

**Rest-of-World
Compliance**

The Roads Less Traveled...

So once you've launched your products into the largest markets

- **North America**
- **European Union**
- **Asia-Pacific economic powerhouses**
 - **China, India, Japan, South Korea, Australia, Taiwan**

...where do you go next?

That's the focus of this presentation...

***Note:** GDP PPP (purchasing power parity) compares the gross domestic product (GDP) or value of all final goods and services produced within a nation in a given year; it's one measure for evaluating possible market countries for your products

Agenda

- 1) Asia-Pacific: The Next 6
- 2) South America: Easy as ABC
- 3) Africa: The Top 4 Markets
- 4) Middle East: The Big 6
- 5) Non-EU Europe: The EEU and others

* All maps and demographic information are courtesy of the US CIA World Factbook online, unless otherwise noted.

www.cia.gov/library/publications/the-world-factbook

Asia-Pacific: The Next 6

- Indonesia
- Malaysia
- Vietnam
- Singapore
- Philippines
- Thailand

After you're already shipping to:

- Australia/NZ
- China
- India
- Japan
- South Korea
- Taiwan

Indonesia

The Telecom/Wireless Authority is the **Directorate General of Resources and Equipment of Post and Information (SDPPI)**

- SDPPI is under the authority of the Ministry of Communication and Information Technology (MCIT)
- This changed from the previous “DGPT” agency in 2011
- SDPPI website is available in English
 - Go to www.postel.go.id
 - Then select “Switch to English”

Indonesia

Indonesia Frequency Management

- Managed by the Directorate General of SDPPI Control, & verified by the **Frequency Spectrum Monitoring Unit**
- Regulates frequencies from 3 KHz to 3 THz (3000 GHz)
- All Information and Communication Technologies (ICT) products within this range are regulated
- SDPPI operates under the legal authority of the Ministry of Communication and Information Technology (MCIT)
 - Download PDF copies of the MCIT Ordinances (laws) here:
 - www.postel.go.id/regulasi-peraturan-menteri-40

Indonesia

SDPPI Labeling Requirements:

- Must be legible
- Must be placed on the product
- May be in black & white (recommended)
- No material restrictions
 - but must be “permanent”, i.e. very difficult to remove

Sample:

XXXX/SDPPI/20YY

- XXXX is the certification number
- 20YY is the year the certification was granted

Note: Grandfathering for product approved under DGPT expired in 2014

Indonesia

Indonesia is an IECEE CB Scheme Member Country

- Accepts IEC 60950 product safety reports, with country-specific deviations
- The CB Scheme allows one product safety report to be utilized for multiple IECEE CB Scheme members countries
- More information on the IECEE CB Scheme can be found on the official IECEE website:
 - www.iecee.org/about/cb-scheme

Malaysia

Malaysian Compliance Organizations

- If you want to sell your wireless or telecom products in Malaysia, you need to get acquainted with their four regulatory organizations:
 - **SIRIM**: Malaysian Wireless/Telecom Authority
 - **MCMC**: Malaysian Communications and Multimedia Commission
 - **DSM**: Department of Standards Malaysia
 - **MTSFB**: Malaysian Technical Standard Forum Berhad

SIRIM is the National Telecom Authority

- And the Malaysian standards development agency
- SIRIM promotes Malaysian technology research and development, and champions quality standards
- SIRIM website: www.sirim.my

SIRIM Labeling Requirements:

- Must be purchased from SIRIM
- Must be placed on the product
- Must be labeled in the factory
 - The factory must be a legitimate registered factory
 - *i.e. not a warehouse*

The Malaysian Communications and Multimedia Commission (MCMC)

- MCMC is responsible for
 - Management of the frequency spectrum
 - Implementing and enforcing communications laws
 - Licensing and auditing to insure compliance to the applicable requirements
 - Overseeing all communications and multimedia activities not otherwise regulated
 - MCMC website: www.mcmc.gov.my

