

IEEE Power Engineering Society  
Switchgear Committee  
ADSCOM WG to revise C37.59-2002  
PC37.59 Working Group Report  
10-May-2005

A meeting was held of subject W/G on May 10 with 14 members and 17 guests attending.

All comments received from the working group on C37.59D2 were reviewed and a posture was established for C37.59D3.

These will be separately published to the W/G along with C37.59D3, both in draft form by June 1st.

The W/G is requested to sent any comments to the Chair of the W/G by June 15 with the objective of requesting the formation of a balloting pool by July 1st.

Our intent is to have the results of the ballot to discuss at the next W/G meeting in Montreal this Fall.

The Chair of ADSCOM is to request approval from switchgear for the ballot.

Respectfully submitted  
Pete Dwyer – Chair W/G to revise C37.59-2002
