

MINUTES FOR INTERRUPTER SWITCH TASK FORCE

Myrtle Beach, SC
April 26, 2010

Spring meeting called to order.

Minutes of the Fall 09 Denver meeting were displayed and approved.

The group did introductions and meeting roster distributed.

Patent Disclosure Slides were displayed and reviewed.

Meeting resumed the discussion of Scope and Purpose:

- The Scope- Discussion of whether to include both Air Break C37.30 interrupter switches and IEEE1247 interrupter switches in same document or split. Switch Loadability, temperature rise limits, Pro's and con's discussed. No decision or recommendations or motions were made.
- Discussed the inclusion of Whips in the Scope. Support for inclusion seemed was favorable for consideration. Again no action taken.
- Task Force discussed limiting the purpose and scope to Air Break Switches designed per C37.30.1. with some wording/phrases put forward:

The suggested wording for considerations for future reference only:
Switches equipped with switching aids, whips and interrupting devices.
Switches equipped with interrupting aids
Exclude interrupter switches not having air as insulating medium.
Air Break switches with interrupting aids etc.

The agenda for the Fall meeting in Las Vegas is to include a outline for review of the items lost in C37.30.1 that are not included in IEEE1247 to be prepared by T.F. Chairman.

Meeting adjourned.

Dan Konkle T.F. Chairman