Department of Standards Malaysia (DSM)

- DSM is responsible for
 - Publishing official Malaysian compliance standards
 - Being the source for purchasing official standards
 - DSM website: www.standardsmalaysia.gov.my

Malaysian Technical Standard Forum Berhad (MTSFB)

- Develops, recommends, modifies and updates Technical Codes, Standards and Guidelines
- Obtains standards approval from SIRIM & DSM
 - MTSFB website: mtsfb.org.my

Malaysia

Malaysia is an IECEE CB Scheme Member Country

- Accepts IEC 60950 product safety reports, with country-specific deviations
- The CB Scheme allows one product safety report to be utilized for multiple IECEE CB Scheme members countries
- More information on the IECEE CB Scheme can be found on the official IECEE website:
 - www.iecee.org/about/cb-scheme

Vietnam

Ministry of Information & Communications (MIC) is the Info & Comms Technology (ICT) Authority

- MIC approvals are required for any device that connects to TTE, or that utilizes RF spectrum (e.g. ITE/Wireless)
- The MIC agency has an informative English-language website at english.mic.gov.vn
- Vietnam QVCN publishes standards for EMC & Telecom
 - Covers EMC, EMI, SAR, and Product Safety criteria
 - MIC standards can be found here:
 - <http://english.mic.gov.vn/mra/Pages/TinTuc/131986/Technical-regulations-and-standards-for-MRA.html>

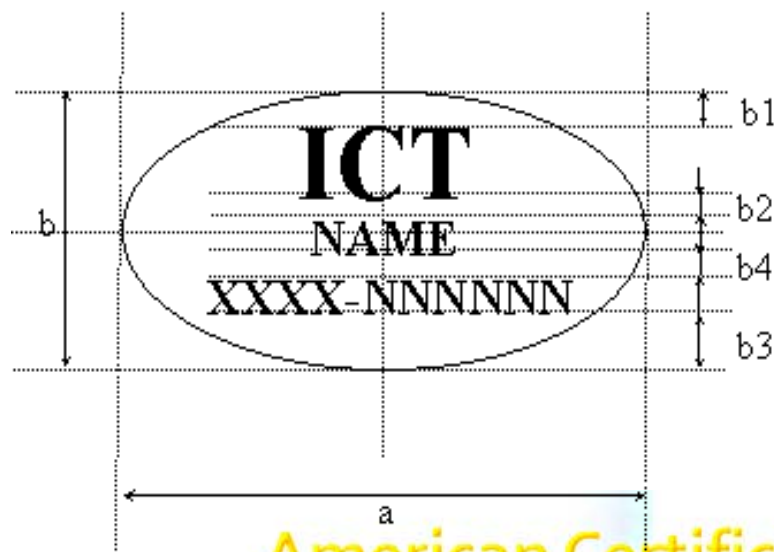

Vietnam

MIC Labeling Requirements:

- Optional (not mandatory)
- May be in black & white
- No material restrictions

Sample:

Vietnam

Vietnam is an IECEE CB Scheme Member Country

- Accepts IEC 60950 product safety reports, with country-specific deviations
- The CB Scheme allows one product safety report to be utilized for multiple IECEE CB Scheme members countries
- More information on the IECEE CB Scheme can be found on the official IECEE website:
 - www.iecee.org/about/cb-scheme

The Infocomm Media Development Authority (IMDA) is Singapore's government telecom agency

- Their scope is defined under legislation, and the specific acts and regulations can be accessed here:

- www.imda.gov.sg/regulations-licensing-and-consultations/acts-and-regulations

- IMDA compliance standards for TTE & Wireless can be downloaded from their website:

- www.imda.gov.sg/regulations-licensing-and-consultations/ict-standards-and-quality-of-service/telecommunication-standards

- Then under the heading “Telecommunications Standards for ” select from the following categories:

