BRIC Overview

Why focus on BRIC Countries?

>The "Big Four" currently rank in the top 7 of world economies (GDP PPP)

Leaders in the shift in global economic power away from the developed G7 economies and towards the developing world

It is estimated that BRIC economies will overtake G7 economies by 2027

➢Goldman Sachs predicts that by 2050 the combined BRIC economies could eclipse the combined economies of the current richest countries of the world.

 - International Approvals / Certifications

Product Certifications for Brazil

SIEMIC, INC. Accessing global markets

BRAZIL

 INMETRO – Brazil's National Institute of Metrology, Quality and Technology

SIEMIC, INC.

- INMETRO was created in December 1973 to support Brazilian enterprises, to increase their productivity and the quality of goods and services
- Tasked with maintaining the national standards
- The main Accreditation Body for Brazil certification bodies and laboratories
- Brazil's national developer of conformity assessment programs
- Responsible for Brazil's Technical Barriers to Trade (TBT) WTO program, (like US NIST – Notify US)

INMETRO MANDATORY LIST

INMETRO Mandatory Certification List (80 products),

SIEMIC, INC.

Accessing global markets

including:

- Medical equipment
- Hazardous location equipment
- Electrical cords and cables
- Protective devices (circuit breakers and ballasts)
- Switches, plugs and sockets
- Equipment for gas systems (pressure regulators and hoses)
- Voltage stabilizer

INMETRO VOLUNTARY LIST

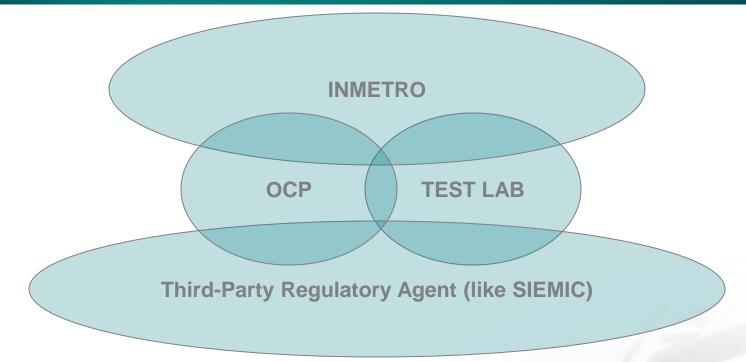

INMETRO Voluntary Certification List (87 products),

including

- Consumer electronics
- IT equipment
- Household appliances
- Luminaries and its components
- Electrical appliances
- Photovoltaic equipment and systems

ORGANIZATION STRUCTURE

In order to obtain INMETRO product certification, it is necessary to interface with a Brazilian certification body or OCP (Product Certification Body) accredited by INMETRO During certification, product testing must be performed by a laboratory from RBLE (Brazilian network of testing laboratories) which are accredited by INMETRO

INMETRO has accredited 51 OCP

RBLE has 372 testing laboratories

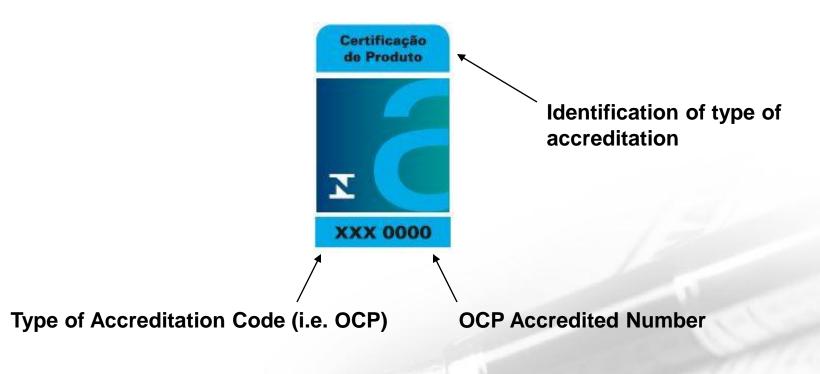

www.siemic.com

INMETRO LABEL/MARKING

Required INMETRO Marking

ANATEL – National Telecommunication Agency

Promotes development of Brazil's telecommunication infrastructure by exercising standardization, homologation and surveillance.

History

- Established in July 1997 according to Law 9.472
- Resolution 242 in November 2000 is the general regulation regarding certification of telecommunication products
- Resolution 323 in November 2002 complements Resolution 242
- Instrumento de Gestão 01 (IG01) defines the priority of selected test labs during the Anatel certification process.

OCD & TEST LABS

OCD:

Organismo de Certificacao Designado (Designated Certification Body)

In order to obtain ANATEL product certification, it is necessary to interface with a Brazilian certification body or OCD accredited by ANATEL

There are 13 accredited OCD's

Test Laboratories

During certification, product testing must be performed by a laboratory accredited by INMETRO per SBAC (Brazilian System of Conformity Assessment)

