

MINUTES FOR Wind Loading Working Group

St Pete Beach, FL
April 30, 2012

The Agenda to the meeting was presented.

The WG approved the minutes from the previous meeting in Nashville, TN from October 10, 2011.

Changes suggested by Pete Kowalik were reviewed.

The Style Manual requirements were reviewed by Gary Haynes.

Going forward the committee agreed to complete the definitions, bibliography, and submit the document for editorial review, and form a ballot pool no later than August 31. This will get the WG to the point that a 2 year PAR extension can be requested at the fall 2012 meeting in San Diego. The PAR extension will also need to include a title change similar to the change that 37.30.1 made in its final editorial review.

The current Draft 3 of C37.30.2 will be sent along with the minutes.
