Recommendations

- The live orientation program should be repeated, in a similar time slot and duration, , before future electronic Plenary Sessions.
- Advance promotional efforts should be strengthened, including reaching out to those not yet subscribed to reflectors
  - e.g. twitter (tweet earlier?); LinkedIn
- A recording, with the slides and audio, should be made available on the web site.
  - The programs have not been recorded due to objections raised during prior EC meetings.
  - The embedded audio partially resolves the issue and is easier to maintain, since slides can be updated without replacing all the audio.
