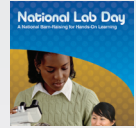

AAES honored two IEEE members on Monday, 19 April at the AAES 31st Annual Awards Banquet and Ceremony. Gerald J. Posakony won the 2009 AAES John Fritz Medal, and Karen Panetta won the AAES Norm Augustine Award. To learn more about the AAES awards, visit: <http://www.ieeeusa.org/communications/releases/2010/041910.asp>

Precollege Activities

National Lab Day

IEEE-USA encourages all IEEE members to participate in National Lab Day (NLD). NLD is the ultimate educational matchmaker. Teachers and students need your expertise! By registering, NLD can immediately match you to projects in your area where you can make a difference. While there will be an actual Lab Day on 12 May to celebrate the effort, the National Lab Day program has already begun. Join at: <http://www.nationallabday.org>

Teacher-Engineer Partnership Rewards/Grants

IEEE-USA's Precollege Education Committee's Precollege Teacher Reward/Grant Program helps teachers to sponsor innovation and creativity in or outside of the classroom. These rewards provide small amounts of funding for novel ideas that introduce engineering to students. Applications are located at: <http://www.ieeeusa.org/volunteers/committees/pec/teacher-grants.html>

Government Activities

High-Skills Immigration Reform Update

Get the inside story on the state of immigration reform from IEEE-USA immigration lobbyists. For the past decade, IEEE-USA has been trying to persuade Congress to reform America's high-skill immigration system. As Congress prepares to address comprehensive immigration reform, join us on 10 June from 2:00pm - 3:00pm to discuss the status of high-skill immigration reform and its prospects for 2010. To register, go to: <http://www.ieeeusa.org/careers/webinars/2010/webinar-06-10-10.html>.

IEEE-USA Energy-Fly In

IEEE-USA invites any IEEE member with an interest in Energy Policy to come to Washington on 17-18 May for our Second Annual Energy Fly-In. This unique event will give IEEE members an unparalleled opportunity to directly influence the direction of Energy Policy in Washington. For more information, go to <http://www.ieeeusa.org/policy/energy-flyin/register.asp>