There are 20 accredited laboratories

Priorities of Test Laboratories

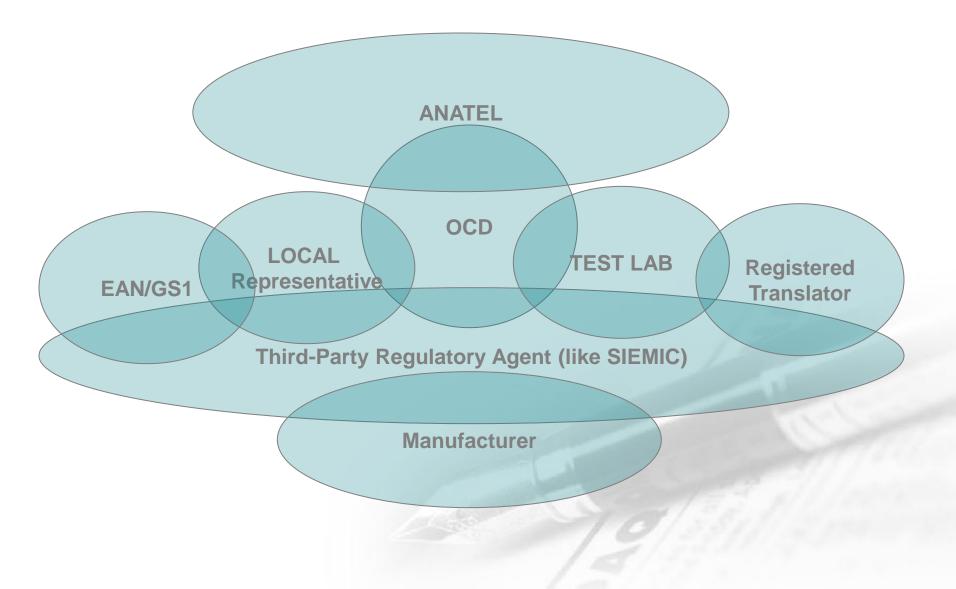

According to IG01, local test labs have precedence with priorities below:

SIEMIC, INC.

- 1) Local Brazilian test labs accredited by INMETRO
- 2) Local third Party test labs evaluated by OCD
- 3) Local non-third party test labs evaluated by OCD
- 4) Foreign labs recognized by ILAC

ANATEL Homologation Certificate

- Issued by ANATEL

SIEMIC, INC.

Accessing global markets

- No expiration date
- Issued to the local representative

OCD Technical Certificate

- Issued by OCD
- May have expiration date depending on product
- Typically issued to the manufacturer (owner of design)

ANATEL PRODUCT CATEGORY I

Category I: Terminal equipment intended for use by the general public for purposes of accessing collective interest telecommunications services

- AC/DC adapters used with cellphones
- UMTS devices
- Cordless phones
- Wired phones
- Lithium battery for cell phone
- Cable/Cord (flexible, coaxial, UTP, STP)
- Fax-modem machine
- PABX
- etc
- Annual maintenance. Certificate is valid for 1 year
- Requires product testing and evaluation of factory quality system

ANATEL PRODUCT CATEGORY II

Category II: Equipment not covered by the definition of Category I products and that make use of the frequency spectrum for the transmission of signals (wireless/radio)

SIEMIC, INC.

- Antennas
- Amplifiers
- Transmitters
- Transceivers
- Radio Frequency Devices (Wi-Fi, BT, RFID, radar, etc.)
- Bi-annual maintenance: Certificate is valid for 2 years
- Requires product testing

ANATEL PRODUCT CATEGORY III

Category III: Equipment not contained in the definitions of Category I and II and that will have interoperability with telecommunication network

SIEMIC, INC.

- Cables (coaxial, hybrid, fiber optic)
- Multiplexers
- Data network equipment
- Switches, Hubs, Gateways
- Interconnection Networks Equipment
- Equipments with E1, E3, STM, FXO, FXS
- etc
- Certification is valid until the device is modified or regulation changes
- Requires product testing

OCD reviews application package, test reports and issue OCD tech cert for Handheld Computer and Power Adapter										
ANATEL reviews and issue Homologation certificate for Handheld Computer and Power Adapter										

SIEMIC, INC.

Accessing global markets

Historically, ANATEL takes about 4 weeks to homologate

Total lead time is 8-10 weeks

Similar to USA/EU Standards:

- EMC: ANATEL No. 442 (~CISPR 22 & 24) •
- Product Safety: ANATEL No. 529 (~IEC 60950) •
- WiFi/Bluetooth: ANATEL No. 506, Sec. IX (~FCC 15.247) •
- SAR: ANATEL No. 533
- GSM: ETSI TS 151 010-1
- UMTS: ETSI TS 134-121-1 •

ANATEL STANDARDS

Example: Safety Standards Listing

Regulatory	STANDARD № 529 (refe	Requirement to			
Standard (Item)	Compliance Test	Mobile - ETA	WIFI - BT	Limits	
Titulo III (Art. 09º)	Protection Against Fire Hazards (when the EUT has telecomunications external port)			When subjected to a voltage of 230 Vef (60 Hz), during fifteen (15) minutes, between a telecommunications terminal corresponding to the outside plant and the grounding terminal, the EUT shall not present fire hazard	
Titulo IV (Art. 11º)	Protection Against Electric Shock - EUT under normal conditions	~	v	When the EUT is energized under normal conditions (nominal voltage), all its accessible parts shall present a leakage curren lower than 0.25 mAef.	
Titulo V (Art. 14º)	Protection Against Electric Shock - EUT under overvoltage at the telecomunications external port			When the EUT is energized under vervoltage at the telecomunications external port, all its accessible parts shall present a leakage current lower than 10 mAef.	
Titulo VI (Art. 19º)	Protection Against Electric Shock - EUT under overvoltage at the power supply external ports	V	~	When the EUT is energized under vervoltage at the power supply external ports, all its accessible parts shall present a leakage current lower than 10 mAef.	
Titulo VII (Art. 23º)	Protection Against Overheat	V	۷	The temperature rise of any part external to the EUT, accessible to man, in relation to the environment shall not exceed the limit below: Parts frequently touched Metal Surface: 30°C / Non-Metal: 40 °C Parts Ecentually touched Metal Surface: 45°C / Non-Metal: 55	

SIEMIC, INC. Accessing global markets

Brazil SAR Resolution 533

Portable terminal stations: transmitting stations characterized by the portability of the equipment utilized and whose radiant structures, when in use, are located less than 20 cm from the body of the user.

