

Membership Development Report – April 2012

Southeast United States (Region 3)

This membership development report is issued on behalf of your IEEE Region, and the IEEE Member & Geographic Activities Board.

Greetings from Winston-Salem, North Carolina. I hope you all are having a great transition from Spring to Summer; don't forget the sunscreen! We're still moving a little slow in our Membership Development. I'll be setting up a WebEx conference call soon to discuss strategies and any problems you're seeing in your Sections. Don't forget Senior and Student Member elevations. Thanks to all of you who are keeping on top of our work!

Bill Williams, Membership Development Chair, Region 3

IEEE-USA Recruitment Incentive Pilot – April 2012

In an effort to drive U.S. membership growth in Regions 1-6, IEEE-USA offered a financial incentive that rewards year-over-year improvements in recruitment of higher-grade (HG), dues-paying members in IEEE’s U.S. sections. Qualification requirements are as follows:

- 1) Sections must maintain their *total* HG dues paying membership count at the same level as the prior year.
- 2) Sections must exceed their HG recruitment year-over-year.

The IEEE-USA MD incentive pilot will continue for the 2012 membership year. We look forward to more sections achieving this distinguished accomplishment next year. Kudos to those Region 3 Sections who are successful in meeting the IEEE-USA challenge!

IEEE GOLD Membership Data

We are providing global GOLD member data in your Region MD Report. GOLD members can be an Associate, Member or Senior Member grade. Since GOLD is not a designated IEEE Member Grade, their statistical data would be included in each member grade statistic.

Region 1-10 GOLD April 2012 data is being reviewed for accuracy.

IEEE's Member database flags members for GOLD affiliation based on the date of the member's first graduation. Members are identified as "Yes GOLD" if their graduation date is less than 10 years past. At present, graduation dates are an optional field for member applications so new members joining IEEE are categorized as GOLD **IF** the graduation date is provided. Graduating Student Members are captured as they are elevated from Student Member to higher grade member following their graduation date.

The GOLD member data above only captures those IEEE members that are "Yes GOLD" flagged. Efforts are underway to investigate methods for reflecting true numbers of IEEE members who have graduated in the last decade.

In SAMIEEE, there are several pre-defined queries for GOLD: In the Geographic Folder, (GEO) Active IEEE members –Current GOLD (Graduates of the Last Decade) and (GEO) Active Student & Graduate Student Members with Graduation Date in 2010. In the SAMIEEE MD folder, (MD) Active Student Members with Graduation Date will also pull data.
