December 2021

Closing 2021

IEEE PES UCF Student Chapter and Orlando Professional Chapter Topgolf Outing –

A huge shout out to the participants who attended this year's fall Topgolf event hosted by the Orlando PES Executive committee. The event had a total of 14 PES members, 8 being from the UCF PES student chapter.

The Orlando PES chapter is actively working towards bridging the gap between the academic and professional worlds. With the Fall semester quickly coming to end, some of these students will soon face the challenges of breaking into the workforce. Fun events such as this, are critical for helping build networking skills for engineering students while also providing the needed insight of working in the power and energy industry.

IEEE Orlando PES/PEL/IAS (2021 Closing Statements from the Chair)

Ian McIlrath

2021 has been a fantastic year for the Orlando PES chapter. We successfully hosted numerous events with both a strong in person and virtual participation. With the countless challenges faced in 2021 your executive chapter leadership exceeded all expectations.

With the 2022 executive leadership selected, I have no doubt of this chapter's success.
