Dear Member,

Thank you for being a part of our vibrant and award-winning IEEE Toledo community. Over the last three years, our local events averaged 192 attendees per year. Your membership has given us the opportunity to provide value that is unique to this region. Thank you!

Over the last two years we provided lectures and presentations of more than 10 PDH hours in total. We provided tours of local technical facilities, and brought in world-renowned technical experts. During these events we created opportunities for you to network with peers in your field. Please visit iee.org/toledo to see some events we have organized.

At this exciting time of innovation, there is no better way to keep abreast of locally relevant changes than through your Toledo Section. To keep up-to-date with local events, you can like us on Facebook and on LinkedIn.

We are thrilled about our Young Professionals group, and our newly formed Women In Engineering (WIE) group. You are invited to come join us during our monthly business meetings. We hold meetings on the first Tuesday of each month at 6pm in Byblos Restaurant.

As we plan further activities we would like to know how we can improve the value we provide. Please do send suggestions to me at Toledo.chair@iee.org.

We hope you are enjoying your summer,

Dominic Wilson
Chair-IEEE Toledo
