

IEEE Joint Transformer/Switchgear Working Group TF – C57.142, A Guide to Describe  
the Occurrence and Mitigation of Switching Transients Induced by Transformer,  
Switching Device and System Interaction  
21 May 08

Attendees: 1 member and 12 guests

The document has been revised, and it is expected that it will be balloted this  
summer.

Respectively submitted,

A handwritten signature in black ink, appearing to read "Stephen A. Lauter". The signature is written in a cursive style with a long horizontal flourish at the end.