- [Line Terminal Equipment Standards](#) for TTE, or
- [Radio-communication Equipment Standards](#)

- IMDA Spectrum reference charts are here:

- [Frequency Allocation and Assignment](#)

Product Label Requirements:

- IMDA requires product labeling to indicate the specific standard covering the product
 - Example:
“Complies with IMDA standard TS SRD”
- This info can be printed in the user guide, if space is not available on the label
- IDA does not require the IDA logo on the product label

Singapore

Singapore is an IECEE CB Scheme Member Country

- Accepts IEC 60950 product safety reports, with country-specific deviations
- The CB Scheme allows one product safety report to be utilized for multiple IECEE CB Scheme members countries
- More information on the IECEE CB Scheme can be found on the official IECEE website:
 - www.iecee.org/about/cb-scheme

Philippines

GDP PPP: 30th in world
Mobile Cellular: 13th
Internet Users: 17th

Your Certification Resource

American Certification Body, Inc.

Philippines

- **The National Telecommunications Commission (NTC)** is the Philippines telecom authority
- The NTC has a website with a wealth of info
 - <http://ntcncr.com/>
- NTC memos and forms can be downloaded:
 - <http://ntcncr.com/index.php/downloadable-forms>
- NTC accepts FCC reports and grants as proof of compliance
- Normal NTC agency processing time is one week, but can be longer at peak periods

Philippines

Labeling Requirements

- NTC requires product labeling to show compliance
 - Must include the NTC logo
 - "Type Accepted" plus certification number for radio/wireless devices
 - "Type Approved" for modems
 - Example:

Thailand

GDP PPP: 21st in world
Mobile Cellular: 16th
Internet Users: 30th

Your Certification Resource

American Certification Body, Inc.

The National Broadcasting and Telecoms Commission (NBTC) is the telecom agency

- NBTC accepts FCC reports and grants as proof of compliance
- NBTC English-language NBTC website is available at: <http://house.nbtc.go.th/wps/portal/Eng>
- NBTC regulatory authority is through Thai legislation, which can be accessed here:
<http://house.nbtc.go.th/wps/portal/Eng/Home/ActsandRegulations/THTelcoActsOfLegis>
- The NBTC Frequency Allocation and Spectrum Utilization Charts can be accessed here:
<http://house.nbtc.go.th/wps/portal/Eng/Home/FrequencyManagements>
- NBTC does not require product labeling

Thailand

- The **Thai Industrial Standards Institute (TISI)** is the safety agency for Thailand
- Specified types of electrical and electronic products are required to be certified to TISI standards
 - An English-language TISI website is available:
 - <http://www.tisi.go.th/?lang=en&id>
 - Downloads of compulsory standards are here:
 - http://app.tisi.go.th/standard/comp_eng.html
- Thailand is a member of the IEEE CB Scheme

Internet Users: 23rd

Your Certification Resource

American Certification Body, Inc.

- **“Ente Nacional de Comunicaciones” (ENACOM)** is the government telecom authority
 - Previous was “CNC”
 - ENACOM website (in Spanish): www.enacom.gob.ar
- ENACOM approvals are mandatory for any device that connects to telephone lines (wired), or that utilize radio frequency spectrum (wireless) for the transmission of information
 - This includes ITE & smart phones, and any other electronic devices with wireless technology
- ENACOM publishes standards (“Normativa”) for regulated product, as Resolutions (in Spanish) on their website:

– www.enacom.gob.ar/normativas

Certification Requirements

- The applicant must be the local importer, and only Argentine importers can homologate the product
- Equipment must be tested under the applicable ENACOM regulations
- Argentina doesn't accept foreign test reports, except FCC or CE test report for GSM technology.
- Product testing must be done at an ENACOM-authorized in-country test laboratories

ENACOM MARKING REQUIREMENTS

The product label must be legible and indelible with the following information:

