

Minutes

Switch Wind Loading WG

San Antonio, TX

September 16 & 18, 2013

- Approved Minutes from Galveston meeting
- The comments received from MEC were reviewed. Verb usage was reviewed in detail and updates to the document were made.
- Use of the terms force and load were reviewed and updates made to the document as needed.
- Document section heading formats were corrected.
- Equation subscripts were changed to italics.
- Removed equation 7 from revision 6.
- Equation 8 requires an introduction. This resolved itself when equation 7 removed.
- Bill Hurst to add force vector to appendix figures.
- The ballot pool formation request was submitted
- A 2 year Par Extension request was submitted.
- Additional time was used the morning of 9/18 in which additional errors were corrected and improvements were made. The latest document is now rev 8.