INC.

Accessing global markets

SIEMIC.

Low Power Portable Terminal Stations: portable terminal station where the average power emitted in an average of 6 (six) minutes is equal or less than 20 mW and the peak power emitted is less than 20W.

Resolution 533 is applicable when equipment meet all requirements below *simultaneously*:

- portable
- operate close to human body, with distance no greater than 20 cm
- operate with frequency between 300MHz and 6 GHz
- operate with average output power greater than 20mW, measured in a time average of 6min; or peak power emitted is greater than 20W

ANATEL LABEL/MARKING

Product label must contain:

- ANATEL homologation number
- ANATEL logo
- EAN bar code
- Trademark
- Model Number
- Compliance Warning statements

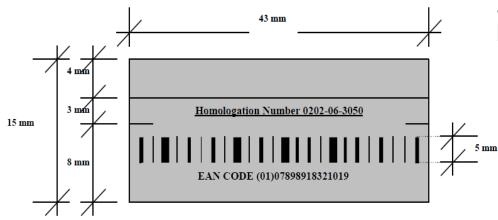

Note:

SIEMIC, INC.

- EAN bar code must meet GS1-128
- ANATEL homologation number breakdown
 - HHHH: number of ANATEL approval
 - AA: year
 - FFFF: identification of local
 - representative

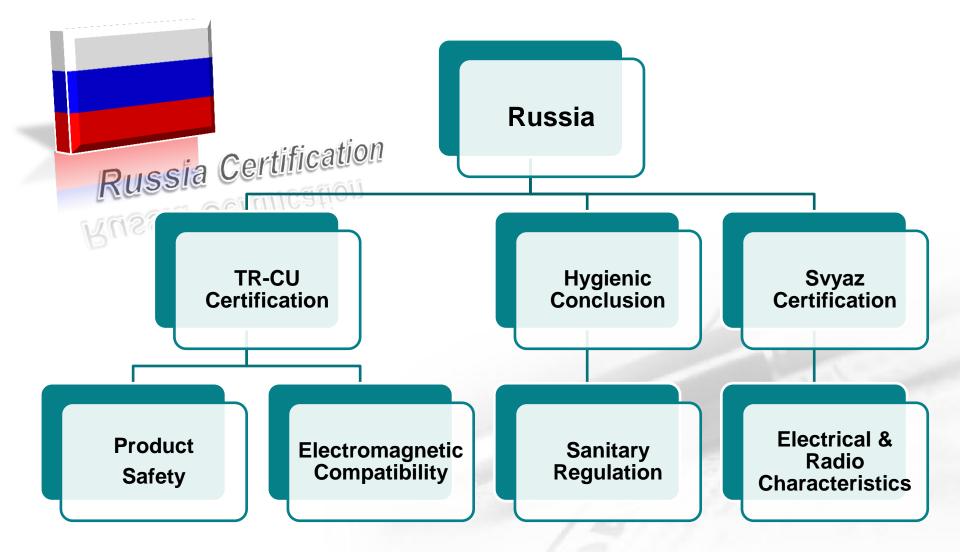

CERTIFICATION PROCESS IN RUSSIA

SIEMIC, INC. Accessing global markets

www.siemic.com

Introduction

New Program: TR-CU

In Russia, the former GOST certification system was withdrawn on 15 February 2013, and replaced by the new Customs Union (CU) regime.

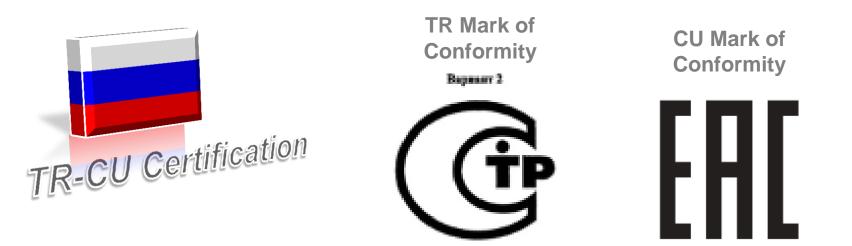

- Existing certificates issued prior to 15 February 2013 (including GOST) shall remain valid until March 2015, assuming the products are unchanged from the original certification.
- 3-for-1 Certification: Obtain TR-CU Certification, and you gain market access for your product in Russia, Belarus, and Kazakhstan.
- More countries are expected to join over time (mostly former USSR members, non-EU)

TR-CU Certificate

 General Information for TR-CU Product Categories Required Documents and Other Information
 General Information for Hygienic Certification Required Documents and Product Categories Organization
 General Information for Svyaz Certification Customs
Radio Product Certification Process

TR-CU Certificate

SIEMIC, INC.

- Almost any electronic product to be imported to Russia requires the new TR-CU Certification to assure compliance with existing safety, technical, and quality standards.
- □ TR-CU logos are as above, and required on the product
- □ The identification code of certification body should be shown above the logo.
- The initial grant of TR-CU Certification is valid for terms of 1 to 5 years.