- Trademark
- Model number
- ENACOM registration number
- Serial number

The certificate is valid for 3 years

LEAD TIME

Overall lead time is 6 to 8 weeks after receipt of samples and all required submittal documents

Instituto Argentino
de Normalización
y Certificación

Argentina

Product Safety Requirements

- According to Resolution 92/1998, electric and electronic products are required to be safety certified, under IRAM or IEC standards
- Resolution 92/98 was published in February 1998 and it establishes the requirements for all electric and electronic products operating up to 1000 AC or 1500 DC, with power consumption rated up to 5 KVA , and installations materials rated up to 63 A
- Resolution 76/2002 indicates which product categories are exempted from the requirements of Resolution 92/98

ANATEL: The National Telecom Authority

- To obtain ANATEL certification, you must use a Brazilian OCD (“Designated Certification Body”) accredited by ANATEL
- Product certification testing must be performed by an INMETRO laboratory that is accredited by SBAC

Brasil (Brazil)

Category I: Terminal equipment intended for use by the general public for purposes of accessing telecommunications service; requires product testing & evaluation of factory quality system

- e.g. AC/DC adapters used with cellphones, cordless phones, wired phones, fax-modem machine, etc.

Category II: Equipment not covered by the definition of Category I products and that make use of the frequency spectrum for the transmission of signals; requires product testing

- e.g. antennas, amplifiers, transceivers, RF devices (Wi-Fi, BT, RFID), etc.

Category III: Equipment not contained in the definitions of Category I and II and that will have interoperability with telecommunication network; requires product testing

- e.g. cables (coaxial, hybrid, fiber optic), multiplexers, data network equipment (switches, hubs, gateways), etc.

Brasil (Brazil)

ANATEL Homologation Certificate

- Issued by ANATEL
- No expiration date
- Issued to the designated local representative

ANATEL REPÚBLICA FEDERATIVA DO BRASIL
AGÊNCIA NACIONAL DE TELECOMUNICAÇÕES

Certificado de Homologação
(Intransferível)
Nº 0005-11-0091
Válida: Indefinida
Criado: 20/02/01

Este documento homologa, nos termos do Regulamento para Certificação e Homologação de Produtos para Telecomunicações, aprovado pela Resolução Anatel nº 242, de 23 de novembro de 2000, o Certificado de Homologação nº 0005-11-0091, emitido pelo OCD - IPRAGE - Instituto Brasileiro de Certificação. Esta homologação é emitida para o fabricante aqui identificado e é válida somente para o produto a seguir discriminado, cuja utilização deve observar as condições técnicas estabelecidas no regulamento e as diretrizes técnicas e de segurança estabelecidas na regulamentação.

Tipo:
Transceptor de Radiação Restrita - Categoria II

Modelo(s):
CBSA100

Serviço/Aplicação:
Radiocomunicação de Radiação Restrita

Características técnicas básicas:

Faixa de Frequências To (MHz)	Potência Máxima (W)	Modulação de Emissões	Tecnologias	Tipo de Modulação
2400.0 a 2483.5	0,010496	FSK/RTD	SALTO EM FREQUÊNCIA	GFSK
2400.0 a 2483.5	0,016331	M/RTD	SALTO EM FREQUÊNCIA	Apl:40QPSK, 8QPSK
2400.0 a 2483.5	0,016331	11M/RTD	SEQUÊNCIA DE FREQUÊNCIA	DPSK, DQPSK, QPSK
2400.0 a 2483.5	0,016331	11M/RTD	SEQUÊNCIA DE FREQUÊNCIA	DSSS, CSMA, CSMA/CA, CSMA/RTD

*Taxa máxima de transmissão: 1M bits/s (11M/RTD) e 11M bits/s (11M/RTD), 11M bits/s (802.11a), 84M bits/s (802.11g).
Banda de SAR não aplicável ao equipamento.

