

# STLNA Liaison Report to the IEEE PES Switchgear Committee

Spring 2024: April 2. Fort Lauderdale, FL

---

**Chair:** Victor Savulyak **Secretary** Frank DeCesaro

## Meeting Highlights

1. The STLNA met on Tuesday, April 2, 2024. There were (12) in attendance. Five out of seven member labs were represented.
2. NEMA dropped support of STLNA and now STLNA is fully independent of NEMA. STLNA incorporated as STLNA, Inc.
3. Participation and attendance of all STLNA members were discussed.
4. **Technical Discussions:**
  - a. STL reference shunt project restarted. Each laboratory member shall schedule it independently to check their own instrumentation.
  - b. STLNA will participate in STL Measurement Uncertainties report
  - c. There have been varying differences between essentially sinusoidal and effectively sinusoidal. STLNA had a discussion on essentially sinusoidal. Those recommendations will be delivered to the related standard Chairs.