TR-CU Certificate

Product Categories

- □ Information Technology Equipment (ITE)
- **Audio/Video Equipment**
- Household Appliances
- Wireless and Wired Telecommunication Equipment
- Scientific Instrumentation & Measurement Equipment
- Medical Equipment

Hygienic Certificate

Introduction	
TR-CU Certification	 General Information for TR-CU Application Required Documents and Other Information
Hygienic Certification	 General Information for Hygienic Application Product Categories subject to Hygienic Conclusion Organization
Svyaz Certification	 General Information for Svyaz Certification Customs
Process Flow	Radio Product Certification Process
Conclusion	

- The Hygienic Certification also called the Sanitary-Epidemiological Conclusion Certificate.
- The hygienic certificate confirms conformity of products and services to the sanitary norms and strict observance of the established rules in the process of manufacture, storage, transportation and the sale of products and services.

SIEMIC, INC. Accessing global markets

Hygienic Certificate

Product Categories (partial list)

Products that produce noise / vibration

- Copy Machines
- Printers
- Air-conditioners
- Individual protection means
- □ Tobacco products and raw materials

Products emitting X-radiation

- Video Monitors
- Television Receivers

Products emitting microwave radiation

- Cellular Phones
- Wireless Telephones
- Computer Components
- Laptop Computers

Hygienic Certificate

- Issued only by the Russian Federal Service for Supervision in the Area of Consumer Rights and Welfare Protection or Rospotrebnadzor (formerly Gossanepidnadzor).
- Two independent organizations, both part of Rospotrebnadzor, are involved in hygienic certification:
 - Center of Hygienic and Epidemiology
 - Test protocol analysis and other documentation
 - Territorial Office of Rospotrebnador
 - Issues final certificate based on the expert conclusion drawn by the Center of Hygiene and Epidemiology provided that the product conforms the compliance of the goods to the Russian Hygienic Standard.

□ Valid for One year

Svyaz Certificate

Introduction	
TR-CU Certification	 General Information for TR-CU Application Required Documents and Other Information
Hygienic Certification	 General Information for Hygienic Application Required Documents Organization
Svyaz Certification	 General Information for Svyaz Certification Customs
Process Flow	Radio Product Certification Process
Conclusion	

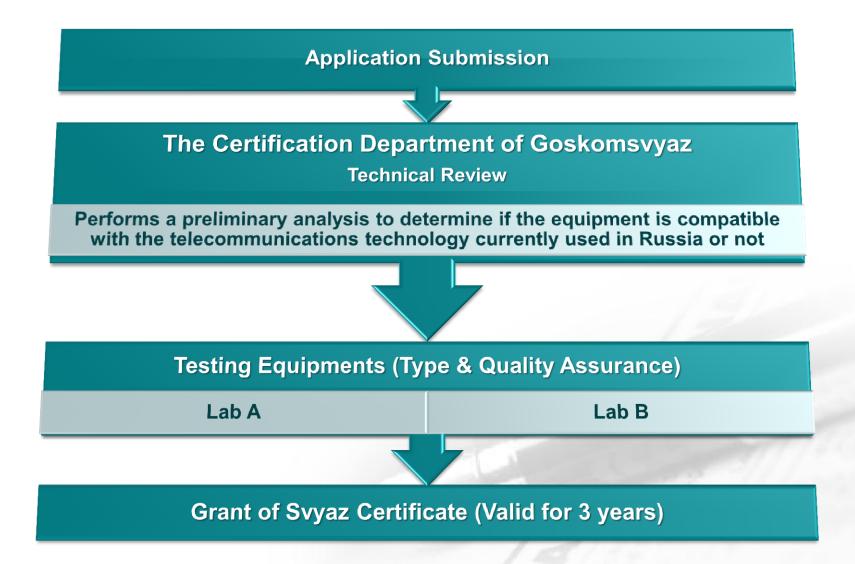

□ Applies to Telecommunications Equipment

All technical means of the integrated communications networks (both shared and corporate) are subject to mandatory certification.

- Article 16 of the Russian Federation Law "On Communications"

Process of Customs

Start the process of customs clearance before the products arrive in Russia

Regardless of secured product certifications, Customs clearance of any product imported to Russia is a very challenging process.

Customs duty

- For telecommunications equipment, customs duty varies from 5% to 20% depending on its purpose.
- Calculated as a Percentage of the customs value of goods