Observações:
Este(s) modelo(s) pode(m) ser comercializado(s) nas seguintes configurações: CBSA100B e CBSA100V.
Na instalação do produto, devem ser observadas as condições de uso contidas estabelecidas no Regulamento sobre Equipamentos de Radiocomunicação de Radiação Restrita.
Constitui obrigação do fabricante do produto no Brasil providenciar a identificação do produto homologado, nos termos do art. 5º do Regulamento anexo à Resolução Anatel nº 242, em todas as unidades comercializadas, antes de sua efetiva distribuição no mercado, assim como observar e manter as características técnicas que fundamentaram a certificação original.
As informações constantes deste certificado de homologação podem ser confirmadas no DGCH - Sistema de Cadastro de Certificação e Homologação, disponível no portal de Anatel, (www.anatel.gov.br).

OCD Technical Certificate

- Issued by OCD
- May have expiration date depending on product
- Typically issued to the manufacturer (owner of design)

EEU/CU

Eurasian Economic Union/Customs Union

Member Countries: Armenia, Belarus, Kazakhstan, Kyrgyzstan, and Russia

Your Certification Resource

American Certification Body, Inc.

Eurasian Economic Union

- Also called the Eurasian Customs Union (ECU)
 - Abbreviated as “Customs Union” or CU
- Started in 2010, with the 3 countries of Belarus, Kazakhstan and Russia
 - Armenia and Kyrgyzstan joined later
- Initiated as a counter/competitor to the EU
 - A Single Economic Market with a population approaching 200 Million
 - Gross Domestic Product of ~ \$3 Trillion USD
 - Covers 15% of the Earth’s Land Mass
 - Website: www.eaeunion.org/?lang=en

Technical Regulations/Customs Union (TR/CU)

- Access of products to the single territory of the Customs Union is granted after products have proved to be compliant with the TR/CU compliance standard requirements that are applicable to the specified product
- More than 50 Customs Union Technical Regulations had been developed covering different types of products
- While EMC and Product Safety criteria is in place for all EEU member countries, wireless/telecom programs are still being developed
- As an example, we first look at Russia's regulatory compliance structure...

CU Member: Russia

- **World's leading oil producer, 8th-largest oil reserves**
- **2nd-largest natural gas producer**
- **GDP PPP is the 7th largest in the world**
- **Mobile phones and Internet users are both ranked at 7th**

Submittals for TR-CU Approvals:

- Must comply with all TR-CU EMC/PS requirements
 - TR-CU Certificate or Declaration is needed for border customs clearance, just like previous GOST certs
- The applicant for certification must be a local company
- Factory audits are mandatory for certification
 - The factory auditors must be TR-CU certified
 - Prior to factory audits, QMS documents samples must be submitted, e.g. audit reports, list of procedures, questionnaires
- TR-CU Product Categories:
 - Information Technology (ITE), Audio/Video, Household Appliances, TTE, Scientific Instrument/Masurement Equipment, Medical Equipment

Hygienic Certification

Hygienic Certification

- This is also called the Sanitary-Epidemiological Conclusion Certificate
- The hygienic certificate confirms conformity of products and services to the sanitary norms and strict observance of the established rules in the process of manufacture, storage, transportation and the sale of products and services.

CU Member: Russia

Hygienic Certification

Some Product Categories (there are many more)

- **Products that produce noise / vibration**
 - Copy Machines
 - Printers
- **Products emitting X-radiation**
 - Video Monitors
 - Television Receivers
- **Products emitting microwave radiation**
 - Cellular Phones
 - Wireless Telephones
 - Computer Components
 - Laptop Computers

CU Member: Russia

Hygienic Certification

- Issued only by the Russian Federal Service for Supervision in the Area of Consumer Rights and Welfare Protection or Rospotrebnadzor
- Two independent organizations, both part of Rospotrebnadzor, are involved in hygienic certification
 - **Center of Hygienic and Epidemiology**
 - Test protocol analysis and other documentation
 - **Territorial Office of Rospotrebnadzor**
 - Issues final certificate based on expert conclusions drawn by Center of Hygiene and Epidemiology, provided that the product conforms to the Russian Hygienic Standard.

