

**IEEE Power Engineering Society
Switchgear Committee
C37.24 WG Report
May 22, 2001, Charleston, SC
Guide for Evaluating the Effect of Solar Radiation on Outdoor
Metal-Enclosed Switchgear**

The working group met on May 22 with 4 members and 5 guests.

Draft 3 had previously been submitted to to the Switchgear Assemblies Subcommittee for their comments in Sept. 2000, and appropriate changes have been reflected.

Draft 4 was reviewed during this meeting. All of the comments were editorial and will be incorporated into Draft 5.

Draft 5 will be completed by 6-15-2001 and submitted to IEEE-SA for balloting to IEEE and ASC C37. Motion 1A had already been approved at the Fall 2000 meeting in Tucson.