Value Added Tax

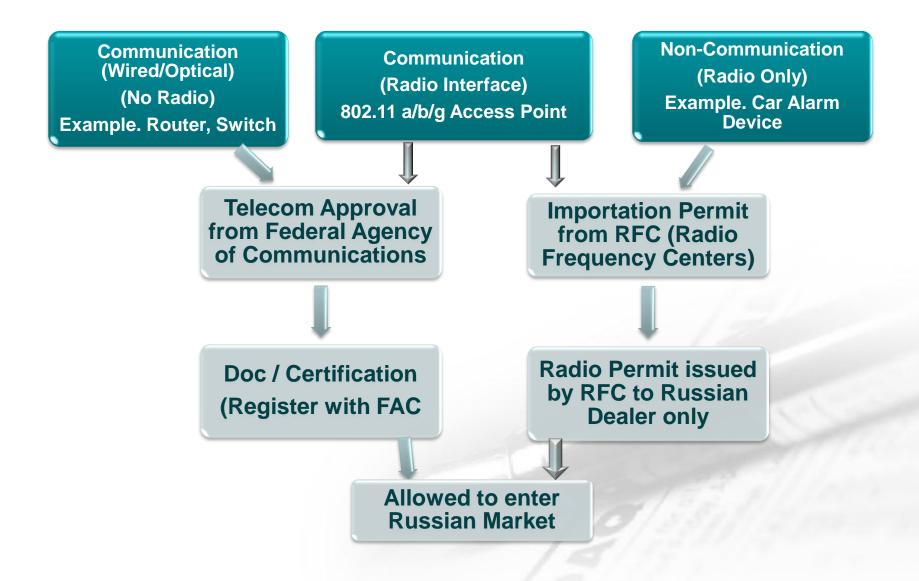

20% of a percentage of the customs value + the customs duty

Process Flow

Introduction	
TR-CU Certification	 General Information for TR-CU Application Required Documents and Other Information
<i>Hygienic</i> <i>Certification</i>	 General Information for Hygienic Application Required Documents Organization

Product Certifications for India

SIEMIC, INC. Accessing global markets

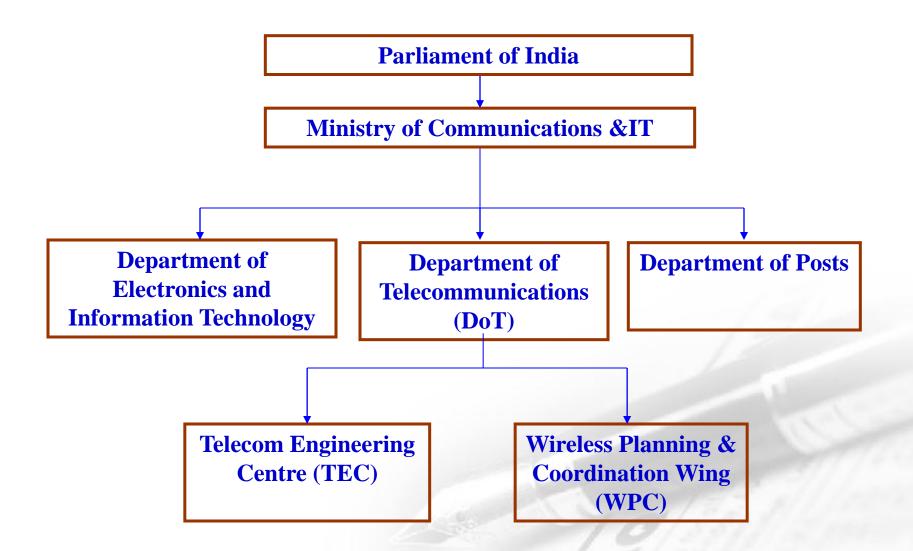

AGENDA

WIRELESS PLANNING & COORDINATION WING

WIRELESS PLANNING & COORDINATION (WPC)

SIEMIC, INC.

Accessing global markets

- National Radio Regulatory Authority
- Created in 1952
- Responsible for Frequency Spectrum Management
- Exercises the statutory functions of the Central Government and issues licenses to establish, maintain and operate wireless stations

WPC is divided into three major sections:

- 1) Licensing and Regulation (LR)
- 2) New Technology Group (NTG)
- 3) Standing Advisory Committee on Radio Frequency Allocation (SACFA)

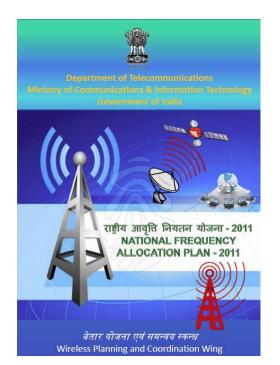

WPC Certification Schemes

In India, radio frequencies for wireless communications were arbitrarily defined between 3 kHz and 3000 GHz.

SIEMIC, INC.

Accessing global markets

So, if it is outside of these frequencies, WPC does not regulate.

There are two certification schemes:

1) License

1a) Network License (35 types) 1b) Non-Network License (9 types)

2) Equipment Type Approval (ETA)

WPC Network License

- Network License to operate (35 types):
- 1) Beacon
- 2) CORDECT/CDMA
- 3) Captive Radio paging
- 4) Wide Area Radio Paging
- 5) Captive Radio Trunking
- 6) Public Mobile Radio Trunking Service (PMRTS)
- 7) Captive VSAT
- 8) Commercial VSAT
- 9) GSM
- 10) Earth station for foreign mission
- 11) Experimental
- 12) FM Community Broadcast
- 13) FM Broadcast
- 14) SW Broadcast
- 15) Terrestrial Broadcast
- 16) Fixed/Mobile-HF/VHF/UHF-Land Based
- 17) Fixed/Mobile-HF/VHF/UHF-Land Based (additional category)
- 18) HF/VHF for Foreign Mission
- 19) MW Broadcast

- 20) MW link for Foreign Mission
- 21) MW link for Cellular(GSM)
- 22) MW link for WLL(CDMA)
- 23) MW link for Point to Point Communication
- 24) MW link for Point to Multipoint (for ISP,
- ILD, NLD)

Accessing global markets

- 25) MW link for wide area Radio Paging
- 26) Radar
- 27) Remote Controller
- 28) SCADA
- 29) Satellite Broadcast
- 30) Satellite Network-Gateway for ISP, ILD,

NLD

- 31) Satellite Network-Receive only Earth Station
- 32) Satellite News Gathering
- 33) Shot Range UHF Hand Held Radio (USR)
- 34) Spread Spectrum
- 35) TV Receive Only Dish Antenna (TVRO)
- for Foreign Mission

WPC Non-network License

Non-Network License to operate (9 types):

- 1) Aero mobile Station
- 2) Dealer Possession License (DPL)
- 3) Non-Dealer Possession License (NDPL)
- 4) Demonstration
- 5) Import
- 6) Maritime Mobile Station
- 7) Operator's License For GMDSS
- 8) Operator's License For COP
- 9) Operator's License For Amateurs
- Import License license to import. It is a clearance letter issued by WPC to clear customs importation of wireless equipment.