Valid for One year

TR-CU Developments

TR-CU Hygienic Program is expected soon someday (and a TR-CU R&TTE program)

- The Customs Union began preparing a new Single Sanitary Certification program in 2010
 - “CU Sanitary Expert Conclusion”
- Originally set implementation date of 1/1/2012, but has been delayed repeatedly
- New Implementation date is unknown
- Watch for new information and developments

CU Member: Russia

Svyaz Certificate

- Applies to Telecommunications Equipment, wired & wireless
- All technical methods of integrated communications networks are subject to mandatory certification
 - Article 16 of the Russian Federation Law "On Communications"
- Radio equipment sellers must obtain an additional permit from GKRCh to use the radio spectrum and specific equipment on a specific frequency band in a specific area of Russia prior to the certification process.
 - Gossvyaznadzor : The Russian Federation State Telecommunications Control
 - GKRCh : Gossvyaznadzor of the State Commission on Radio Frequencies

Non-EU European Countries that accept CE

- Some formally accept the CE mark
 - e.g. Turkey
- Other non-EU countries “informally” accept the CE mark
 - e.g. Serbia
- Or may accept CE test reports as proof of compliance, but still require agency submittals
 - e.g. Ukraine

GDP PPP is 18th in world
Mobile phones at 21st
Internet users at 19th

Turkey

A non-EU European country that formally accepts CE mark and reports as proof of compliance

- Has a formal Mutual Recognition Agreement (MRA) in place with the EU
- Accepts all CE reports and declarations
- Is an EU Member Candidate Country

5/9/2017

Turkey

- National Telecom Agency:
 - Information & Communication Technologies Authority (ICTA)
 - Regulates Frequency Spectrum & Information Technologies
 - English-language website:
<http://eng.btk.gov.tr>

Bosnia & Herzegovina

A non-EU European country that “informally” accepts CE reports, DOCs, and marks as proof of compliance for importation

- Bosnia and Herzegovina's top economic priority is the acceleration of integration into the EU
 - But they are not an official EU candidate country
 - i.e. no MRA

GDP PPP is 113th in world
Mobile phones at 129th
Internet users at 89th

Bosnia & Herzegovina

Bosnia & Herzegovina (cont.)

UkrTEST

Ukrainian testing scientific-technical institute
of electrical equipment

- Ukraine has their own unique product compliance scheme, but in most cases they will accept CE reports as proof of compliance
- Ukraine test and certification organizations:
 - “Ukrainian Scientific and Technical Institute for Certification and Testing of Electrical Equipment” = UkrTest
 - UkrTest is under the authority of the “State Enterprise All-Ukrainian State Research and Production Center for Standardization, Metrology, Certification and Consumers Rights Protection” = SE UkrMetrTestStandart

- UkrTEST (cont.)
 - Compliance testing and certification:
 - EMC
 - Product Safety
 - Wireless/Telecom
 - Energy Efficiency
 - English-language website:
www.ukrtest.kiev.ua/en/45

Ukraine

- **National Telecom Authority: UCRF**
 - **Ukraine State Center of Radio Frequencies**
 - English-language website:
www.ucrf.gov.ua/en/

Conclusions and Recommendations

Make sure your selected market countries make sense

- Perform cost/benefit analysis (pros/cons)

Join industry affinity groups to learn about new & updated regulatory requirements

- TCBC; IEEE Societies such as the EMC Society & the Product Safety Engineering Society

Linked In groups; e.g. IoT International Compliance

Industry publications

In Compliance: www.incompliancemag.com

Interference Technology: www.interferencetechnology.com

Evaluation Engineering (EE): www.evaluationengineering.com

Building your own knowledgeable & experienced compliance network is important to be successful
