### CPMT Chapter Technical Meeting

The CPMT Chapter of the IEEE Orlando Section is planning to sponsor a technical meeting in conjunction with Sealing Devices, Inc. on EMI / EMC Design Basics and Fundamentals of EMI Shielding (see below for abstract and speaker biography) on **Tuesday evening, November 08 (immediately preceding the ExCom meeting)**. The exact time and location are still to be determined, and will depend on the level of interest in attending received.

**Abstract:** Effective EMI control comes down to suppression and containment. In the drive for faster feature rich devices while balancing SWaP, which do you use? Practical strategies utilize both - seminar topics include EMI/EMC design basics, fundamentals of EMI shielding and EMI/EMC mechanical design (including factors affecting the choice of EMI shielding materials for given application parameters). From conductive flexible materials, coatings, to nano particles, hear what to consider when, see some of the latest EMI shielding materials and techniques, with practical examples, available for more effective package design to meet EMC requirements and avoid last minute issues in compliance testing

**Speaker Bio:** Michael Moretti, BS, Industrial Engineering, University of Buffalo and BS, Business Admin, State University of New York. Product Manager for EMI and Thermal management materials for Sealing Devices Inc., with over 15+ years of experience working with design engineers on effective EMI shielding solutions across multiple markets, combining engineering and business expertise to support customer projects/designs from concept through production while understanding quality, cost and schedule objectives. Through its Electronics Protection product lines Sealing Devices, Inc. is a leading provider of materials and components used in effective electronic package design including EMI, Thermal and Sealing performance."

## **IEEE Member Discounts**

Do you know what the IEEE Member Discounts program does for IEEE members? Here are some important facts about this program:

- More than 70,000 IEEE members use at least one of the benefits in the Member Discounts program.
- Member Discounts products and services are supported by contracts between IEEE and providers, vetted by the professional staff and volunteers.\*\*
- Member Discounts help to support the personal and professional needs of IEEE members throughout their careers, and are portable when they change employers.
- Not all Member Discounts insurance plans and product discounts are available in every country; however, members can find many benefits available in a number of countries, with more being added each year. In fact, the insurance program now spans 84 countries!

- Member Discounts are promoted at no cost to any member and more than \$5.3 million in annual non-dues revenue from these programs benefit members worldwide.

Discover what IEEE Member Discounts can offer you. The Member Discounts portfolio consists of insurance products and programs for the home, office and travel, all at excellent group rates and reduced pricing. Visit [IEEE Member Discounts](#) to see what's available in your location and enjoy the savings.

\*\* We can assist with developing local benefits, too. Contact [L.Koblin@ieee.org](mailto:L.Koblin@ieee.org) for more information.
