# SA Solution Update

1. Solution Issues

   - 802.3 access to Grouper sftp - tested by Solutions Team

   - 802.15 IMAT meeting calculation problem when Rick changed meeting which modified the %

2. Status of application development

   - **Public Review (PR) :**
     - Rolled out July 6, 2015
     - https://publicreview.standards.ieee.org
     - Webinar Training Link: https://supportcenter.ieee.org/app/answers/detail/a_id/1264

   - **myProject Suite Redesign :**
     - Planning to attend Nov. 2015 Plenary for user feedback
     - Still on target for planned rollout in mid-2016

3. SA Solutions Group Support

   - An SA Solutions representative is not attending this week.  Remote support is available, and a representative can participate remotely if required in meetings this week.
     Please arrange through Soo Kim s.h.kim@ieee.org

   - Regular meetings to continue with Jon Rosdahl as primary contact with SA Solutions Team.
     Please continue to provide feedback through Jon.

# Future Event

- Nov. Plenary myProject Suite user feedback session:

- myProject redesign effort is well underway and the IEEE-SA Team would like the IEEE802 officers/leaders to get a glimpse into the new system and provide feedback to help us improve the user experience. Please take a few minutes to review our session times when you plan your November 2015 Plenary so you can spend some time with this important effort.
  - There will be 3 sessions held at lunch time (lunch will be provided)
    - 12:00 – 1:00 Tues (structured demo for 802 Wired)
    - 12:30-1:30 Wed (structured demo for 802 Wireless)
    - 12:00-1:30 Thurs (structured demo and open Q&A session)
  - Signup is required.
    - WG Officers will receive invite (coming in Oct.)
    - One session per person
    - Seating is limited and on first come first serve basis
