Workshop details

- Workshop to be held Saturday after July Plenary
- Workshop organizers: George Zimmerman & Ben Rolfe
- Proposed workshop subjects cover:
 - Interrelationships of 802 groups (i.e., architecture, facilitating technical interaction, and organization)
 - Procedural issues for 802 meetings in the future (i.e., how to mix virtual, hybrid, and face-to-face meetings)
- Output will be a workshop report with key findings and action recommendations
- Note these subjects are not final, input is both desired and solicited

Objectives

- Improve 802 process
 - Maintain 802 quality
 - Maintain 802 relevance
 - Revision of CSD and process guidance refinement
- Anticipate future needs and inevitable changes
 - Organizational
 - Meeting format
 - Project management
- Attract new participants and new projects
- Identify problems to be worked
 - Known near term challenges
 - Role of virtual meetings
 - Frequency of in-person

Morning topics: 802 as a whole

- 802 Architecture and Technical Coherence
 - A high-level look at the markets 802 serves and the big picture of how things fit together (wired, wireless, mobile, telecom, LAN, MAN, intrasystem ...)
 - Issues and actions that have need to drive the relationship between working groups in the Standards Committee
- Future Organization of the 802 SC
 - Looking at how 802 working groups interact, how we can improve our processes, reduce overhead and what the costs and benefits are from being in one standards committee
- Improving technical exposure & collaboration
 - How to promote cross-working group thinking - including impact of one standard on another, recognition of similar problems, collaborative projects, and informing each other of what we are doing

Mid-Day & Afternoon

- Mid-Day: Check-in and feedback –
 - An opportunity for more free-form discussion of what went right, what not-so-right, and top-of-mind realizations from our FIRST hybrid meeting week
- Afternoon:
 - Discussion of possible future meeting structures for 802 plenaries
 - Discussion of timeframe and steps to take (e.g., things to experiment with) to evolve our model
 - Wrap up – outlining points of agreement, points that need more work, points of action, owners and next steps