SIEMIC, INC.

Accessing global markets

Dealer Possession License (DPL) – license to sell. All distributors/dealers of wireless equipment are required to have this license.

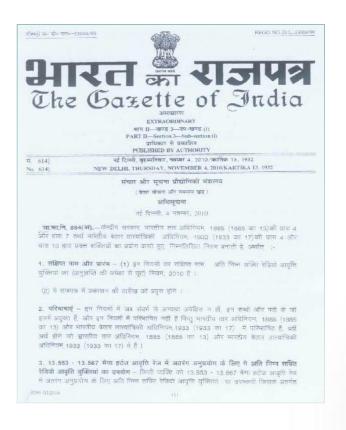

Non-Dealer Possession License (NDPL) or End User License - license to use/operate wireless devices for each and every end-user. An End-User License may be seen as an exclusive ownership of a particular frequency band for a specified period (usually 2 years) bestowed on the licensee. WPC charges a license fee depending on band and application.

In order to meet the market's need and to match the international market trends, WPC amended its regulations such that certain frequency bands have been de-regulated. WPC calls them "de-licensed" bands.

Accessing global markets

SIEMIC, INC.

WPC no longer controls products that fall in the "de-licensed" category.

In other words, wireless devices are exempt from licenses if they fall under "de-licensed" frequency band and meets the specified RF power limit, but they must obtain ETA approvals.

TELECOMMUNICATION ENGINEERING CENTRE

TEC Functions:

• Technical body representing the interests of DoT and Indian Government

SIEMIC, INC.

Accessing global markets

- Specification of common standards for telecom network equipment, services, and interoperability
- Generic Requirements (GR) & Interface Requirements (IR)
- Issues Interface Approvals, Certificate of Approvals, Service Approvals & Type Approvals
- Formulation of Standards and Fundamental Technical Plans
- Interact with multilateral agencies for standardization (e.g. ETSI, ITU) for standardization
- Develops expertise to incorporate the latest technologies and R & D
- Provide technical support to DoT, and technical advice to TRAI & TDSAT
- Coordinates with C-DOT on the technological developments in the Telecom Sector for policy planning by DOT

TEC approval types and requirements

approved for interconnection to the Indian telecom network. This certificate is issued subject to the terms and conditions stipulated overleaf.

PRODUCT	Temuinal for Connecting to PSTN	MODEL No.	Converge Pro 880TA

	QL		Cont2

TEC issues the following certificates:

- Interface Approval
- Type Approval

Accessing global markets

SIEMIC, INC.

- Certificate Approval
- Technology Approval

There are four types of technical requirements:

Generic Requirements (GR)526Interface Requirements (IR)52Service Requirements (SR)24Standards Documents (SD)11Total 613

SIEMIC, INC. Accessing global markets

TEC approval types

Interface Approval

Interface Approval is issued against Interface Requirements (IR) standards. Interface Approval is intended for products to be sold in general market for public use and connected to the public network services. Product examples are modems, Fax, ISDN terminals, etc.

Type Approval

Type approval is issued against Generic Requirement (GR). Type Approval is intended for products that will be procured by the DOT or India's former government carriers. Product examples are cellular towers, cables, exchange switch, etc. Type Approval not only requires in-country telecom testing, but may also require environmental and field testing. Infrastructure Assessment of the applicant's test and repair facilities in India are also a requirement.

Technology Approval

Technology Approval is issued against Generic Requirement (GR). Technology Approval is granted to R&D organization for development of equipment for transfer of technology to other manufacturers. The testing of the equipment is done by the specialized Core Group at TEC (HQ) in association with RTEC.

Certificate of Approval

Certificate of Approval is issued for the product for which the IR/GR/SD standards do not exist. Certificate of Approval is issued against applicant's own specification.

INDIA SAR FOR MOBILE HANDSETS

Mobile Handsets

■ India has adopted the most stringent FCC norms for mobile handsets.

SIEMIC, INC.

Accessing global markets

■ All the new design of mobile handsets shall comply with the SAR values of 1.6 W/kg averaged over 1 gram of human tissue with effective date of Sept 1st 2012.

The mobile handsets with existing designs which are compliant with 2.0 W/kg averaged over 10 gram of human tissue, continue to co-exist up to August 31st, 2013.

■ From Sept 1st 2013, only the mobile handsets with revised SAR value of 1.6 W/kg would be permitted to be manufactured or imported in India.

■ SAR value information shall be displayed on the mobile handsets as done with IMEI (International Mobile Equipment Identity). The information on SAR values to be made available to the consumer at the point of sale. The SAR information shall be available on the manufacturer's web site & in the handset's manual.

Standardization Testing and Quality Certification (STQC) Directorate is an office from the Department of Electronics and Information Technology (DEIT), Government of India, which provides quality assurance services in the area of Electronics and IT through countrywide network of laboratories and centers. STQC have their own S-mark (for safety approval).

