

Report to IEEE SWC, S/C: ADSCOM

WG PC37.301, Calgary, AL, 15 October 2008

1. Meeting

Meeting was from 10h15 to 10h45; 4 members and 21 guests participate.

Patent slides have been shown. No patent issues have been raised.

2. Project status

The draft has been successfully re-circulated. 98% of voters voted affirmative. 1 individual kept his negative.

3. Discussions

3 out of the 4 initial negative voters changed their vote for affirmative. One voter kept his negative although all his comments have been considered and included in the recirculated draft. This individual has been advised by email, before the recirculation, of the changes made to the draft to cover his comment. He never respond to the email and did not change his negative.

The WG agree that all comments received due consideration and proper changes have been made to the document.

4. Course of action

- Submit the recirculated draft (draft D5, dated September 2008) to REVCOM for approval.
