Subject: Liaison to ITU-T SG15 on coordination between the IEEE P802.3cs Task Force and Q2/SG15 project G.9807.3, Wavelength multiplexed point-to-multipoint 10-Gigabit-capable passive optical network

Approval: Agreed to at IEEE 802.3 plenary teleconference meeting, 18th March 2021

Dear Mr Effenberger,

Given the similar objectives between the IEEE P802.3cs Increased-reach Ethernet optical subscriber access (Super-PON) Task Force and the ITU-T Q2/SG15 project G.9807.3, Wavelength multiplexed point-to-multipoint 10-Gigabit-capable passive optical network, we attach IEEE P802.3cs draft D2.0. It would be most appreciated if you could review the draft and have any interested party in Q2/SG15 submit comments by 30th April 2021.

For future communications, please note that the IEEE P802.3cs task force is currently meeting through teleconferences. Teleconferences are announced in the IEEE P802.3cs reflector and listed

on the IEEE P802.3cs web page <<http://www.ieee802.org/3/cs/index.html>>. The IEEE P802.3cs reflector subscription information can be found at <http://www.ieee802.org/3/cs/reflector.html>.

We appreciate your review and look forward to continued coordination on this development.

Sincerely, David Law
Chair, IEEE 802.3 Ethernet Working Group