SIEMIC.

Accessing global markets

This product certification scheme is intended to provide adequate level of confidence regarding safety of product by means of factory inspection, product testing (as per appropriate IEC safety standard) and subsequent surveillance of the manufacturer.

STQC S-Mark

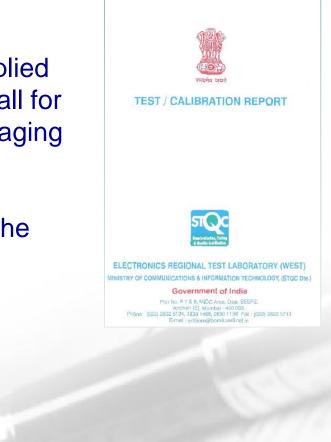

Use of Safety Mark

As far as possible, Safety Mark shall be applied on the product itself. If a product is very small for the marking than it may be applied on packaging only.

SIEMIC, INC.

Accessing global markets

The Safety Mark shall be accompanied by the IEC standard reference below it.

www.siemic.com

Bureau of Indian Standards (BIS)

The Product Certification Scheme of BIS aims at providing Third Party Guarantee of quality, safety and reliability of products to the ultimate customer.

SIEMIC, INC.

Accessing global markets

Presence of The Indian Standards Institution (ISI) certification mark known as Standard Mark on a product is an assurance of conformity to the specifications. The conformity is ensured by regular surveillance of the licensee's performance by surprise inspections and testing of samples, drawn both from the market and factory.

BIS ISI Mark

Although, the scheme itself was voluntary in nature, the Government of India, on considerations of public health and safety, security, infrastructure requirements and mass consumption has enforced mandatory certification on various products through Orders issued from time to time under various Acts.

BIS published a list of items brought under mandatory certification, together with the corresponding Indian Standard Number, and the authorities responsible for enforcing the orders.

Latest Updates: India Registration System

New Registration System for India (Product Safety)

India has announced the implementation of the new mandatory registration system for 15 specific types of electrical equipment, with a new labeling requirement.

Originally scheduled to be implemented in 3 April 2013, but now delayed until 3 July 2013, with implementation delayed for an additional 3 months for specific categories, until 3 October 2013.

Discussions are still ongoing between the Department of Electronics and Information Technology, the Ministry of Communication and Information Technology and the Government of India, so further adjustments to this new program are possible.

Latest Updates: India Registration System

New India Registration System

The Ministry of Communications and Information Technology (MCIT) has decreed that products imported to India, stored in India, distributed in India, or sold in India must (shall) conform to the Indian (safety) standards specified in the schedule, and products must be registered as compliant.

New Labeling Requirement:

Products covered under the scope of this new registration scheme must have **t**he following text on the product label or smallest packaging utilized:

"Self Declaration – Conforming to IS XXXX"

where "XXXX" is the specific Indian Standard reference number

-Products cannot be cleared at customs without the self-declaration mark

Latest Updates: India Registration System

New India Registration System (cont.)

India Product Safety Standards/IEC Equivalents:

ITE: IS 13252:2010 / IEC 60950-1:2005

Covers: Laptop/Notebook/Tablet, Printer/Plotter, Scanner, Wireless Keyboard, Telephone Answering Machine, Cable Set Top Box, Automatic Data Processing Machine (PC), Visual Display Units/Video Monitors.

Audio/Video Equipment: IS 616:2010 / IEC 60065:2005

Covers: Plasma/LCD/LED TV, Optical Disc Player with built-in amplifier (200 watts or greater), Amplifier with input power (2000 watts or greater), Electronic Music System (200 watts or greater), Electronic Video Games.

Appliances: IS 302-1:2008, IS 302-2-25/26:1994 / IEC 60335-2-25/26 Covers: Microwave ovens, Electronic Clocks powered by main.

CCC MARK ORGANIZATIONS

CNCA:

China Certification and Accreditation Administration

CNAB:

China Accreditation Board for Certifiers

> 9 Accredited Bodies

CNAL: China Accreditation Board for Laboratories

882 Labs Accredited **CNAT:**

China Auditor and Training Accreditation Board

CCC MARK CERTIFICATION

- HS Code of Products Required for CCC mark
 - The first issue of CNCA CCC Implementation Rules covers 19 categories, 132 types of products

SIEMIC, INC.

Accessing global markets

- With the update of HS code, total of 22 categories, 159 types of products are now required under CCC certification system,
 - Wireless LAN is now mandatory for CCC Mark Certification
- Almost everything else not in the CCC list falls into CQC Certification

SIEMIC

CCC MARK CERTIFICATION

• Updated HS code of products required for CCC Mark

Category	Name of the product category	No of products
1	Electric Wires and Cables	5
2	Connecters such as Plugs and Sockets for Household and Industry Appliance	6
3	Low-voltage Circuit Switches and Protective Devices	9
4	Small-Power Motor	1
5	Electric Tools	16
6	Electric welding machines	15
7	Household and Similar Electrical Appliances	18
8	Audio & Video products	16
9	Information Technology Equipments	12
10	Lighting Electrical Appliances	2
11	Motor Vehicle Products	4
12	Tire Products	2
13	Safety Windows for Car and Buildings	4
14	Rubber Products	1
15	Equipments for Crop Protection Purpose	3
16	Telecommunication Terminal Equipments	9
17	Medical Equipment	12
18	Fire fighting Products	3
19	Intruder Alarm Systems for Security Purpose	1
20	Wireless Local Area Networks	40
21	Decoration materials for Construction Industry e.g. Wallpaper	2
22	Chemistries Product for Carpentry	1

