

HVS Scope as Approved by Main Switchgear Committee

October 1, 2009
Denver, CO

3.1.2 High Voltage Switches Subcommittee (HVS)

- a. Treatment of all matters relating to indoor and outdoor switches and interrupters rated above 1000 V ac and 3200 V dc except for the following devices:
 1. Distribution cutouts.
 2. Switches used in metal-enclosed and pad-mounted switchgear.
 3. Separable insulated connectors.
 4. Circuit-breakers, circuit-switchers, sectionalizers and reclosers.
 5. Gas insulated switchgear.
 6. Capacitor switches.
 7. Switches rated 38 kV ac and below used on distribution systems except air insulated overhead applications.
 8. Fuses equipped with integral switches.

Alexander Dixon
Chair HVS
