

**Thomas A. Pearson, M.D., M.P.H., Ph.D.**  
**Professor, University of Rochester School of Medicine**

Thomas A. Pearson is the Albert D. Kaiser Professor in the Department of Community and Preventive Medicine and Professor of Medicine at the University of Rochester School of Medicine, Rochester, New York, USA. Dr. Pearson is also Senior Associate Dean for Clinical Research at the University of Rochester Medical Center and directs the Rochester Prevention Research Center. He has served as principal investigator of the Rochester Clinical and Translational Science Award and directs the Rochester Clinical and Translational Science Institute.

Dr. Pearson's major research interests are in the epidemiology and prevention of atherosclerotic cardiovascular disease, with a special interest in the international trends of coronary heart disease and stroke. He has actively participated in basic science studies, clinical investigations and community-based projects.

Dr. Pearson received his Doctor of Medicine, Master in Public Health, and Doctor of Philosophy in cardiovascular epidemiology, all from The Johns Hopkins University, where he also completed residencies in preventive medicine and internal medicine and a fellowship in cardiology. He holds board certifications in Internal Medicine, Preventive Medicine and Clinical Lipidology.

Dr. Pearson is a Fellow of the American Heart Association, American College of Cardiology, the American College of Preventive Medicine and the American College of Physicians. He has chaired, as well as served as a member on, important committees of the National Heart, Lung, and Blood Institute; the Institute of Medicine; the American Heart Association, the American College of Cardiology, and the National Forum for Heart Disease and Stroke Prevention.