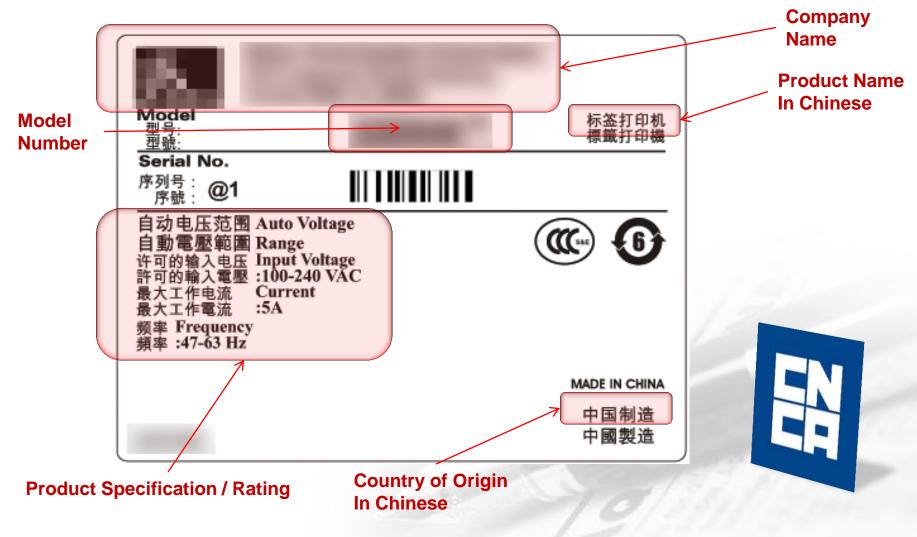

CCC MARK CERTIFICATION

- Manufacturers are not allowed to print CCC Mark logo without permission from CNCA
 - Purchase Standard CCC Mark Logo
 - Apply for CNCA approval on printing CCC mark logo

CHINA PRODUCT LABELS

SIEMIC, INC. Accessing global markets

SIEMIC

CCC MARK FACTORY INSPECTION

- Factory
 - Both applications can be filed simultaneously.
 - If there are more that one factories to be certified, the first factory must be certified to get the additional factory certified.
- Initial Factory Inspection (Ten aspects to be inspected)
 - Responsibilities and Resources
 - Documents and Records
 - Purchasing and Receiving Inspection
 - Routine Tests and Verification Tests
 - Inspection and Test Equipment
 - Control of Non-conforming Products
 - Internal Audit
 - Changes to Certified Product
 - Packing, Handling, and Storage
- Annual Follow-up Inspection

CCC MARK: CB SCHEME

- China (as a member of the CB Scheme) accepts a CB Test Report with China deviations.
 - If the CB report does not cover China deviations (and a China deviation is applicable), additional safety testing will be performed in accordance with Chinese standards.
- There are four different CB scheme
 - TMP (Tested at Manufacturer Premises)
 - WMT (Witness Manufacturer Testing)
 - SMT (S Manufacturer Testing)
 - RMT (Recognized Manufacturer Testing)
 - **CQC** only accept the two CB scheme (TMP and WMT).
 - □ The other two schemes (SMT and RMT) are not accepted.

CCC MARK: GB9254-2008

- Highest frequency of a product > 108 MHz
 - Then conducted on the Telecom Port
 - Radiated up to 6 GHz is required
- Is a sample required to update CCC based on new GB standard (GB9254-2008)
 - Two conditions need to be checked
 - Does the product have RJ45 Port?
 - Is the highest clock frequency higher than 108 MHz ?
 - If both conditions are satisfied, then a sample is required for EMC testing based on the new GB9254 standard

CCC: CLASS A vs. CLASS B

- Class Definition
 - Class A : Product for business use
 - Class B : Product for Home use
- The class A product will have the information shown on the CCC certificate

SIEMIC, INC.

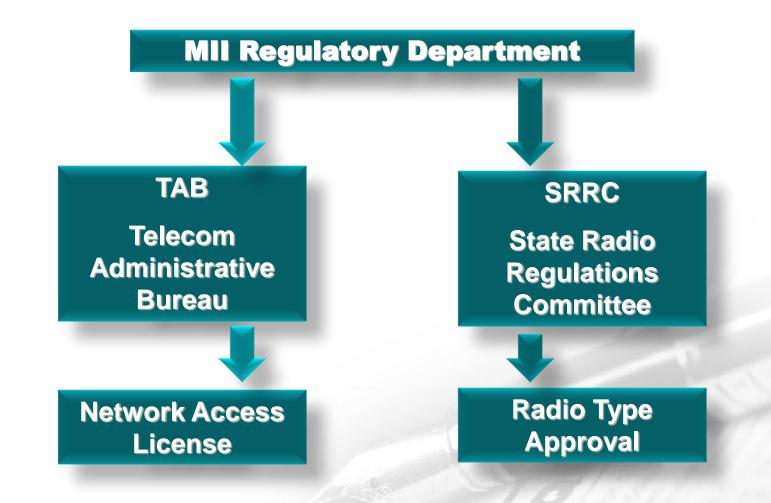

Accessing global markets

 The following Class A warning statement needs to be placed in the user manual

明

此为A级产品,在生活环境中,该产品可能会造成无线电干扰。在这种情况 下,可能需要用户对其干扰采取切实可行的措施。
